

KnowRing — Xueyuan Road Campus Innovation Belt (Concept)

Centennial Jingzhang AI Innovation Belt international call • Xueyuan Road campus belt concept study

PROVISIONAL boundary • not an official redline • recalculate after official data

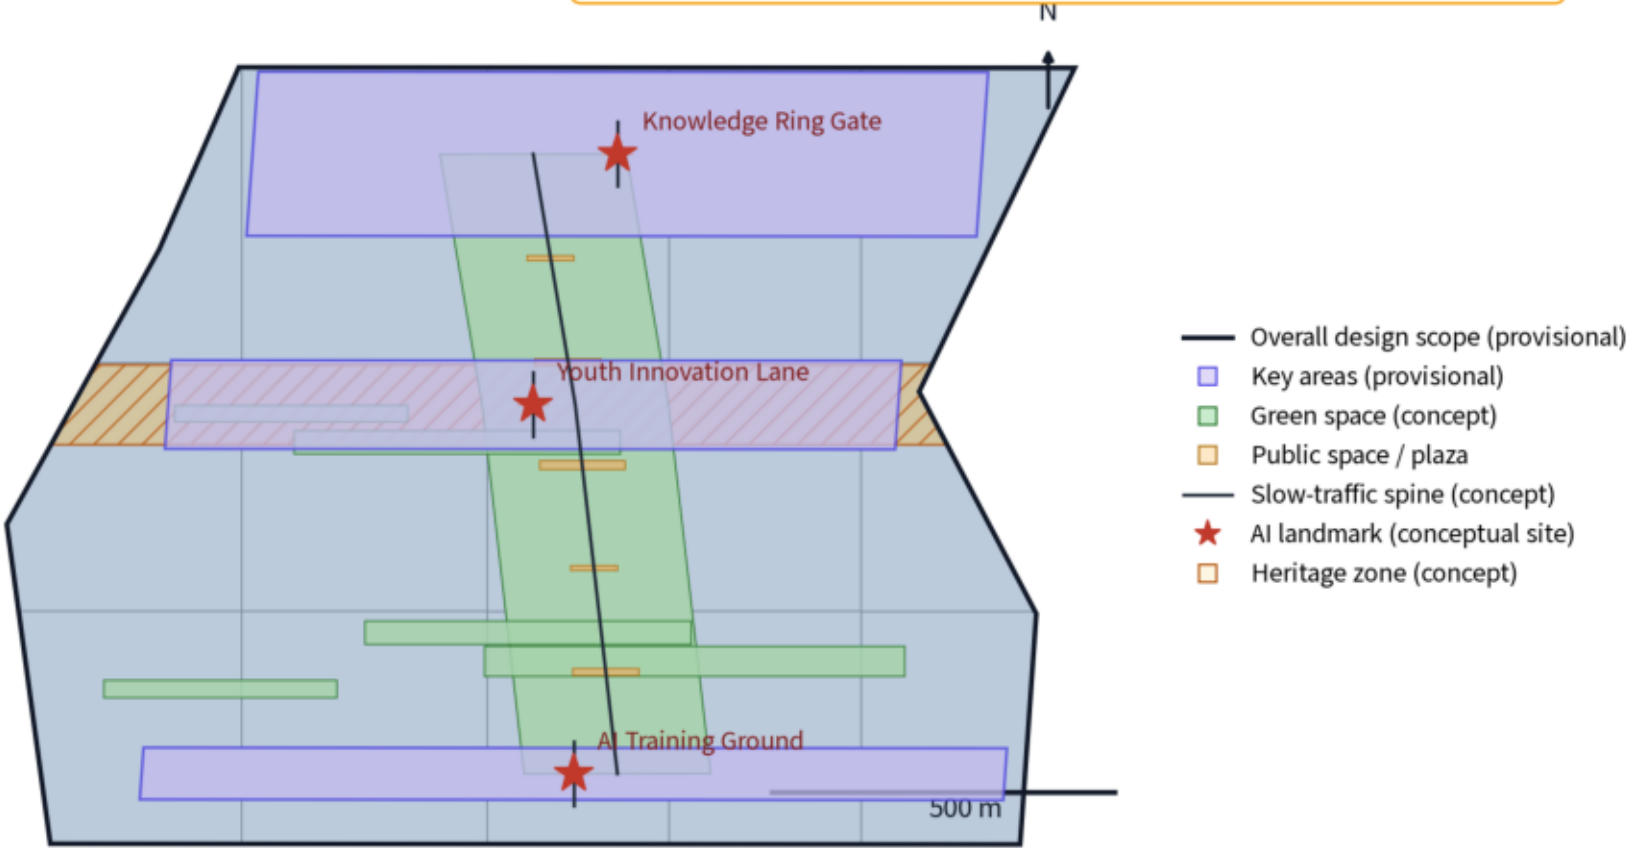

Three-tier scopes (official text caliber): coordinated study $\approx 43.6 \text{ km}^2$ • overall design $\approx 11.4 \text{ km}^2$ • key areas $\approx 368.4 \text{ ha}$ total; this package covers the Xueyuan Road campus belt sub-scope within the overall design scope.

