Three Key Areas — Detailed Design Evidence

PROVISIONAL: overall and key-area geometry is rough and not an official redline, statutory plan, or approval basis

Zhongzhiyuan

≈ 193 ha · provisional / low confidence

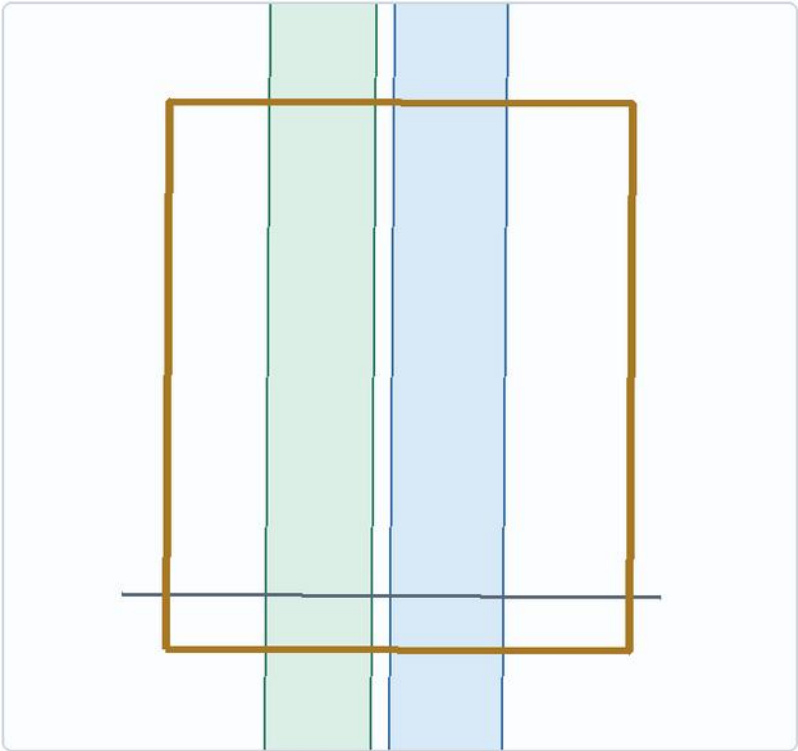

DESIGN ACTION

Open R&D Garden: shared test courtyards — Qinghe civic waterfront — walking R&D loop

Professional prerequisites: official redlines, statutory controls, ownership, rail, utilities, fire, flood and heritage conditions require confirmation

AI Origin

≈ 104 ha · provisional / low confidence

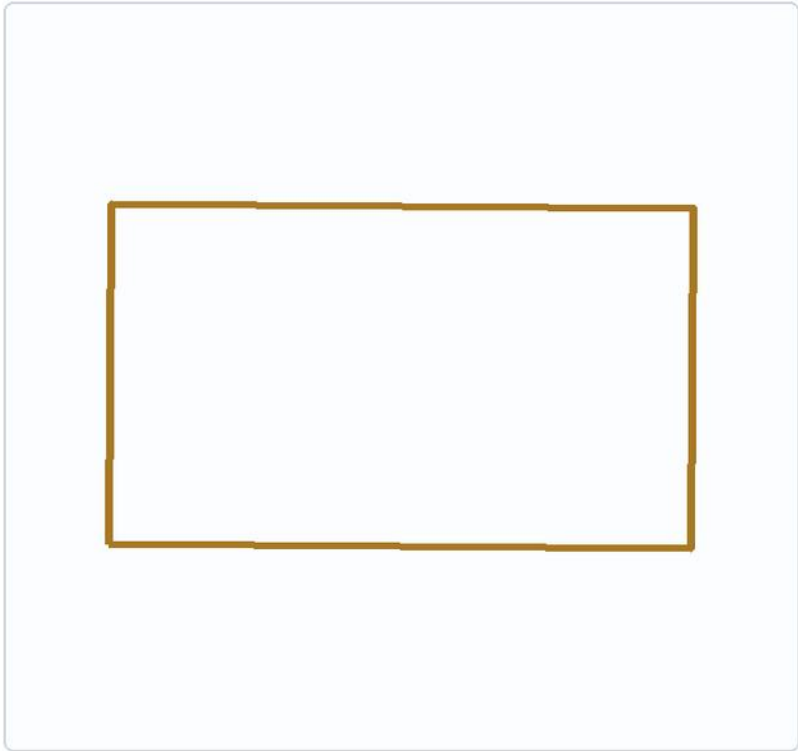

DESIGN ACTION

Campus-to-Street Seam: 5–10 min walking continuity + open source / IP-legal / talent services

