

Jing-Zhang Temporal Stitch

One Corridor, Nine Needles, Three Clocks

Design Concept: Three-Layer Spatial Suture x Three Temporal Clocks

Physical Suture: ramps, openings, lighting, signage systems

Functional Suture: cross-boundary activity programming (markets, sports, education)

Systemic Suture: data flows, governance protocols, feedback loops

Day Clock (24h): morning exercise / commute / lunch / school / evening rhythms

Season Clock: seasonal function switching (winter wind shelter to summer shade)

Era Clock (decade): progressive opening strategy, AI monitoring boundary removal timing

Three-Phase Implementation

Phase 1 (Near-term, 1-3 years): Commercial, Memory, Health, Data Nodes (Dazhongsi Area)

Phase 2 (Mid-term, 3-5 years): Knowledge, Tidal Nodes (Zhongzhi Park Area)

Phase 3 (Long-term, 5-10 years): Entrepreneurship, Intergenerational, Nature Nodes (AI Origin)

Provisional geometry | Not official boundary | Not planning target | To be recalculated with official data
