

Master Structure and Open Process

01 MASTER NARRATIVE

Jingzhang Open House: Turn Every Visit into a Contribution

ONE OPEN PROCESS

- ARRIVE
- ASSEMBLE
- CO-TEST
- RECEIPT
- ADOPT / EXIT

SPATIAL SKELETON

- 1 open public corridor
- 3 urban rooms
- 2 service wings
- 12 open ports

Not a closed AI park: technology, scenarios, residents, capital, rules and accountable people meet at one city mission table.

Land Use, Renewal and Three Key Areas

02 LAND USE AND PROGRAM

Seven District Bands, One Innovation-to-Adoption Chain

FOUR OPEN LAYERS

OPEN ACCESS / low-friction entry

OPEN ROOMS / spatial collaboration

MISSION TABLE / accountable assembly

OPEN RECEIPT / public value record

Competition concept | Provisional rough boundary; not a statutory redline | 2026-08-10

JINGZHANG OPEN HOUSE

03 THREE KEY AREAS

Three Urban Rooms Remove Three Different Innovation Bottlenecks

01

DAZHONGSI | CITY ADOPTION ROOM

- Global launch and experience
- Smart-native commerce
- Visible public return

02

AI ORIGIN | CO-CREATION ROOM

- University transfer
- Resident-talent co-creation
- Open-source commons

03

ZHONGZHIYUAN | AUTONOMOUS R&D ROOM

- Full-stack autonomy
- Data and safety review
- Standards and global links

Competition concept | Provisional rough boundary; not a statutory redline | 2026-08-10

JINGZHANG OPEN HOUSE

Prototype footprints and land-use bands are conceptual references, not statutory controls.

04 MOBILITY AND BLUE-GREEN SYSTEM

Turn a Commuting Corridor into All-day Civic Innovation Infrastructure

ONE CORRIDOR, FOUR SPEEDS

- WALK**
5 km/h
- CYCLE**
15 km/h
- SHUTTLE**
20 km/h
- MISSION**
LIVE

PUBLIC-FIRST RULES

- 01 Continuous accessibility
- 02 Shade and stormwater first
- 03 Opt-out from test periods
- 04 Public operating receipts

Routes, speeds and facility sizes are conceptual and require transport, utility, rail and accessibility review.

Public passage, accessibility, shade and stormwater come before digital layers.

AI Scenarios, Implementation, Metrics and Compliance

05 METRICS AND EVIDENCE

Every Innovation Project Must Leave a Public-value Receipt

11.41 km²

Provisional work area

3

Key urban rooms

12

Open scenario ports

3

Delivery phases

MISSION RECEIPT: FROM TECH METRICS TO PUBLIC OUTCOMES

WHO BENEFITS	Residents, visitors and service workers receive a measurable improvement
WHO OWNS IT	Every test has a traceable accountable human
HOW TO EXIT	Pause, withdraw and restore when risks emerge
WHAT REMAINS	Open standards, reusable components, public space or service capacity

EVIDENCE LADDER

L0 Brief and standards

L1 Recomputable geometry

L2 Operating prototypes

L3 Public receipt and audit

L4 Transferable open knowledge

FAR / height / demolition: pending official data

12 OPEN PORTS

- 01

Arrival Exchange
- 02

AI City Gallery
- 03

Smart-native Market
- 04

Resident Co-design Desk
- 05

Family Learning Yard
- 06

AI Origin Salon
- 07

Open-source Foundry
- 08

Cross-border IP Clinic
- 09

Standards and Safety Lab
- 10

Compute and Data Match Desk
- 11

Forest Mobility Lab
- 12

Global Release Hall

Every mission answers: who benefits, who owns it, how to exit, and what remains.
