manual fallback

场景护照 / SCENARIO PASSPORT

Dashed boundary = repository provisional substitute;
statutory controls remain pending.

Provisional rough boundary · Design proposal · Not statutory control · Recalculate on official data

Pasukalu · v3.0 · 2026-08-23

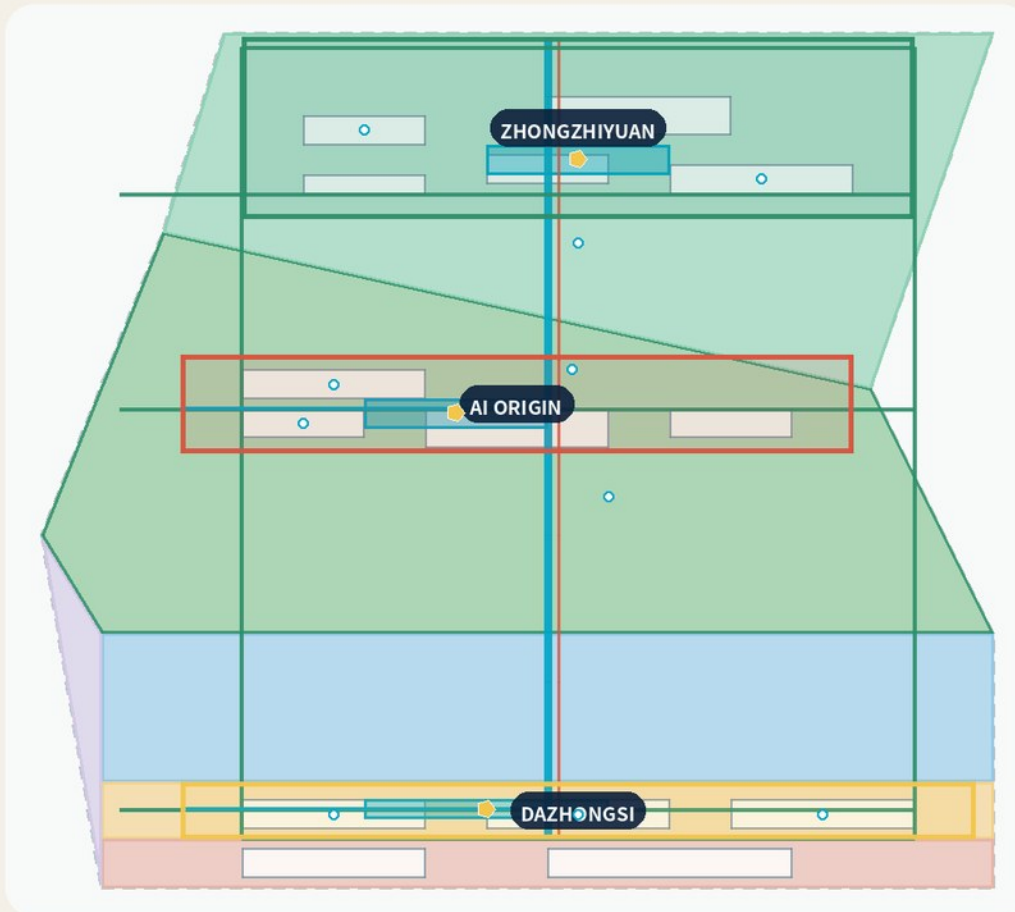

03 Ecosystem + Land Use

Protocol-based innovation over valid land-use codes

JZ-AI COMMONS / 京张智脉

No invented land-use class: innovation is a protocol overlay

Valid land-use codes + dual-track space + research-validate-release-adopt-feedback lifecycle

INNOVATION LIFECYCLE

01 RESEARCH

Zhongzhiyuan: low-carbon compute + standards

02 VALIDATE

Safety sandbox: isolate + independent review

03 RELEASE

AI Origin: open source + community feedback

04 ADOPT

Dazhongs: terminals + global interface

05 RETURN

Xiaoyuehe needs + Zhongguancun services

FIVE REGIONAL INTERFACES

BEIWEI + CORRIDOR

FUTURE SCIENCE

HUAIROU SCIENCE

E-TOWN

JING-JIN-JI

04 Three Switch Stations

Space, scenario, project, and exit at each station

JZ-AI COMMONS / 京张智脉

Three switch stations: space, scenario, project, and exit at each

Research and trusted validation → open release and community feedback → adoption, exchange, global interface