Overall Design Overview & Land-Use Structure

Overall design overview (provisional geometry)

Overall Design Overview — Xueyuan Road Campus Belt (provisional)

PROVISIONAL boundary • not an official redline • recalculate after official data

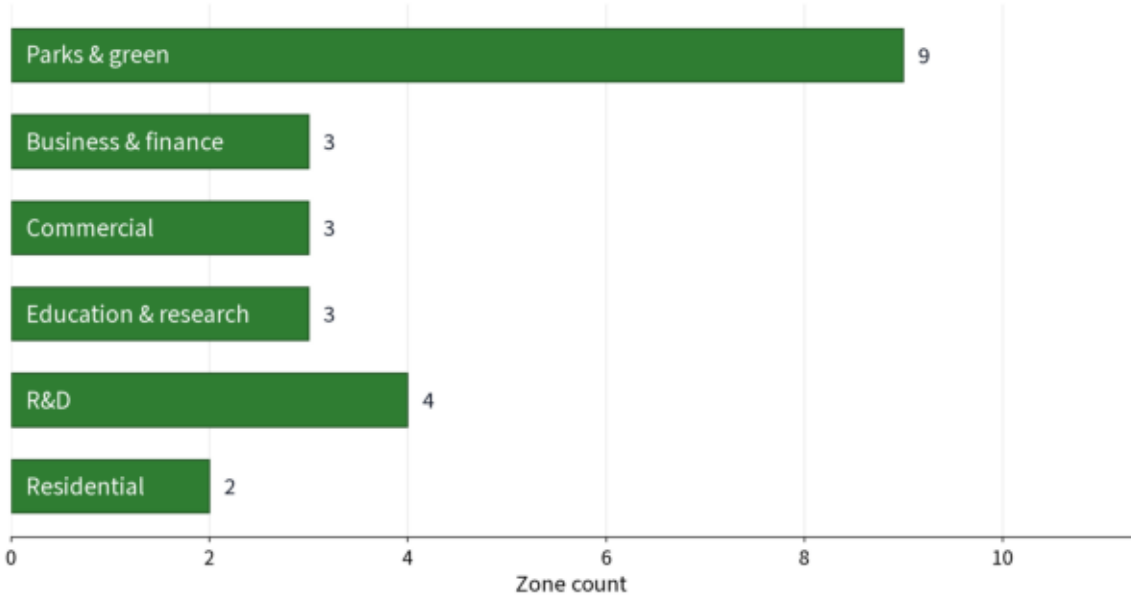

Areas and ratios are rounded concept values; recalculate by the declared formulas after the organizer publishes official boundaries and baseline data.

