

Shangdi SkyLink Living Circle - Board 1/2

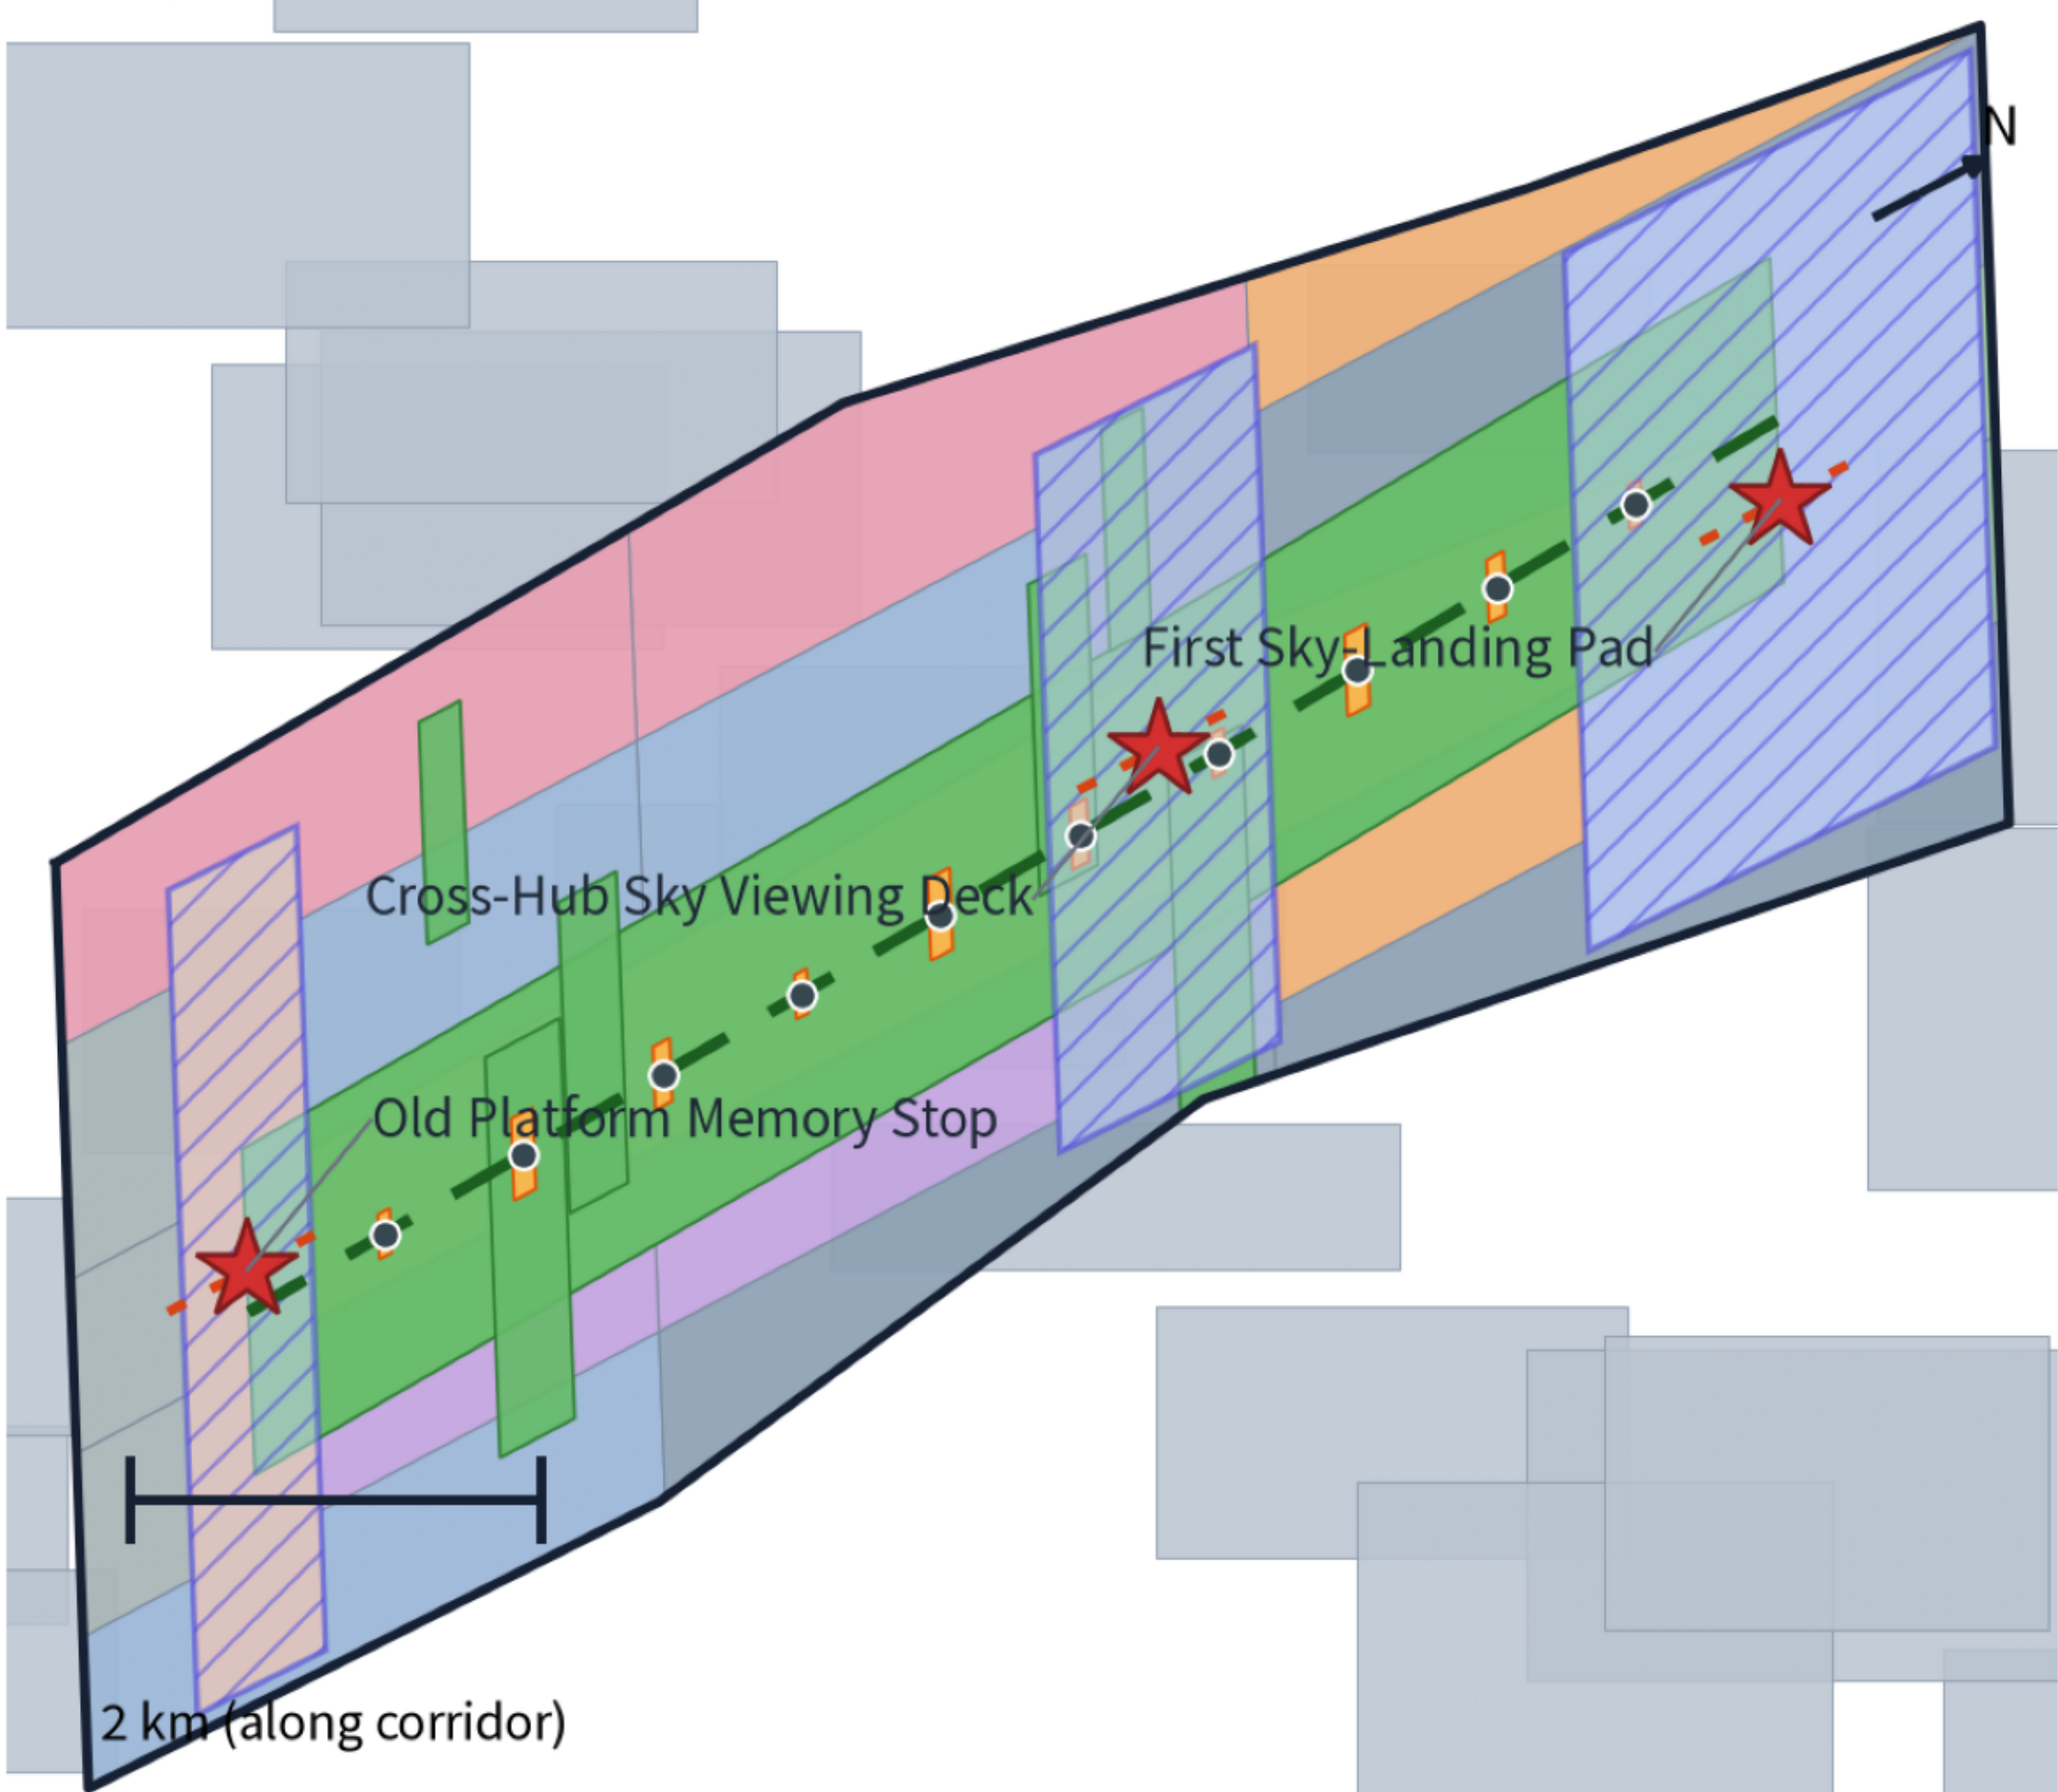

Overall Concept & Land Use

Concept proposal • provisional boundary • Not an official redline • Recalculate after official data

Overall Design Overview (provisional geometry)

Shangdi SkyLink Living Circle • Concept proposal

Concept context fabric (schematic)

临时概念边界 • 非官方红线 • 官方数据发布后复算

Provisional concept boundary • Not an official redline • Recalculate after official data

图例与口径 Legend & notes

Three-tier scopes (announcement text):
Coordinated research $\approx 43.6 \text{ km}^2$
Overall design $\approx 11.4 \text{ km}^2$
Key areas $\approx 368.4 \text{ ha}$ (3 sites)
No official polygon published; no invented boundary

