

KnowRing — Xueyuan Road Campus Innovation Belt (Concept • A0 Board 1/2)

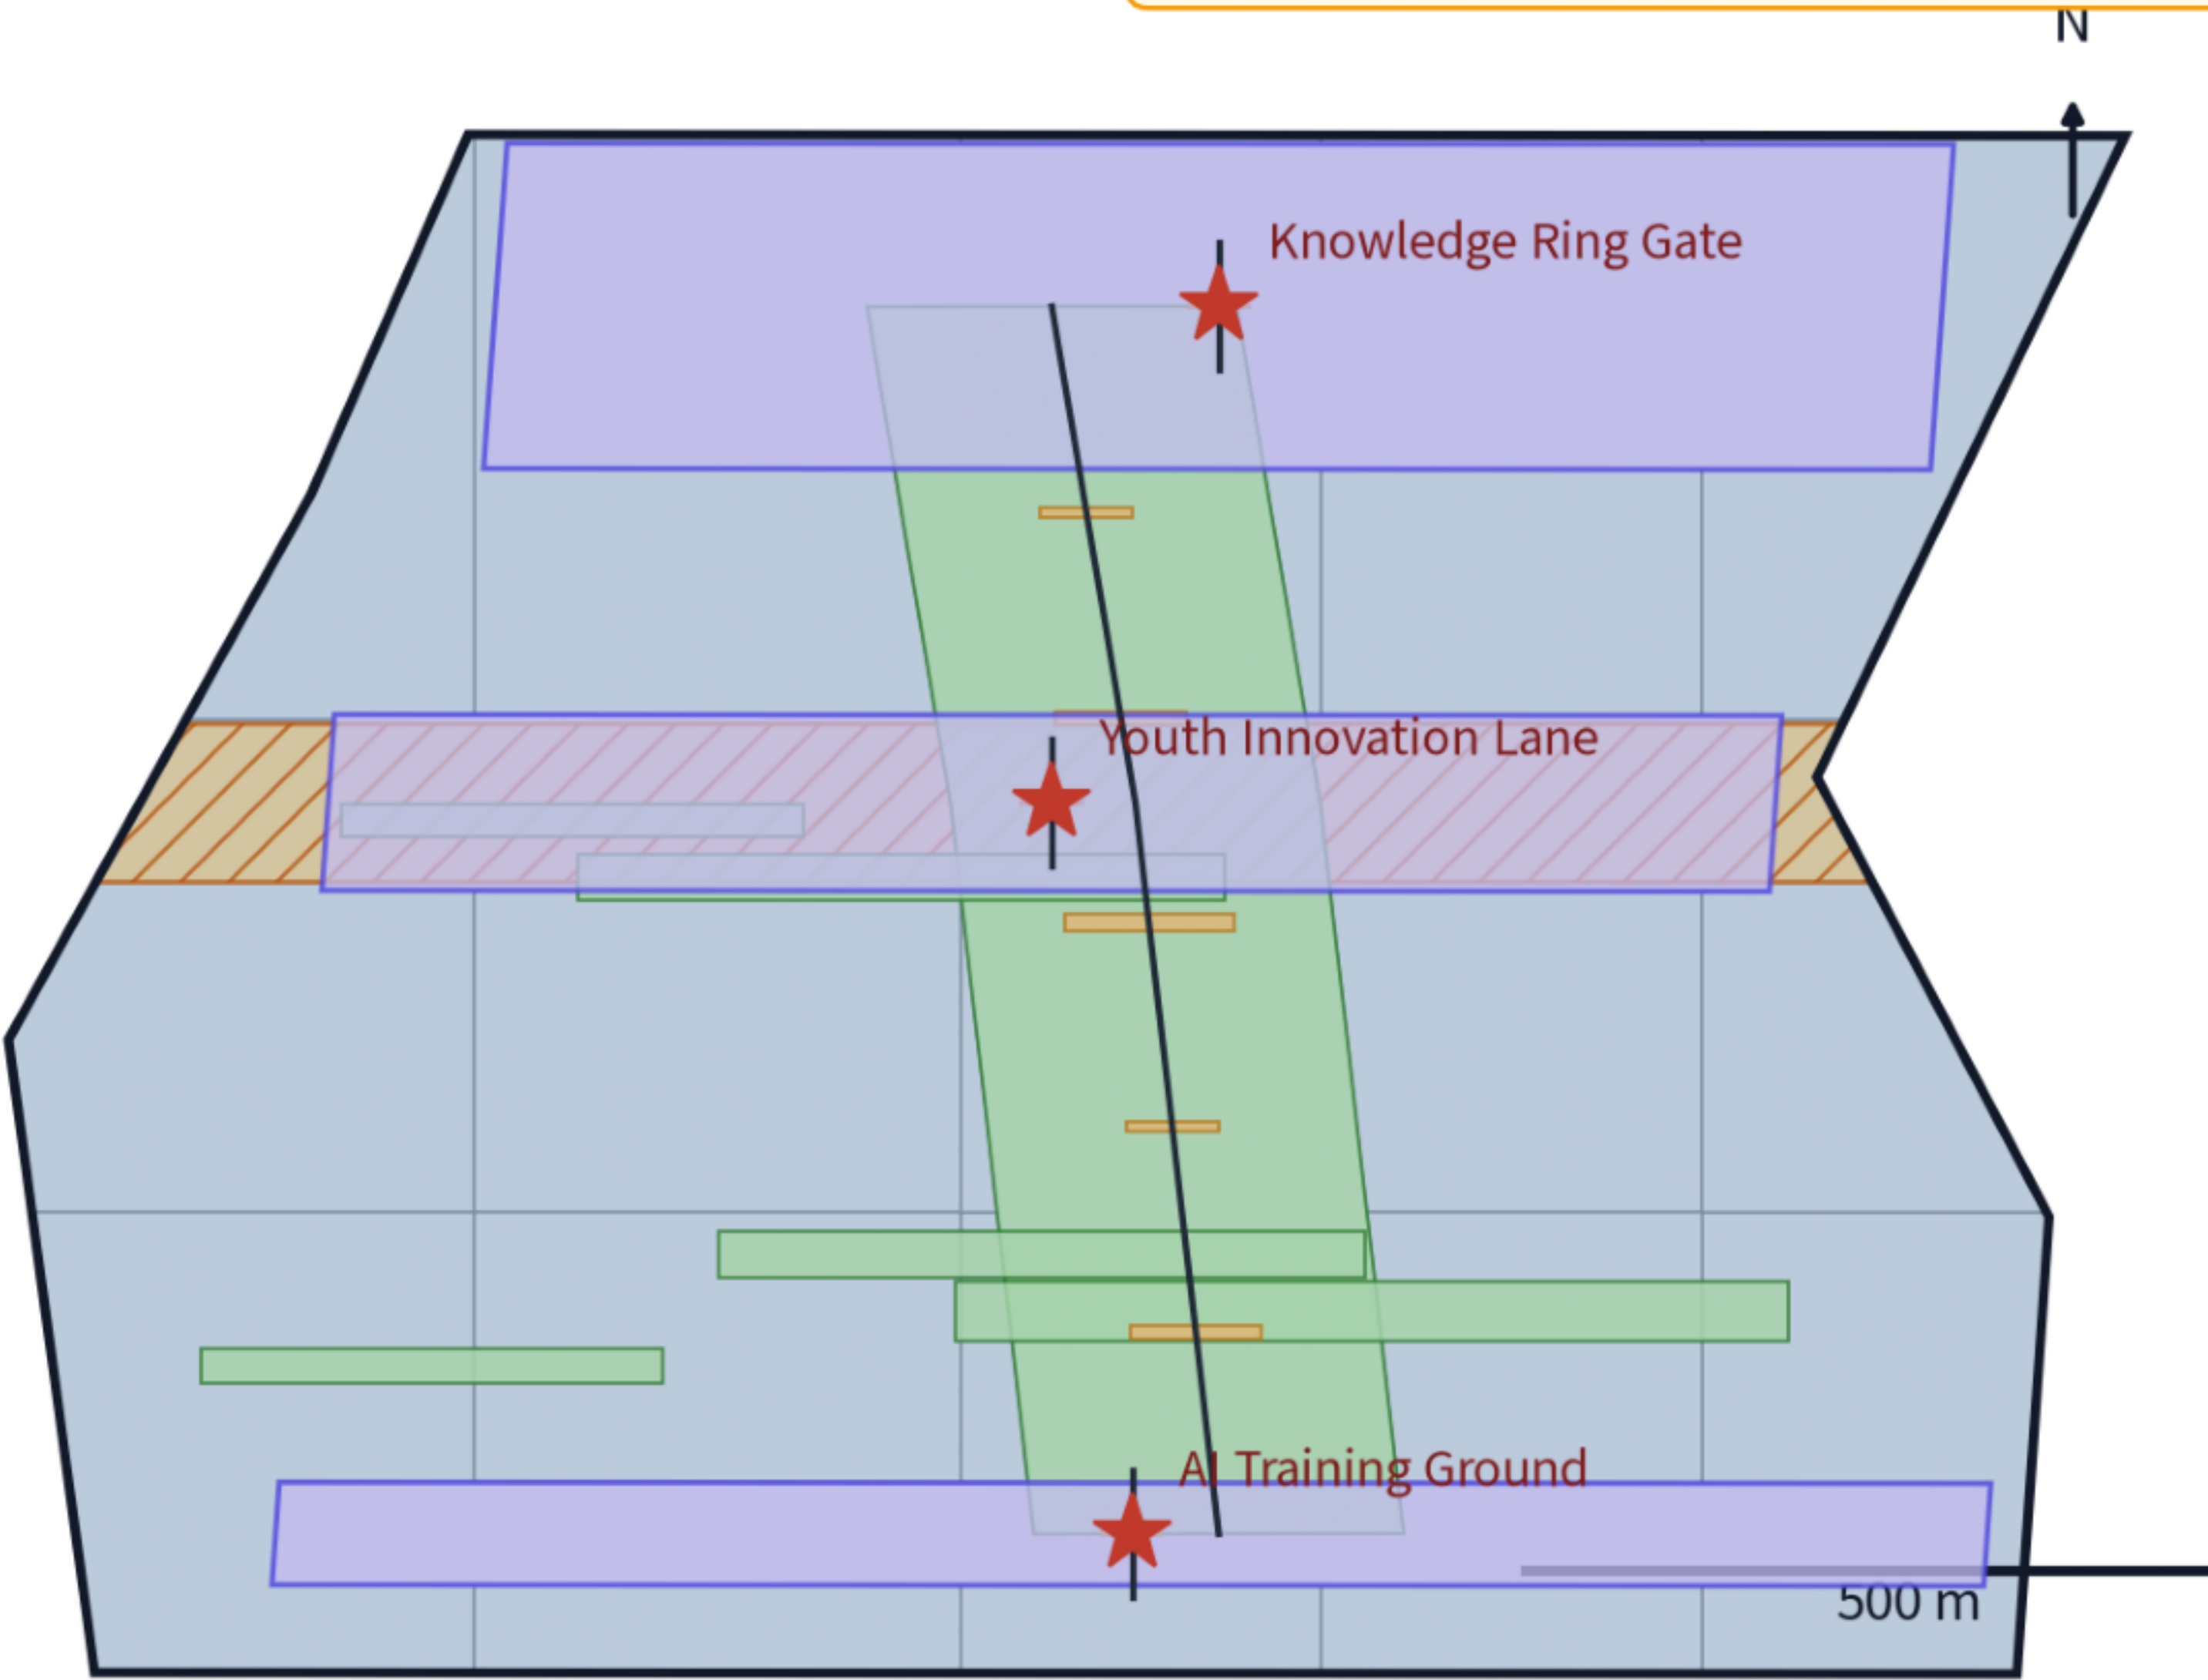

One loop, three nodes, five AI domains; anonymized aggregation and human review only; three-tier scopes per official text ($\approx 43.6\text{ km}^2$ / $\approx 11.4\text{ km}^2$ / $\approx 368.4\text{ ha}$)

PROVISIONAL boundary • not an official redline • recalculate after official data

Overall design overview (provisional)

Overall Design Overview — Xueyuan Road Campus Belt (provisional)

