

WHOSE HOURS?

TIME-EQUITABLE URBAN DESIGN FOR THE
CENTENNIAL JING-ZHANG AI INNOVATION BELT

WHO PAYS EXTRA TIME TO WAIT, DETOUR, CARE, AND RETURN AT NIGHT?
MAKE THE GAP VISIBLE. KEEP PEOPLE REACHABLE. MAKE AUTOMATION STOPPABLE.

PROVISIONAL INFERRED BOUNDARY • NOT A REDLINE • CONCEPT DESIGN

WHOSE HOURS? / 谁的时间?

01 / OVERVIEW

MAKE UNEQUAL WAITING VISIBLE, NEGOTIABLE, AND STOPPABLE

Not longer opening hours. Ask who pays extra time to arrive, care, seek help, and return at night.

TIME-EQUITABLE URBAN DESIGN

01 RIGHT TO HANDOVER

At shift end, responsibility, route and human takeover must transfer clearly.

02 RIGHT TO CARE TIME

Keep escort, health, shopping and rest chains from repeated interruption.

03 RIGHT TO NIGHT HELP

Toilets, rest, transfer and staffed help remain available without an account.

PROVISIONAL INFERRED BOUNDARY / NOT A STATUTORY REDLINE • CONCEPT ONLY

08 • 2026

Time equity is not 24-hour activation. It turns extra waiting, detour, care and night-return time into an urban-design question that is public, human-reachable and stoppable.

02 • SPACE • THREE INTERFACES + ONE BLUE-GREEN SPINE

WHOSE HOURS?

Handover Yard, Care Switchboard and Night Return Bell connect R&D, community and mobility spaces; every location shown is a concept proposal.

WHOSE HOURS? / 谁的时间?

03 / KEY AREAS

THREE AI LANDMARKS AS AUDITABLE SERVICE INTERFACES — NOT MONUMENTS

Each node combines learning, staffed help, evidence display and human takeover; every automation can be paused.

01 • EQUITY CLOCK / HANDOVER YARD

ZHONGZHIYUAN

Publishes grouped service-time gaps and stop status; staffed handover for devices, duties and safe return routes.

NIGHT R&D / MAINTENANCE / FOUNDERS

STAFF • PHONE • PAPER • NO ACCOUNT

02 • CARE SWITCHBOARD / COMMONS

AI ORIGIN

Links escort, health, school, shopping, rest and accessibility into an opt-out, human-service care chain.

CARERS / CHILDREN / OLDER / DISABLED

STAFF • PHONE • PAPER • NO ACCOUNT

03 • NIGHT RETURN BELL / FORUM

DAZHONGSI

Co-locates late transfer, toilets, rest, small-business continuity and staffed help without identity inference.

NIGHT TRAVELLERS / INTERNS / OFFLINE USERS

STAFF • PHONE • PAPER • NO ACCOUNT

PROVISIONAL / NOT A REDLINE

PROVISIONAL / NOT A REDLINE

PROVISIONAL INFERRED BOUNDARY / NOT A STATUTORY REDLINE • CONCEPT ONLY

08 • 2026

Spatial quantities derive from GeoJSON; time gaps remain UNKNOWN. Pilots retain no-account, phone, paper and staffed routes, with wider gaps or delayed takeover as stop triggers.