Conceptual land-use structure

Conceptual land-use structure (zone counts in land_use.geojson, single caliber)

PROVISIONAL boundary • not an official redline • recalculate after official data

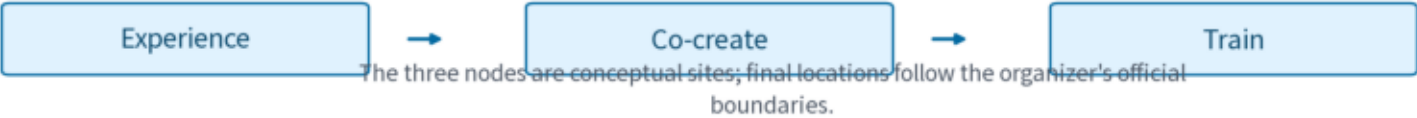

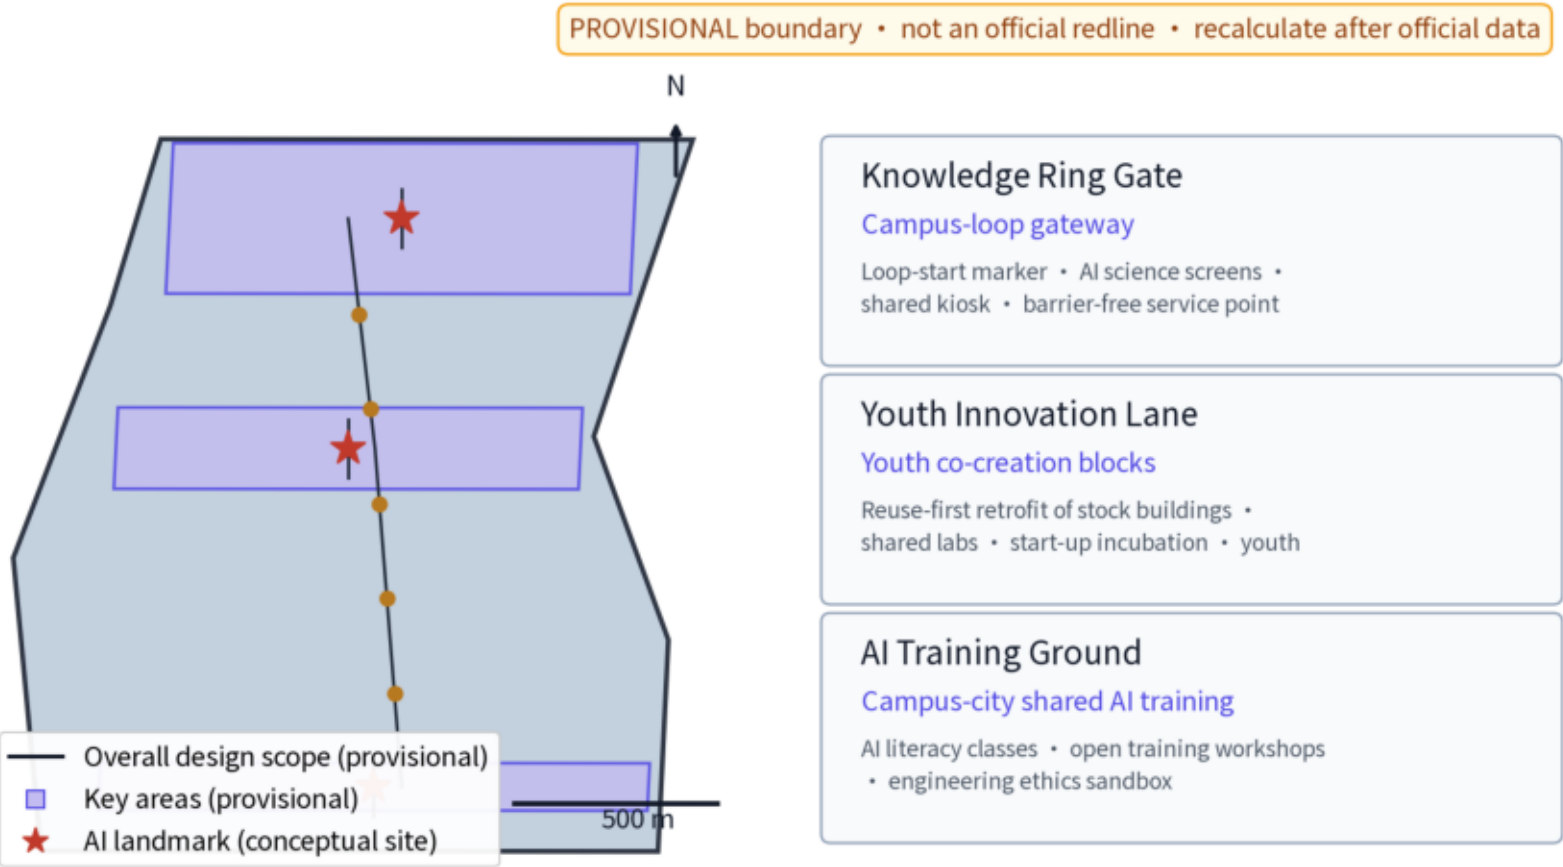

Land-use class names follow the national Land Use & Sea Classification Guide; no official baseline exists yet, shares are conceptual scenarios and will be recomputed by the same formulas after official data is published.