PROVISIONAL boundary • not an official redline • recalculate after official data

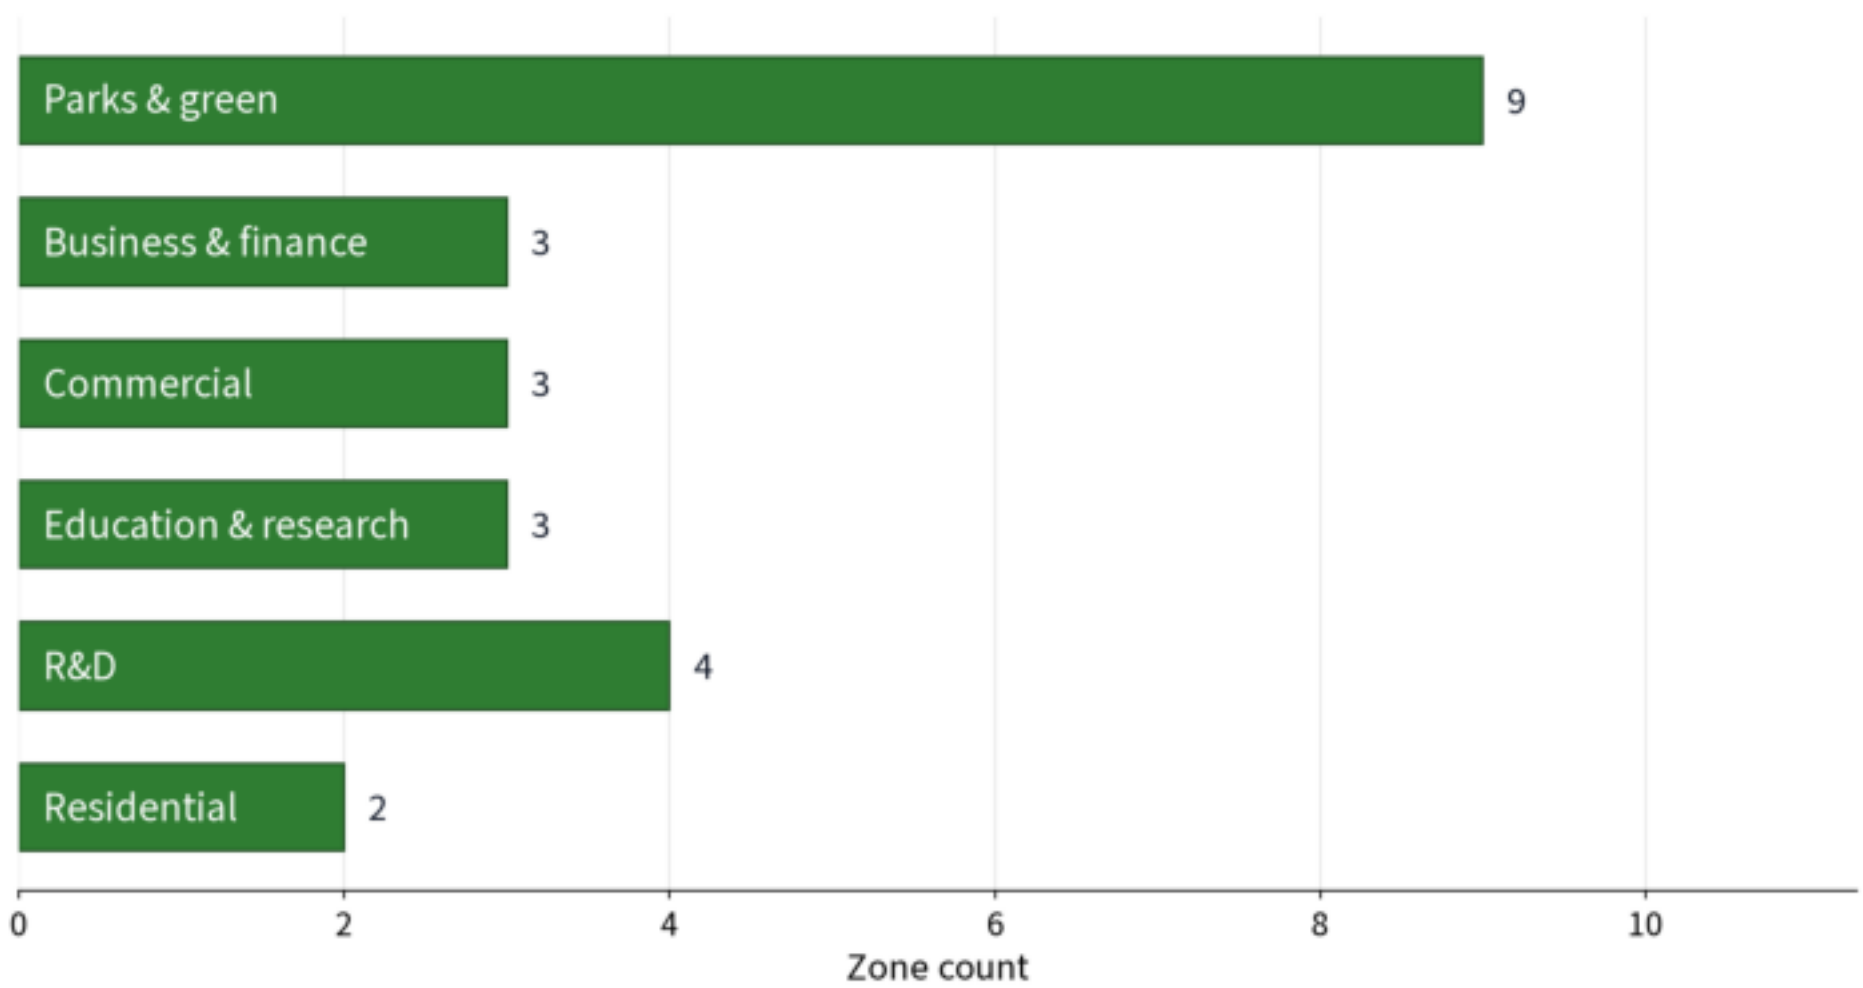

Areas and ratios are rounded concept values; recalculate by the declared formulas after the organizer publishes official boundaries and baseline data.

- Overall design scope (provisional)
- Key areas (provisional)
- Green space (concept)
- Public space / plaza
- Slow-traffic spine (concept)
- ★ AI landmark (conceptual site)
- Heritage zone (concept)

Conceptual land-use structure

Conceptual land-use structure (zone counts in land_use.geojson, single caliber)

PROVISIONAL boundary • not an official redline • recalculate after official data

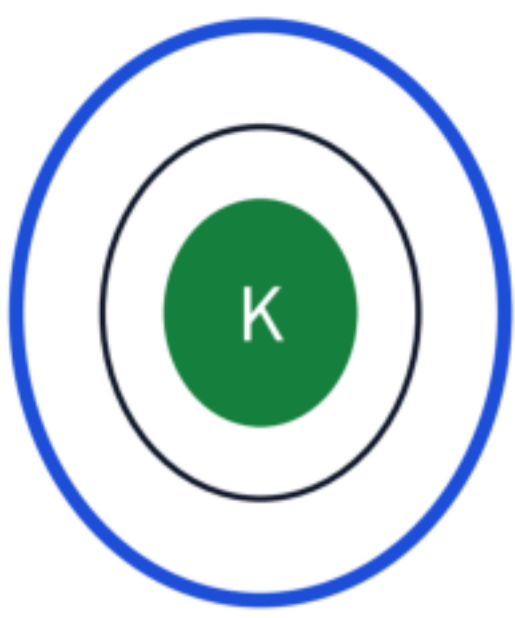

Land-use class names follow the national Land Use & Sea Classification Guide; no official baseline exists yet, shares are conceptual scenarios and will be recomputed by the same formulas after official data is published.

Logo & visual identity

Logo & Visual Identity (concept)