ZHONGZHIYUAN · TRUSTED VALIDATION GARDEN

Low-carbon compute / model safety / standards

S02 Safety sandbox

S03 Edge compute

L01 Open Archive Signal

R02 · 16–24 weeks · failed work stays offline

AI ORIGIN · OPEN-SOURCE SWITCH COMMONS

Release + reproduce / civic service / family-friendly

S01 Open release

S07 Civic service

L02 Switch Commons

R03 · 12 weeks · human service always retained

DAZHONGSI · DATA CLOCK GATEWAY

Four quadrants / terminal test / native commerce

S05 Multilingual desk

S09 Terminal test

L03 Data Clock

R04 · 16-week reversible pilot · connect before build

Provisional rough boundary · Design proposal · Not statutory control · Recalculate on official data

Pasukalu · v3.0 · 2026-08-23

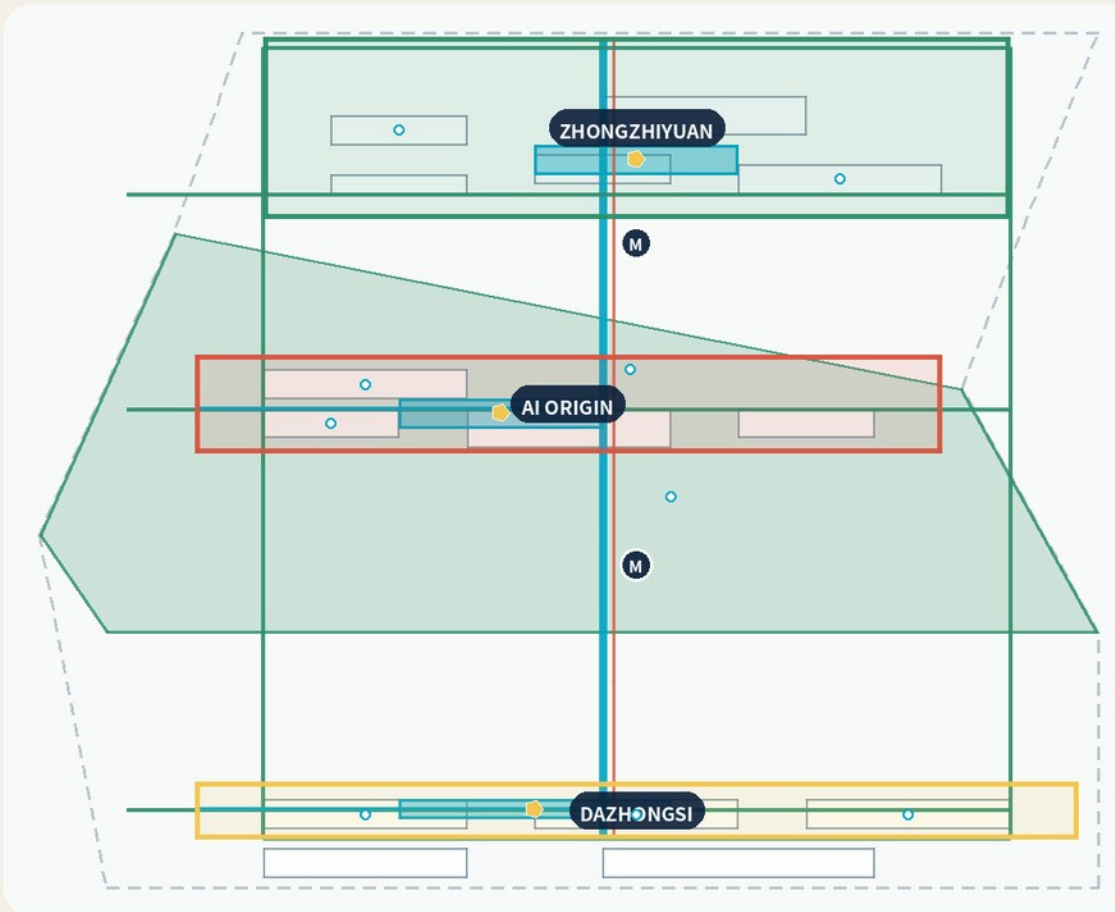

05 Public Track + Accessibility

Physical detours update before digital routing

JZ-AI COMMONS / 京张智脉

Public track first: continuous access, blue-green resilience, human service

Seven links + three ordinary public spaces + one monthly co-evaluated route

CONTINUOUS ROUTE SERVICE STACK

01 MOVE

Step-free spine · crossings · robot clearway

02 REST

Shade · water · seating · quiet points

03 INFORM

High contrast · tactile/audio · paper + human

04 MAINTAIN

Physical detours first · monthly co-walk

05 SAFE

Physical disconnect · speed limit · closure

CO-EVALUATORS

- Wheelchair users
- Blind/Deaf reps
- Older people
- Caregivers
- Night workers

S01 Open-Source Release Hall

Produces multilingual, accessible release notes; publishers confirm every conclusion. Printed and staffed alternatives remain.