Three Nodes & Mobility Blue-Green

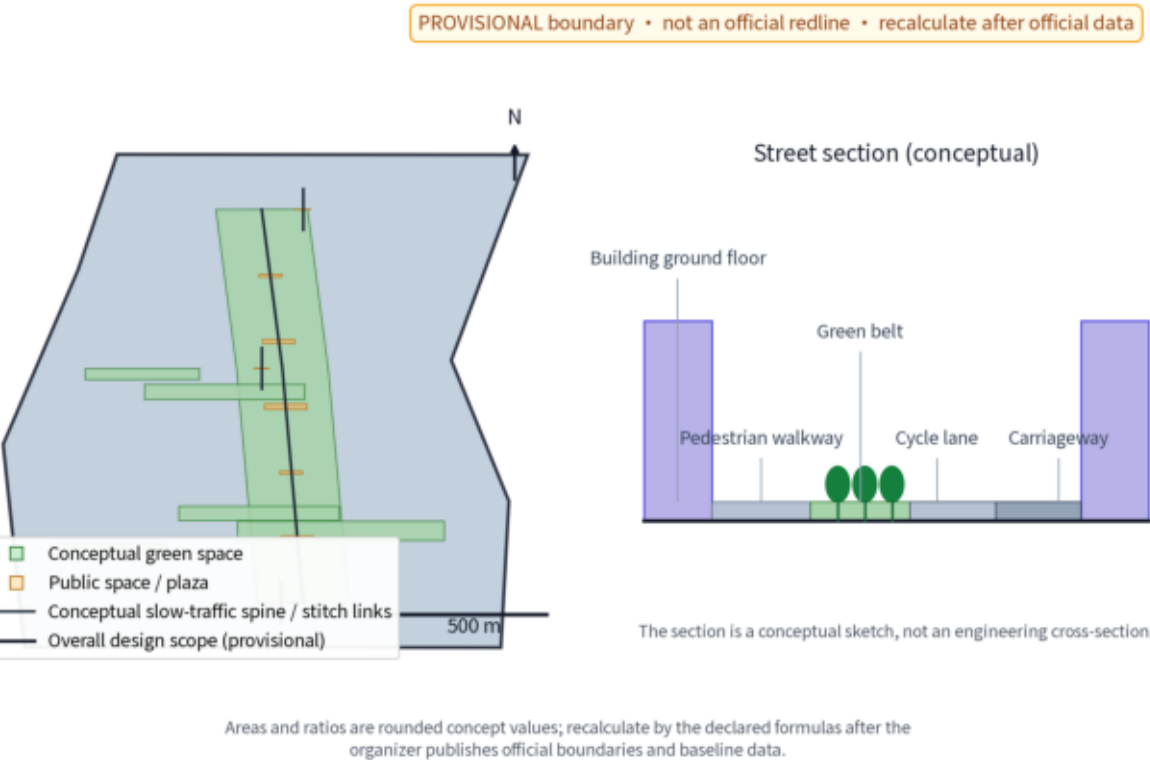

Three nodes: index and design tasks

Three Nodes: Index, Design Tasks and Usage Flow

Mobility & blue-green network

Mobility & Blue-Green Network (with street section)

