

Jingzhang WeaveLine • Century Track Belt

Centennial Jingzhang AI Innovation Belt international call • Jingzhang Railway Heritage Park corridor concept study

PROVISIONAL boundary • not an official redline • recalculate after official data

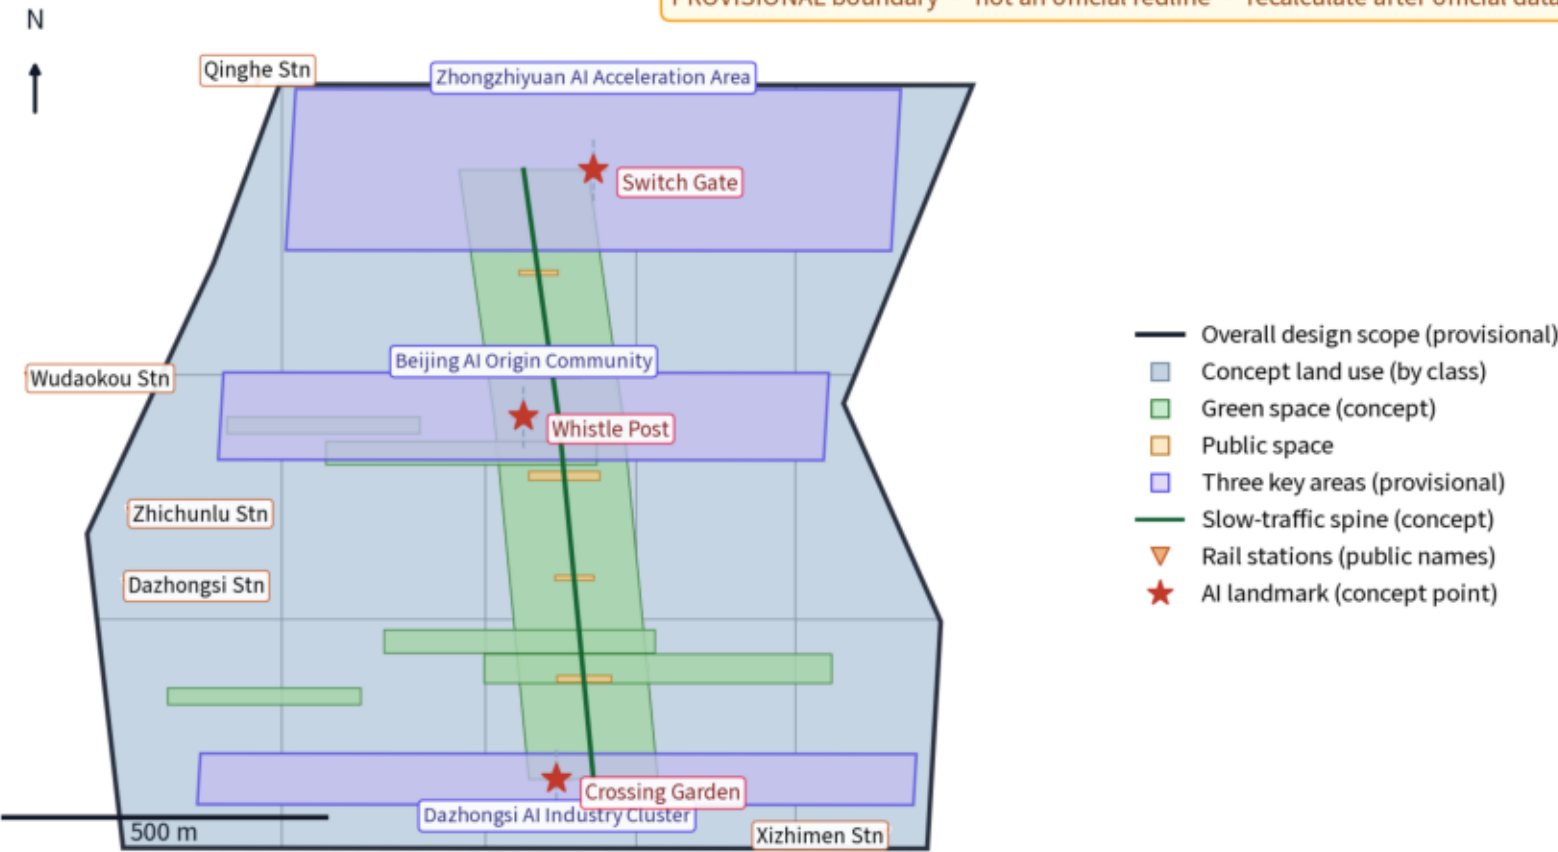

Three-tier scopes (official wording): coordinated study $\approx 43.6 \text{ km}^2$ • overall design $\approx 11.4 \text{ km}^2$ • key areas $\approx 368.4 \text{ ha}$ total; this package covers a sub-scope within the overall design scope; all geometry provisional, recomputed after official data.

Overall Design Overview & Land-Use Structure