S02 Model-Safety Governance Sandbox

Tests bias, privilege escalation, content safety, and usability without controlling a real public service; failure means offline.

S03 Low-Carbon Edge Compute Bench

Schedules test workloads and predicts energy without controlling statutory utilities; static local control remains.

S04 Accessible Slow-Mobility Copilot

Suggests needs-based routes with uncertainty but never replaces physical signs; tactile, printed, and staffed routes remain.

S05 Multilingual Transit and Civic Desk

Provides multilingual, plain-language answers with source dates and uncertainty; staff verify critical information.

S06 Data Rights Commons

Turns technical and legal material into layered plain language for human approval; multiple offline grievance channels remain.

S07 Community Service Co-Pilot

Supports search, form pre-check, and plain-language explanation; all decisions remain human-confirmed.

S08 Climate-Adaptive Public-Space Operations

Predicts maintenance priority and heat risk for human confirmation; fixed inspection and physical closures remain.

P01 Open-source developers

Low-cost reproduction / zoned 24-hour collaboration / transparent interfaces and staffed access

P02 Startup teams

Affordable space / divisible units and short tests / one staged project gate

P03 Corporate and international visitors

Clear transfers / Dazhongsi portal and quiet meeting / bilingual human-verified service

P04 Long-term residents

Quiet and affordability / community edges and non-commercial space / offline grievance and exit rights

P05 University communities

Research-to-use path / shared labs and public lectures / permissions and outcome return

P06 Older and low-digital-skill people

No smartphone required / seated, large-type, low-glare waiting / equal paper, phone, and staffed service

P07 Children and caregivers

Safe observable learning / family facilities and water / no child biometrics and age-appropriate explanation

P08 Disabled and neurodivergent users

Continuous accessible route / tactile-audio guide and quiet room / accessible formats co-reviewed by users

08 Six Implementation Projects

R01 Public Track Pilot

Conceptual lead: public-space delivery and operations platform / At least 16 weeks, including an extreme-weather window or extension. / Phase opening; fence hazards; use human guidance; never replace site safety with navigation.

R02 Zhongzhiyuan Validation Garden

Conceptual lead: park operations platform / 16–24 weeks for model and compute tests. / Remain offline with no public connection; equipment can be physically disconnected.

R03 AI Origin Release + Civic Station

Conceptual lead: joint civic-service and innovation-space operator / 12 weeks, limited to three low-risk services and one weekly release. / Stop the assistant while retaining staffed service and ordinary activity space.

R04 Dazhongsi Four-Quadrant Street

Conceptual lead: station-area renewal coordination platform / 16 weeks of temporary wayfinding and street operation; works require separate approval. / Start with reversible signs, temporary street rights, and shopfront micro-renewal.

R05 Scenario Passport + Data Desk

Conceptual lead: independent scenario-governance secretariat / Runs with the first three scenarios and quarterly review. / No pass means no opening; return to staffed offline service.

R06 Three Landmarks + Global Trail

Conceptual lead: cultural and international operations alliance / Operate detachable prototypes for one full event quarter. / Use a low-tech physical timeline and human interpretation.

Open Departure

Opportunity list, reproduction week, student and small-team demos / Needs → team matching → sandbox seats

Civic Model Safety Week

Red teaming, accessibility co-tests, energy and network-isolation drills / Test report → repair → limited pilot

Jing-Zhang Commons Forum

Global cases, public benefit, data rights, and urban-renewal forum / Partner intent → project-gate review → annual collaboration

Scenario Review & Sunset

Public performance, grievance review, renew/revise/exit, and archive / Evidence → public decision → next-year list

Commons Council

Annual direction, conflicts, and public resource bands / operations, professional, civic, accessibility, youth, and labour seats

Scenario Review Panel

Six-gate entry and scale/sunset decisions / non-project majority with legal, safety, ethics, and spatial expertise

Community Jury

Experience, fairness, and affordability / rotating sample across ten personas with compensated participation

Open Technical Secretariat

Versions, evidence, metrics, and archive / developers, data stewards, and operations analysts

10 Brand, Landmarks + Components

World-class identity without giant screens

JZ-AI COMMONS / 京张智脉

More than a name: a usable civic interface

Mark · palette · type · Scenario Passport · accessible applications

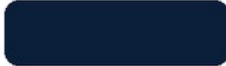

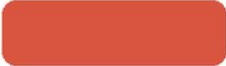

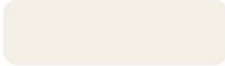

京张智脉

JING-ZHANG AI COMMONS

A century of rail. Open intelligence. A city for all.