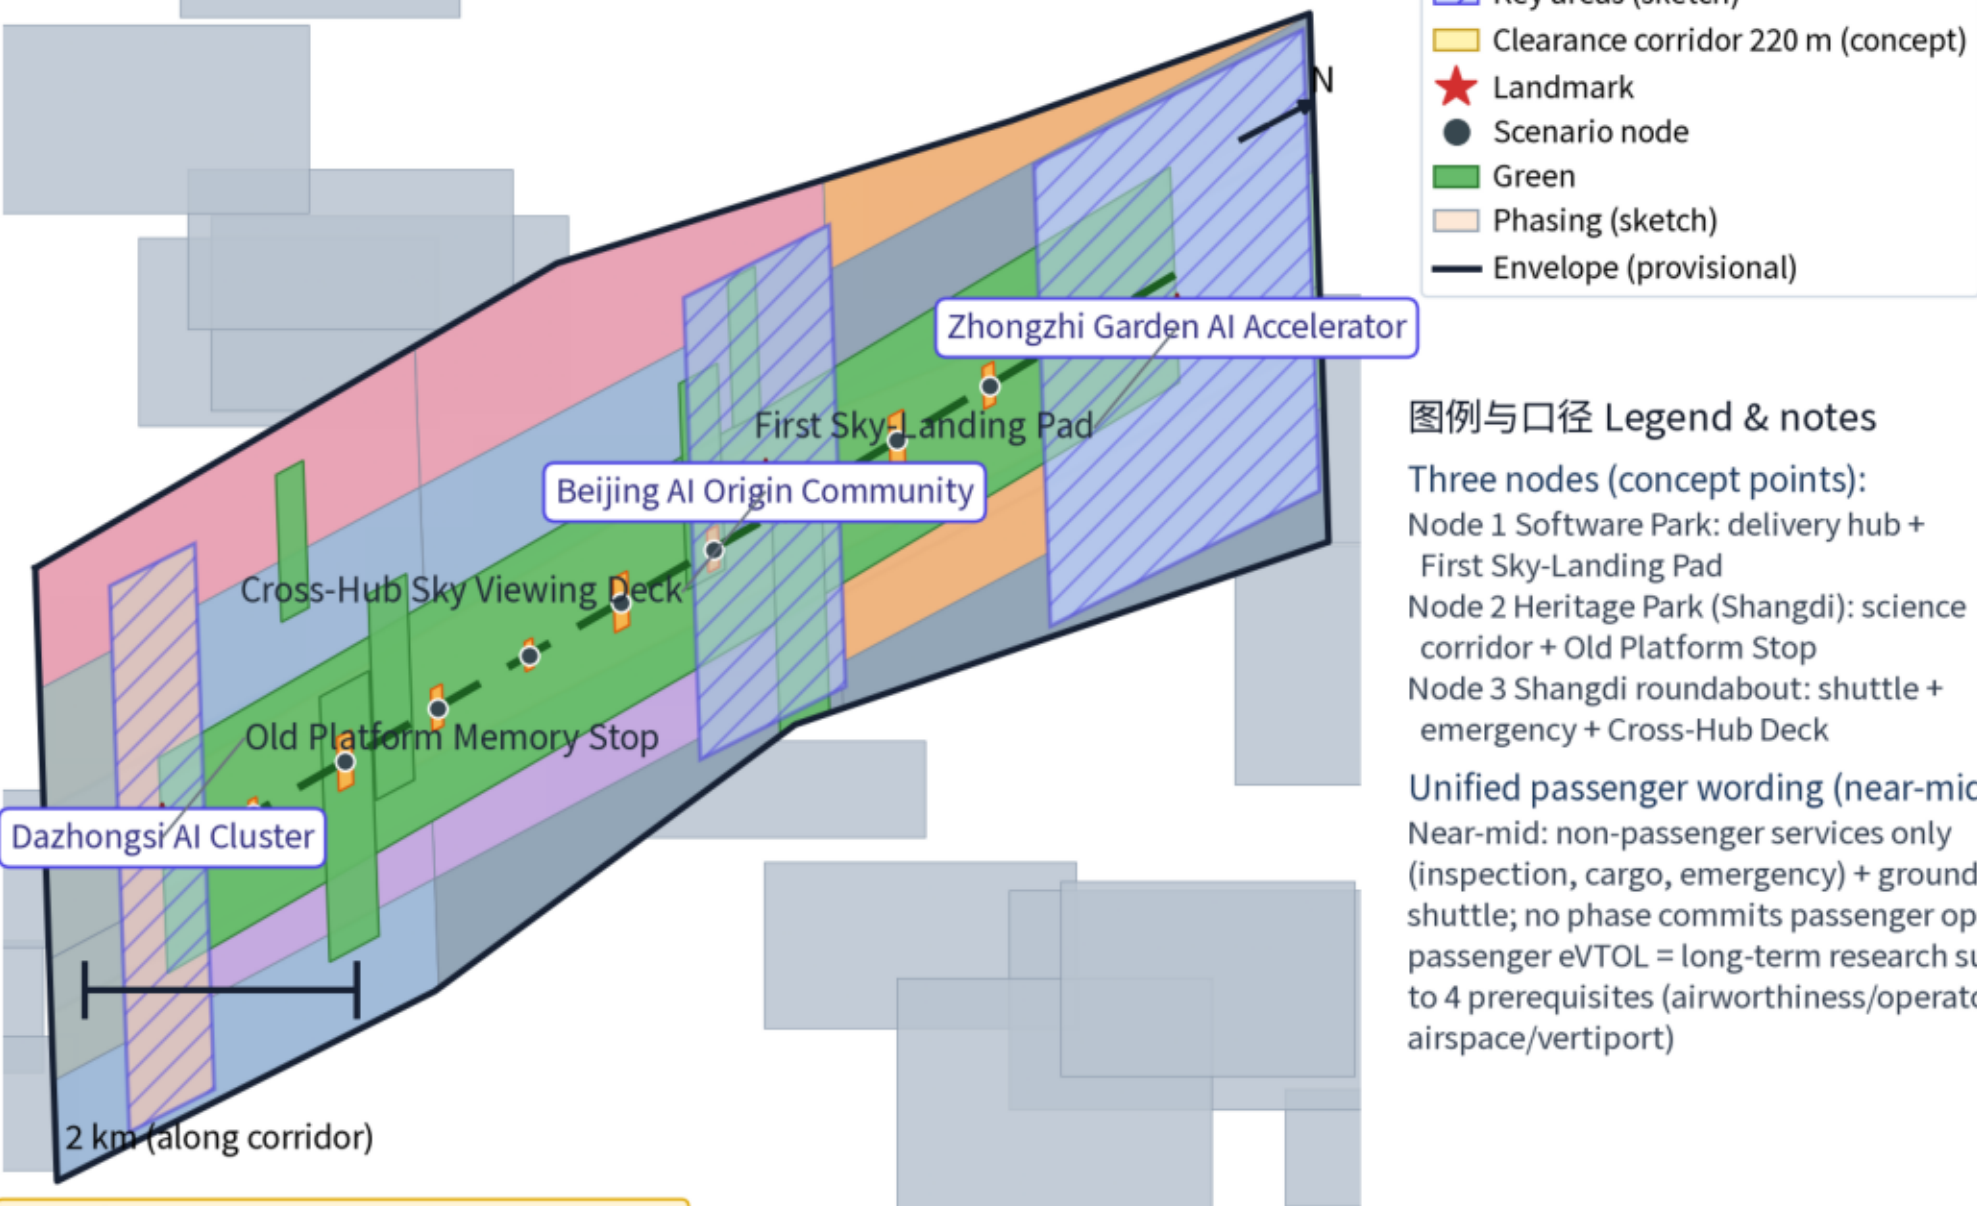

This package sub-scope (provisional):
Envelope A $\approx 11.41 \text{ km}^2$ (geometry)
Envelope B $\approx 2.1 \text{ km}^2$ (deepening, concept)
Full recompute after official geometry

Map elements (CGCS2000/3°GK 117E):
8 land-use codes / 21 concept parcels
7 green parcels • 13 public-space features
Clearance corridor 180–260 m (concept, mid 220 m)

Three Key Nodes - Detailed Design Index (concept points)

Shangdi SkyLink Living Circle • Concept proposal

Concept context fabric (schematic)

临时概念边界 • 非官方红线 • 官方数据发布后复算

Provisional concept boundary • Not an official redline • Recalculate after official data