PROVISIONAL boundary • not an official redline • recalculate after official data

KNOWRING

Knowledge forms the ring; youth forms the core

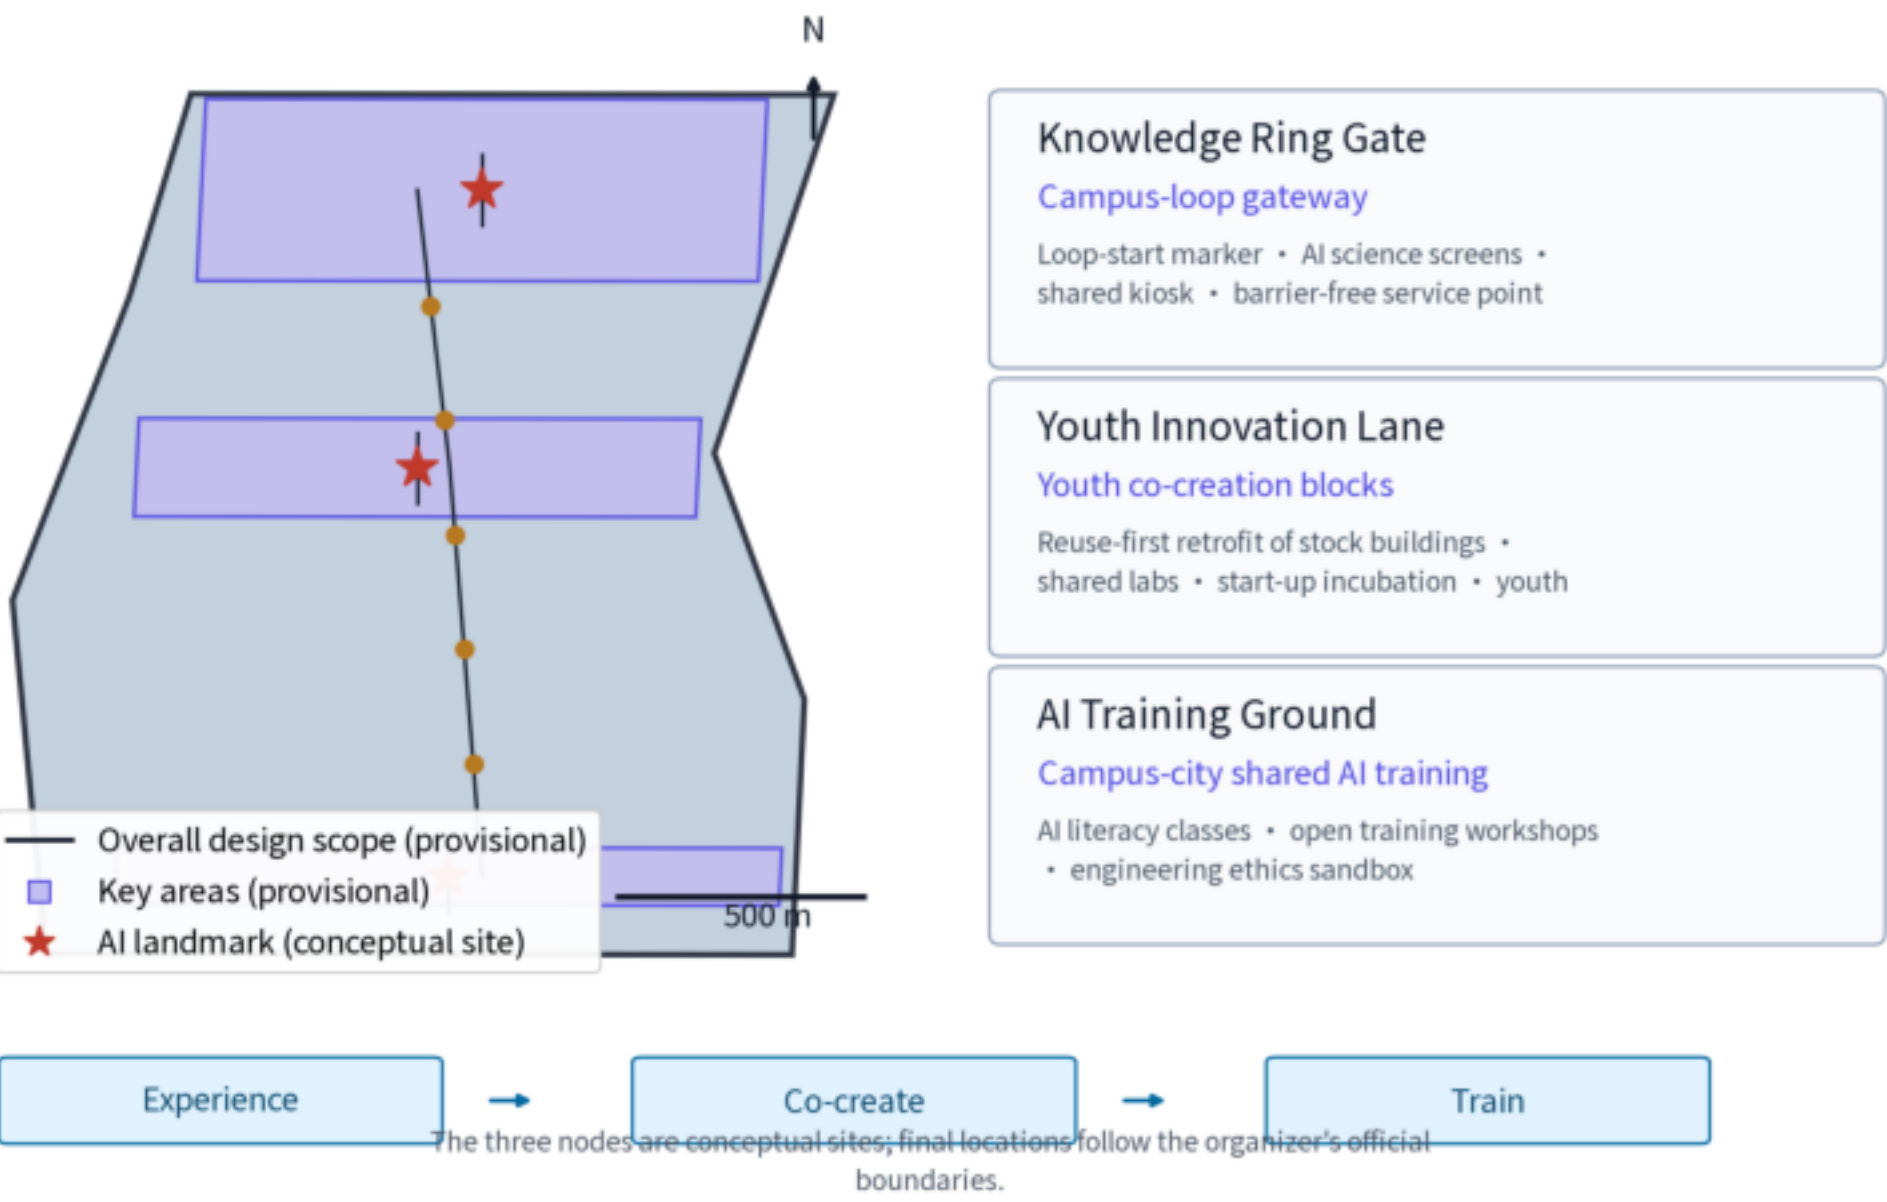

Typeface: Noto Sans SC (OFL) • Uses: wayfinding screens / kiosks / floor markings • Concept stage: no trademark search completed; names and marks are internal working codenames only.

Three nodes: index & flow

Three Nodes: Index, Design Tasks and Usage Flow