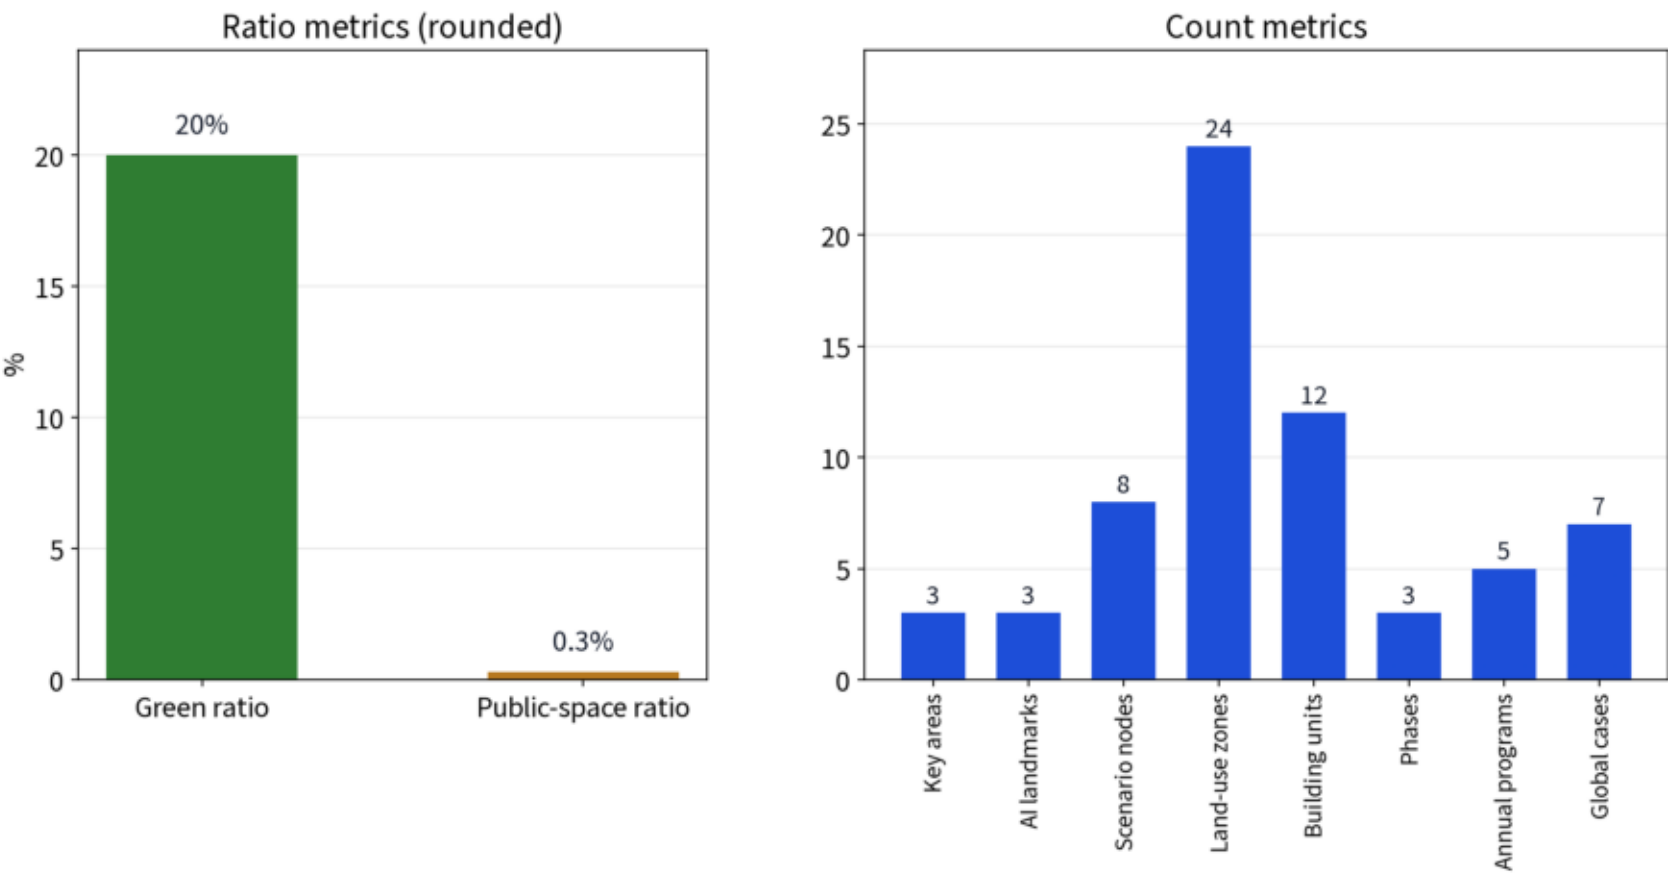

Key Metrics & Regional Coordination

Key metric evidence (ratios and counts on separate axes)

Key Metric Evidence (ratios and counts on separate axes, rounded)

PROVISIONAL boundary • not an official redline • recalculate after official data

Source: metrics.json; formulas, confidence, use limits and recompute triggers are listed in the metrics table of proposal.md.

Regional coordination (schematic)

Regional Coordination (schematic)

