

BellPivot AI Precinct — Dazhongsi AI Industry Cluster (A0 Board 1/2)

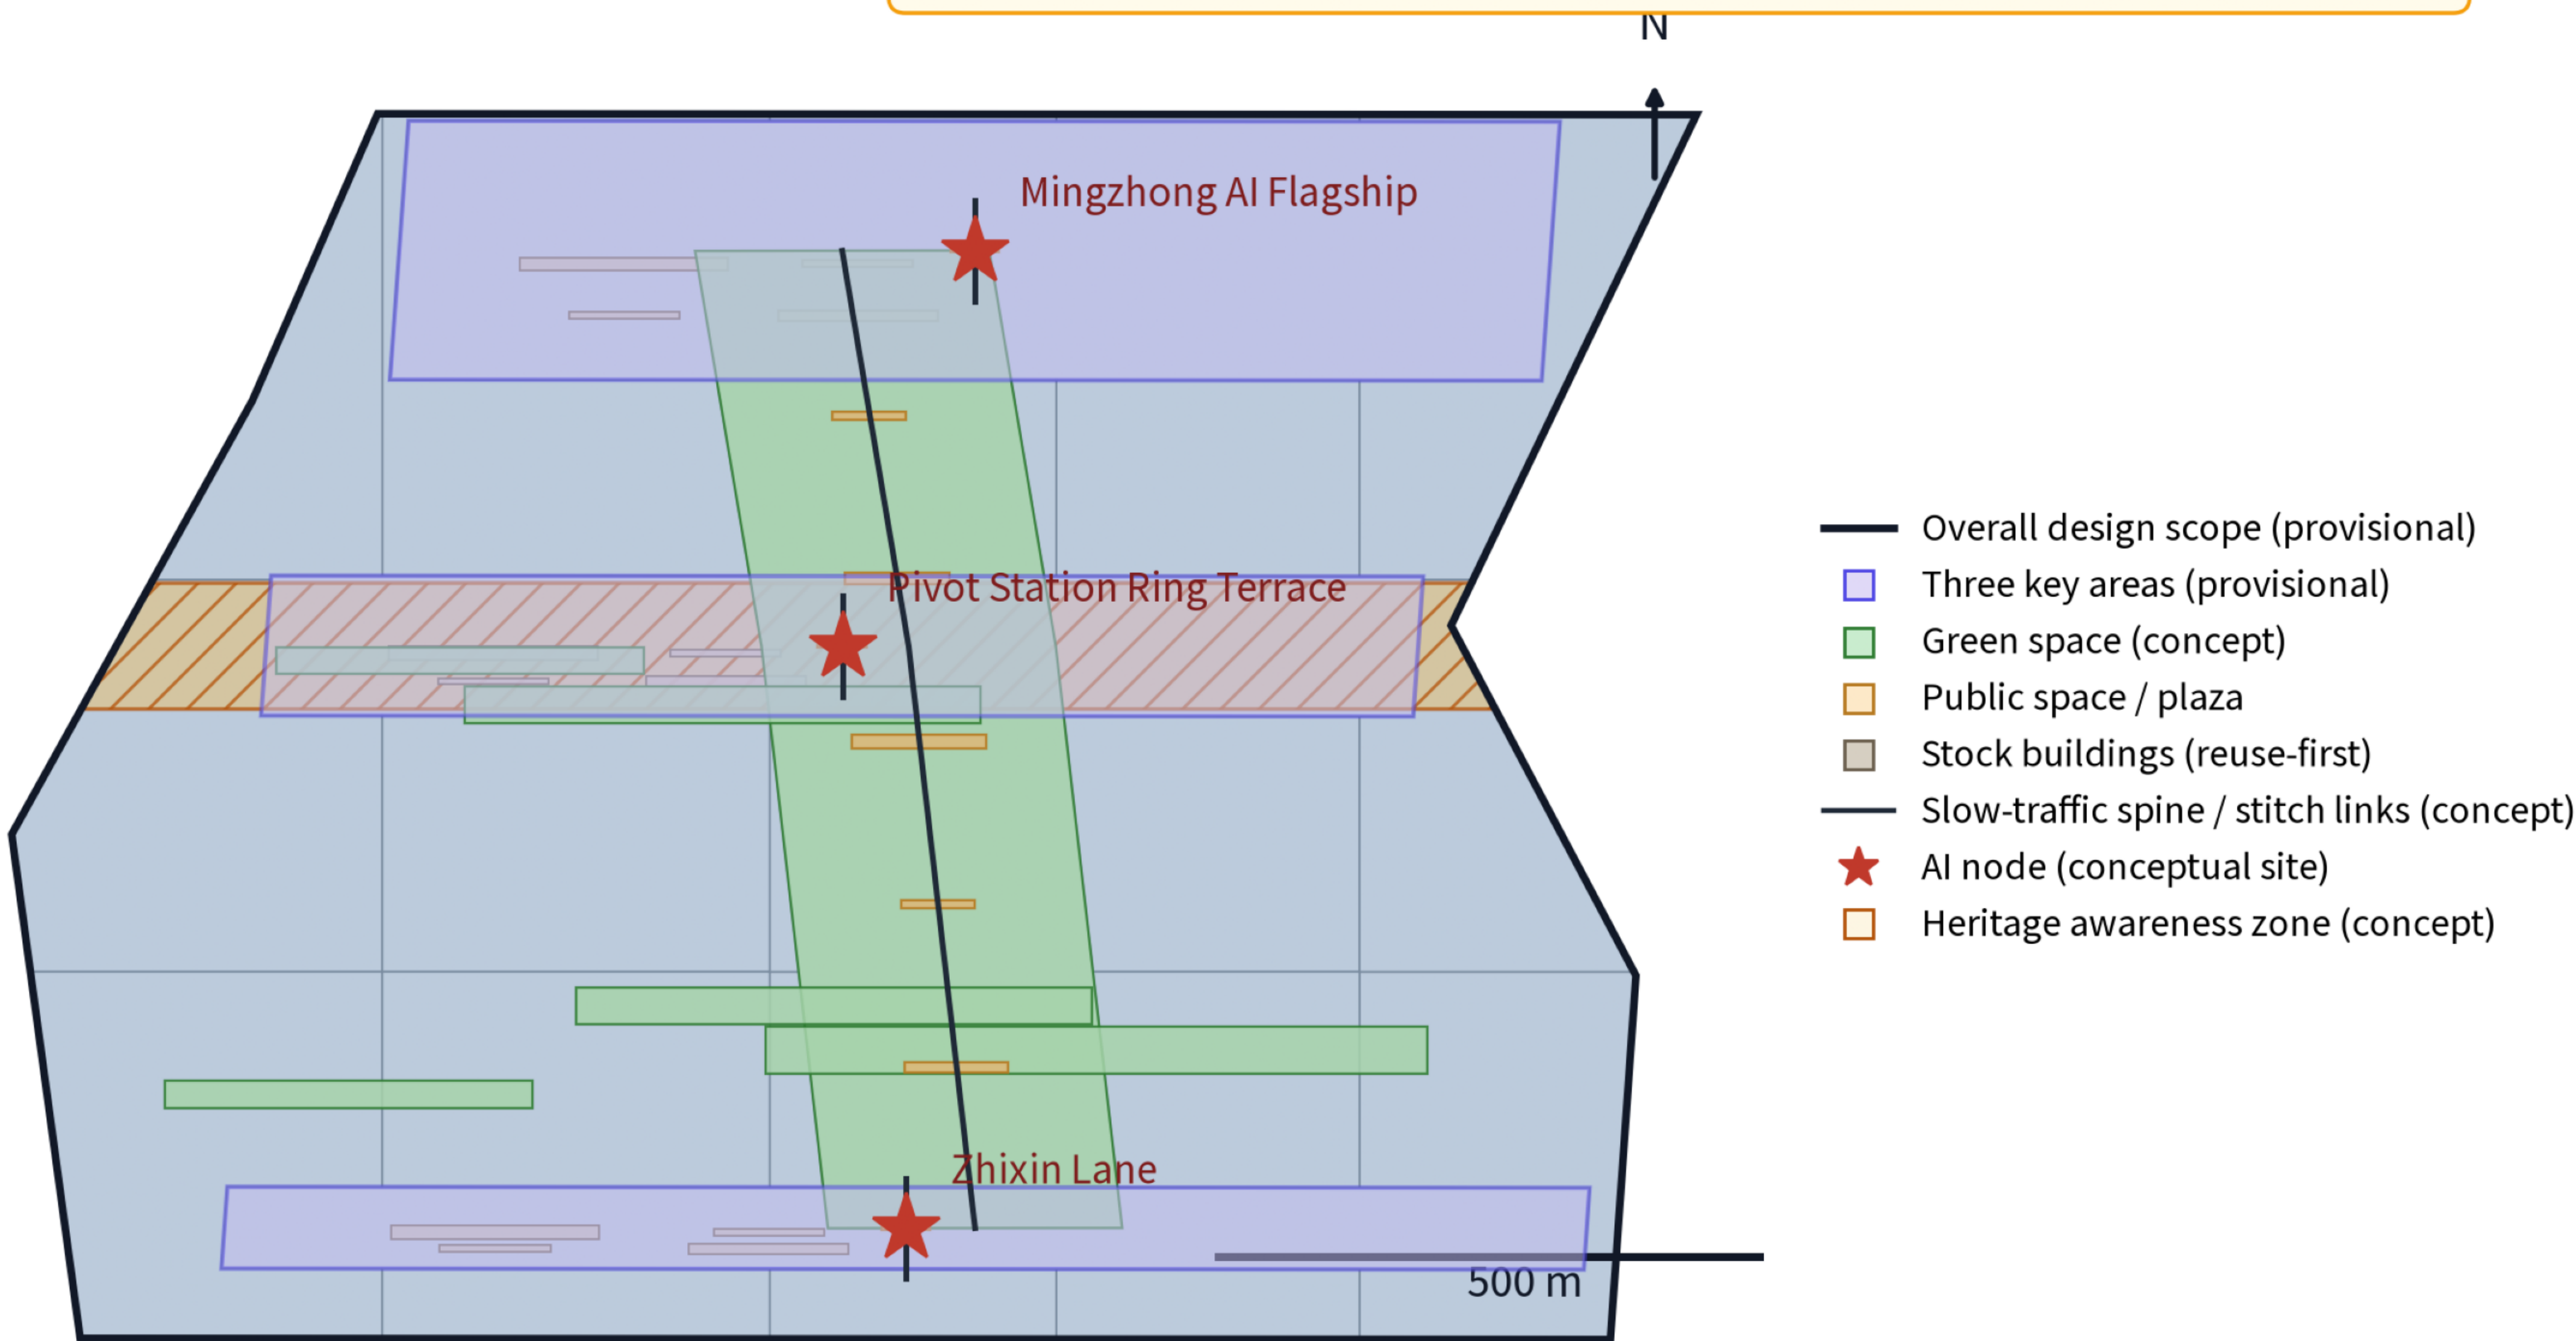

Three nodes: Mingzhong Flagship • Pivot Ring Terrace • Zhixin Lane | land-use structure • key-area index • legend and PROVISIONAL stamp included | three-tier scopes per official text ($\approx 43.6\text{ km}^2$ / $\approx 11.4\text{ km}^2$ / $\approx 368.4\text{ ha}$)