Overall design overview (provisional geometry)

Overall Design Overview — Jingzhang WeaveLine • Century Track Belt (provisional)

PROVISIONAL boundary • not an official redline • recalculate after official data

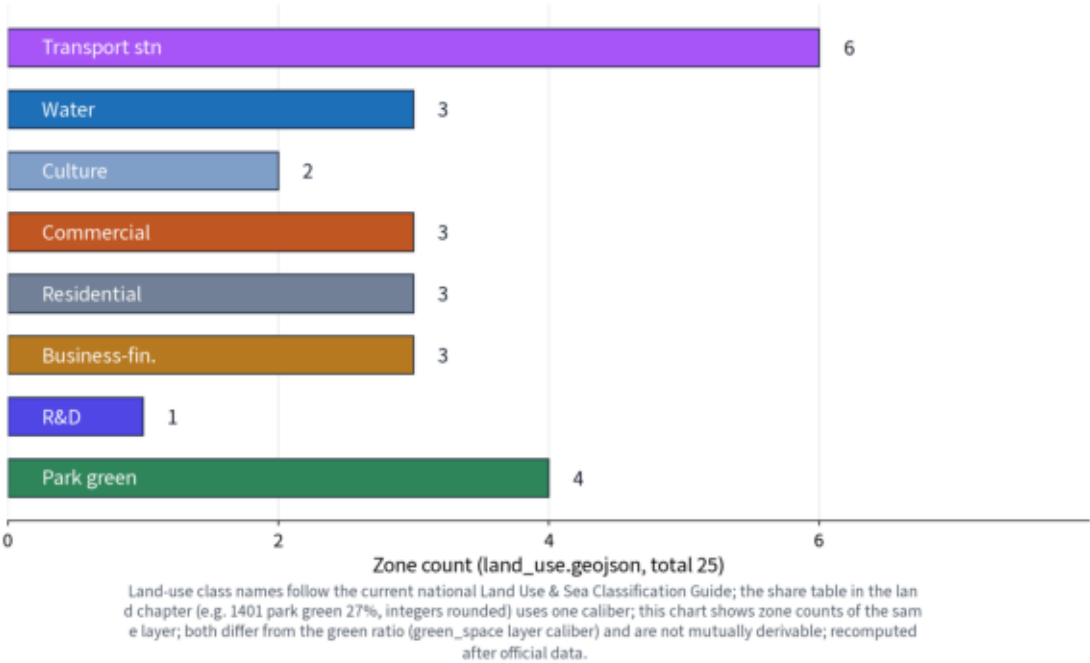

Three-tier scopes (official wording): coordinated study $\approx 43.6 \text{ km}^2$ • overall design $\approx 11.4 \text{ km}^2$ • key areas $\approx 368.4 \text{ ha}$ total; this package covers a sub-scope inside the overall design scope; all geometry is a provisional concept model, recomputed after official data is published.

