

# JING-ZHANG BREAKS NEW GROUND

FROM INDEPENDENT ENGINEERING, THROUGH OPEN CO-CREATION, TO TRUSTED FIRST USE

One co-creation process underway with public records; one urban practice still awaiting external evidence

V0.13 TWO-LEVEL TEST EDITION · PR SUBMISSION EDITION · LIVE INTAKE STATUS IN PR · PROVISIONAL GEOMETRY · URBAN EXTERNAL EVIDENCE 0 / 5

# Overall Spatial Structure

Three Areas, Two Wings, the Jing-Zhang Commons Spine, five flagships and a six-role feedback network

# TWO-LEVEL TEST | CO-CREATION UNDERWAY, URBAN PRACTICE AWAITING EVIDENCE

One co-creation process underway with public records; one urban practice still awaiting external evidence

## METHOD LAYER | PUBLIC CO-CREATION PROCESS RECORD

V0.12 INTAKE RECORD ≠ V0.13 INTAKE OUTCOME; LIVE STATUS IS RECORDED IN THIS PR

SHARED FLOOR | FINAL JUDGMENT RESERVED FOR PEOPLE · OUTCOME UNOBSERVED · PUBLIC INTEREST · LAWFUL PROCESS

## URBAN LAYER | TRUSTED AI ENTERING REAL SERVICE

ALL SIX CAPABILITIES REMAIN CONCEPT\_ONLY; H0-H4 EXTERNAL VERIFICATION = 0 / 5

KNOWN: public task, Agent authorship, provenance/assumptions, machine checks and V0.12 predecessor PR #4007 intake. Current V0.13 is this PR submission edition and its intake status must be read from the live PR record; formal judgment, adoption, site, parties, budget, sign-off, authorization, delivery and public benefit remain unobserved.

PROPOSED CO-CREATION ARCHIVE, VOLUME 0 | First materials may retain public versions, corrections, failures, dissent, withdrawals and non-adoption reasons; process history, not an honour wall

# Three Areas, Landmarks and Components

CONCEPT PROPOSAL - NOT A NATIONAL PILOT DESIGNATION - NOT GOVERNMENT ENDORSEMENT - NOT AN APPROVED PLAN - NOT A DELIVERED OUTCOME - PROVISIONAL GEOMETRY AND TEST DIMENSIONS

## ZHONGZHIYUAN

INTEGRATE + PROVE

LM02 · Civic AI Test Yard

Public observation, safety boundaries, staffed control, physical emergency stop and visible energy support the contract.

## AI ORIGIN

FP01 / S07 + S03 + S04

LM01 · Protocol Station Zero

S07 is the only user-facing service; S03 evaluates independently; S04 provides interface/API support only.

## DAZHONGSI

DEPLOY + SCALE

LM03 · Jing-Zhang Commons Ledger

Small merchants and creators stay frontstage; staffed service, dispute review and contribution records remain continuous.

## M01—M06 / REVERSIBLE PUBLIC-SPACE COMPONENTS

M01 Choice Gate · M02 Provenance Panel · M03 Staffed Desk · M04 Receipt Dock · M05 Emergency-Stop Interface · M06 Contribution Rail

# Land Use and Public Realm

Seven concept land-use codes and six coupled roles

## ADAPTABLE BASE | SEVEN CONCEPT LAND-USE CODES SUPPORT SIX COUPLED ROLES

02

Twelve shared-boundary faces; code 09 is commercial service, not legacy 05; coverage, gaps and overlaps are recomputed from current evidence

### CONCEPT FUNCTIONAL LAND-USE BASE

#### SEVEN CODES

- 09  
Commercial service + industry
- 0702  
Community + talent support
- 0802  
R&D + standards + safety
- 0803  
Cultural display
- 0804  
Education + research
- 1401  
Park green space
- 1403  
Square + open space

12 faces  
09 current code

All faces are conceptual functions within a provisional rough extent—not existing or statutory land use, parcels, road redlines, development controls or approval.

### SEVEN-CODE COMPOSITION | AREA FROM METRICS.JSON

|                                  |                  |
|----------------------------------|------------------|
| 09 Commercial service + industry | 4.25 km² · 37.2% |
| 0702 Community + talent support  | 1.13 km² · 9.9%  |
| 0802 R&D + standards + safety    | 1.01 km² · 8.8%  |
| 0803 Cultural display            | 0.87 km² · 7.6%  |
| 0804 Education + research        | 0.89 km² · 7.8%  |
| 1401 Park green space            | 2.56 km² · 22.5% |
| 1403 Square + open space         | 0.71 km² · 6.3%  |