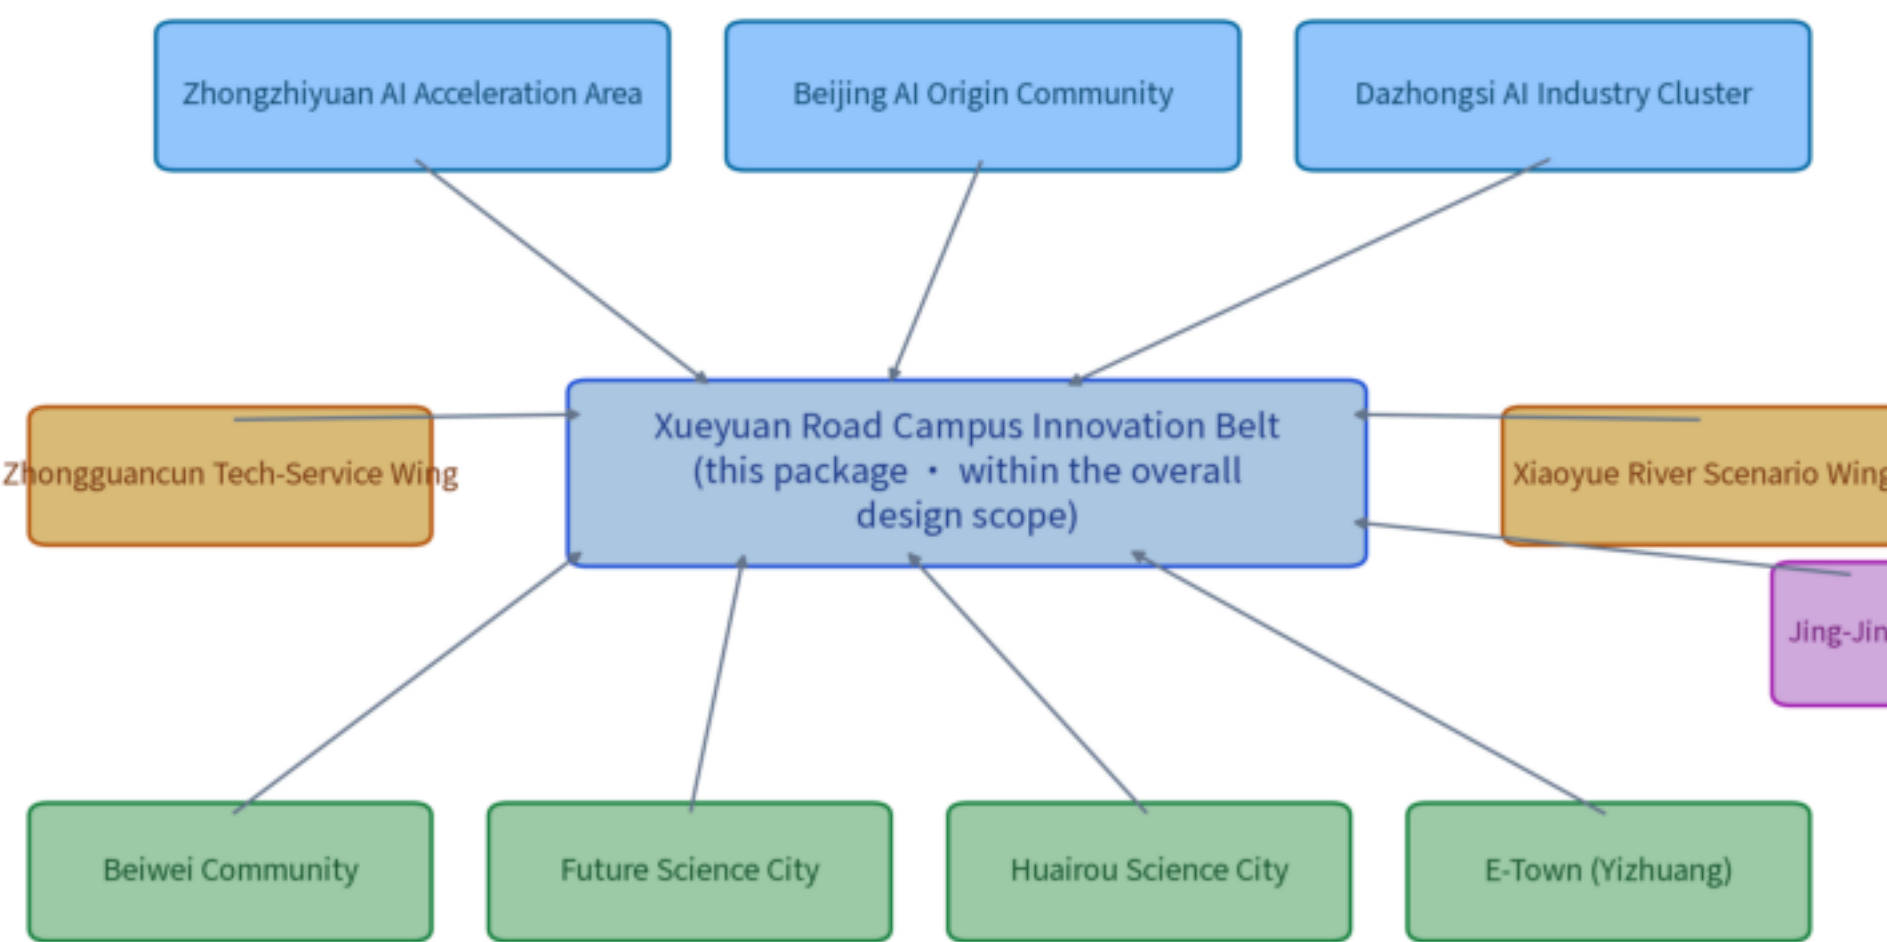

PROVISIONAL boundary • not an official redline • recalculate after official data

Regional coordination (schematic)

Regional Coordination (schematic)

PROVISIONAL boundary • not an official redline • recalculate after official data

Schematic diagram only; no administrative boundaries or precise relative positions; coordination is a conceptual hypothesis.