Conceptual land-use structure

Conceptual Land-Use Structure (single caliber: zone counts)

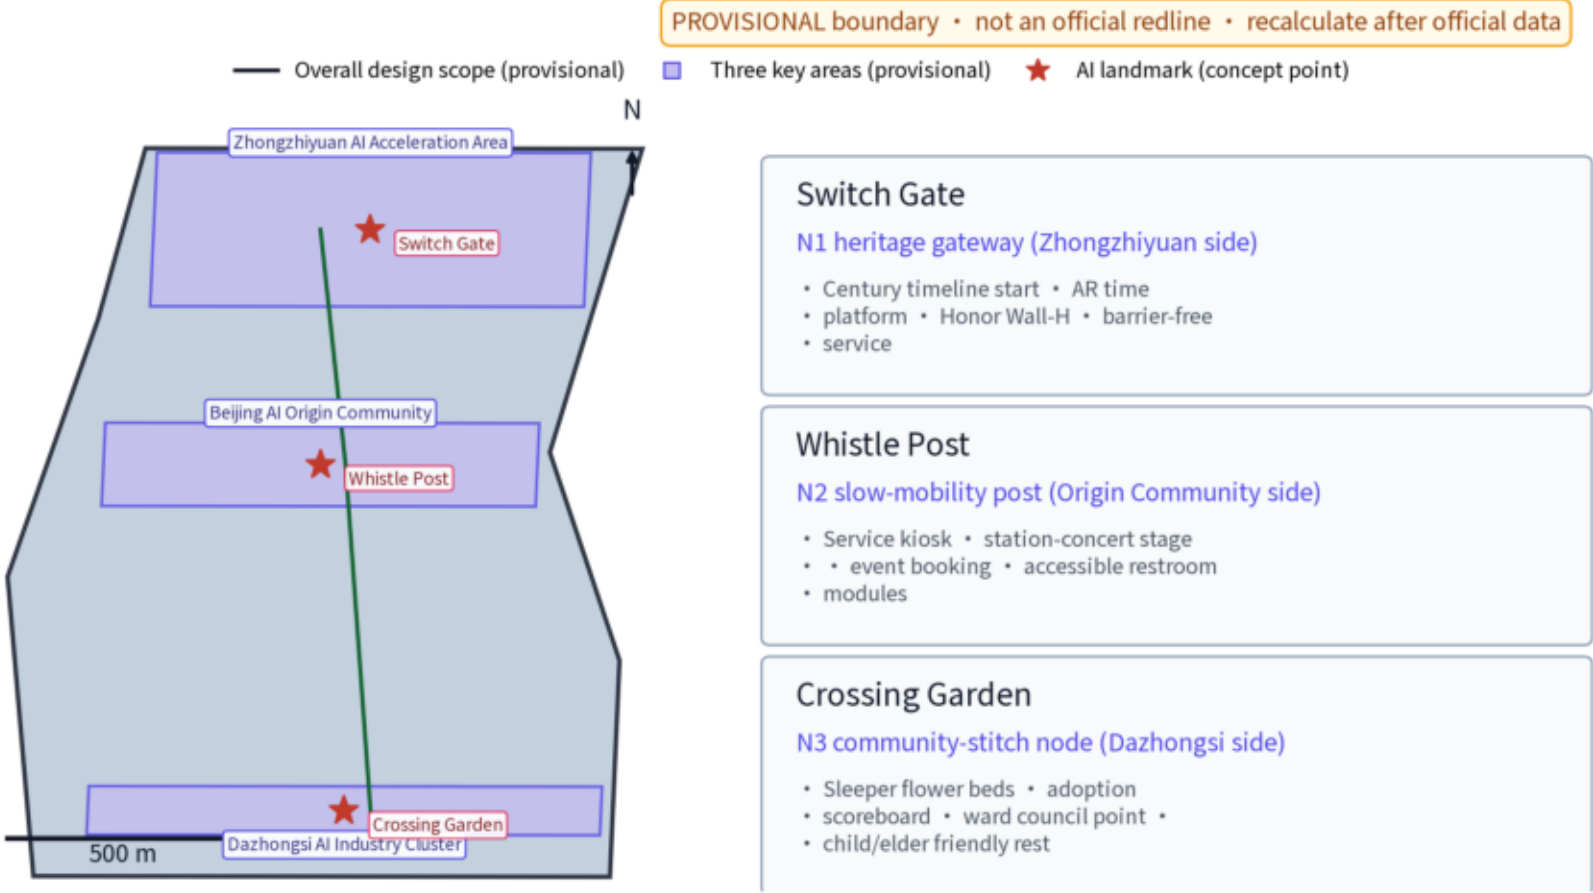

PROVISIONAL boundary • not an official redline • recalculate after official data

Three Nodes & Mobility Blue-Green