PROVISIONAL boundary • not an official redline • recalculate after official data

Overall design overview (provisional • legend/scale/north)

Overall Design Overview — Dazhongsi AI Industry Cluster (provisional geometry)

PROVISIONAL boundary • not an official redline • recalculate after official data

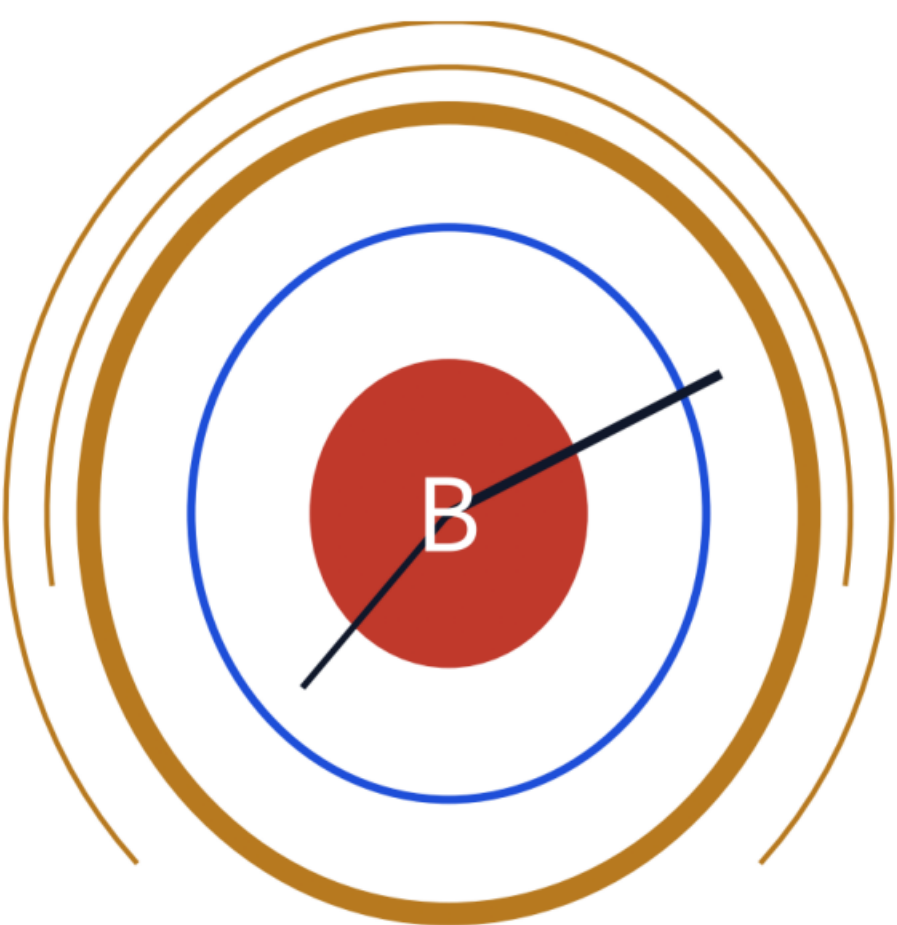

Areas and ratios are rounded concept values; recalculate by the declared formulas after the organizer publishes official boundaries and baseline data.

Logo & visual identity (concept)

Logo & Visual Identity (concept)

PROVISIONAL boundary • not an official redline • recalculate after official data

BellPivot AI Precinct

The bell tolls; the pivot turns

Primary palette (Bell Bronze / Pivot Blue / Signal Red)