Professional prerequisites: official redlines, statutory controls, ownership, rail, utilities, fire, flood and heritage conditions require confirmation

Dazhongsi

≈ 72 ha · provisional / low confidence

DESIGN ACTION

Four-Quadrant Exchange Hall: walking continuity + roadshows / devices / data-compliance services

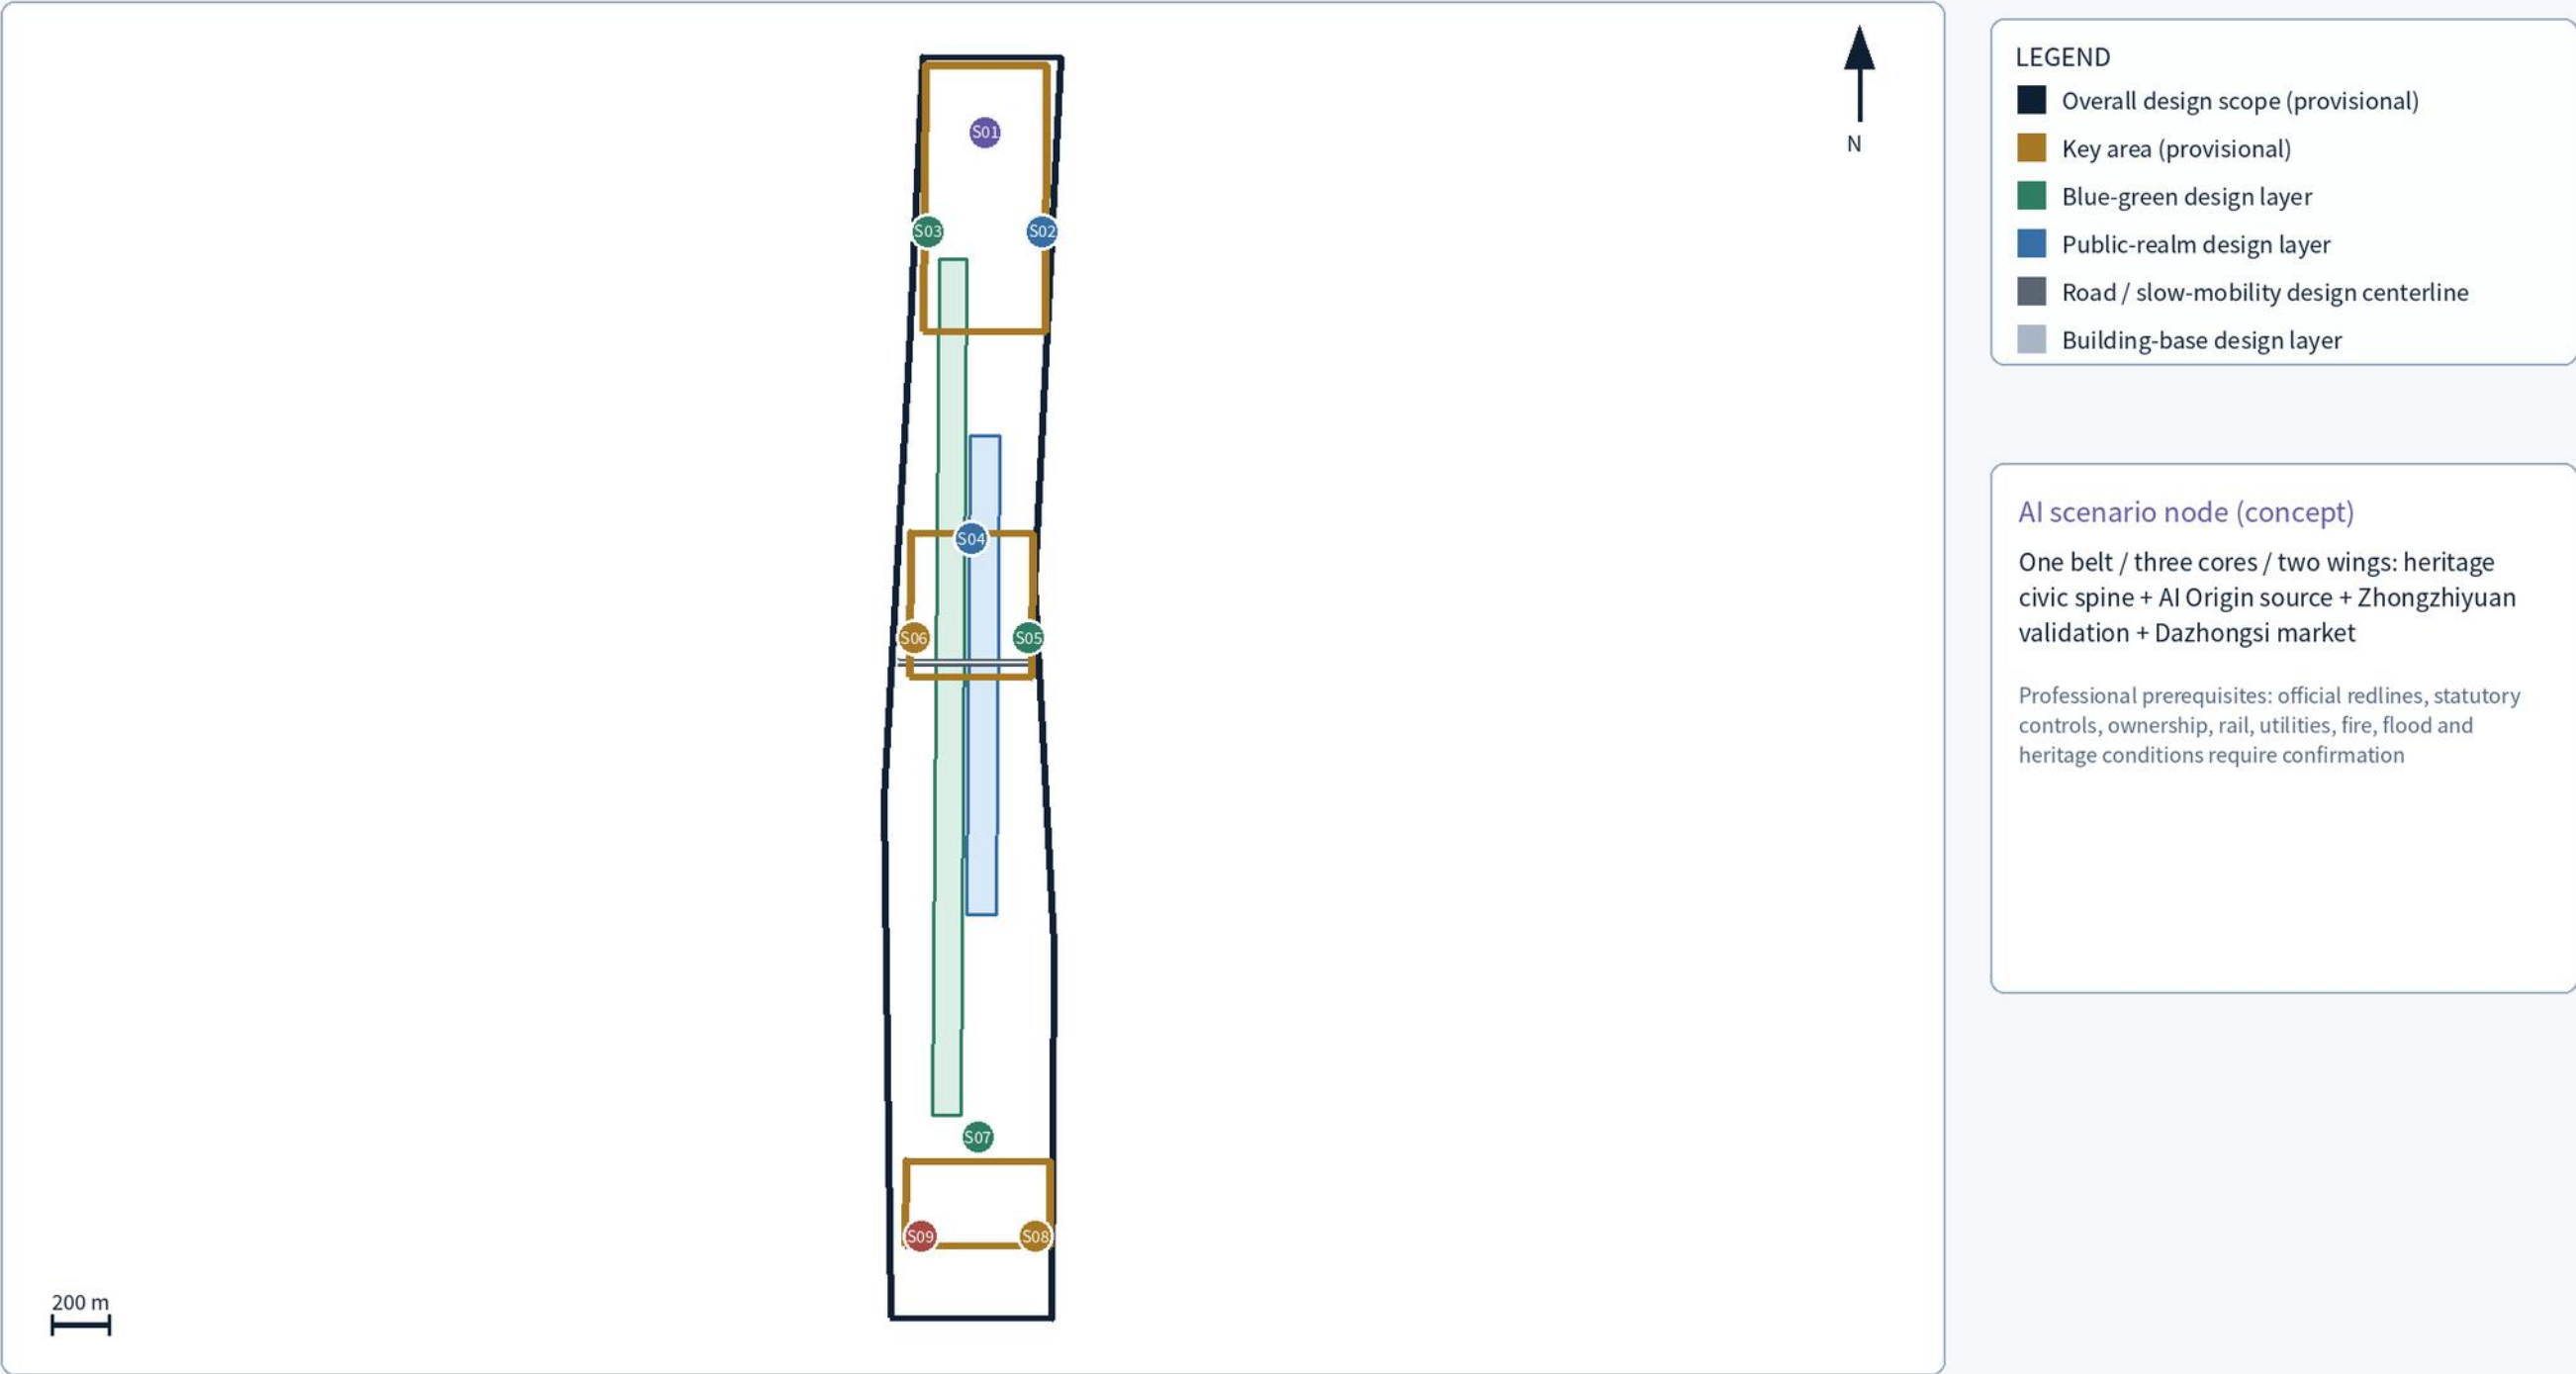

Professional prerequisites: official redlines, statutory controls, ownership, rail, utilities, fire, flood and heritage conditions require confirmation

PROVISIONAL: overall and key-area geometry is rough and not an official redline, statutory plan, or approval basis

Centennial Jing-Zhang AI Nexus Belt

Mobility · Slow Network · Blue-Green Public Realm

PROVISIONAL: overall and key-area geometry is rough and not an official redline, statutory plan, or approval basis