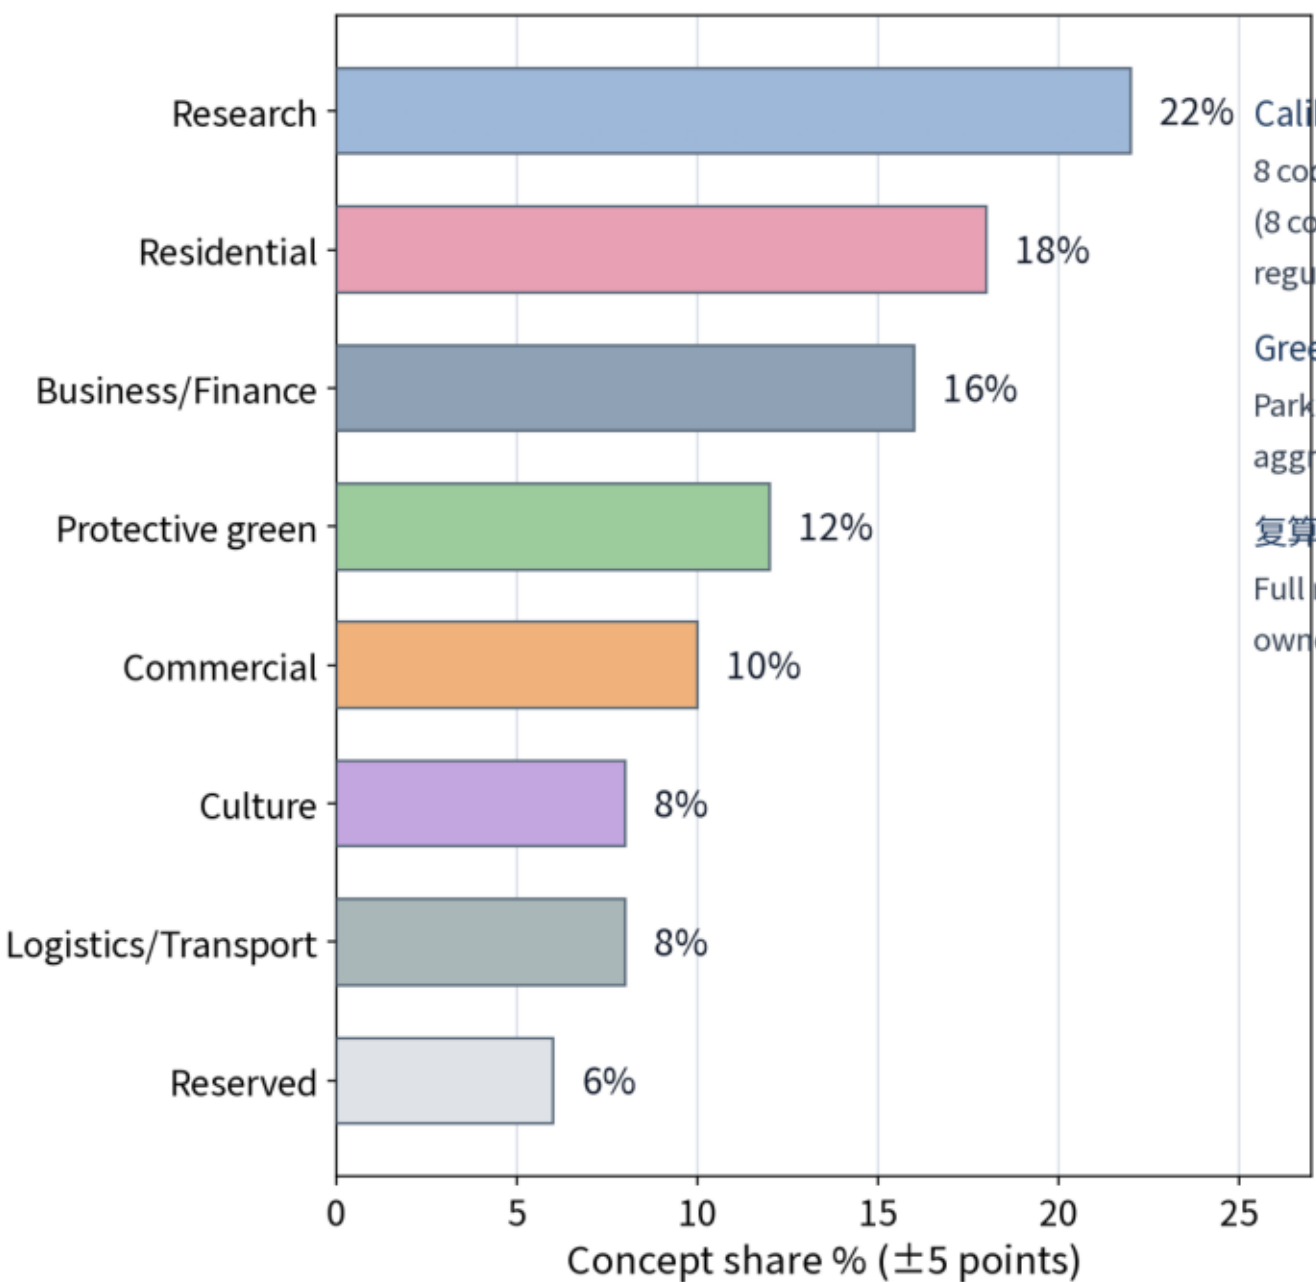

图例与口径 Legend & notes

Three nodes (concept points):
Node 1 Software Park: delivery hub + First Sky-Landing Pad
Node 2 Heritage Park (Shangdi): science corridor + Old Platform Stop
Node 3 Shangdi roundabout: shuttle + emergency + Cross-Hub Deck
Unified passenger wording (near-mid):
Near-mid: non-passenger services only (inspection, cargo, emergency) + ground shuttle; no phase commits passenger ops; passenger eVTOL = long-term research subject to 4 prerequisites (airworthiness/operator/airspace/vertiport)

Land-Use Structure (Concept)

Shangdi SkyLink Living Circle • Concept proposal

Provisional concept boundary • Not an official redline • Recalculate after official data

Caliber (concept):
8 codes match geometry/land_use.geojson (8 codes / 21 concept parcels); not a regulatory-plan drawing
Green aggregation:
Park green (1401) + protective green (1402) aggregated; reserved land is a concept placeholder
复算触发 Recompute trigger:
Full recalculation after official land-use and ownership data release; no statutory conclusion