Bell Bronze

Pivot Blue

Signal Red

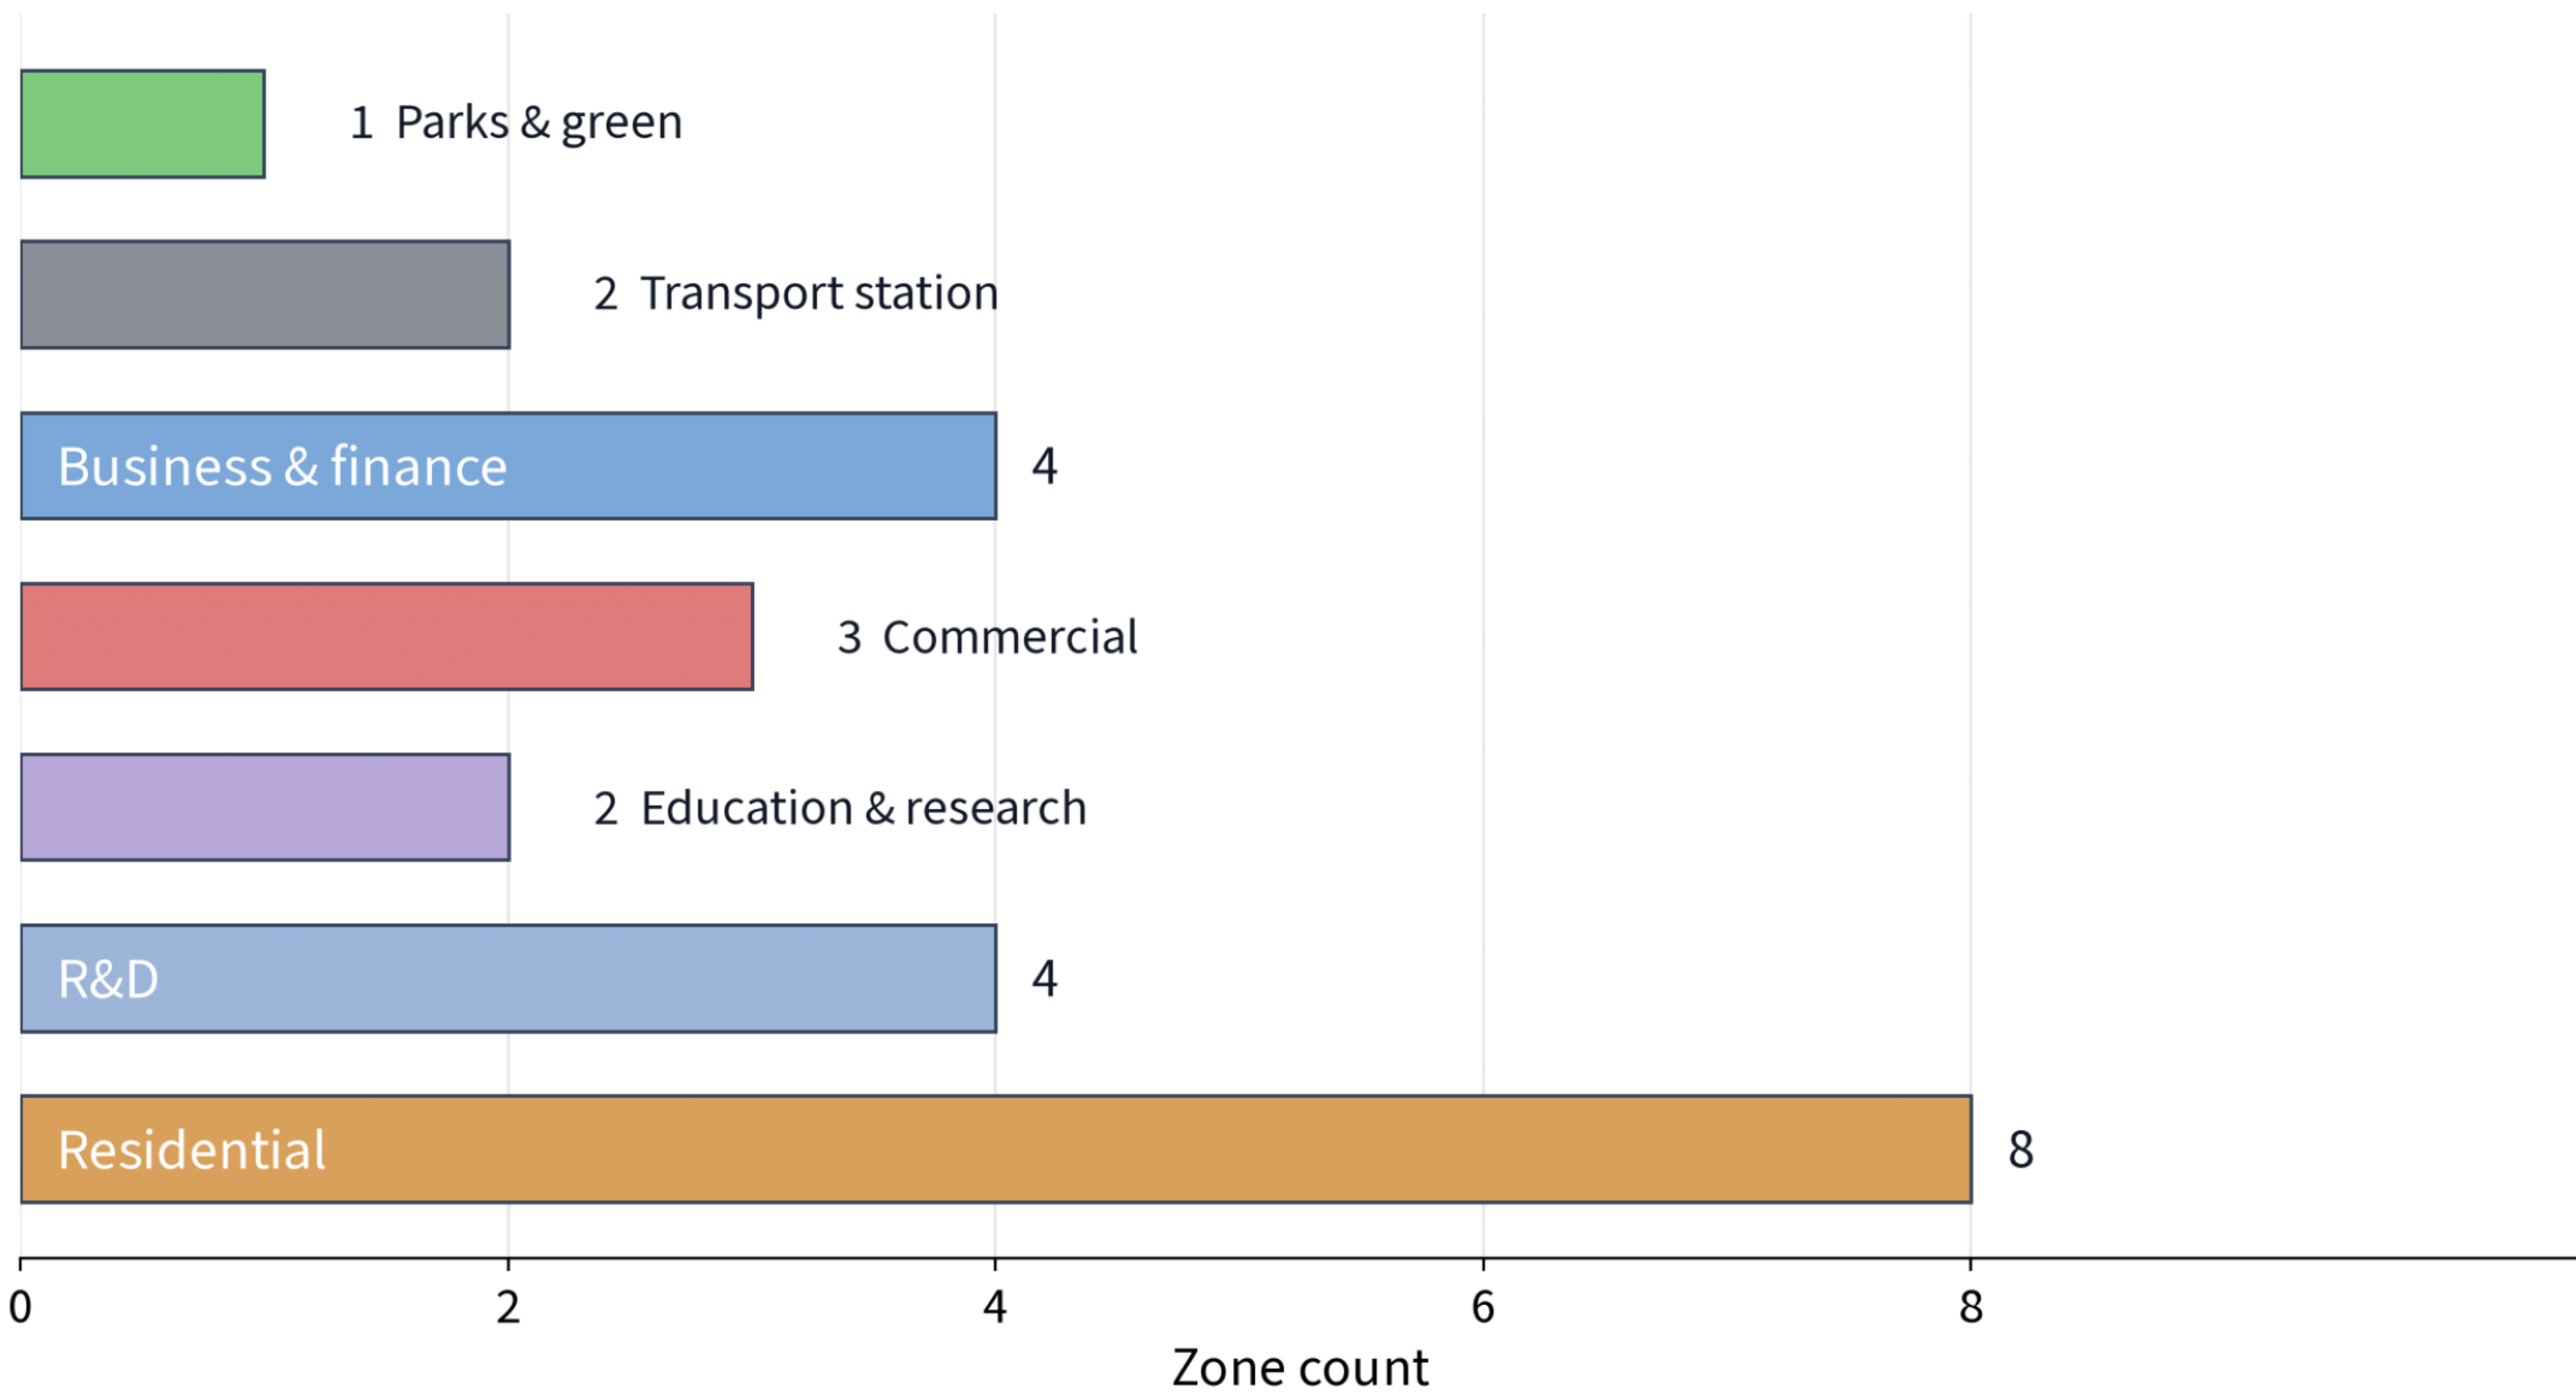

VI uses: wayfinding / kiosks / floor marks • unified stroke • all-age readable

Typeface: Noto Sans SC (OFL) • Motif: bell-wheel (bell ring + pivot hands + sound-wave arcs) • Concept stage: no trademark search completed; names and marks are internal working codenames only.

Conceptual land-use structure (single caliber)

Conceptual land-use structure (zone counts in land_use.geojson, single caliber)

