

COMMON TIME

Six bounded AI-planning roles route evidence to human decisions; three sites accept only reversible, comparable and retireable actions.

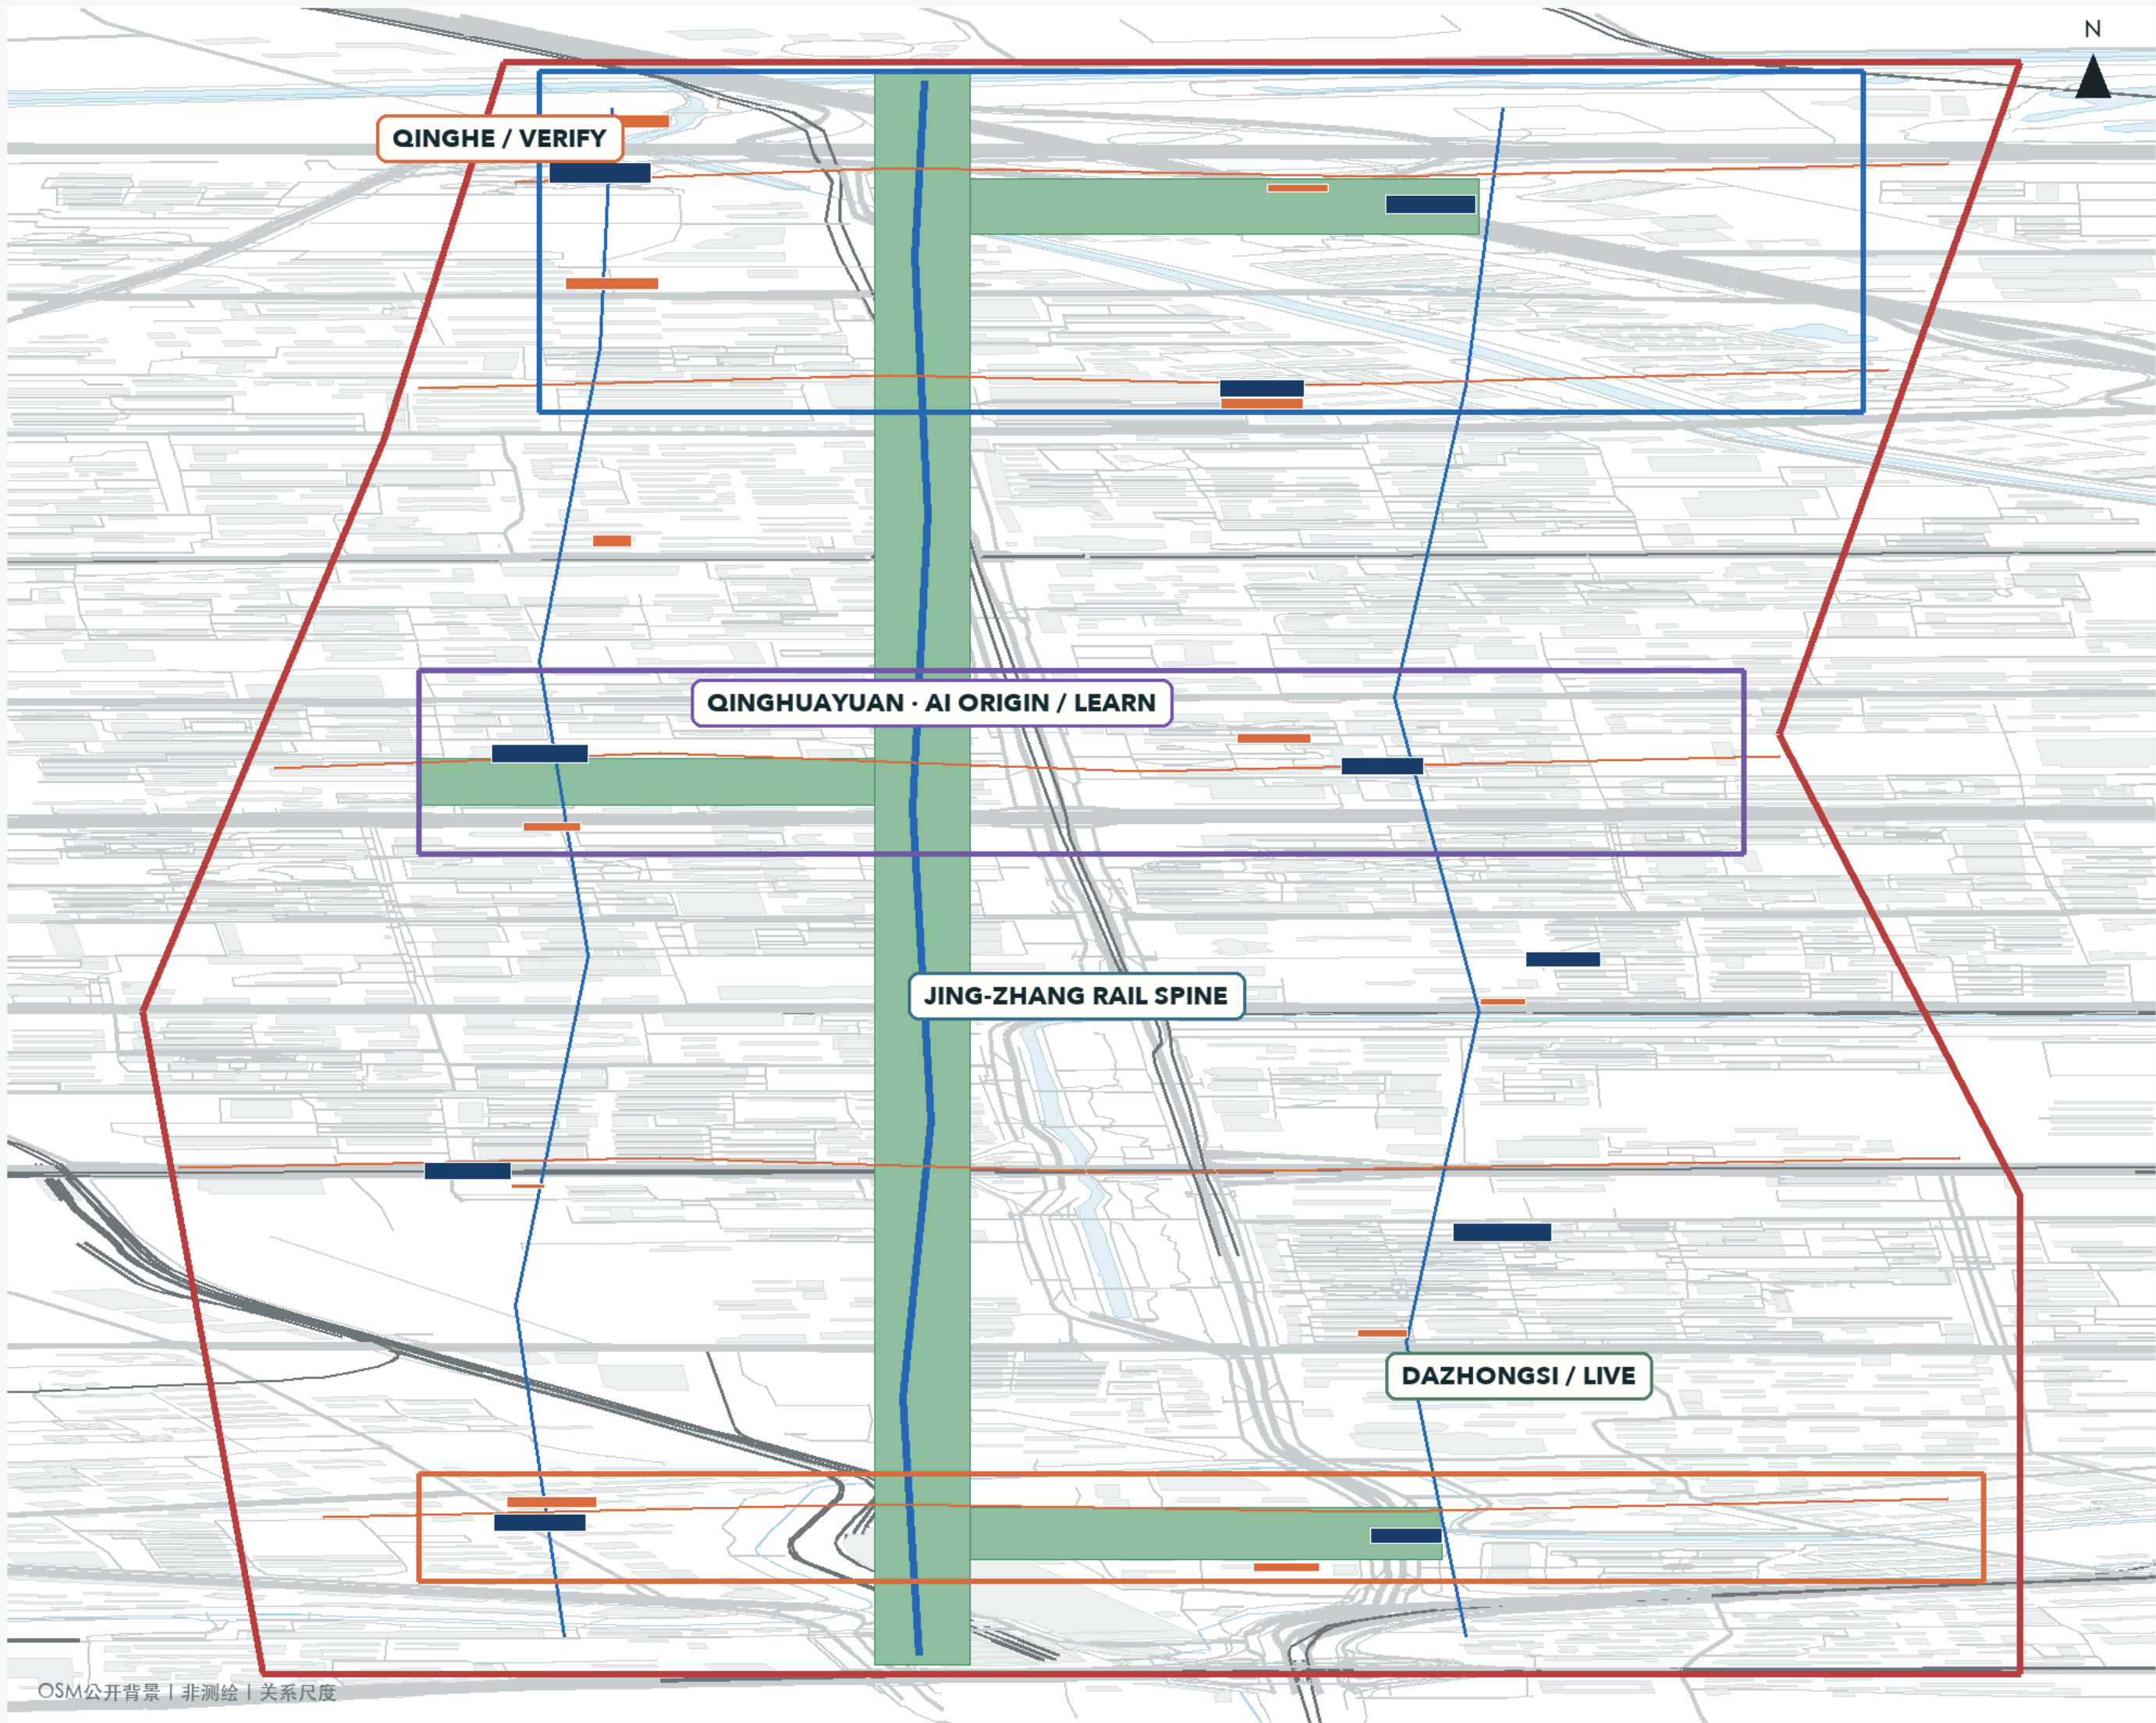

CONCEPT · NO PERSONAL PROFILING, AUTOMATED APPROVAL OR ALGORITHMIC RIGHT OF WAY · HOLD UNTIL AUTHORITY, FIELD, THRESHOLD, COST AND INDEPENDENT COMMISSION

02 / RELATIONAL MASTERPLAN

ONE SPINE · THREE CLOCKS · TWO WINGS · TWELVE COMMONS

A relational masterplan: provisional geometry is not a statutory boundary.

STRUCTURE LEGEND

ONE SPINE | memory · ecology · slow mobility
THREE CLOCKS | VERIFY · LEARN · LIVE
TWO WINGS | technology service · urban needs
TWELVE COMMONS | arrival · test · learn · quiet

EVIDENCE GATES

VERIFY | reproducible and controlled testing
LEARN | public translation and correction
LIVE | bounded trial, human takeover and retirement

INTERVENTION ORDER

01 SHARE | measure real additional use
02 RETROFIT | access, ground floor, shade, separation
03 ADD LIGHTLY | movable, maintainable, restorable
04 BUILD ONLY WITH EVIDENCE | boundary, title, heritage, capacity and TCO

COMMON TIME JING-ZHANG / V13.0 / EVIDENCE OS

CONCEPT / PROVISIONAL / HUMAN DECISION

DR-01 / TABLETOP DECISION REPLAY

DR-01 | Which reversible P-L01 kit may enter D31-60?