Shangdi SkyLink Living Circle - Board 2/2

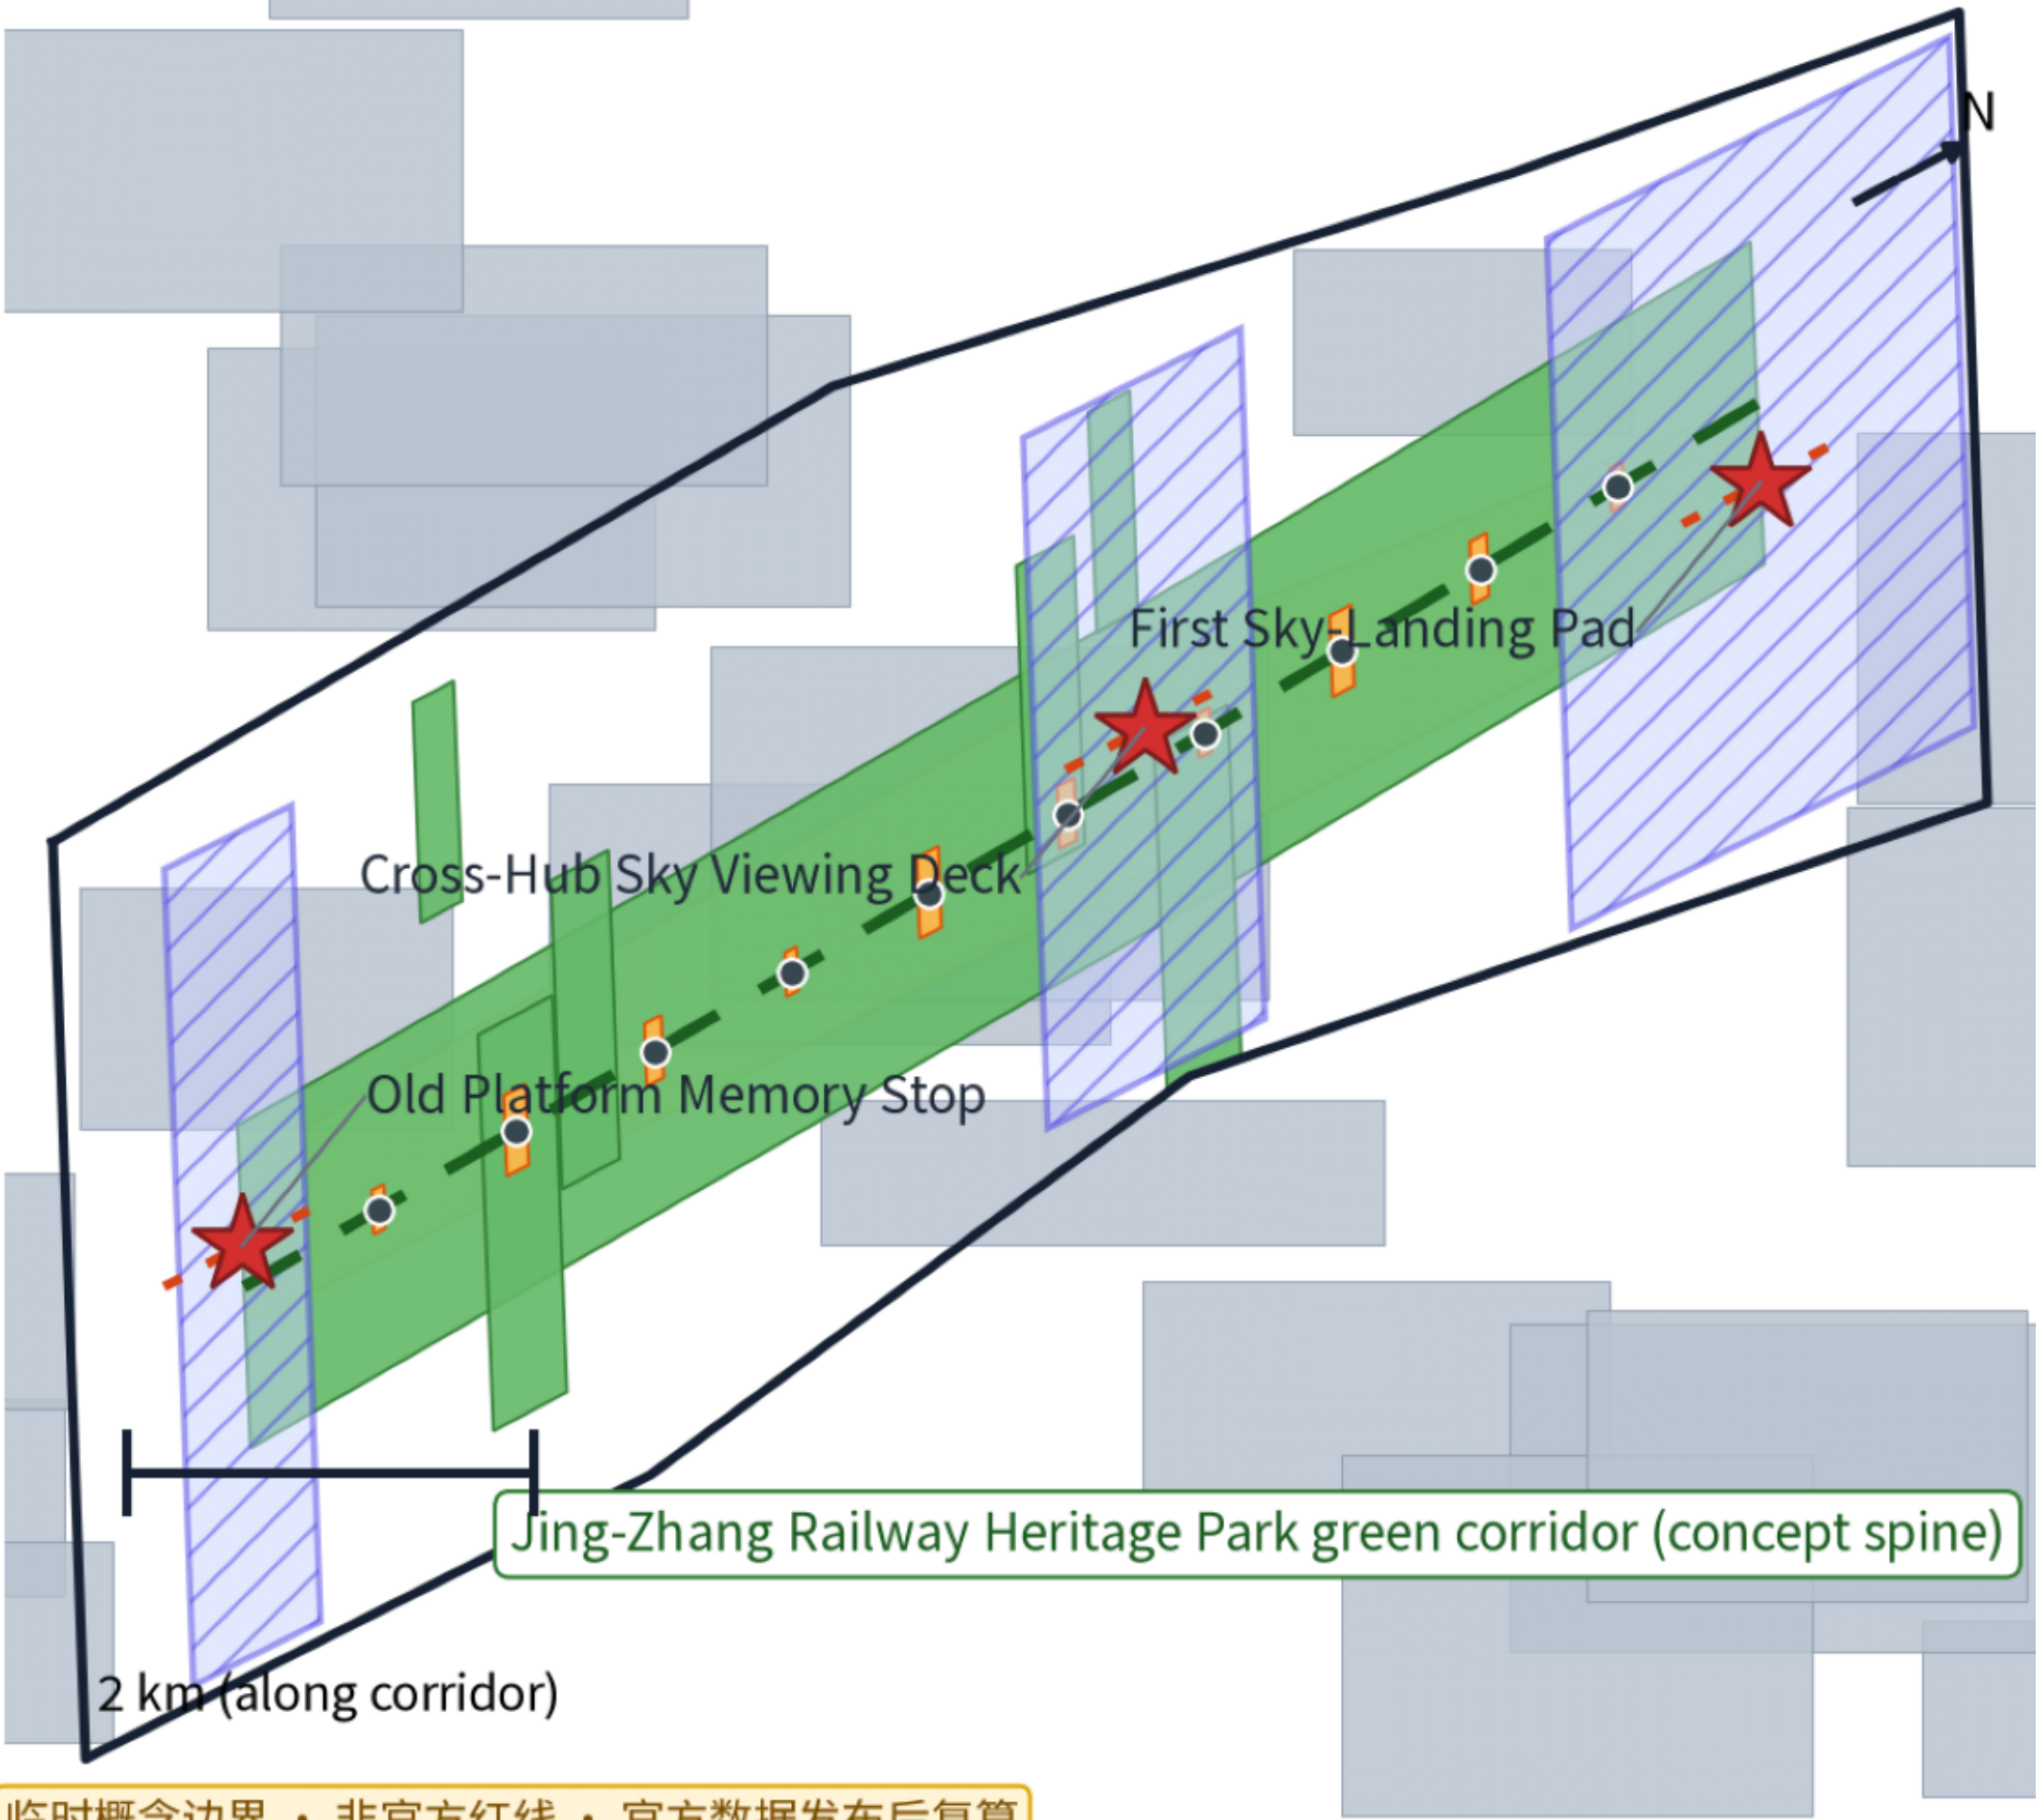

Mobility, Blue-Green & Metrics

Concept proposal • provisional boundary • Not an official redline • Recalculate after official data

Mobility & Blue-Green Public Space (concept)

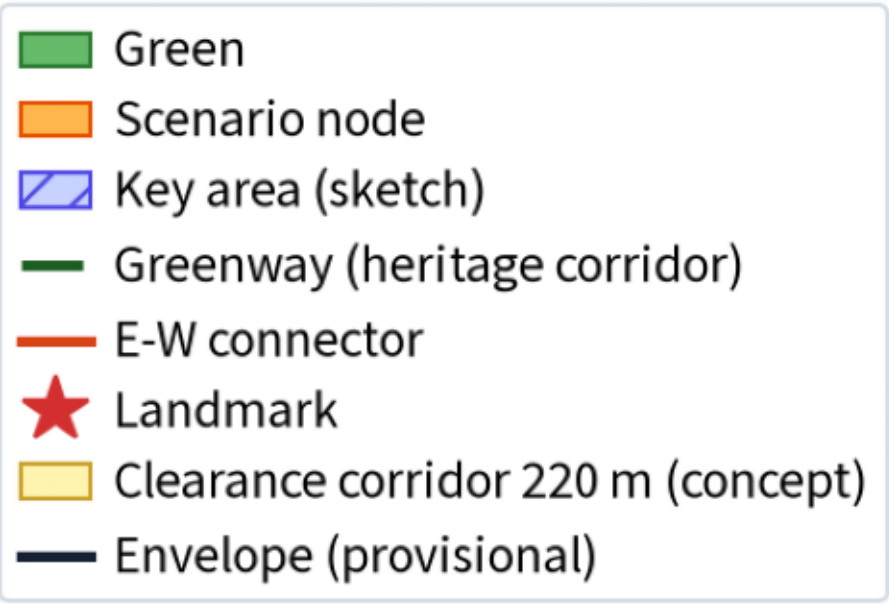

Shangdi SkyLink Living Circle • Concept proposal

Concept context fabric (schematic)

临时概念边界 • 非官方红线 • 官方数据发布后复算

Provisional concept boundary • Not an official redline • Recalculate after official data

图例与口径 Legend & notes

Blue-green skeleton: 1 corridor + 3 nodes:
Heritage-park linear green corridor links the Software Park central green and the 3 nodes; pads embed as modular, reversible units in the green texture

Recomputed indicators (provisional):
green_ratio ≈ 0.329
public_space_ratio ≈ 0.007
Recalculate after official green/public space boundaries are published