PROVISIONAL boundary • not an official redline • recalculate after official data

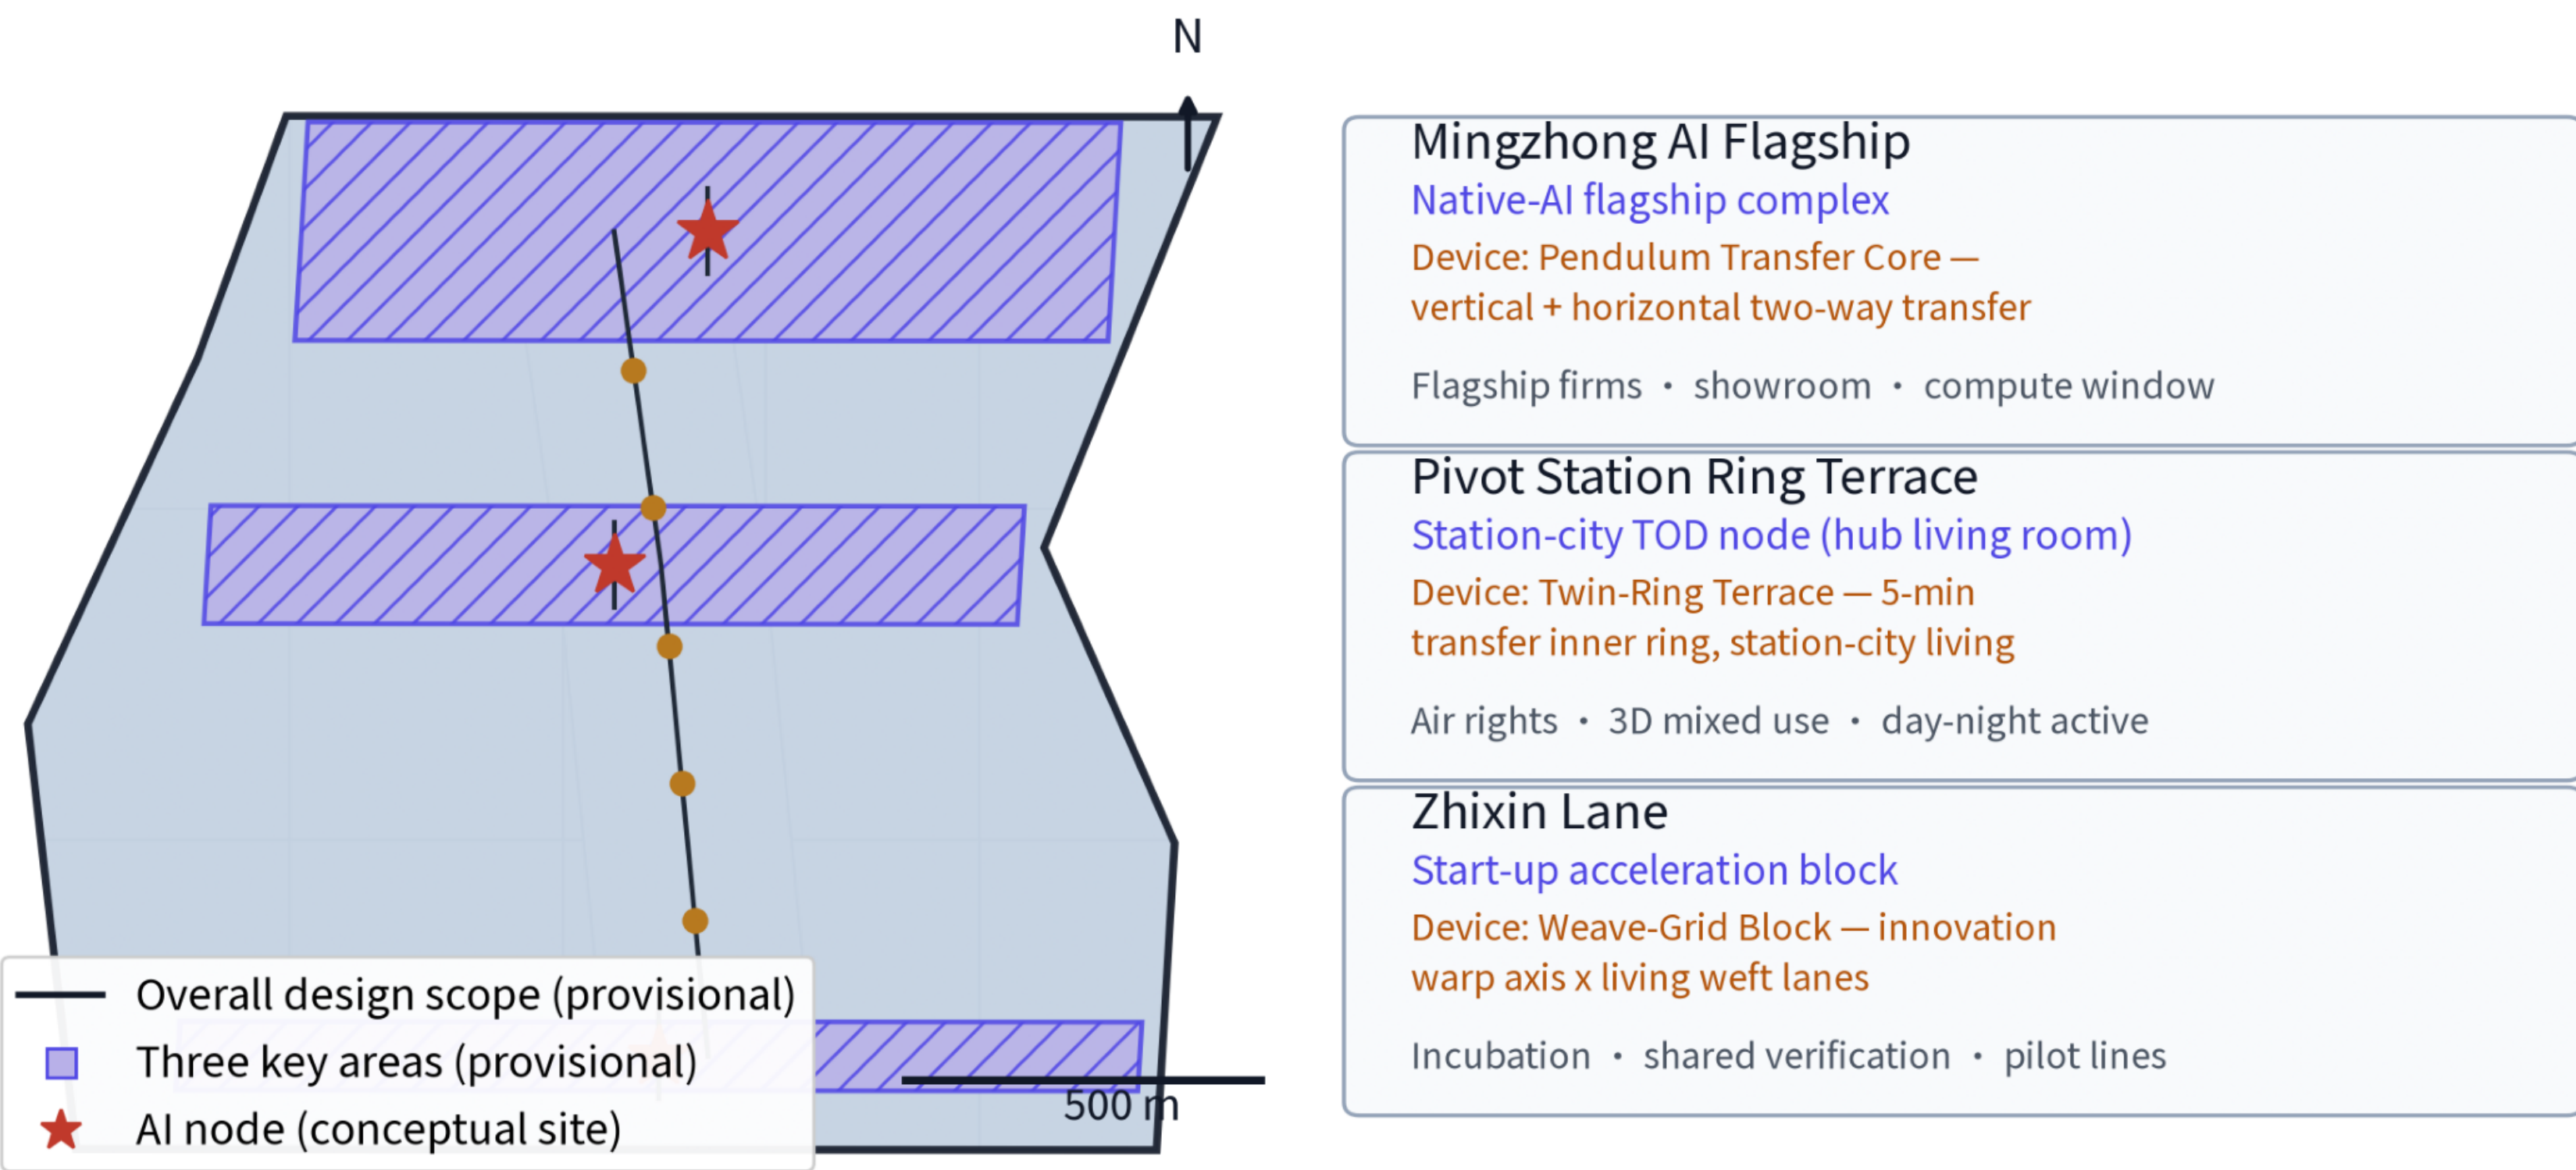

Land-use class names follow the national Land Use & Sea Classification Guide; no official baseline exists yet; shares are conceptual scenarios recomputed by the same formulas after official data is published.

Three nodes: index, original devices & flow

Three Nodes: Original Spatial Devices, Index and Design Tasks

PROVISIONAL boundary • not an official redline • recalculate after official data

Bell

Pivot

Weave

The three nodes are conceptual sites; final locations follow the organizer's official boundaries; the devices are original concept mechanisms for professional deepening.

BellPivot AI Precinct — Design Depth: Mobility • Metrics • Deepening Index (A0 Board 2/2)

Mobility & blue-green • core metric evidence • professional deepening index (parcels/roads/station entries/constraints; all provisional)