The simulated fixture verifies logic only—not authority, field performance or implementation.

authority | fire/access | quiet | offline parity | privacy | takeover | reversible | exit reserve

A / FORMULA

Product of 8 gates, then channels > removable > fewer fixed

K1

B / ENUMERATION

Remove K2 row; K0/K1 pass; K1 has more channels

K1

MUTATION / OFFLINE PARITY 1 0

K1 must exit: never reweight, average or move a gate

K0

01 / DECISION ATLAS

Readable Qinghe, Qinghuayuan-AI Origin, Dazhongsi and rail-spine locators; never a statutory line

VERIFY

Qinghe controlled validation

separation + public explanation + manual log; remove on safety/heritage/ecology failure

LEARN / FIRST

AI Origin learning court

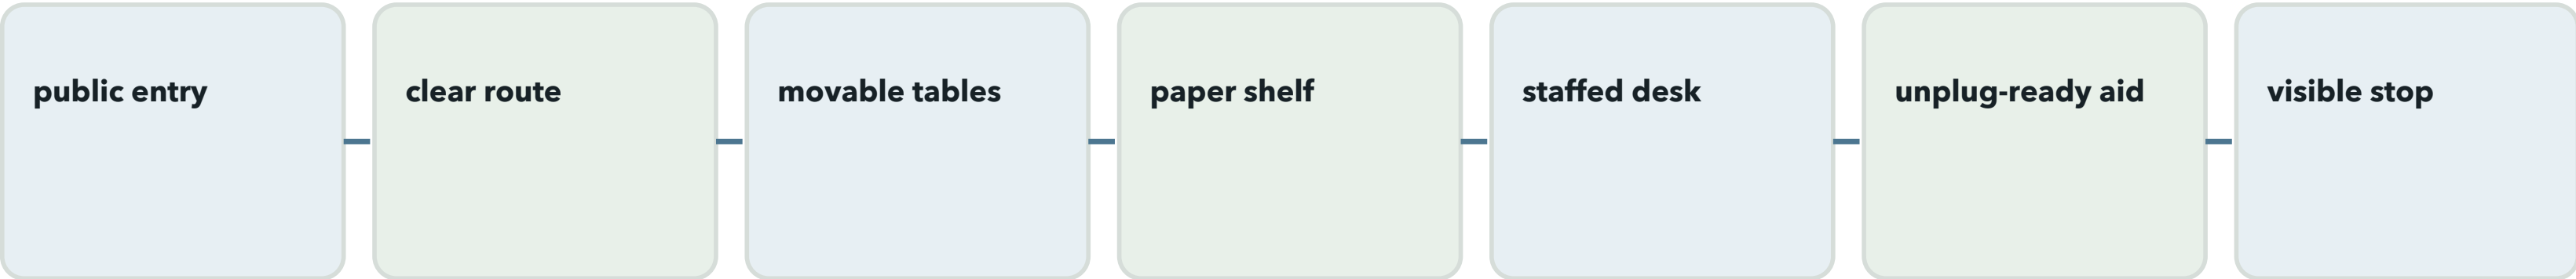

movable furniture + print + staffed service; renew, revise or retire at D90

LIVE

Dazhongsi arrival forecourt

fixed signs + shaded wait + human steward; no algorithmic right of way

K1 / REVERSIBLE SPATIAL CONSEQUENCE

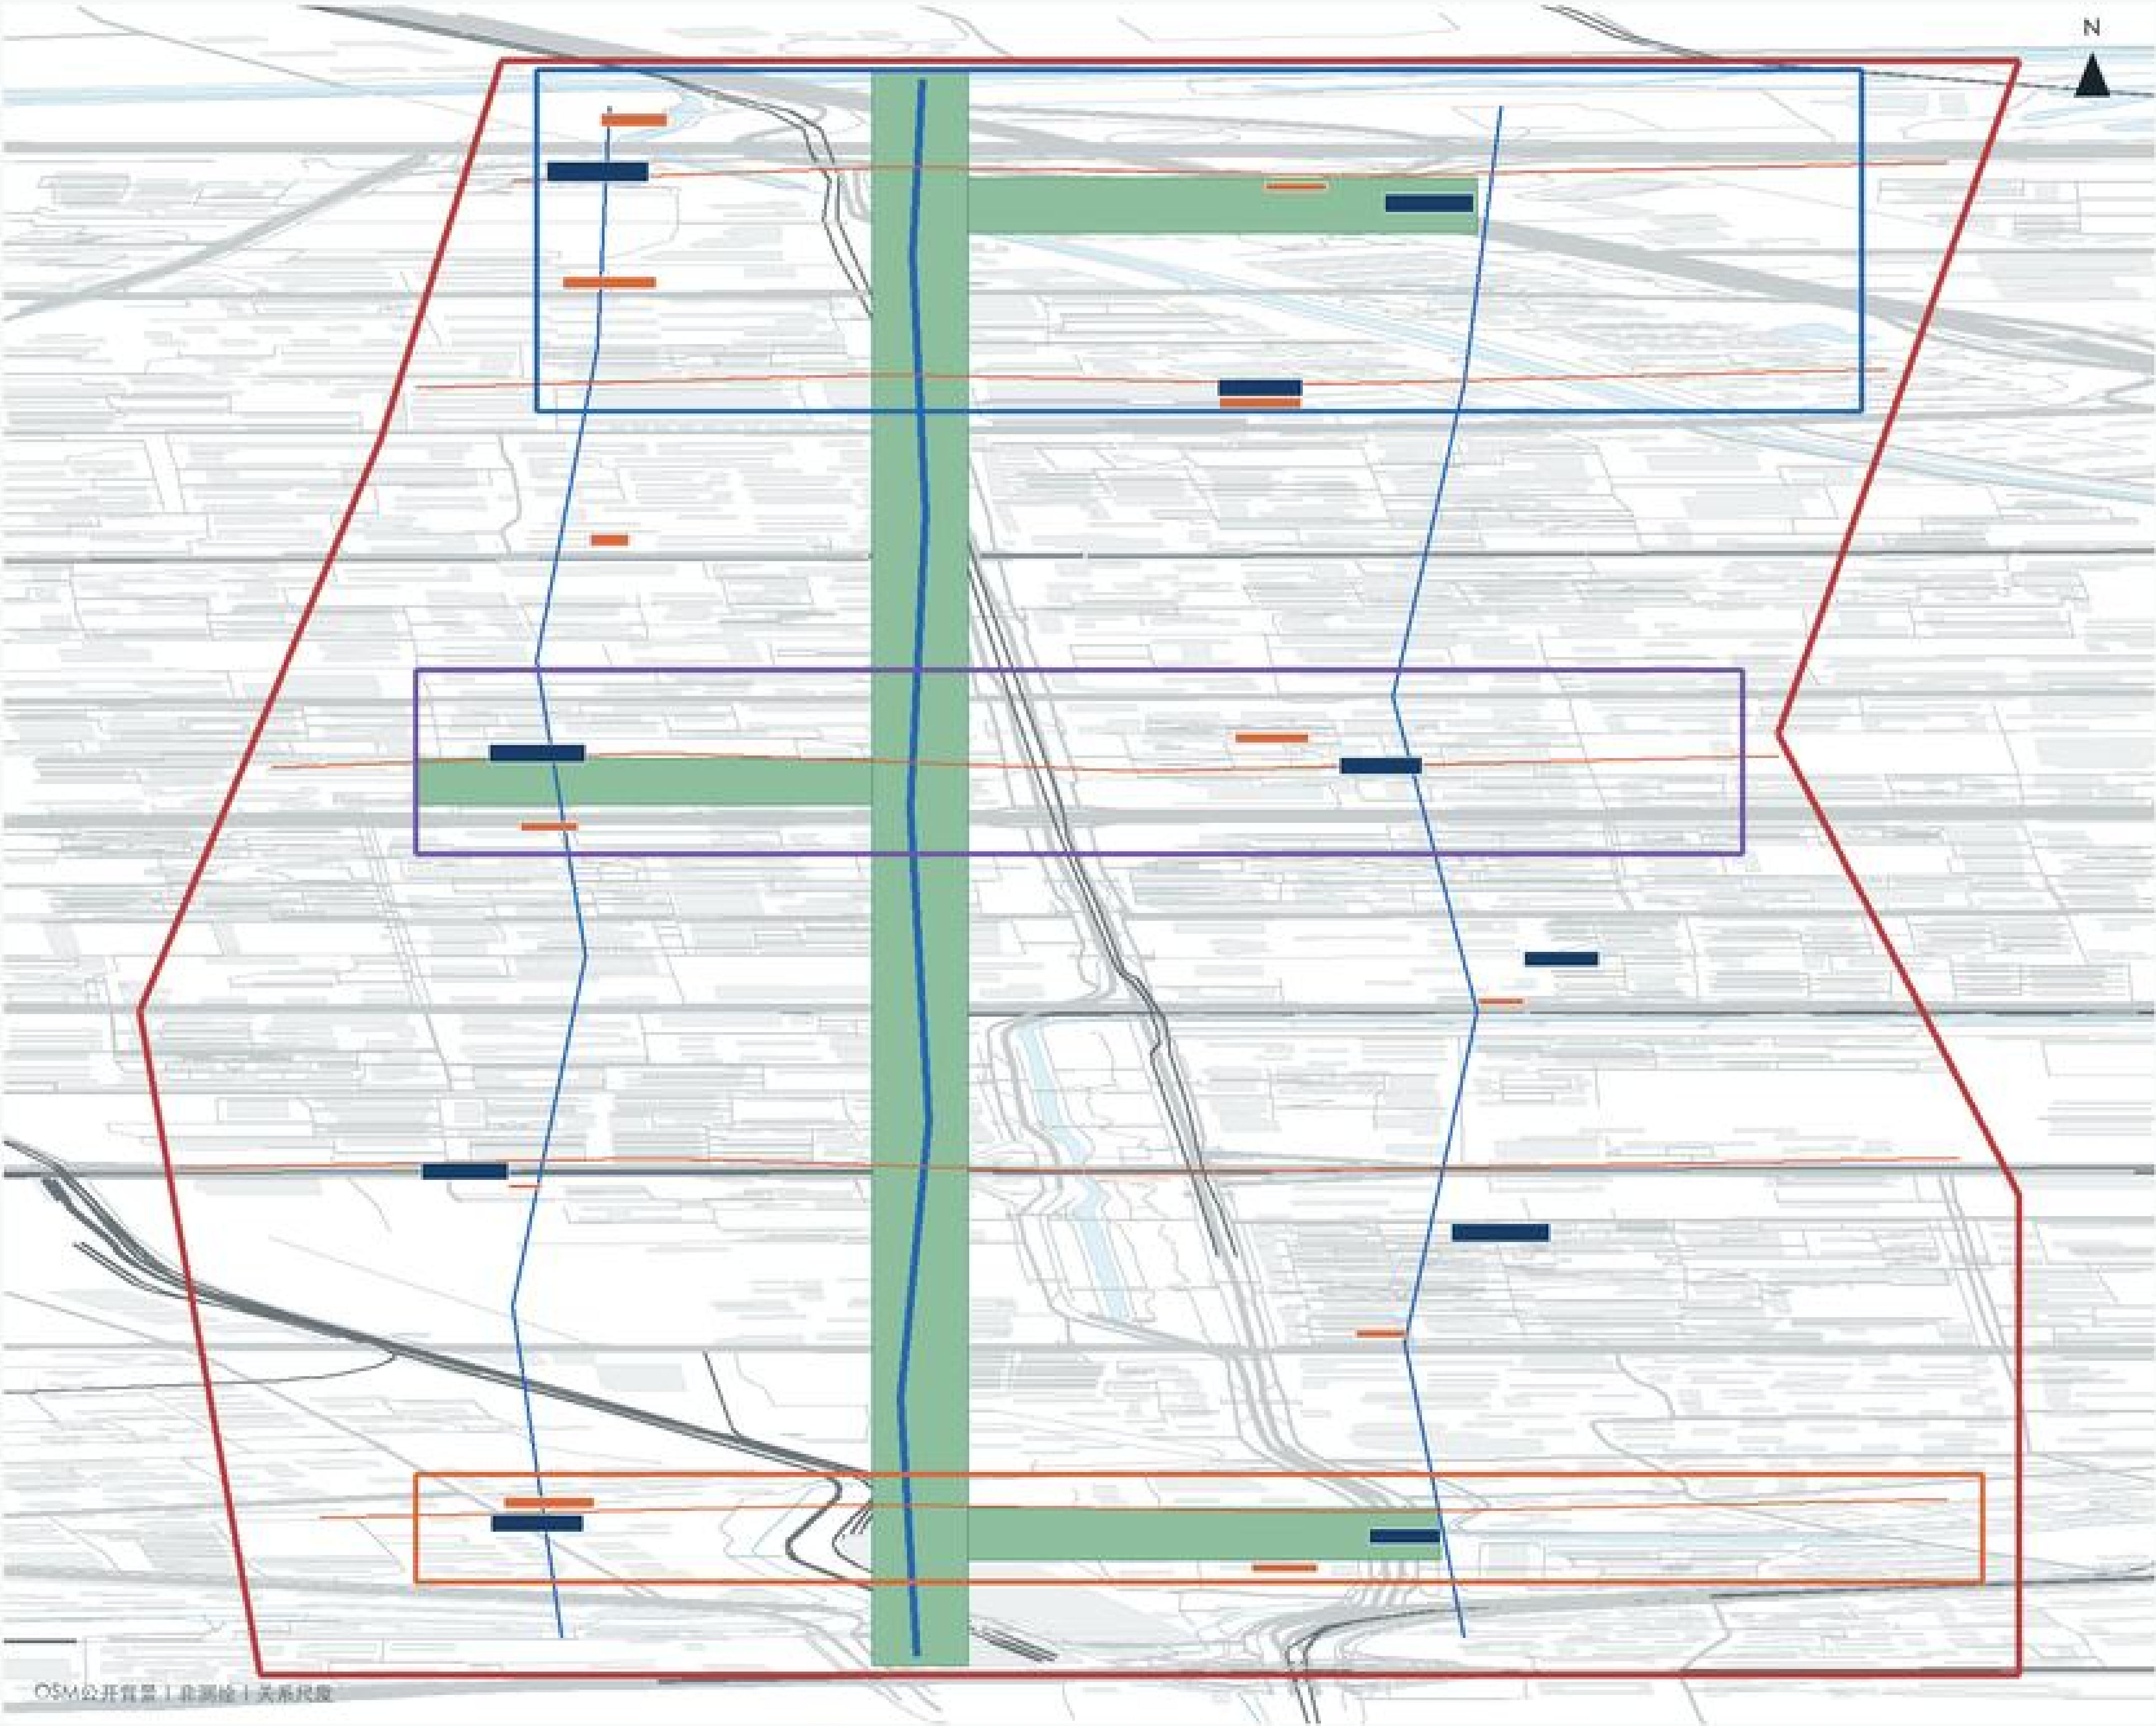

Both independent methods select K1; deliberately breaking offline parity downgrades to K0. Real P-L01 still needs authority, fieldwork, co-signed thresholds, real cost, independent appointment and official geometry; current state is HOLD.

ONE SPINE · THREE CLOCKS · TWO WINGS · TWELVE COMMONS