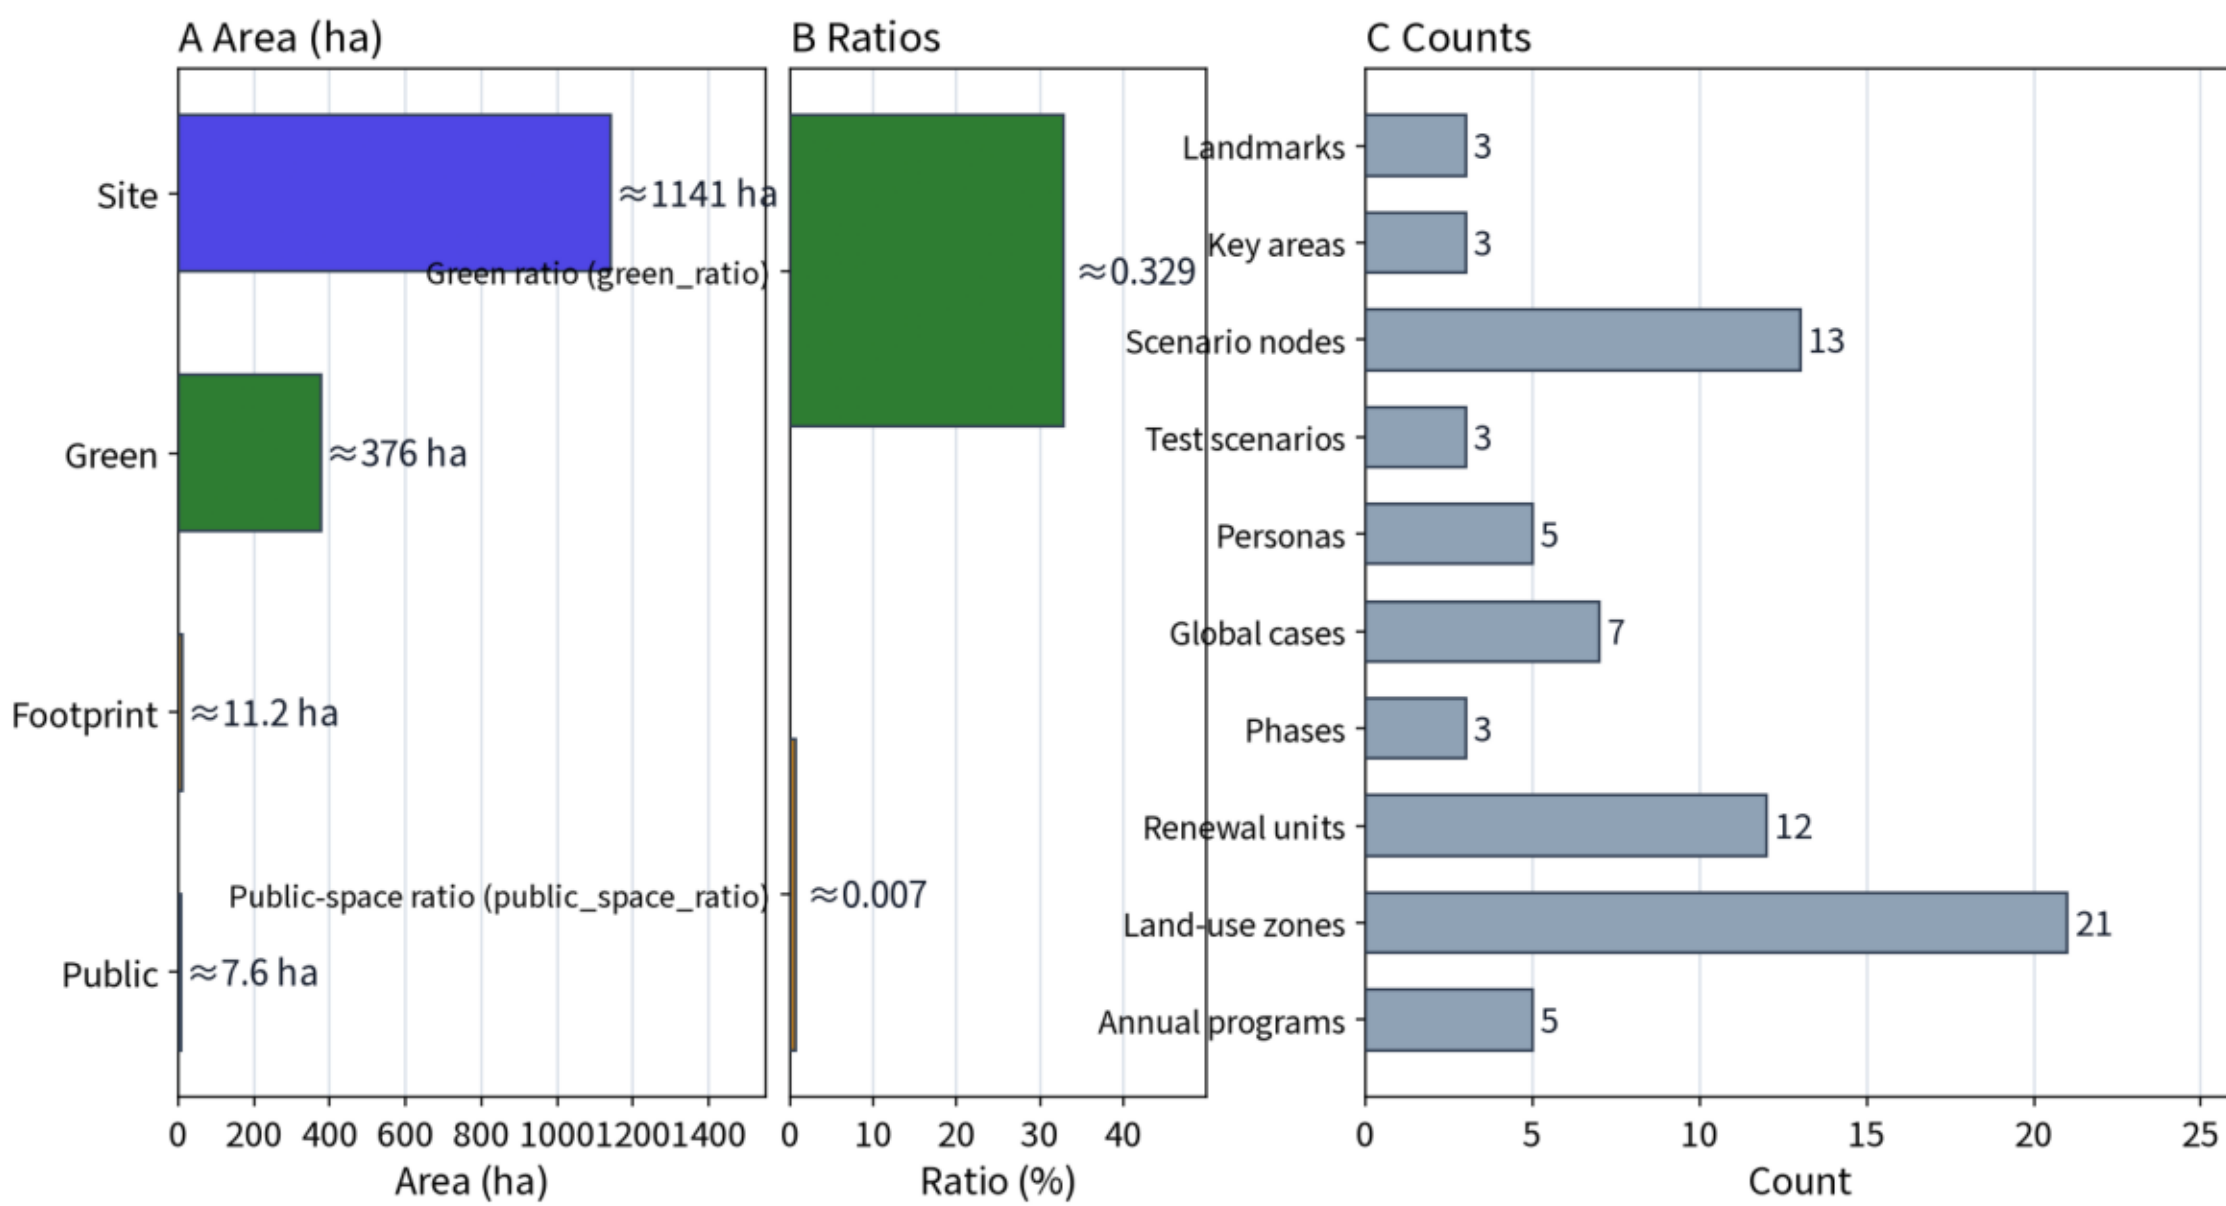

公共空间组件库 Component library:
8 reversible items: smart-pole pads, cabinets, accessible waiting, quiet cabins, science gallery, simulator, signage modules, emergency units

Key-Metric Evidence (Provisional)

Shangdi SkyLink Living Circle • Concept proposal

Provisional concept boundary • Not an official redline • Recalculate after official data

临时概念边界 • 非官方红线 • 官方数据发布后复算

Separate axes for area/ratio/count; values from metrics.json (provisional); recompute after official data; operational metrics are concept targets.

Area basis: site ≈ 11.41 km² • green ≈ 3.76 km² • footprint ≈ 0.112 km² • public ≈ 0.076 km² (recomputed, reduced precision)