### ROLE AFFINITY | SOLID = PRIMARY, RING = SUPPORTING

|                                  | SOURCE | STACK | PROVE | LIVE & MARKET | ENABLE | COMMONS |
|----------------------------------|--------|-------|-------|---------------|--------|---------|
| 09 Commercial service + industry | ●      | ●     | ○     | ●             | ○      | ●       |
| 0702 Community + talent support  | ●      | ●     | ○     | ●             | ●      | ●       |
| 0802 R&D + standards + safety    | ●      | ●     | ●     | ●             | ○      | ○       |
| 0803 Cultural display            | ●      | ●     | ●     | ●             | ●      | ○       |
| 0804 Education + research        | ●      | ●     | ●     | ●             | ○      | ●       |
| 1401 Park green space            | ●      | ●     | ●     | ●             | ●      | ○       |
| 1403 Square + open space         | ●      | ●     | ●     | ●             | ●      | ○       |

#### TOPOLOGY QUALITY

100% coverage

0 m² gap

0 m² overlap

A-BOUNDARY-001 + A-LANDUSE-001 · recompute after official data release

# Mobility and Human Journeys

Commons spine, seven-interface service link and three human journeys

## CIVIC COMMONS SPINE | P01'S SEVEN-STEP JOURNEY RETURNS AI SERVICE TO DAILY LIFE

04

V0.13 two-level-test reading: one fictional composite person moves from staffed entry to appeal, deletion or exit; routes and spaces remain provisional

### CONCEPT MOBILITY, GREEN, PUBLIC SPACE + FP01 BINDING

### P01 SEVEN-STEP SERVICE JOURNEY | J01-J07

# Five Flagships and Twelve Scenarios

Five flagships are delivery containers; all twelve scenarios are assigned exactly once

FP01

AI Origin First-Use Station

S07 primary / S03 evaluation / S04 interface

one candidate task and revocable contract

FP02

Zhongzhiyuan Full-Stack Open Test Yard

S01 + S10

safety / interoperation / energy

FP03

Xiaoyuehe Scenario Co-Test Network

S02 + S05 + S06 + S08

bounded real-user validation

FP04

Dazhongsi AI Everyday Market

S11 + S12

provenance / consumer / dispute

FP05

Jing-Zhang Public Evidence Park

S09 + FP01-04

public observation and failure memory

12 SCENARIOS / ONE PRIMARY FLAGSHIP EACH

S01

MODEL / AGENT SAFETY

FP02

S02

EMBODIED STREET TEST

FP03

S03

INDEPENDENT EVALUATION

FP01

S04

AI CITY API

FP01

S05

PUBLIC-SERVICE NAVIGATION

FP03

S06

INCLUSIVE MOBILITY

FP03

S07

LEARNING + CAREER

FP01

S08

HEALTH-SERVICE GUIDE

FP03

S09

LIVING RAIL HERITAGE

FP05

S10

LOW-CARBON ENERGY

FP02

S11

AI EVERYDAY MARKET

FP04

S12

DELIBERATION + EVIDENCE

FP04

# Unified Brand and Reversible Components

One master brand governs five flagships, three landmarks and six reversible components

## ONE MASTER BRAND, ONE REUSABLE FAMILY OF CIVIC INTERFACES

01

The master brand governs five flagships, operating cadence, contribution recognition, three landmarks and six reversible components; AI City API / Trusted Compact runs across them

### 01 / MASTER BRAND

ACTUAL MARK DIRECTION

### JING-ZHANG BREAKS NEW GROUND

From independent railway engineering to trusted AI at city scale: prove one urban AI capability first under public conditions of choice, takeover, appeal, and exit.

switch · forward branch · return zig-zag · open bracket · human node

Unified endorsement grammar: every flagship, event, honor and landmark carries the master signature instead of becoming a competing sub-brand.

FINAL LOGO = FALSE · OFFICIAL EMBLEM = FALSE

### 02 / FIVE-FLAGSHIP PROGRAM FAMILY

### 03 / FOUR OPERATING RITUALS

### 04 / FIVE CONTRIBUTION RECORDS | EVIDENCE, NOT PEOPLE RANKING

### 05 / THREE AI LANDMARKS

### 06 / SIX REVERSIBLE PUBLIC-SPACE COMPONENTS

### CROSS-CUTTING OPERATING LAYER

AI CITY API + TRUSTED COMPACT · provenance / purpose / limits · human takeover · appeal · exit / capability return

H0-H4: problem baseline → carrier accountability → data + safety → independent evidence → separate authorization / exit handover

CONCEPT ONLY | Not a final logo, government emblem, confirmed facility or approved construction. Operator, budget, procurement, survey and professional reviews remain pending.

# Revocable First-Use Contract

GO only opens separate procurement, legal and professional authorization discussion. REVISE / STOP freezes automation, restores staffed service, disposes data, returns assets and retains failure evidence.