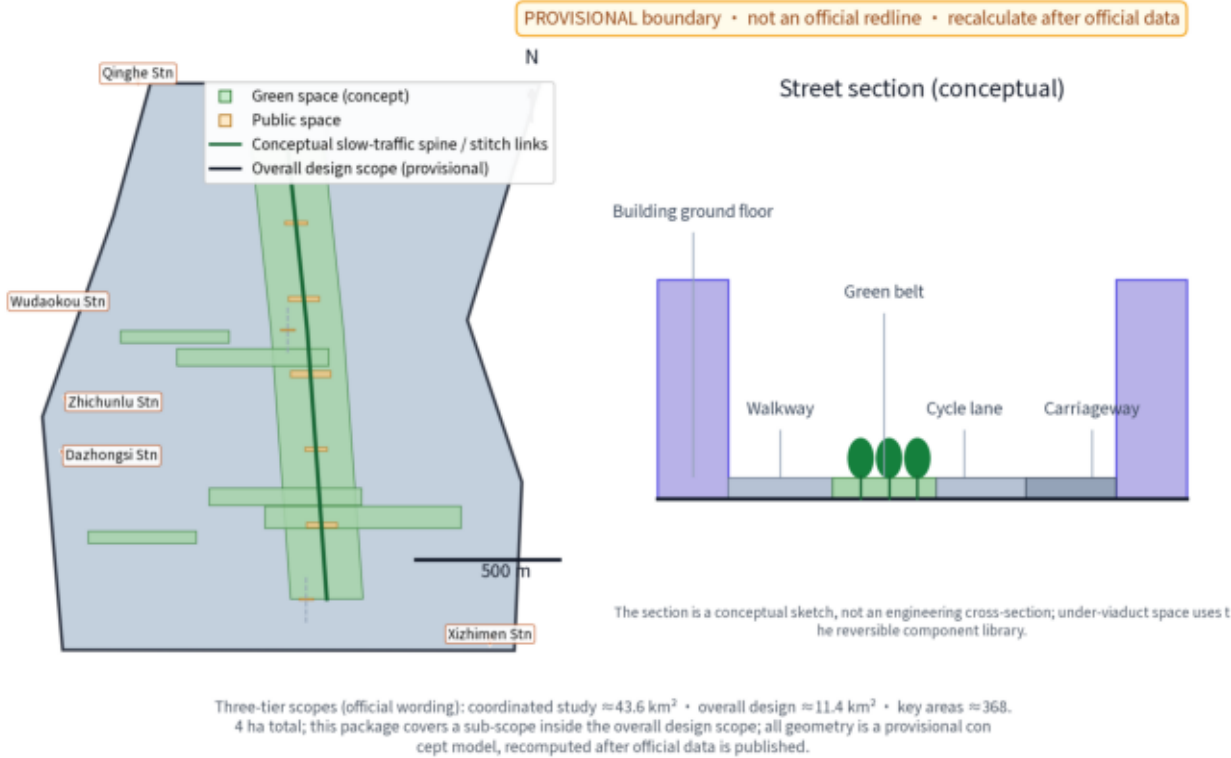

Three nodes: index and design tasks

Three Key Areas & Three-Node Index (concept points)

Mobility & blue-green network

Slow Mobility & Blue-Green Network (with street section)