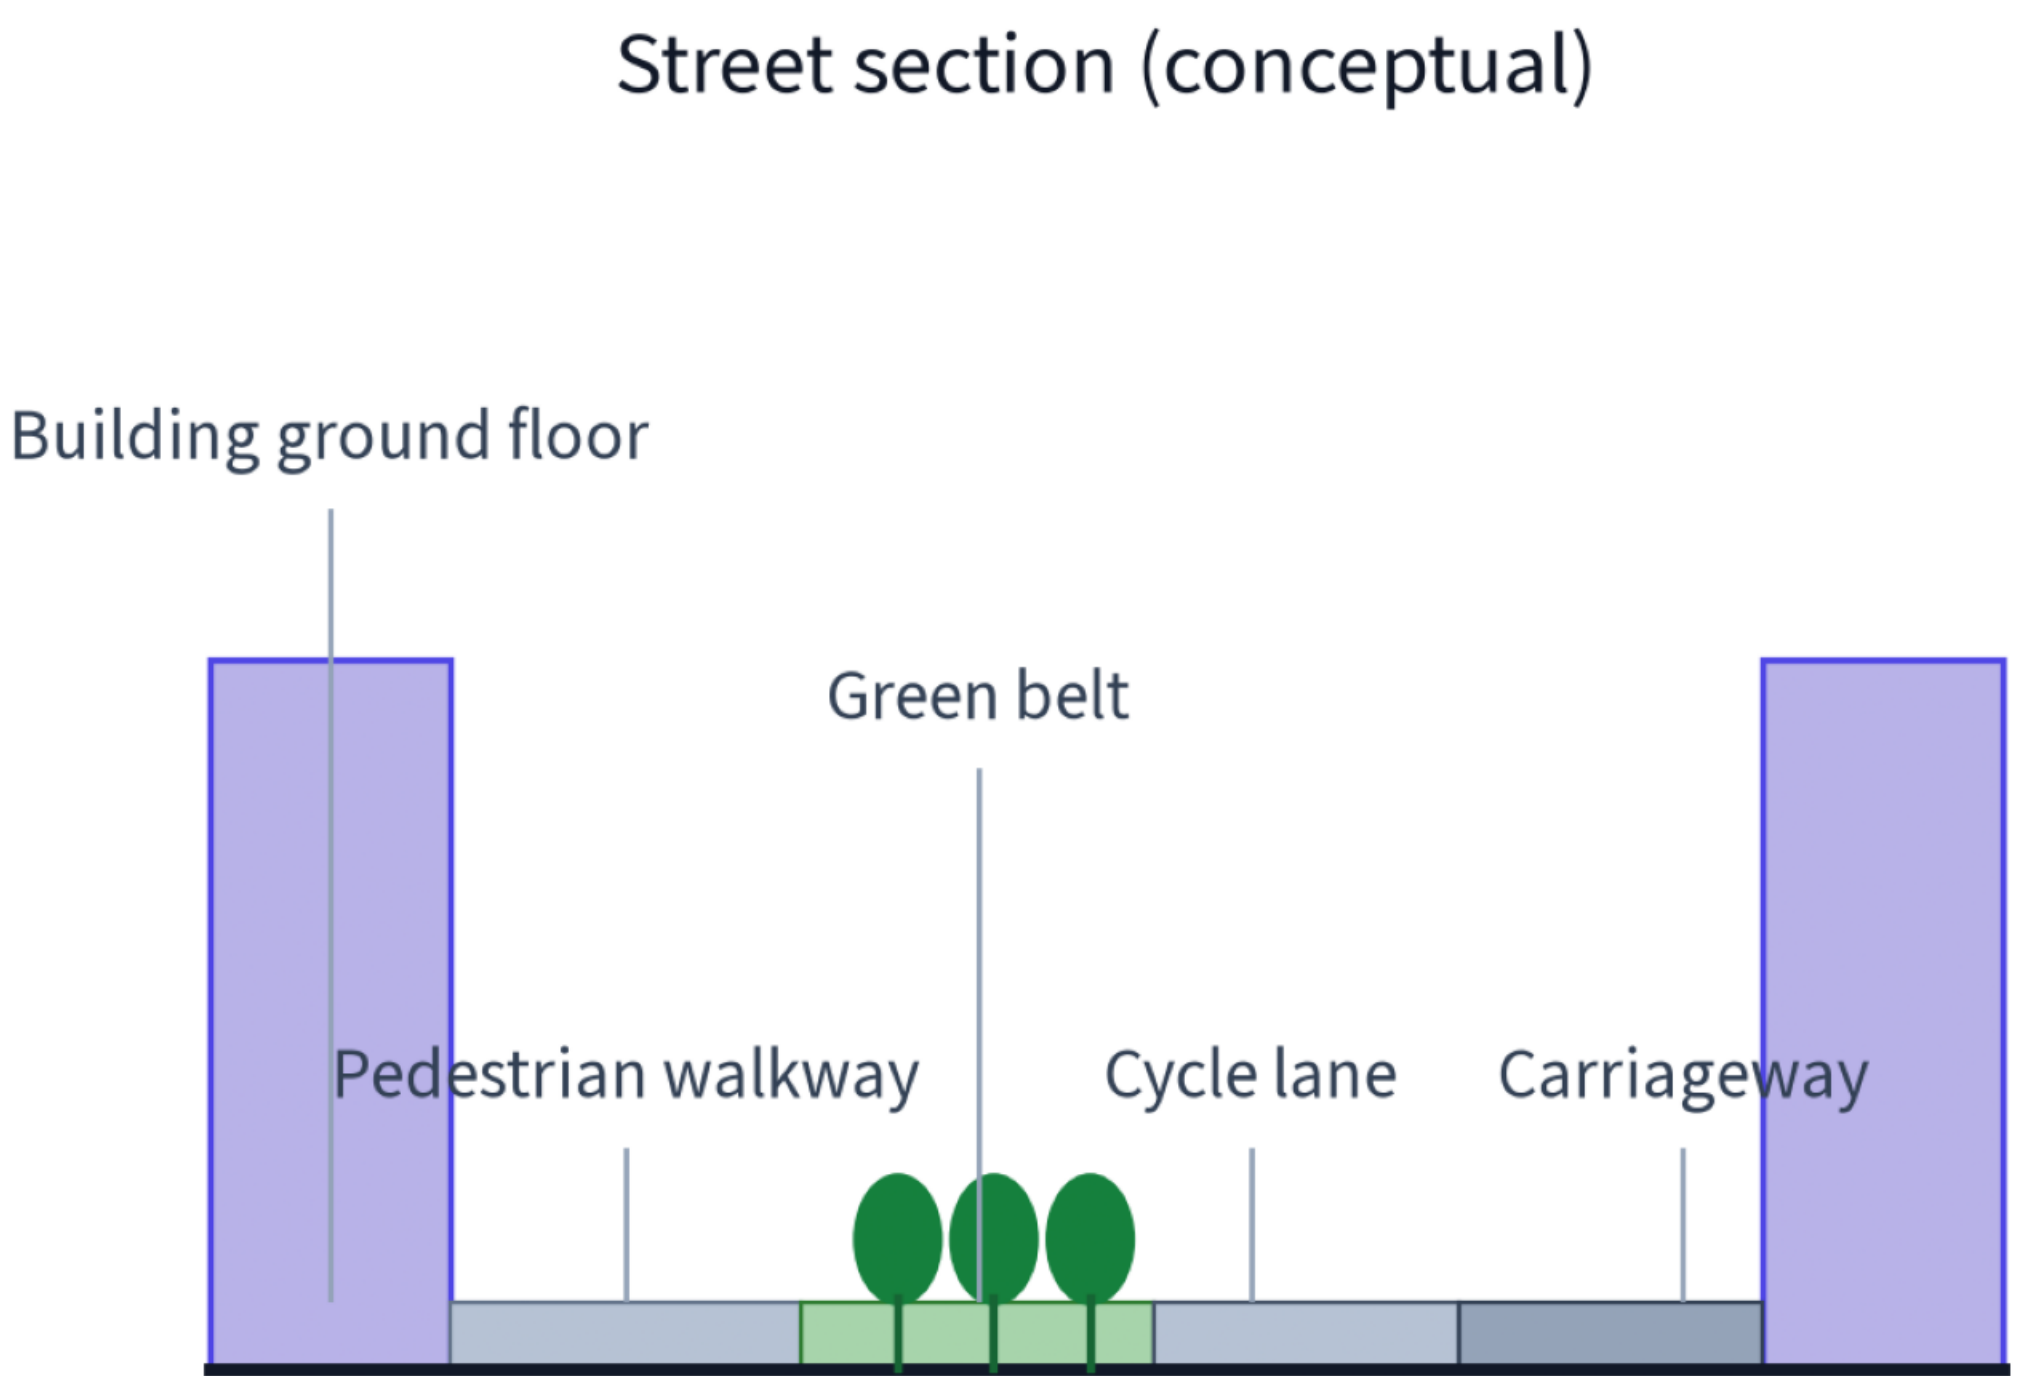

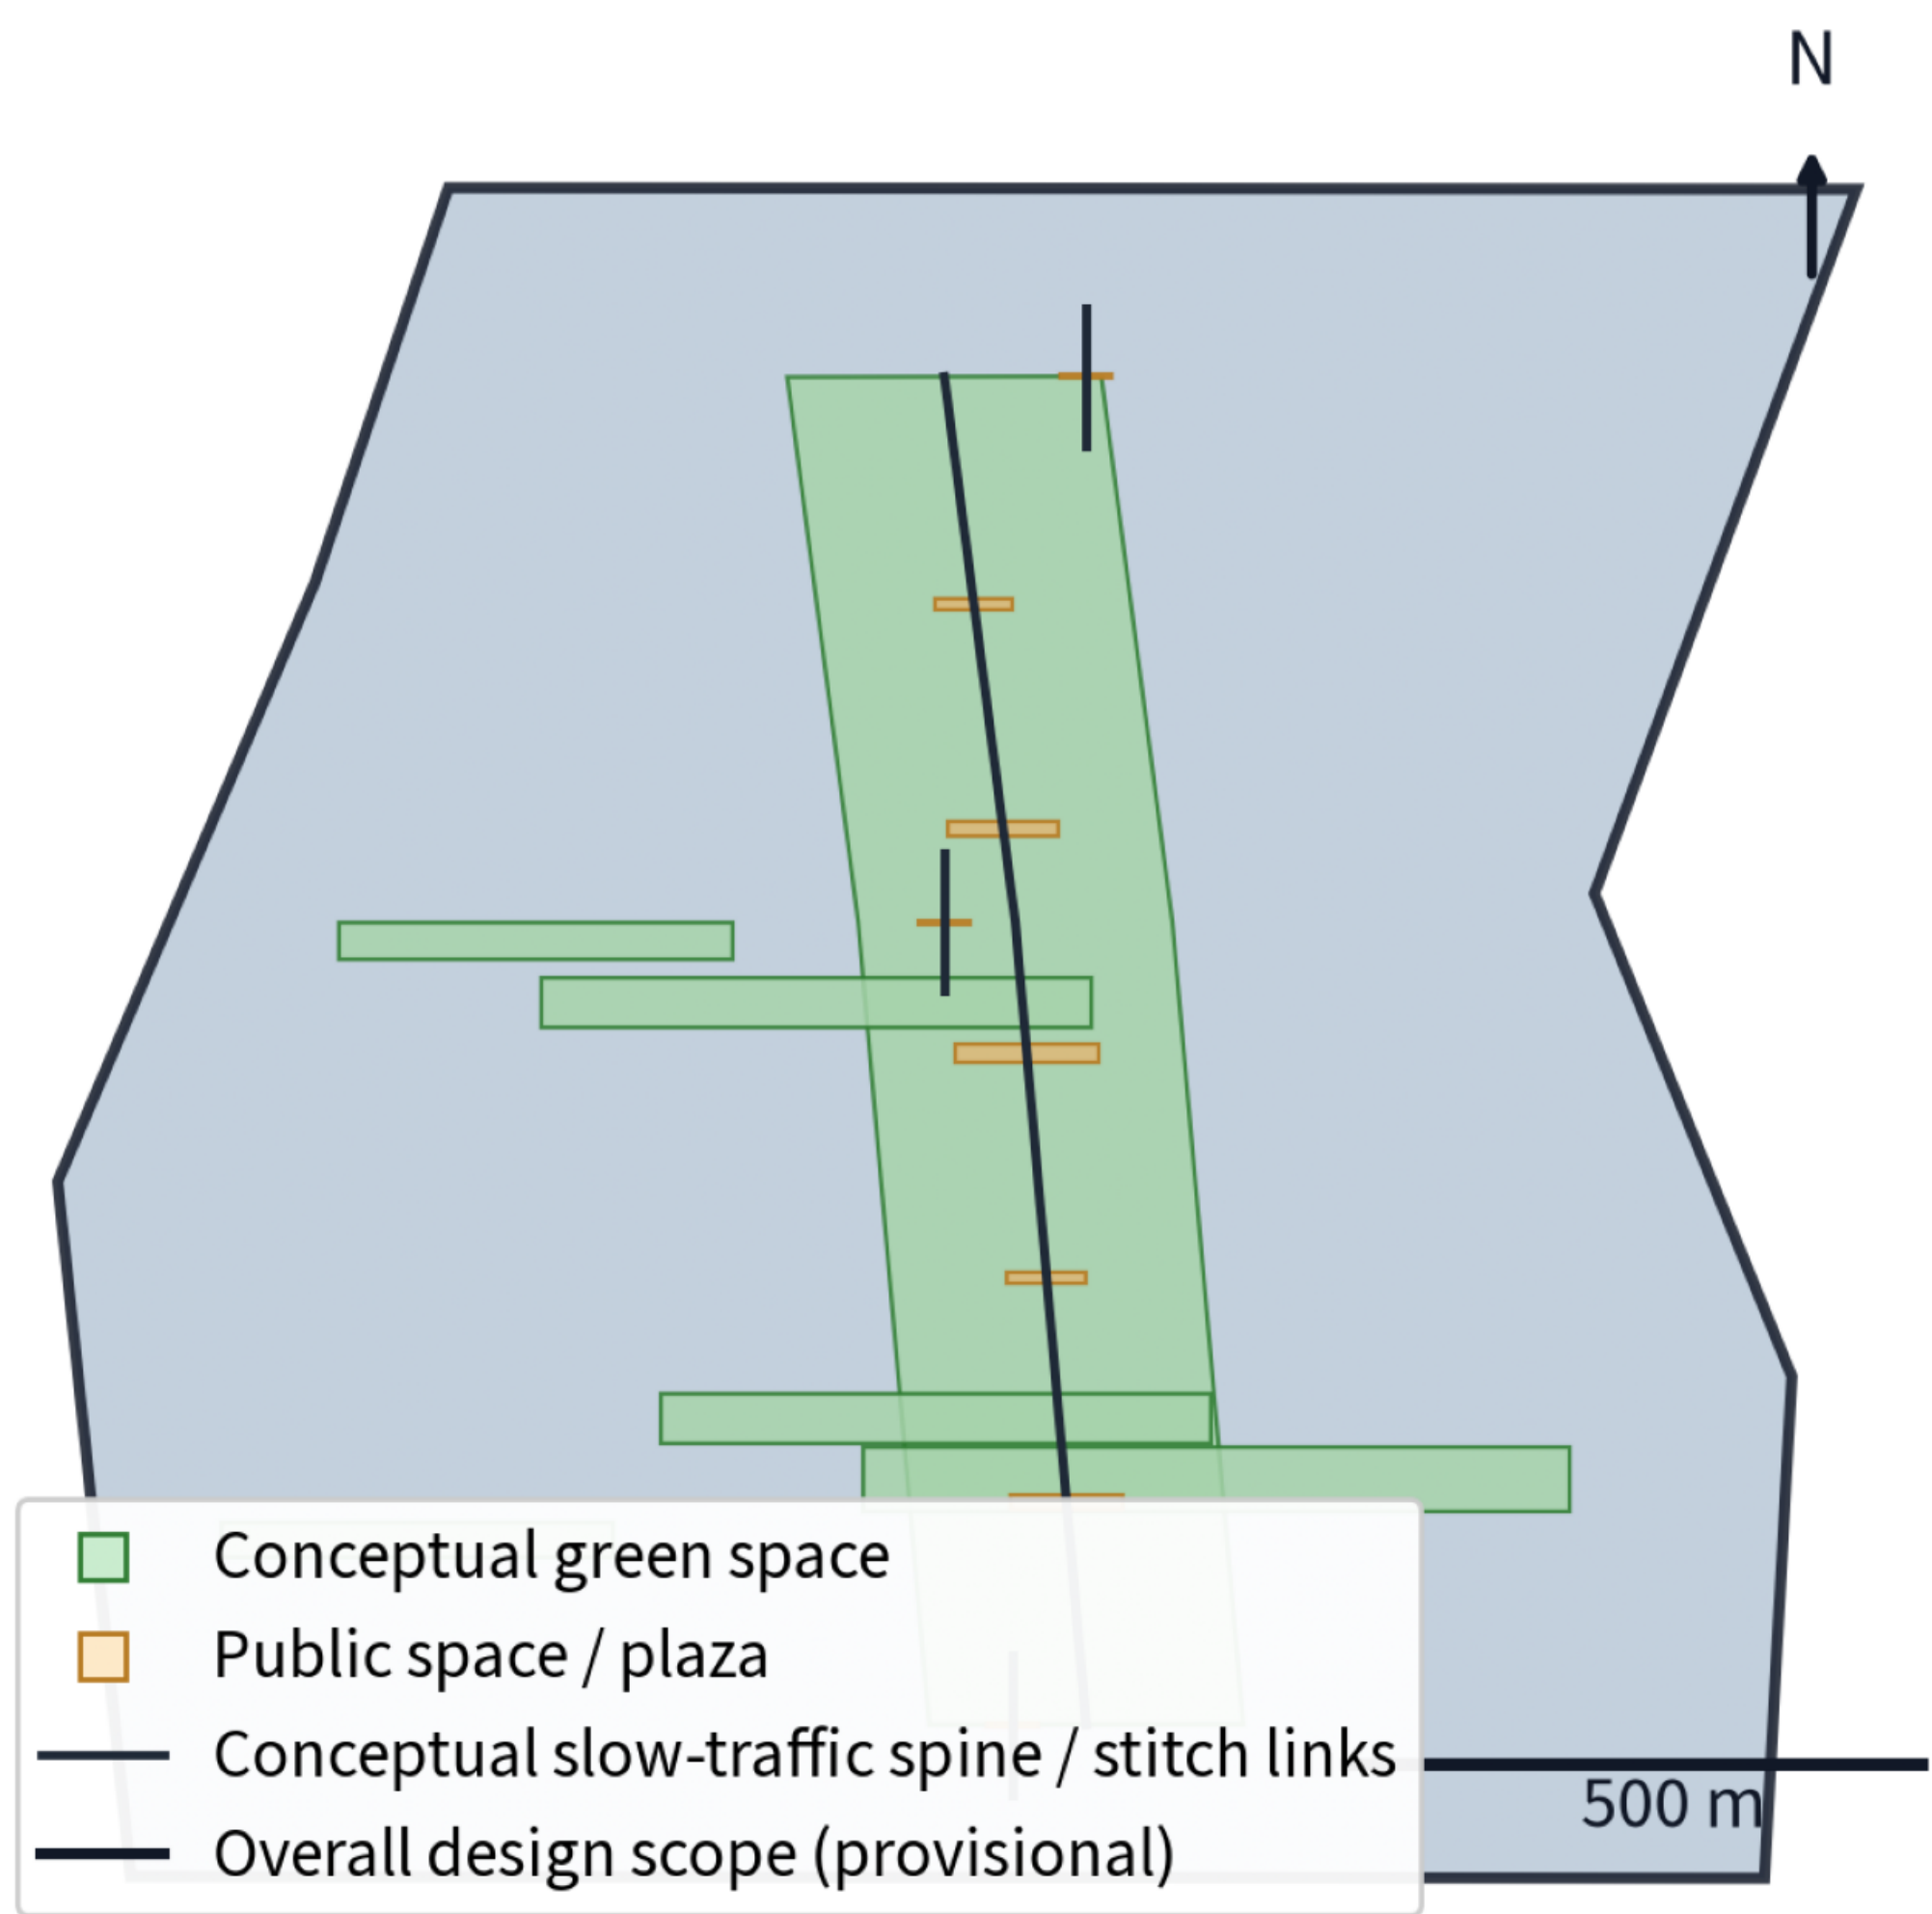

PROVISIONAL boundary • not an official redline • recalculate after official data

Mobility & blue-green (with street section)

Core metric evidence (ratios and counts on separate axes, rounded)

Mobility & Blue-Green Network (with street section)