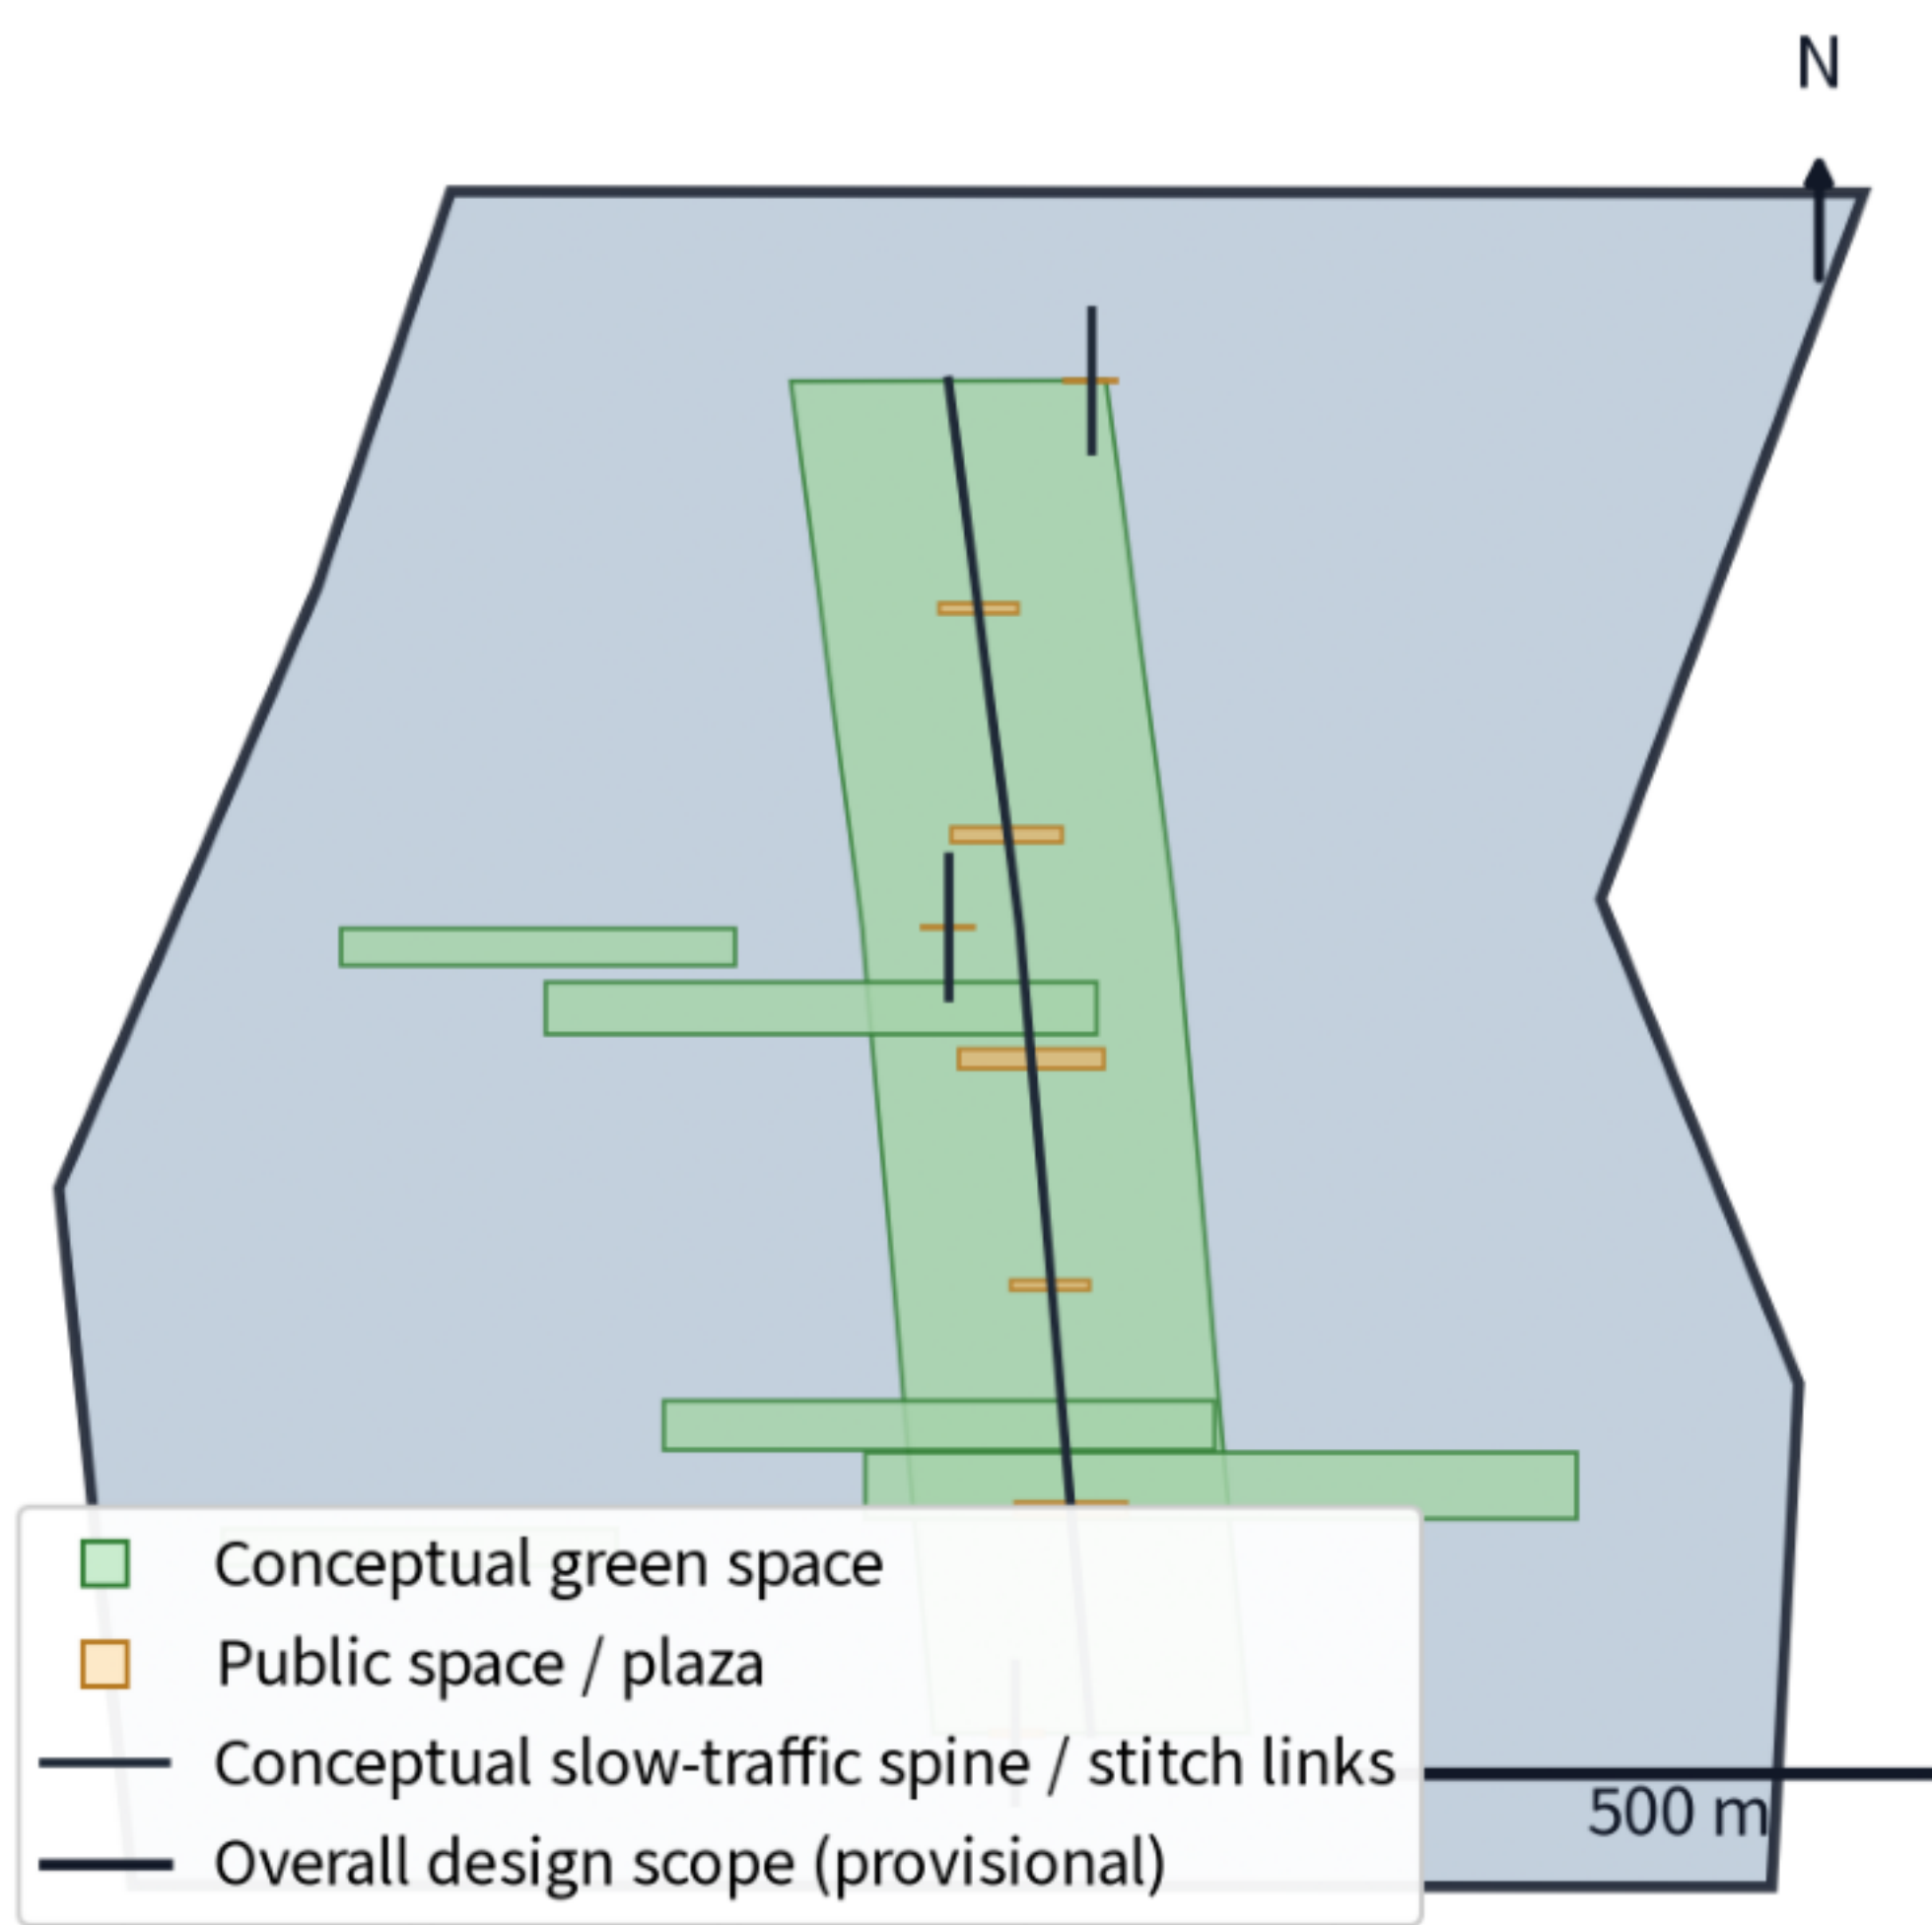

KnowRing — Design Depth: Nodes • Land Use • Mobility (A0 Board 2/2)

PROVISIONAL boundary • not