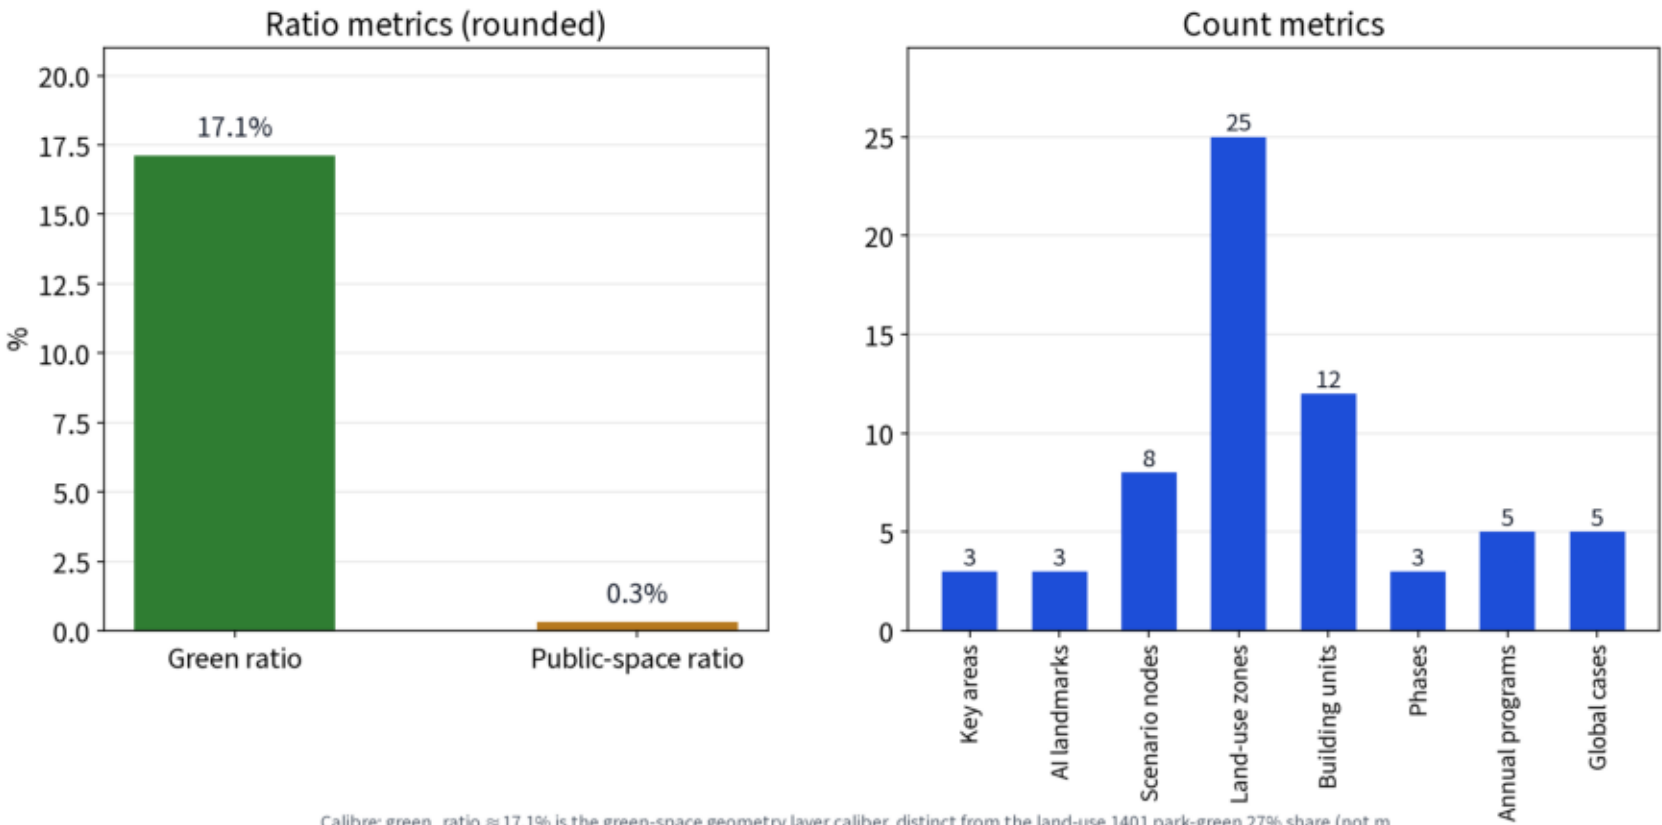

Key Metrics & Regional Synergy

Key metric evidence (ratios and counts on separate axes)