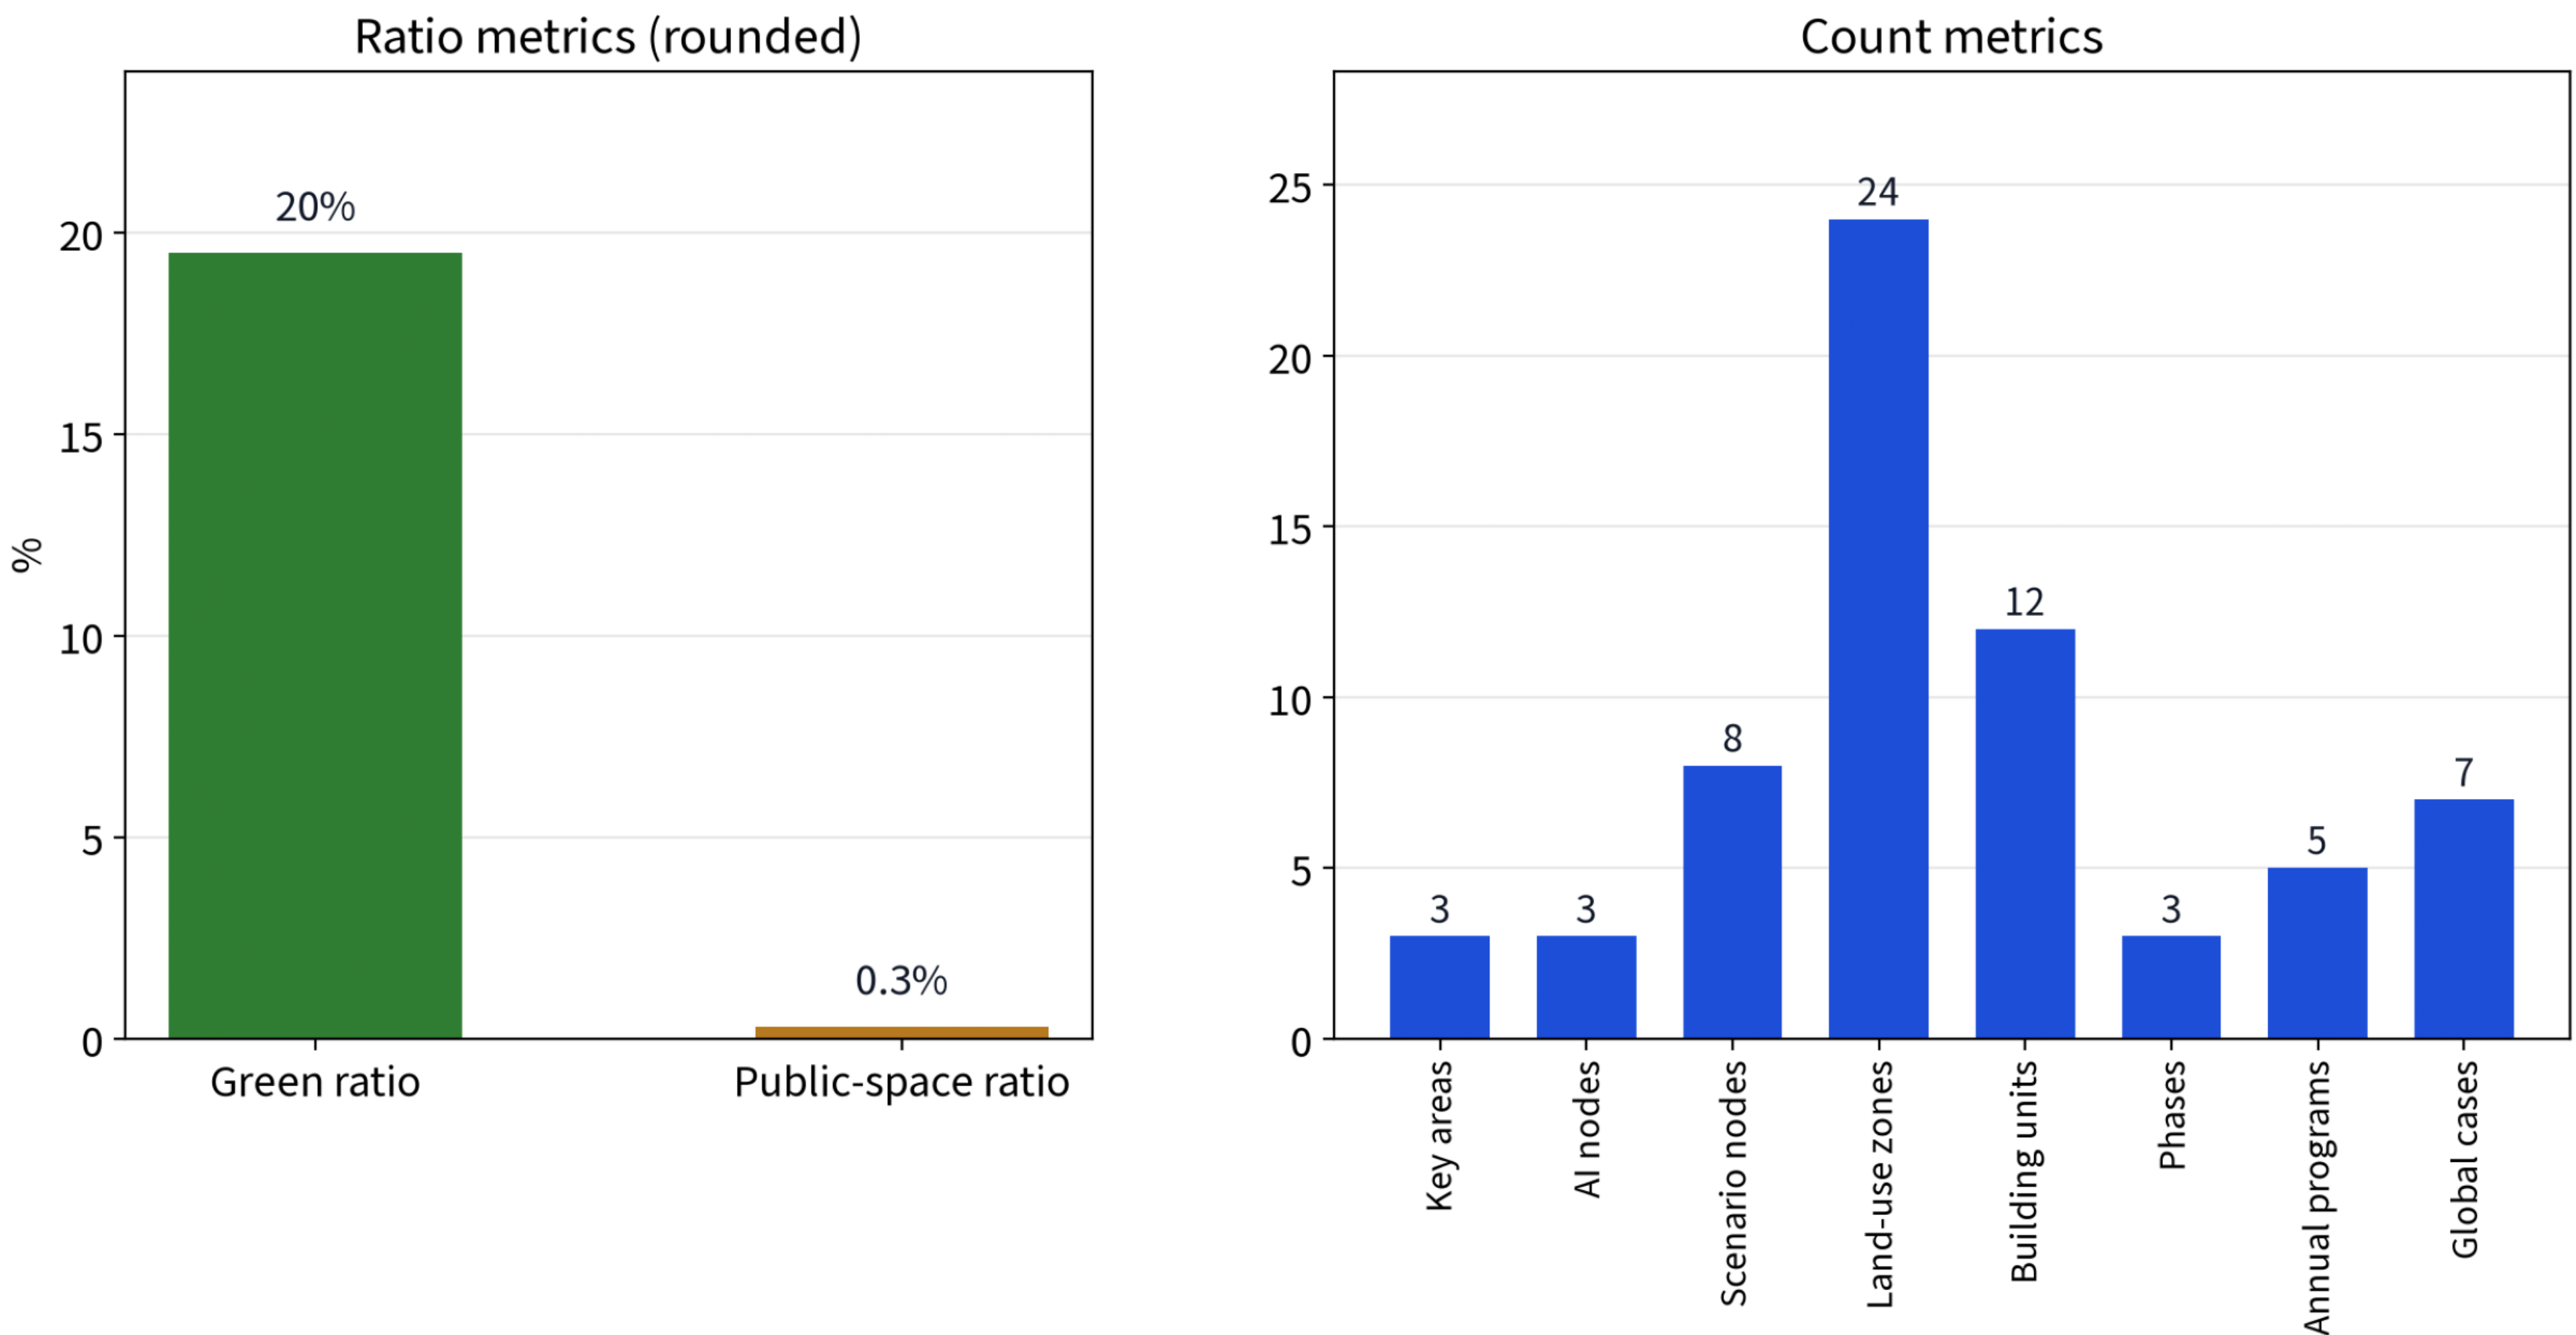

PROVISIONAL boundary • not an official redline • recalculate after official data

The section is a conceptual sketch, not an engineering cross-section.

Key Metric Evidence (ratios and counts on separate axes, rounded)

