SIX IMPLEMENTATION PROJECTS

R01 Public Track Pilot

BAND L · At least 16 weeks, including an extreme-weather window or extension.

Phase opening; fence hazards; use human guidance; never replace site safety with navigation.

R02 Zhongzhiyuan Validation Garden

BAND M · 16–24 weeks for model and compute tests.

Remain offline with no public connection; equipment can be physically disconnected.

R03 AI Origin Release + Civic Station

BAND M · 12 weeks, limited to three low-risk services and one weekly release.

Stop the assistant while retaining staffed service and ordinary activity space.

R04 Dazhongsi Four-Quadrant Street

BAND L · 16 weeks of temporary wayfinding and street operation; works require separate approval.

Start with reversible signs, temporary street rights, and shopfront micro-renewal.

R05 Scenario Passport + Data Desk

BAND S · Runs with the first three scenarios and quarterly review.

No pass means no opening; return to staffed offline service.

R06 Three Landmarks + Global Trail

BAND M · Operate detachable prototypes for one full event quarter.

Use a low-tech physical timeline and human interpretation.

Brand, Landmarks, Annual Operations, and Regional Interfaces

A city for all — operations make the spatial promise durable

JING-ZHANG AI COMMONS

A century of rail. Open intelligence. A city for all.

THREE LANDMARKS

Open Archive Signal

Displays authorised open versions, model cards, test limits, and reproduction status.

OFFLINE-LEGIBLE / NO GIANT SCREEN

Switch Commons

Shared by open releases, civic deliberation, children's learning, and international interpretation.

OFFLINE-LEGIBLE / NO GIANT SCREEN

Data Clock

No individual ranking; only aggregate performance, gate status, events, and staffed-service locations.

OFFLINE-LEGIBLE / NO GIANT SCREEN

FOUR-SEASON OPERATIONS

01 Open Departure

Opportunity list, reproduction week, student and small-team demos

REACH → ENGAGE → VALIDATE → ADOPT

02 Civic Model Safety Week

Red teaming, accessibility co-tests, energy and network-isolation drills

REACH → ENGAGE → VALIDATE → ADOPT

03 Jing-Zhang Commons Forum

Global cases, public benefit, data rights, and urban-renewal forum

REACH → ENGAGE → VALIDATE → ADOPT

04 Scenario Review & Sunset

Public performance, grievance review, renew/revise/exit, and archive

REACH → ENGAGE → VALIDATE → ADOPT

FIVE REGIONAL INTERFACES — CONCEPTUAL, NOT COMMITMENTS

I01 BEIWEI + CORRIDOR COMMUNITIES

Quarterly problem clinic + civic service station

KPI + BOUNDARY

I02 FUTURE SCIENCE CITY

Low-carbon edge compute + joint challenge

KPI + BOUNDARY

I03 HUAIROU SCIENCE CITY

Annual research residency + release hall

KPI + BOUNDARY

I04 BEIJING E-TOWN

Terminal interoperability street + engineering handoff day

KPI + BOUNDARY

I05 JING-JIN-JI NETWORK

Annual commons forum + mutual-test report
