

THE NURSERY

Main Line: Self-built railway (1909) → Self-innovation (1978) → Self-governance (2026 Nursery)

Six Mechanisms: Cultivation / Irrigation / Pruning / Shading / Rotation / Nitrogen Fixation

Three Zones: Seedbed 193ha · Greenhouse 104ha · Orchard 72ha

Design scope 369ha · Study area 1141ha · Spine green belt ~578ha

Conceptual design: all areas/scales/phasing are conceptual suggestions or low-confidence
design quantities (status=unknown); recalculate after replacing provisional with official boundary.

Six-Mechanism Governance System

A3 Booklet (2/6)

Cultivation	Birth certificate required for entry Greenhouse committee review + 3-month trial
Irrigation	Nutrients are public goods Data trust (Ostrom commons) + compute scheduling + open records
Pruning	Rings are public Third-party annual audit + continuous monitoring (Model Card)
Shading	Institutional + operational safeguards Guardian committee (Laux) + 3-level state machine + auto-degradation
Rotation	Auditable retirement Triple-check trigger + failure archive / retirement ledger + fallow rotation
Nitrogen Fix.	Return nutrients to soil Feedback obligations + contribution review + point cycle (Ostrom)

Three-Zone Detailed Design

A3 Booklet (3/6)

Seedbed — Nurturing Bed (193ha, provisional)

Clusters: Nursery greenhouses 15% / Adoption beds 25% / Irrigation canal 10% / Annual-Ring Plaza 5% / Garden blocks 30% / Green buffer 15%

Positioning: Garden-type AI innovation district

Greenhouse — AI Origin Cultivation (104ha, provisional)

Clusters: Cultivation beds / Germplasm bank / Night school / Youth community / Low-disturbance zone

Positioning: University-adjacent talent community

Orchard — Dazhongsi Harvest (72ha, provisional)

Clusters: Orchard market / Agent district / Station-city node / Static traffic zone

Positioning: Urban commercialization

Indicator System (Conceptual)

A3 Booklet (4/6)

- $\text{Indicator} = \frac{\text{Indicator}}{\text{Indicator}}$
- $\text{Indicator} = \frac{\text{Indicator}}{\text{Indicator}}$
- $\text{Indicator} = \text{Indicator}$
- $\text{Indicator} = \frac{\text{Indicator}}{\text{Indicator}}$
- $\text{Indicator} = \frac{\text{Indicator}}{\text{Indicator}}$
- $\text{Indicator} = \text{Indicator} \rightarrow \text{Indicator}$
- $\text{Indicator} = \geq 2 \frac{\text{Indicator}}{\text{Indicator}}$
- $\text{Indicator} = \frac{\text{Indicator}}{\text{Indicator}}$
- $\text{Indicator} = \text{Indicator}$
- $\text{Indicator} = \text{Indicator}$
- $\text{Indicator} = \frac{\text{Indicator}}{\text{Indicator}} / \frac{\text{Indicator}}{\text{Indicator}} (\text{Indicator} 2019)$
- $\text{Indicator} = \text{Indicator}$
- $\text{Indicator} = \frac{\text{Indicator}}{\text{Indicator}}$
- $\text{Indicator} = \frac{\text{Indicator}}{\text{Indicator}}$
- $\text{Indicator} = \frac{\text{Indicator}}{\text{Indicator}}$
- $\text{Indicator} = \frac{\text{Indicator}}{\text{Indicator}}$
- $\text{Indicator} = \frac{\text{Indicator}}{\text{Indicator}} / \frac{\text{Indicator}}{\text{Indicator}}$
- $\text{Indicator} = \frac{\text{Indicator}}{\text{Indicator}}$
- $\text{Indicator} = \frac{\text{Indicator}}{\text{Indicator}}$
- $\text{Indicator} = \frac{\text{Indicator}}{\text{Indicator}}$
- $\text{Indicator} = \frac{\text{Indicator}}{\text{Indicator}}$

Phasing Plan & Operation System

A3 Booklet (5/6)

Phase I: Sowing (Year 0–2)

Focus: Greenhouse + adoption pilot + shade standard

Gate: First 10 AI services complete trial; incubation record completeness 100%

Phase II: Garden (Year 2–4)

Focus: Three beds fully open + audit workshop

Gate: Six mechanisms in routine operation; audit coverage 100%; irrigation records 100% open

Phase III: Cycle (Year 4–6)

Focus: Rotation + nitrogen cycle + replication kit

Gate: First rotation ceremony complete; open-source feedback rate $\geq 50\%$; replication kit published

Operations: maintenance calendar (seasonal ritual rhythm) + annual events + gardener community points + intl. outreach (CC-BY-4.0)

Compliance Matrix Overview (15 Requirements)