PROVISIONAL boundary • not an official redline • recalculate after official data

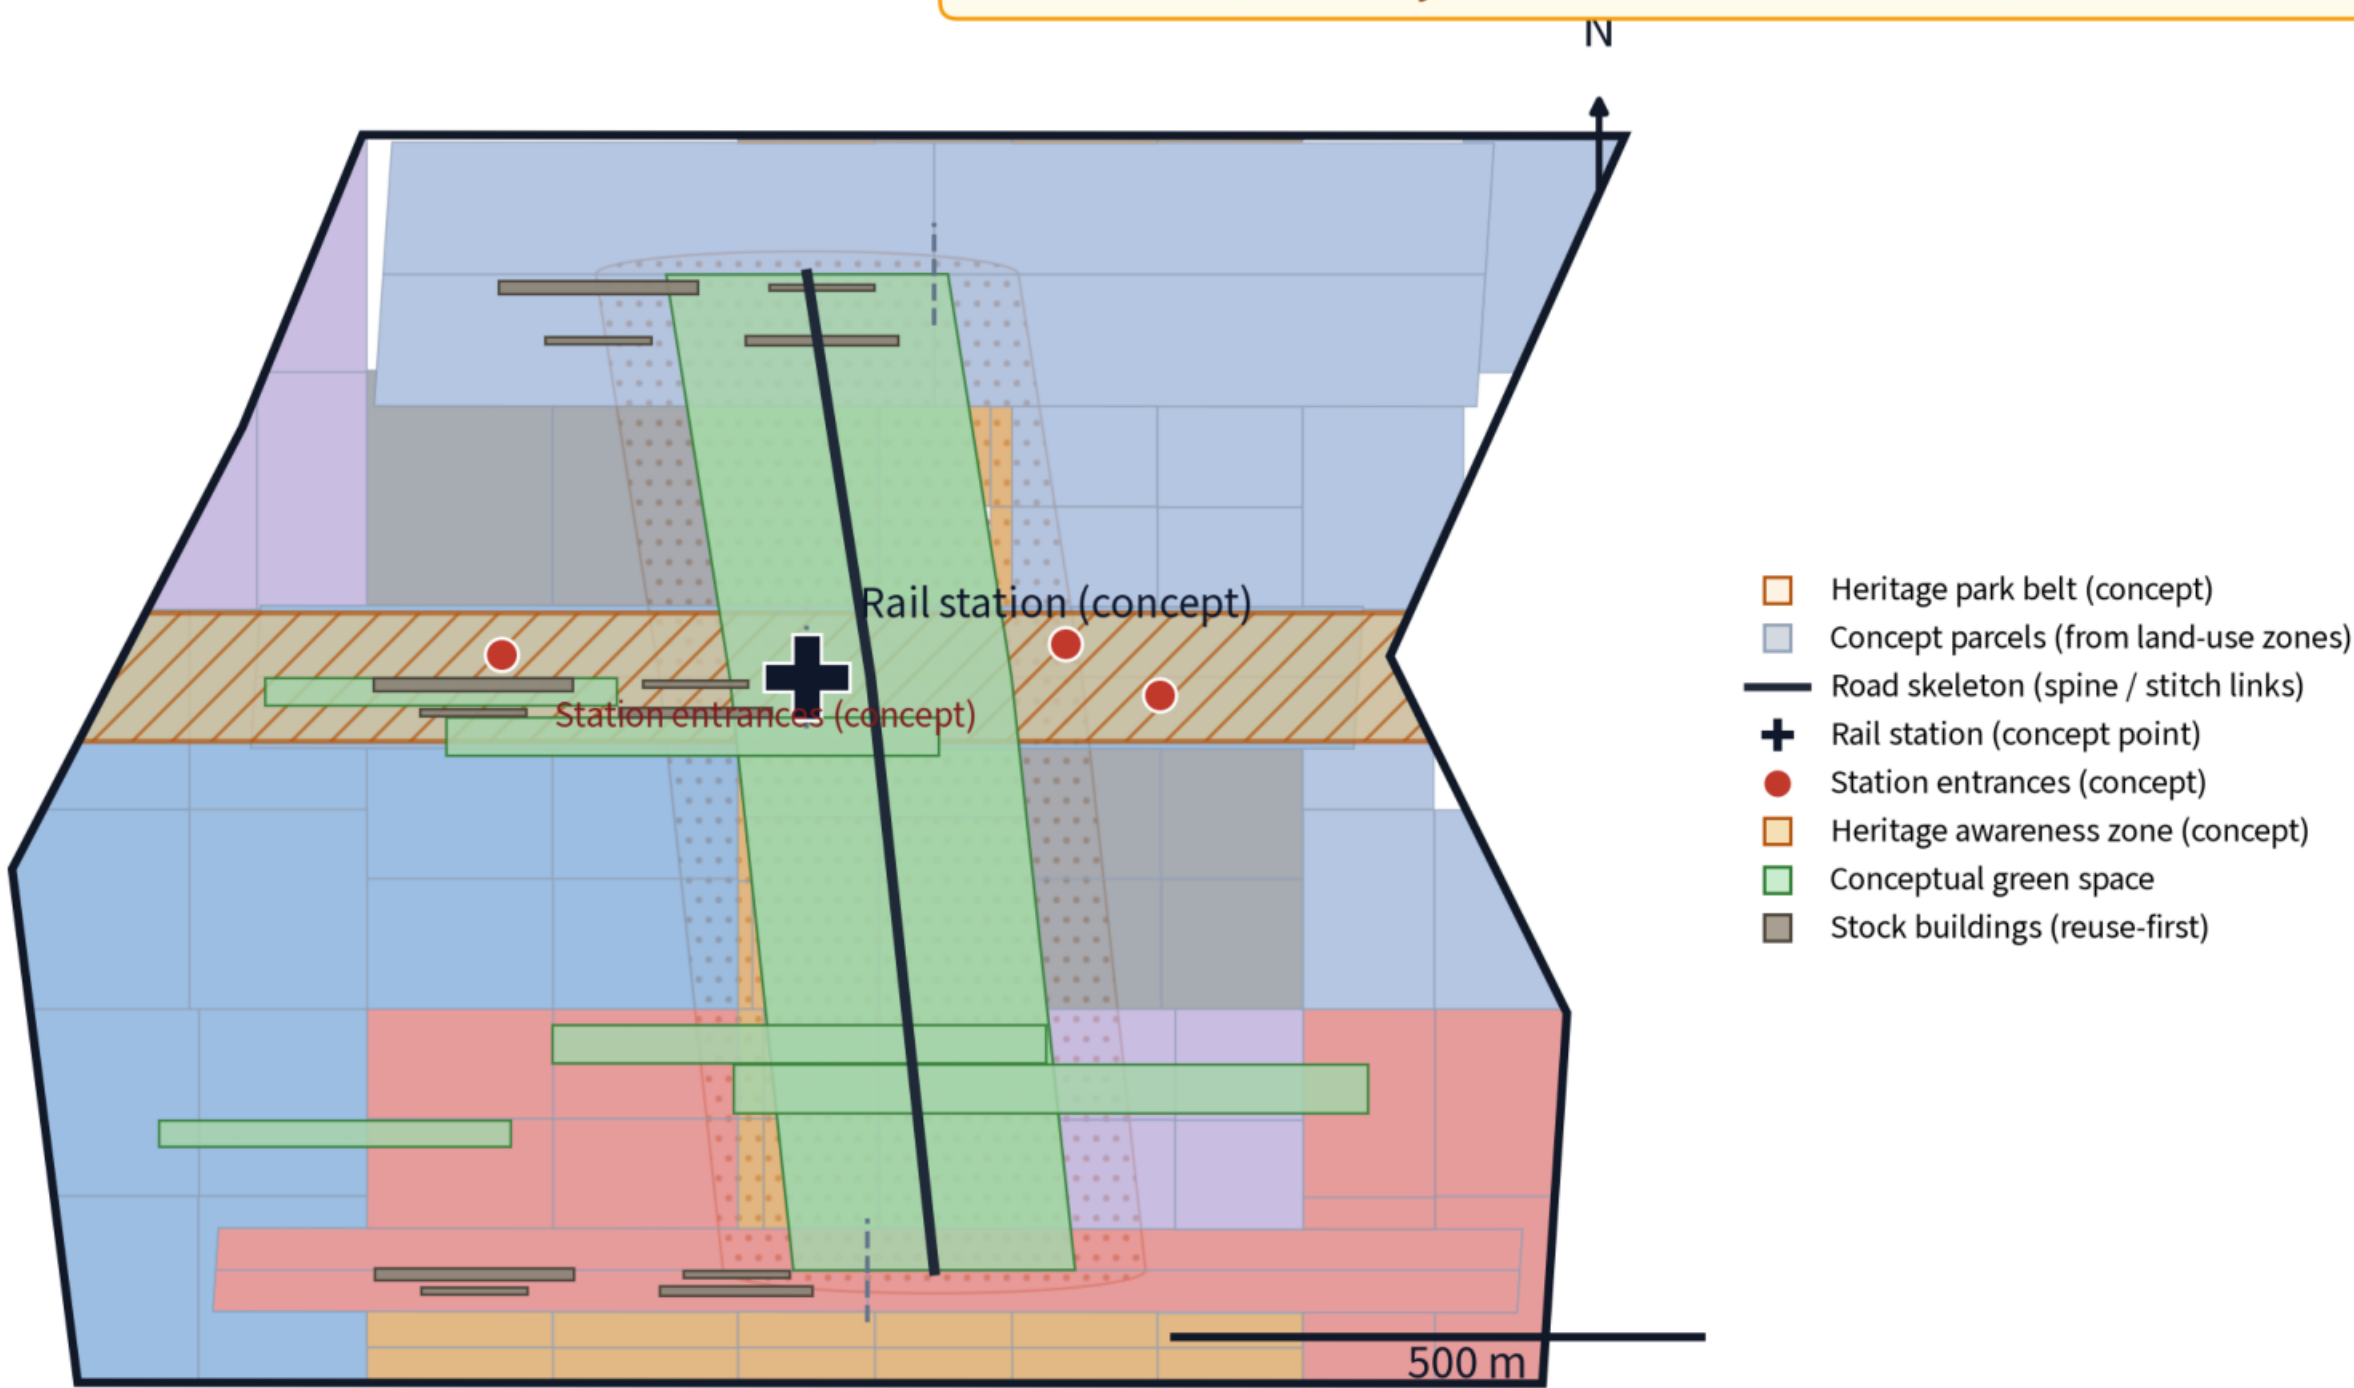

Source: metrics.json; formulas, confidence, use limits and recompute triggers are listed in the metrics table of proposal.md.

Areas and ratios are rounded concept values; recalculate by the declared formulas after the organizer publishes official boundaries and baseline data.

Professional deepening index map: parcels • roads • station entries • constraints (concept)

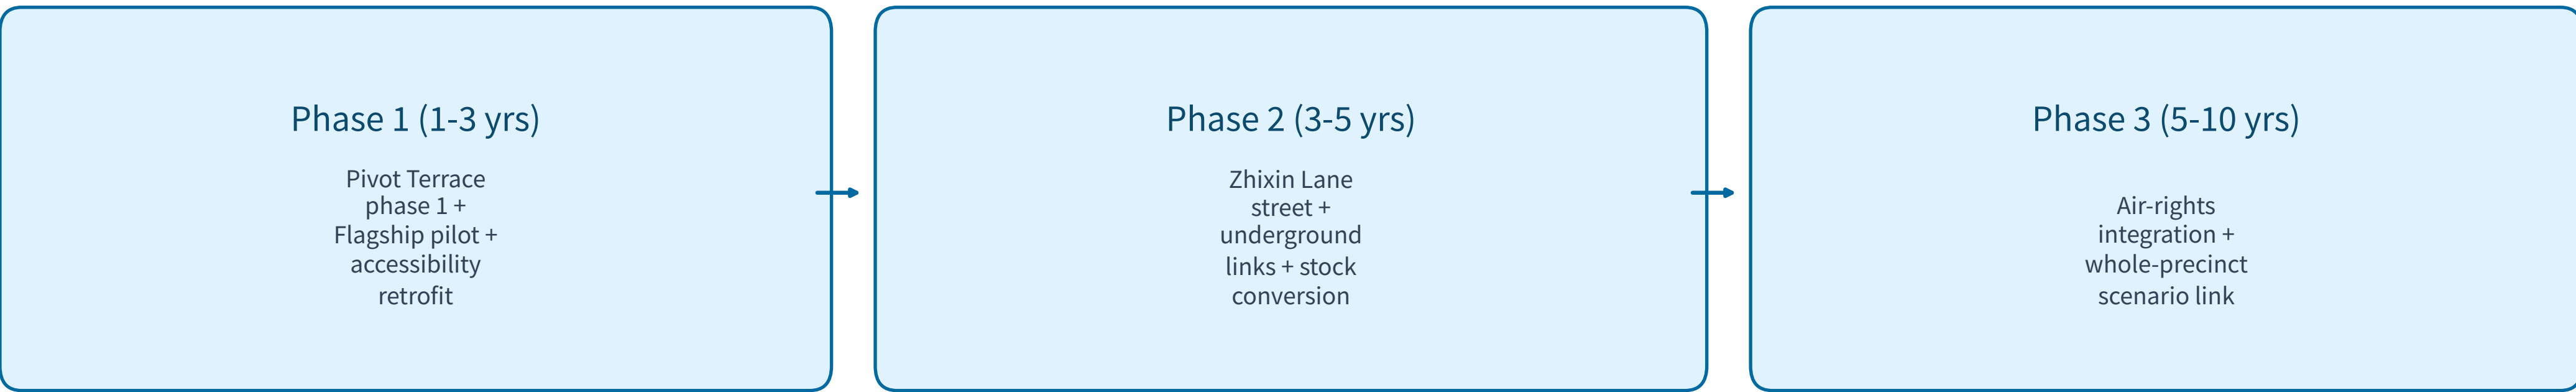

Professional Deepening Index Map (concept): parcels • roads • station entries • constraints

PROVISIONAL boundary • not an official redline • recalculate after official data

This is a concept-level index: parcel subdivision, road classes, entrance coordinates and protection lines follow the official regulatory plan, topographic survey and rail data, and are recalculated after release; it constitutes no statutory redline.

Phasing and key mechanisms (concept)

Mechanisms: RACI • phase gates • stop/exit conditions • annual disclosure and resident channels • Bell Medal points • Bell Pact • anonymized aggregation only / human review / no over-surveillance

Areas and ratios are rounded concept values; recalculate by the declared formulas after the organizer publishes official boundaries and baseline data.