an official redline • recalculate after official data

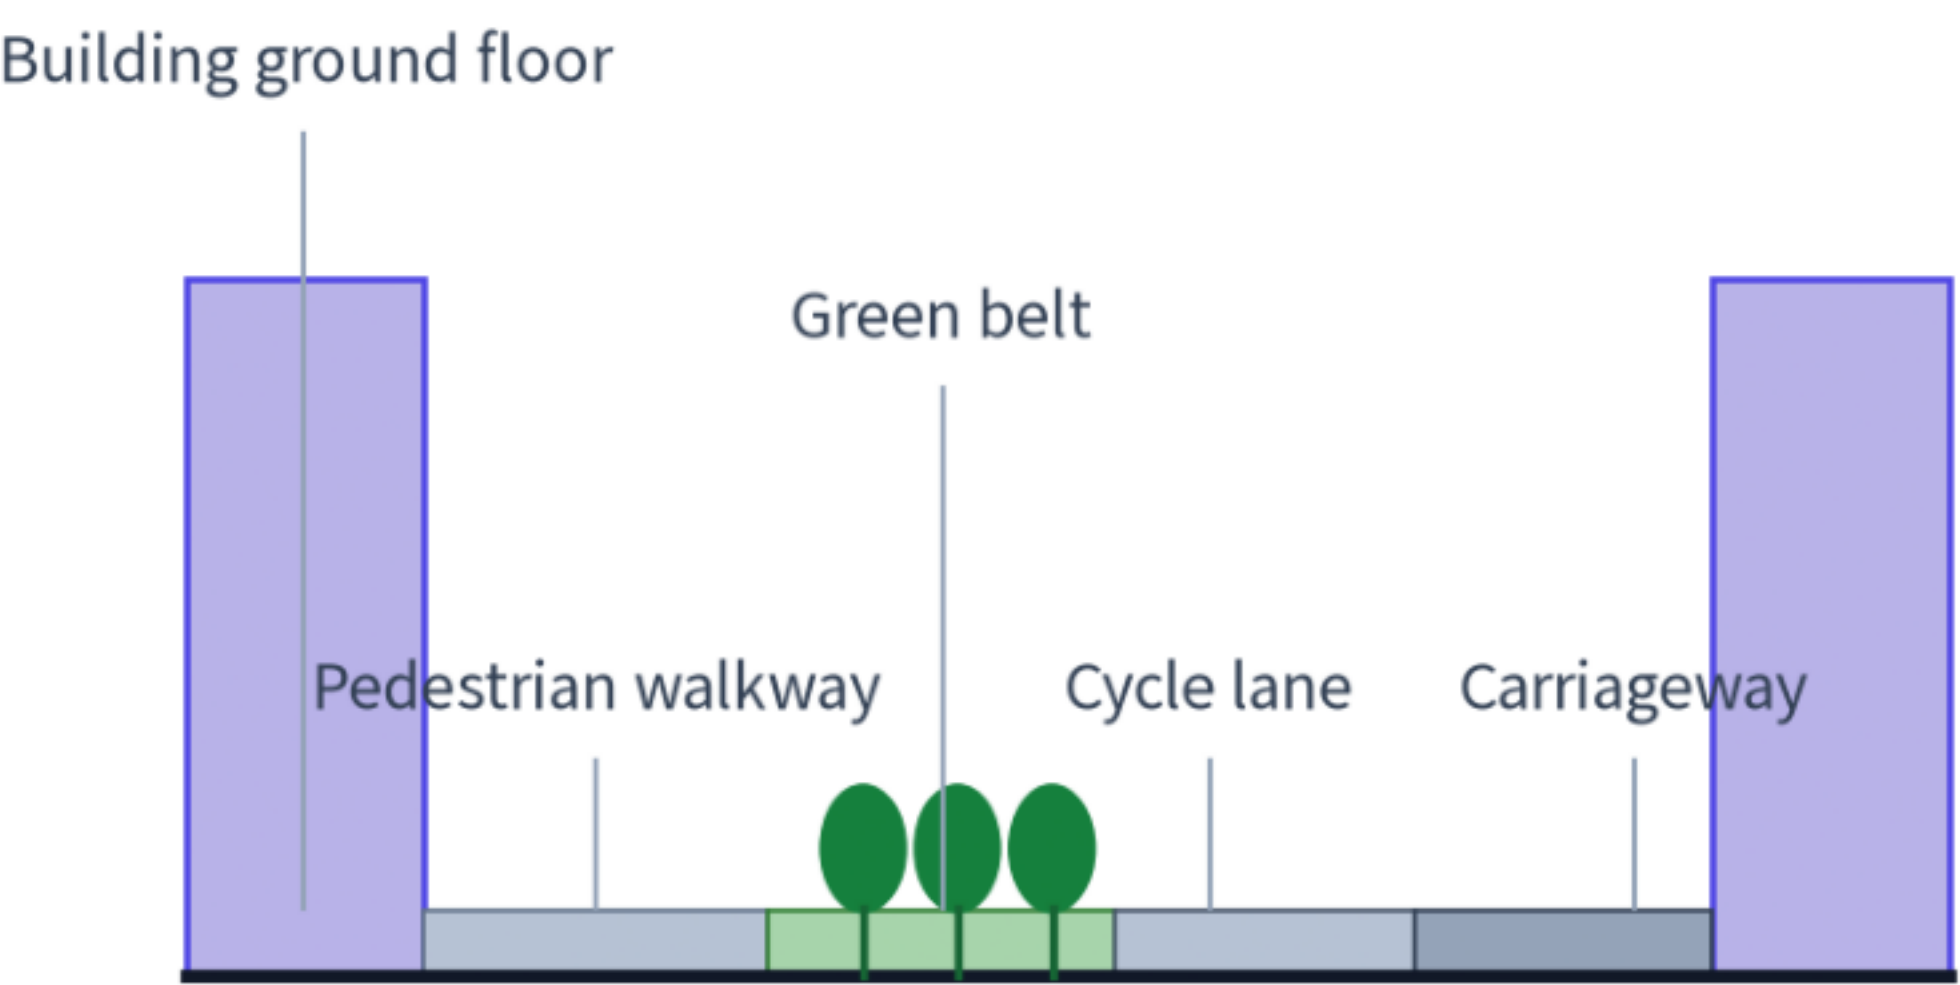

Mobility & blue-green (with section)

