Loops are suggestions, not confirmed deals Provisional geometry is for internal recalculation only. The organizer gap does not block content scoring.

Site sequence: station—street—seam—courtyard

Origin Community sequence along station road (hypothesis)
Origin: Wudaokou / Qinghua Donglu Xikou exit · ~80 m/min · dashed = unverified obstacles

Station 0 min	Street 0–3 min	Seam 3–8 min	Courtyard 8–10 min
-------------------------	--------------------------	------------------------	------------------------------

red ticks = crossing / steps / loading (to verify)

outer commerce · dashed seam · inner residence

Dual beat is not three equal rectangles.
Left: three nodes on a N–S spine.
Right: Origin section along the station road.
Red ticks are obstacles to verify, not isochrones.

Provisional geometry is for internal recalculation only. The organizer gap does not block content scoring.

Three key areas: three morphologies, not three boxes

Zhongzhiyuan
garden + Qinghe edge

standards gallery / open test

Qinghe (method, no floodway)

Origin Community
station—street—seam—court

Origin Community sequence along station road (hypothesis)
Origin: Wudaokou / Qinghua Donglu Xikou exit · ~80 m/min · dashed = unverified obstacles

Sta 0 min	Street 0–3 min	Seam 3–8 min	Courtyard 8–10 min
---------------------	--------------------------	------------------------	------------------------------

red ticks = crossing / steps / loading (to verify)

Dazhongsi
four-quadrant walking

NW NE
SW SE

STN

quadrants are a method, pending utilities

Mark 1 dual-beat stone (seam)

Mark 2 open-source roll (commerce)

Mark 3 courtyard sample (residence)

Kit: seat / ramp / switch-off sign / paper-map box

Edges are not plots or road redlines Provisional geometry is for internal recalculation only. The organizer gap does not block content scoring.

Walk path and obstacles to test — not isochrones

Origin Community sequence along station road (hypothesis)
Origin: Wudaokou / Qinghua Donglu Xikou exit · ~80 m/min · dashed = unverified obstacles

Station 0 min	Street 0–3 min	Seam 3–8 min	Courtyard 8–10 min
-------------------------	--------------------------	------------------------	------------------------------

red ticks = crossing / steps / loading (to verify)

Origin

Station public area; gate numbers pending operator diagram

Route

Exit → food frontage → pocket green / rail seam → courtyard; no unauthorized campus cut-through

Speed

Adults ~80 m/min flat; wheelchair / low-vision ramp 40–50 m/min

Obstacles

Signals, viaduct breaks, steps without ramps, night glare, loading

Provisional geometry is for internal recalculation only. The organizer gap does not block content scoring.