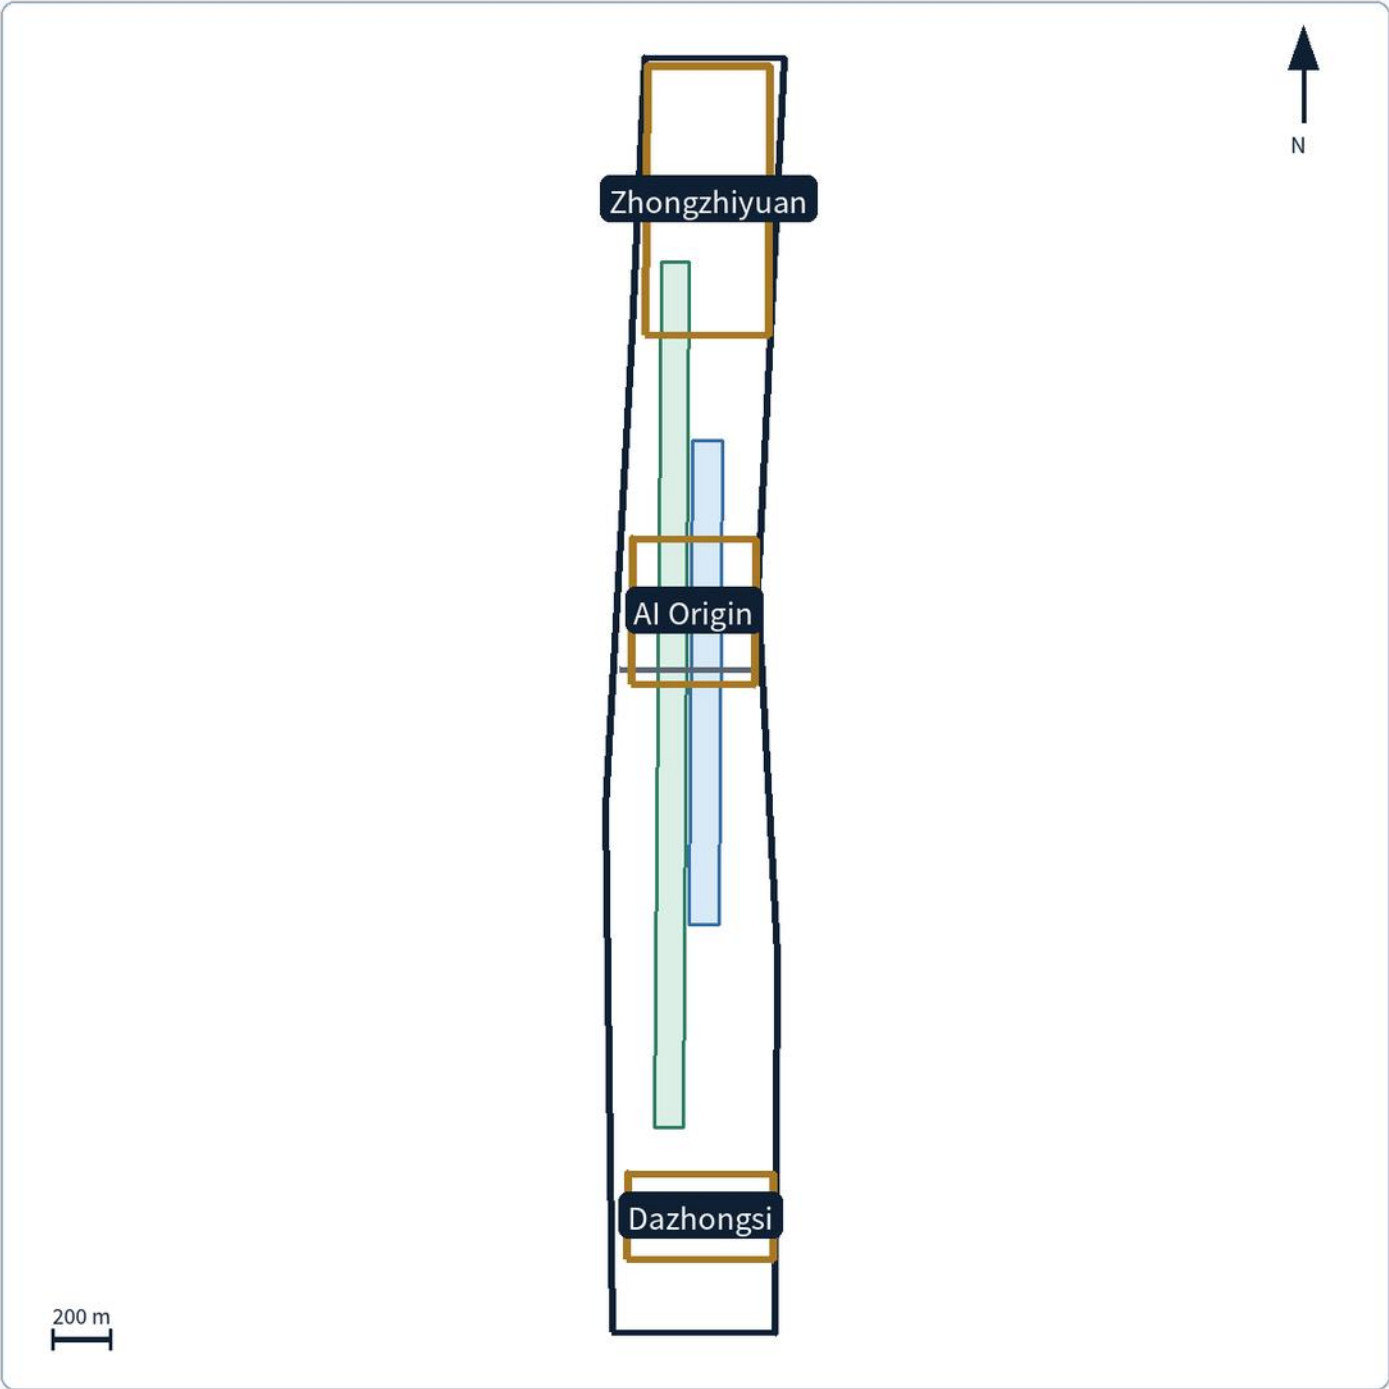

PROVISIONAL: overall and key-area geometry is rough and not an official redline, statutory plan, or approval basis

Metrics · Sources · Assumptions Audit

PROVISIONAL: overall and key-area geometry is rough and not an official redline, statutory plan, or approval basis

site_area_sqm ≈ 11.41 km² known · low confidence Formula: polygon_area(submitted_site_boundary_reprojected_to_EPSG_4548) Source: geometry/site_boundary.geojson	green_ratio ≈ 12.34% known · low confidence Formula: green_space_area_sqm / site_area_sqm Source: geometry/green_space.geojson, geometry/site_boundary.geojson
public_space_ratio ≈ 7.33% known · low confidence Formula: public_space_area_sqm / site_area_sqm Source: geometry/public_space.geojson, geometry/site_boundary.geojson	zhongzhiyuan_area_sqm_provisional ≈ 193 ha known · low confidence Formula: polygon_area(PROV-KEY-001_reprojected_to_EPSG_4548) Source: geometry/key_areas.geojson
ai_origin_area_sqm_provisional ≈ 104 ha known · low confidence Formula: polygon_area(PROV-KEY-002_reprojected_to_EPSG_4548) Source: geometry/key_areas.geojson	dazhongsi_area_sqm_provisional ≈ 72 ha known · low confidence Formula: polygon_area(PROV-KEY-003_reprojected_to_EPSG_4548) Source: geometry/key_areas.geojson
low confidence / recalculate after official geometry. Professional prerequisites: official redlines, statutory controls, ownership, rail, utilities, fire, flood and heritage conditions require confirmation	

PROVISIONAL: overall and key-area geometry is rough and not an official redline, statutory plan, or approval basis

JZ-01 / JZ-02

Open R&D Garden: shared test courtyards — Qinghe civic waterfront — walking R&D loop

JZ-03 / JZ-04

Campus-to-Street Seam: 5–10 min walking continuity + open source / IP-legal / talent services

JZ-05 / JZ-06

Four-Quadrant Exchange Hall: walking continuity + roadshows / devices / data-compliance services

Q1 Open Source Spring → Q2 Civic AI Test Month → Q3 Jing-Zhang AI Week → Q4 Responsible AI Review. Scenario opening: application → risk grading → prototype → human acceptance → limited opening → review/exit.

Professional prerequisites: official redlines, statutory controls, ownership, rail, utilities, fire, flood and heritage conditions require confirmation