Key Metric Evidence (ratios and counts on separate axes, rounded)

PROVISIONAL boundary • not an official redline • recalculate after official data

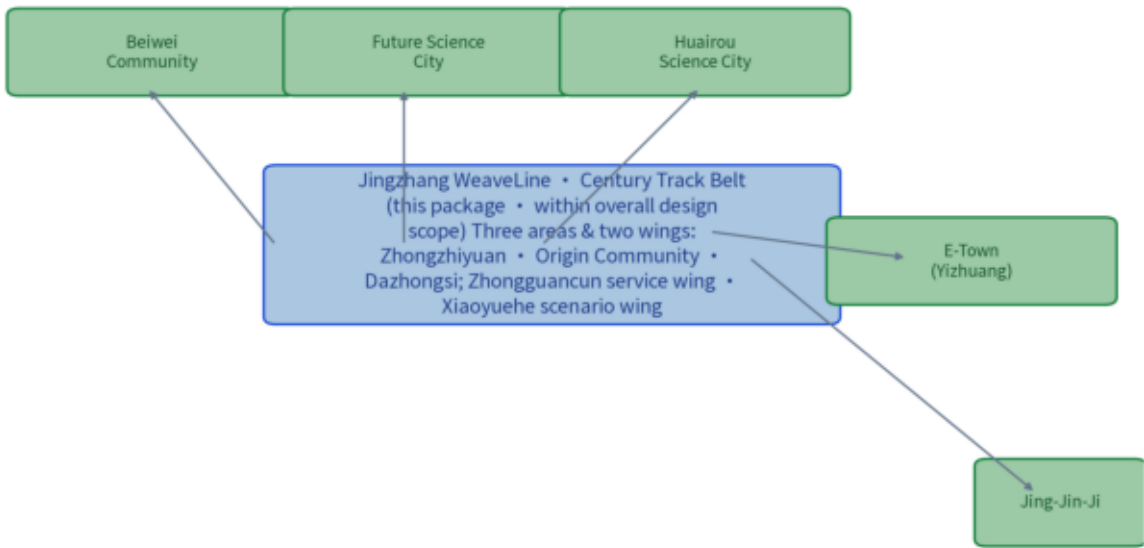

Calibre: green_ratio ≈ 17.1% is the green-space geometry layer caliber, distinct from the land-use 1401 park-green 27% share (not mutually derivable); ratios and counts are on separate axes; all values are provisional concept figures with formulas, confidence and recompute triggers in proposal.md and metrics.json, recomputed after official data is published. Also persona_count=5, scenario_card_count=10, industry_test_scenario_count=3 (see proposal tables and metrics.json).

Regional synergy mechanism (schematic)

Regional Synergy Mechanism (concept • Corridor Alliance)