Mobility & Blue-Green Network (with street section)

PROVISIONAL boundary • not an official redline • recalculate after official data

Street section (conceptual)

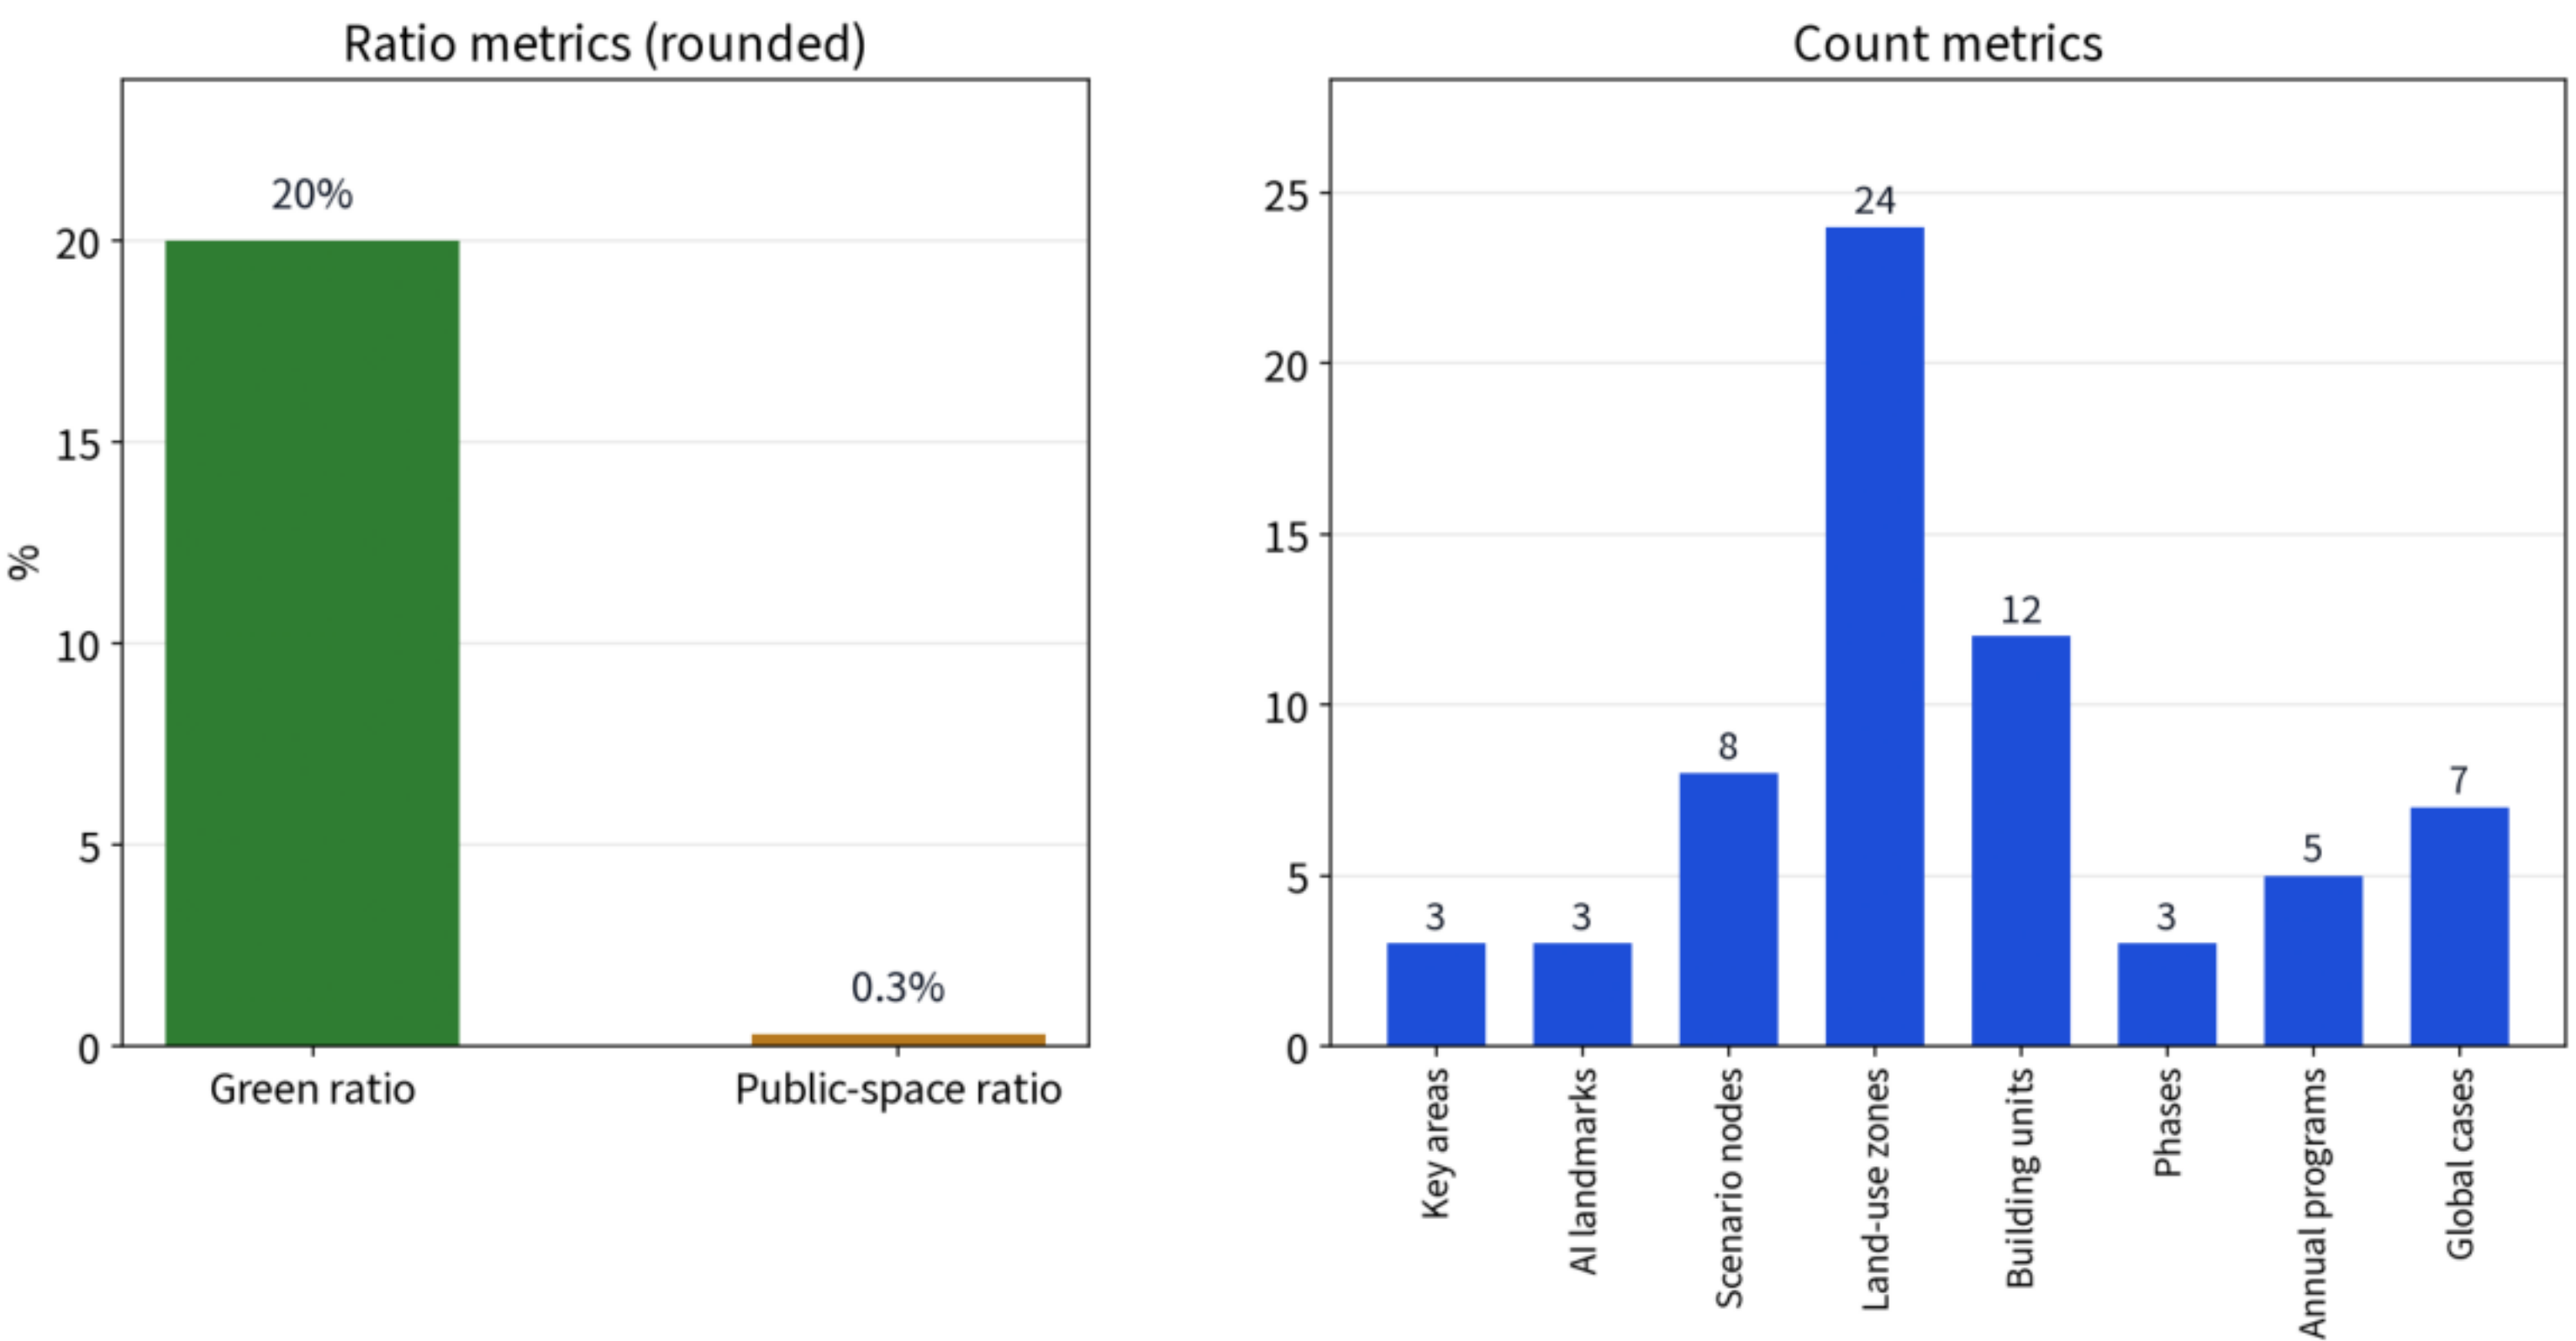

The section is a conceptual sketch, not an engineering cross-section.

Areas and ratios are rounded concept values; recalculate by the declared formulas after the organizer publishes official boundaries and baseline data.

Key metric evidence (ratios and counts on separate axes)

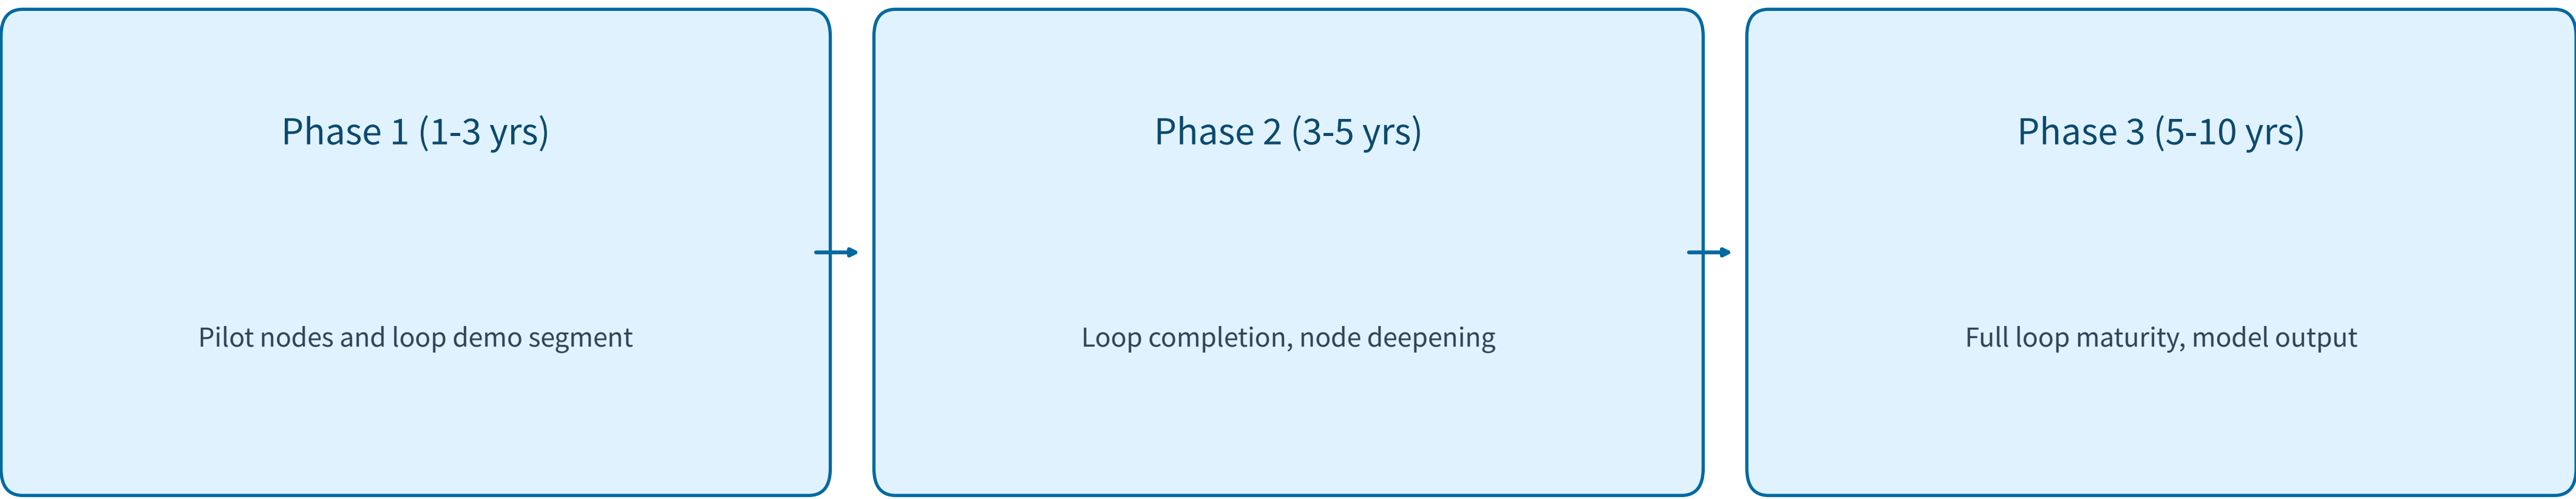

Key Metric Evidence (ratios and counts on separate axes, rounded)

PROVISIONAL boundary • not an official redline • recalculate after official data

Source: metrics.json; formulas, confidence, use limits and recompute triggers are listed in the metrics table of proposal.md.

Phasing and key mechanisms (concept)

Mechanisms: lean RACI (government coordinates / campus collaborates / enterprises operate / community oversees / volunteers backstop) • phase gates • stop & exit conditions • annual public disclosure and resident feedback channels