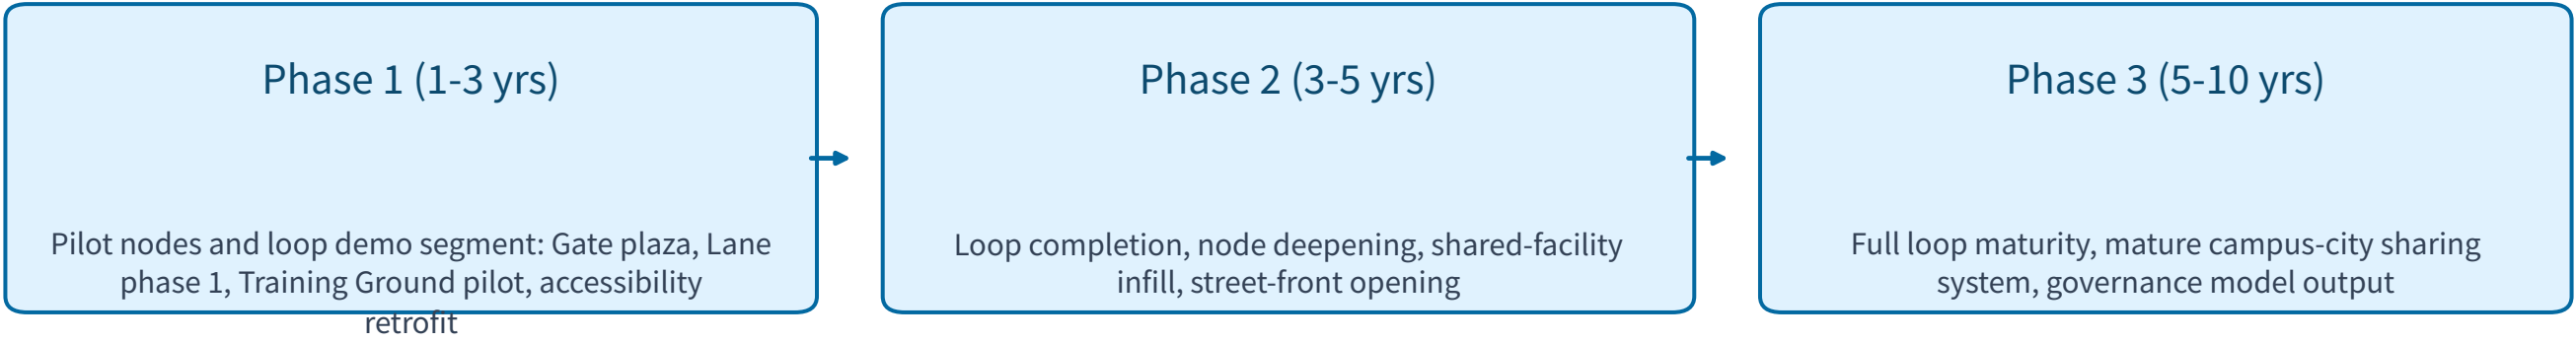

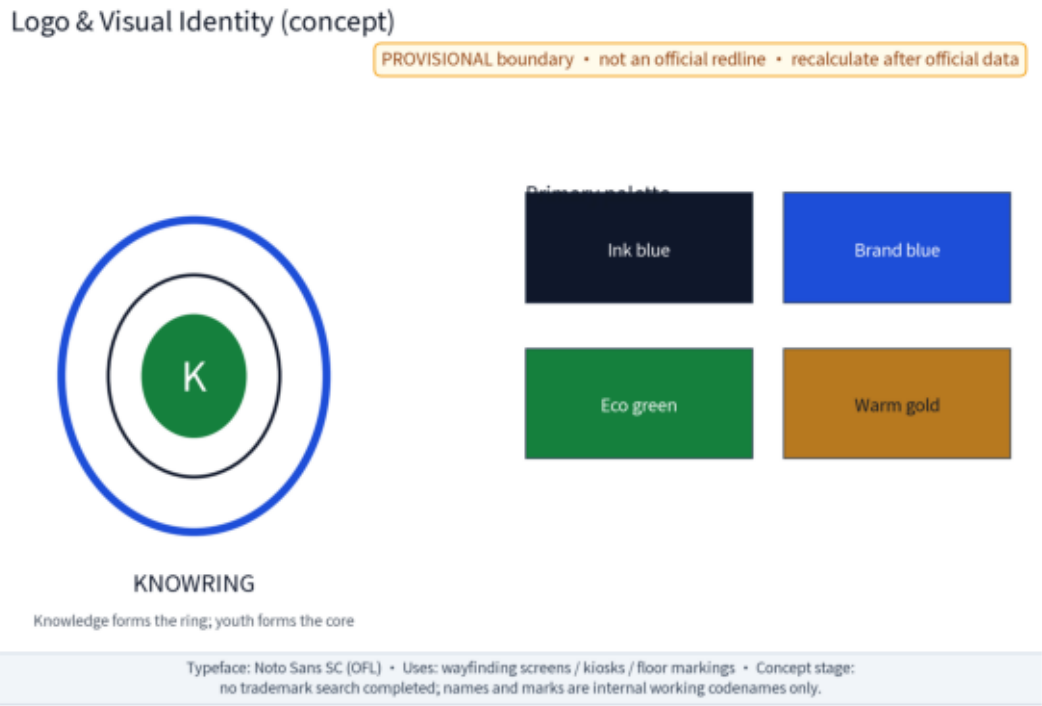

PROVISIONAL boundary • not an official redline • recalculate after official data

Schematic diagram only; no administrative boundaries or precise relative positions; coordination is a conceptual hypothesis.

Logo & Visual Identity (concept) • Phased Implementation

Logo & Visual Identity (concept)

Phasing is a conceptual rhythm, not an implementation commitment; every phase gate includes cost review, ownership confirmation and public review.