FP01 · AI ORIGIN FIRST-USE STATION · V0.13 TWO-LEVEL TEST EDITION

CONCEPT TEMPLATE · UNEXECUTED · UNSIGNED · UNPROCURED · UNAUTHORIZED · UNDEPLOYED

## ONE CANDIDATE TASK, FOUR RECEIPTS, ONE STAFFED BASELINE

Rewrite “what AI can do” as “how a city proves it deserves first use, permits takeover and can exit”

# FP01 Three-Scale Spatial Prototype

Conceptual, unauthorized, provisional geometry and test dimensions; siting and dimensions await survey, operations, accessibility, fire and professional review.

FP01 · AI ORIGIN FIRST-USE STATION · MULTI-SCALE SPATIAL PROTOTYPE

## ONE DEFINED CANDIDATE SERVICE TASK: CHOICE, TAKEOVER, EXIT

Candidate task: an early-career user needs skill-transition and job information without mandatory smartphone use or automated employment decisions. Provisional place: ROOM-TEST-001 / AI Origin Community.

- CONCEPT-ONLY
- PROVISIONAL LOCATION
- DIMENSIONS FOR DESIGN TESTING
- PENDING SURVEY

# H0-H4 Evidence Readiness

The structure is ready; external evidence has not arrived

# Technical Delivery Control

Three concept interfaces + FP01 D0 measurement, RACI, BoQ and critical dependencies

## TECHNICAL DELIVERY CONTROL | THREE CONCEPT INTERFACES + FP01 PRE-REGISTRATION

11

NOT FIELD EVIDENCE | SITE ACTUALS, QUANTITIES, RATES, AMOUNTS, NAMED ACTORS, SIGNATURES + OUTCOMES = NULL / PENDING

### 01 ZHONGZHIYUAN

BUILD + TEST | OPEN FULL-STACK INTERFACE

CONCEPT INTERFACE TYPOLOGY / NOT TO SCALE

ACTUAL SITE DIMENSIONS = NULL | SURVEY, OWNERSHIP + PROFESSIONAL CHECKS PENDING

### 02 AI ORIGIN

TEST + FIRST USE | CHOICE-PRESERVING INTERFACE

CONCEPT INTERFACE TYPOLOGY / NOT TO SCALE

ACTUAL SITE DIMENSIONS = NULL | SURVEY, OWNERSHIP + PROFESSIONAL CHECKS PENDING

### 03 DAZHONGSI

LIVE + UPDATE | MARKET + REVIEW INTERFACE

CONCEPT INTERFACE TYPOLOGY / NOT TO SCALE

ACTUAL SITE DIMENSIONS = NULL | SURVEY, OWNERSHIP + PROFESSIONAL CHECKS PENDING

### D0 / B01—B06 MEASUREMENT

- B01 completion = completed / eligible; B02 time = receipt timestamp - arrival timestamp
- B03 takeover delay = human start - trigger; B04 appeal comprehension = correct recall / asked
- B05 baseline restoration = restored in agreed window / exits; B06 reachability = no-phone completions / route tests

NAMES, SIGNATURES, SAMPLES, SOURCES + ACTUALS = NULL / PENDING

### RACI / H0—H4

- H0 A: public-service problem owner; H1 A/R: carrier, asset + budget responsibility
- H2 R/C: survey, access, fire, utilities, data, heritage + other professional reviewers
- H3 A/R: independent evaluator; H4 A/R: authorizer, custodian + exit handover

NAMES, SIGNATURES, SAMPLES, SOURCES + ACTUALS = NULL / PENDING

### BoQ / M01—M06

- M01-M06: single design-test quantity = 1 kit / component
- Actual quantity = null; unit rate = null; amount = null
- Not a procurement list, cost plan, estimate or implementation quantity

NAMES, SIGNATURES, SAMPLES, SOURCES + ACTUALS = NULL / PENDING

### CRITICAL DEPENDENCIES

- H0 / D0 baseline -> H1 / D30 carrier -> H2 / D60 professional entry
- -> H3 / D90 independent rehearsal -> H4 / D100 authorization + exit handover
- All five gates pending; no automatic passage, bypass or implied approval

NAMES, SIGNATURES, SAMPLES, SOURCES + ACTUALS = NULL / PENDING

CONTROL BOUNDARY: ALL INTERFACES ARE NOT-TO-SCALE CONCEPT PROTOTYPES; COMPLETE D0, RACI, MEASURED BoQ AND FIVE EXTERNAL HOLDS BEFORE PILOT DELIVERY.

# Metrics, Risks and Next Step

D0 human/non-digital completion, formal siting, dimensions, ownership, operator, budget, procurement, fire, utilities and delivered performance remain unknown—not zero or average.
