Blue-green skeleton: 1 corridor + 3 nodes:
Heritage-park linear green corridor links the Software Park central green and the 3 nodes; pads embed as modular, reversible units in the green texture

Recomputed indicators (provisional):
green_ratio ≈ 0.329
public_space_ratio ≈ 0.007
Recalculate after official green/public space boundaries are published

公共空间组件库 Component library:
8 reversible items: smart-pole pads, cabinets, accessible waiting, quiet cabins, science gallery, simulator, signage modules, emergency units

Key-Metric Evidence (Provisional)

Shangdi SkyLink Living Circle • Concept proposal

Provisional concept boundary • Not an official redline • Recalculate after official data

临时概念边界 • 非官方红线 • 官方数据发布后复算

Separate axes for area/ratio/count; values from metrics.json (provisional); recompute after official data; operational metrics are concept targets.

Area basis: site ≈11.41 km² • green ≈3.76 km² • footprint ≈0.112 km² • public ≈0.076 km² (recomputed, reduced precision)