- Continuous line = public heritage track
- Three nodes = three switch stations
- Switch = reversible transfer
- Open loop = participation and exit

PALETTE + APPLICATIONS

 Rail Navy #0B1F3A	 Commons Cyan #00A6C8	 Heritage Red #D95540
 Park Green #2F8F6B	 Warm Paper #F4F0E8	 Safety Yellow #F3C64E

SIX-GATE STATUS

 NEED	 DATA	 SPACE
 HUMAN	 SAFETY	 EXIT

FOUR APPLICATION FAMILIES

- 01 Entries + continuous wayfinding
- 02 Passport + data cards
- 03 Annual events + honour
- 04 Tactile/audio/high-contrast interfaces

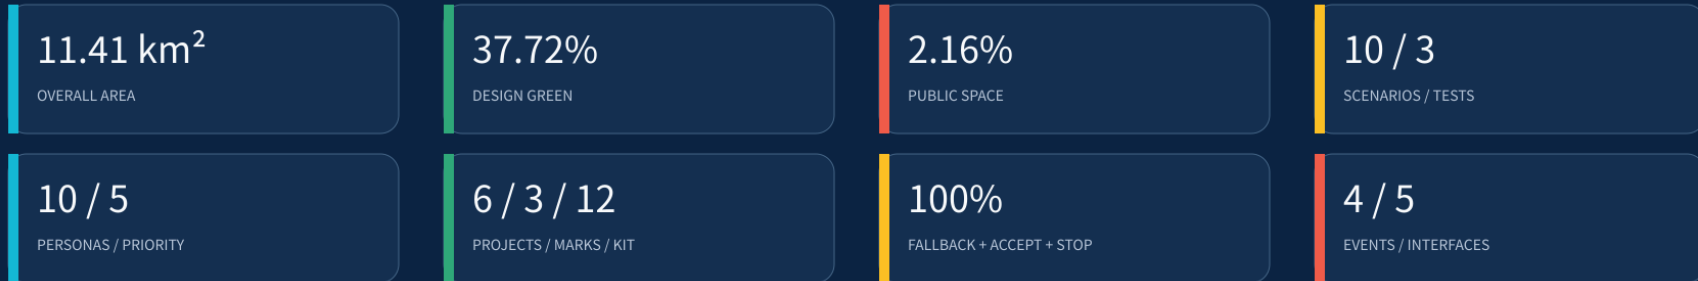

11 Evidence, Metrics + Four Gates

Spatial, content, implementation, and uncertainty evidence

JZ • AI COMMONS / 京张智脉

Recomputable, auditable, and stoppable

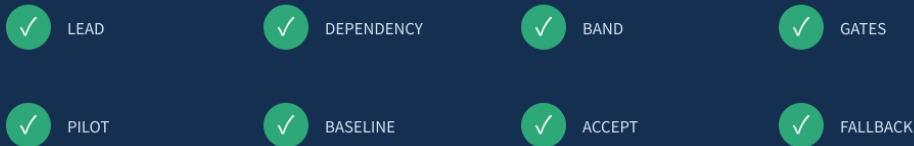

Spatial metrics from GeoJSON; coverage from structured arrays; operational performance begins with frozen baselines

EVIDENCE CHAIN

IMPLEMENTATION COMPLETENESS

6 / 6 projects • 100% fields

UNCERTAINTY LEDGER

- Official geometry
- FAR / height controls
- Building survey + ownership
- Utilities / rail / heritage

Missing data triggers recalculation — never guess.

Provisional rough boundary • Design proposal • Not statutory control • Recalculate on official data

Pasukalu • v3.1 • 2026-08-25

12 Risk + Compliance Boundaries

BOUNDARY

Provisional geometry is not permitting, ownership, or quantities; official data triggers rebuild.

DATA

Synthetic/aggregate first; data card, human duty, grievance, sunset deletion.

ACCESS

Continuous access, human service, non-digital fallback, representative co-review.

SAFETY

Isolation, physical disconnect, speed limits, independent test, stop triggers.

RIGHTS

AI concepts and open font have provenance, licence, and non-evidence labels.

STATUS

Open co-creation proposal; not award, adoption, implementation approval, or endorsement.