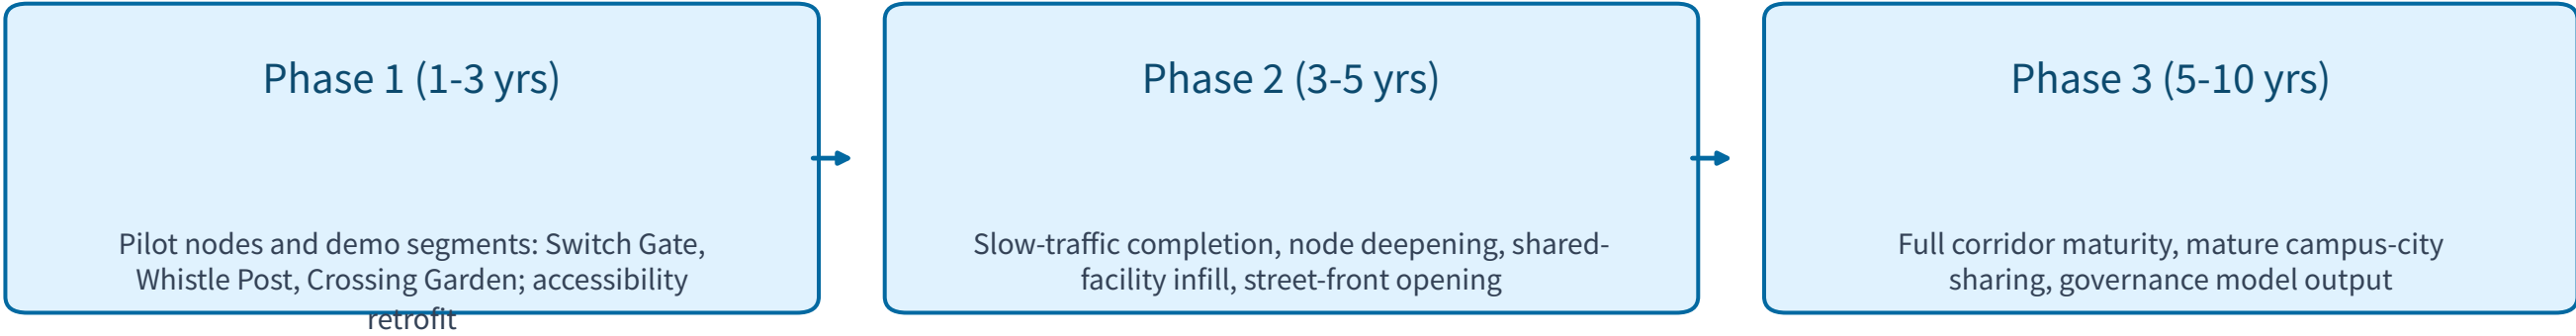

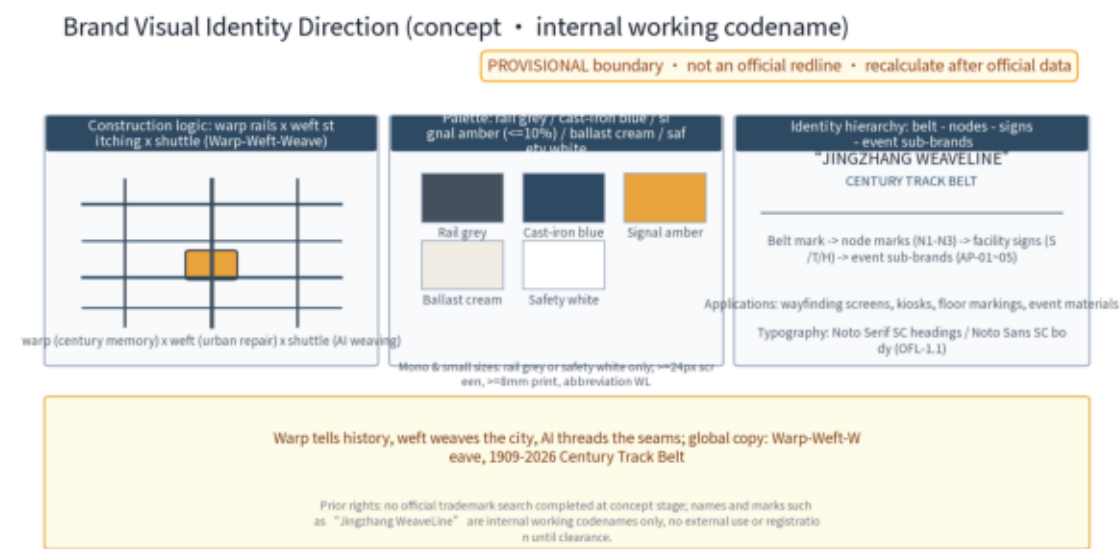

PROVISIONAL boundary • not an official redline • recalculate after official data

"Corridor Alliance" : annual rotating council • project filing • pilot/compute sharing booking • scenario-opening applications • joint annual programs; interface actors are existing types (community councils, campuses, park operators, enterprise alliances, volunteer & developer communities). Schematic only; no administrative boundaries or precise positions.

Brand Visual Identity Direction (concept • internal working codename) • Phased Implementation

Brand Visual Identity Direction (concept • internal working codename)

Phasing is a conceptual rhythm, not an implementation commitment; each phase gate includes cost review, ownership confirmation and public review; pilots P1/P2 are the near-term pilot areas.