02 / RELATIONAL MASTERPLAN

ONE SPINE · THREE CLOCKS · TWO WINGS · TWELVE COMMONS

A relational masterplan: provisional geometry is not a statutory boundary.

COMMON TIME JING-ZHANG / V8.0

STRUCTURE LEGEND

ONE SPINE | memory · ecology · slow mobility
THREE CLOCKS | VERIFY · LEARN · LIVE
TWO WINGS | technology service · urban needs
TWELVE COMMONS | arrival · test · learn · quiet

EVIDENCE GATES

VERIFY | reproducible and controlled testing
LEARN | public translation and correction
LIVE | bounded trial, human takeover and retirement

INTERVENTION ORDER

01 SHARE | measure real additional use
02 RETROFIT | access, ground floor, shade, separation
03 ADD LIGHTLY | movable, maintainable, restorable
04 BUILD ONLY WITH EVIDENCE | boundary, title, heritage, capacity and TCO

CONCEPT PROPOSAL · NOT AN APPROVED PLAN · PROVISIONAL RELATIONSHIPS · PROFESSIONAL VERIFICATION REQUIRED

The relational masterplan organises questions without claiming statutory geometry.

UNKNOWN + SPATIAL ROLES + OPERATING TIME

03 / THREE OVERLAYS

FROM FALSE PRECISION TO UNKNOWN + SPATIAL ROLES + OPERATING TIME

Three aligned layers; land-use codes support topology and are not regulatory recommendations.

COMMON TIME JING-ZHANG / V8.0

CONCEPT PROPOSAL · NOT AN APPROVED PLAN · PROVISIONAL RELATIONSHIPS · PROFESSIONAL VERIFICATION REQUIRED

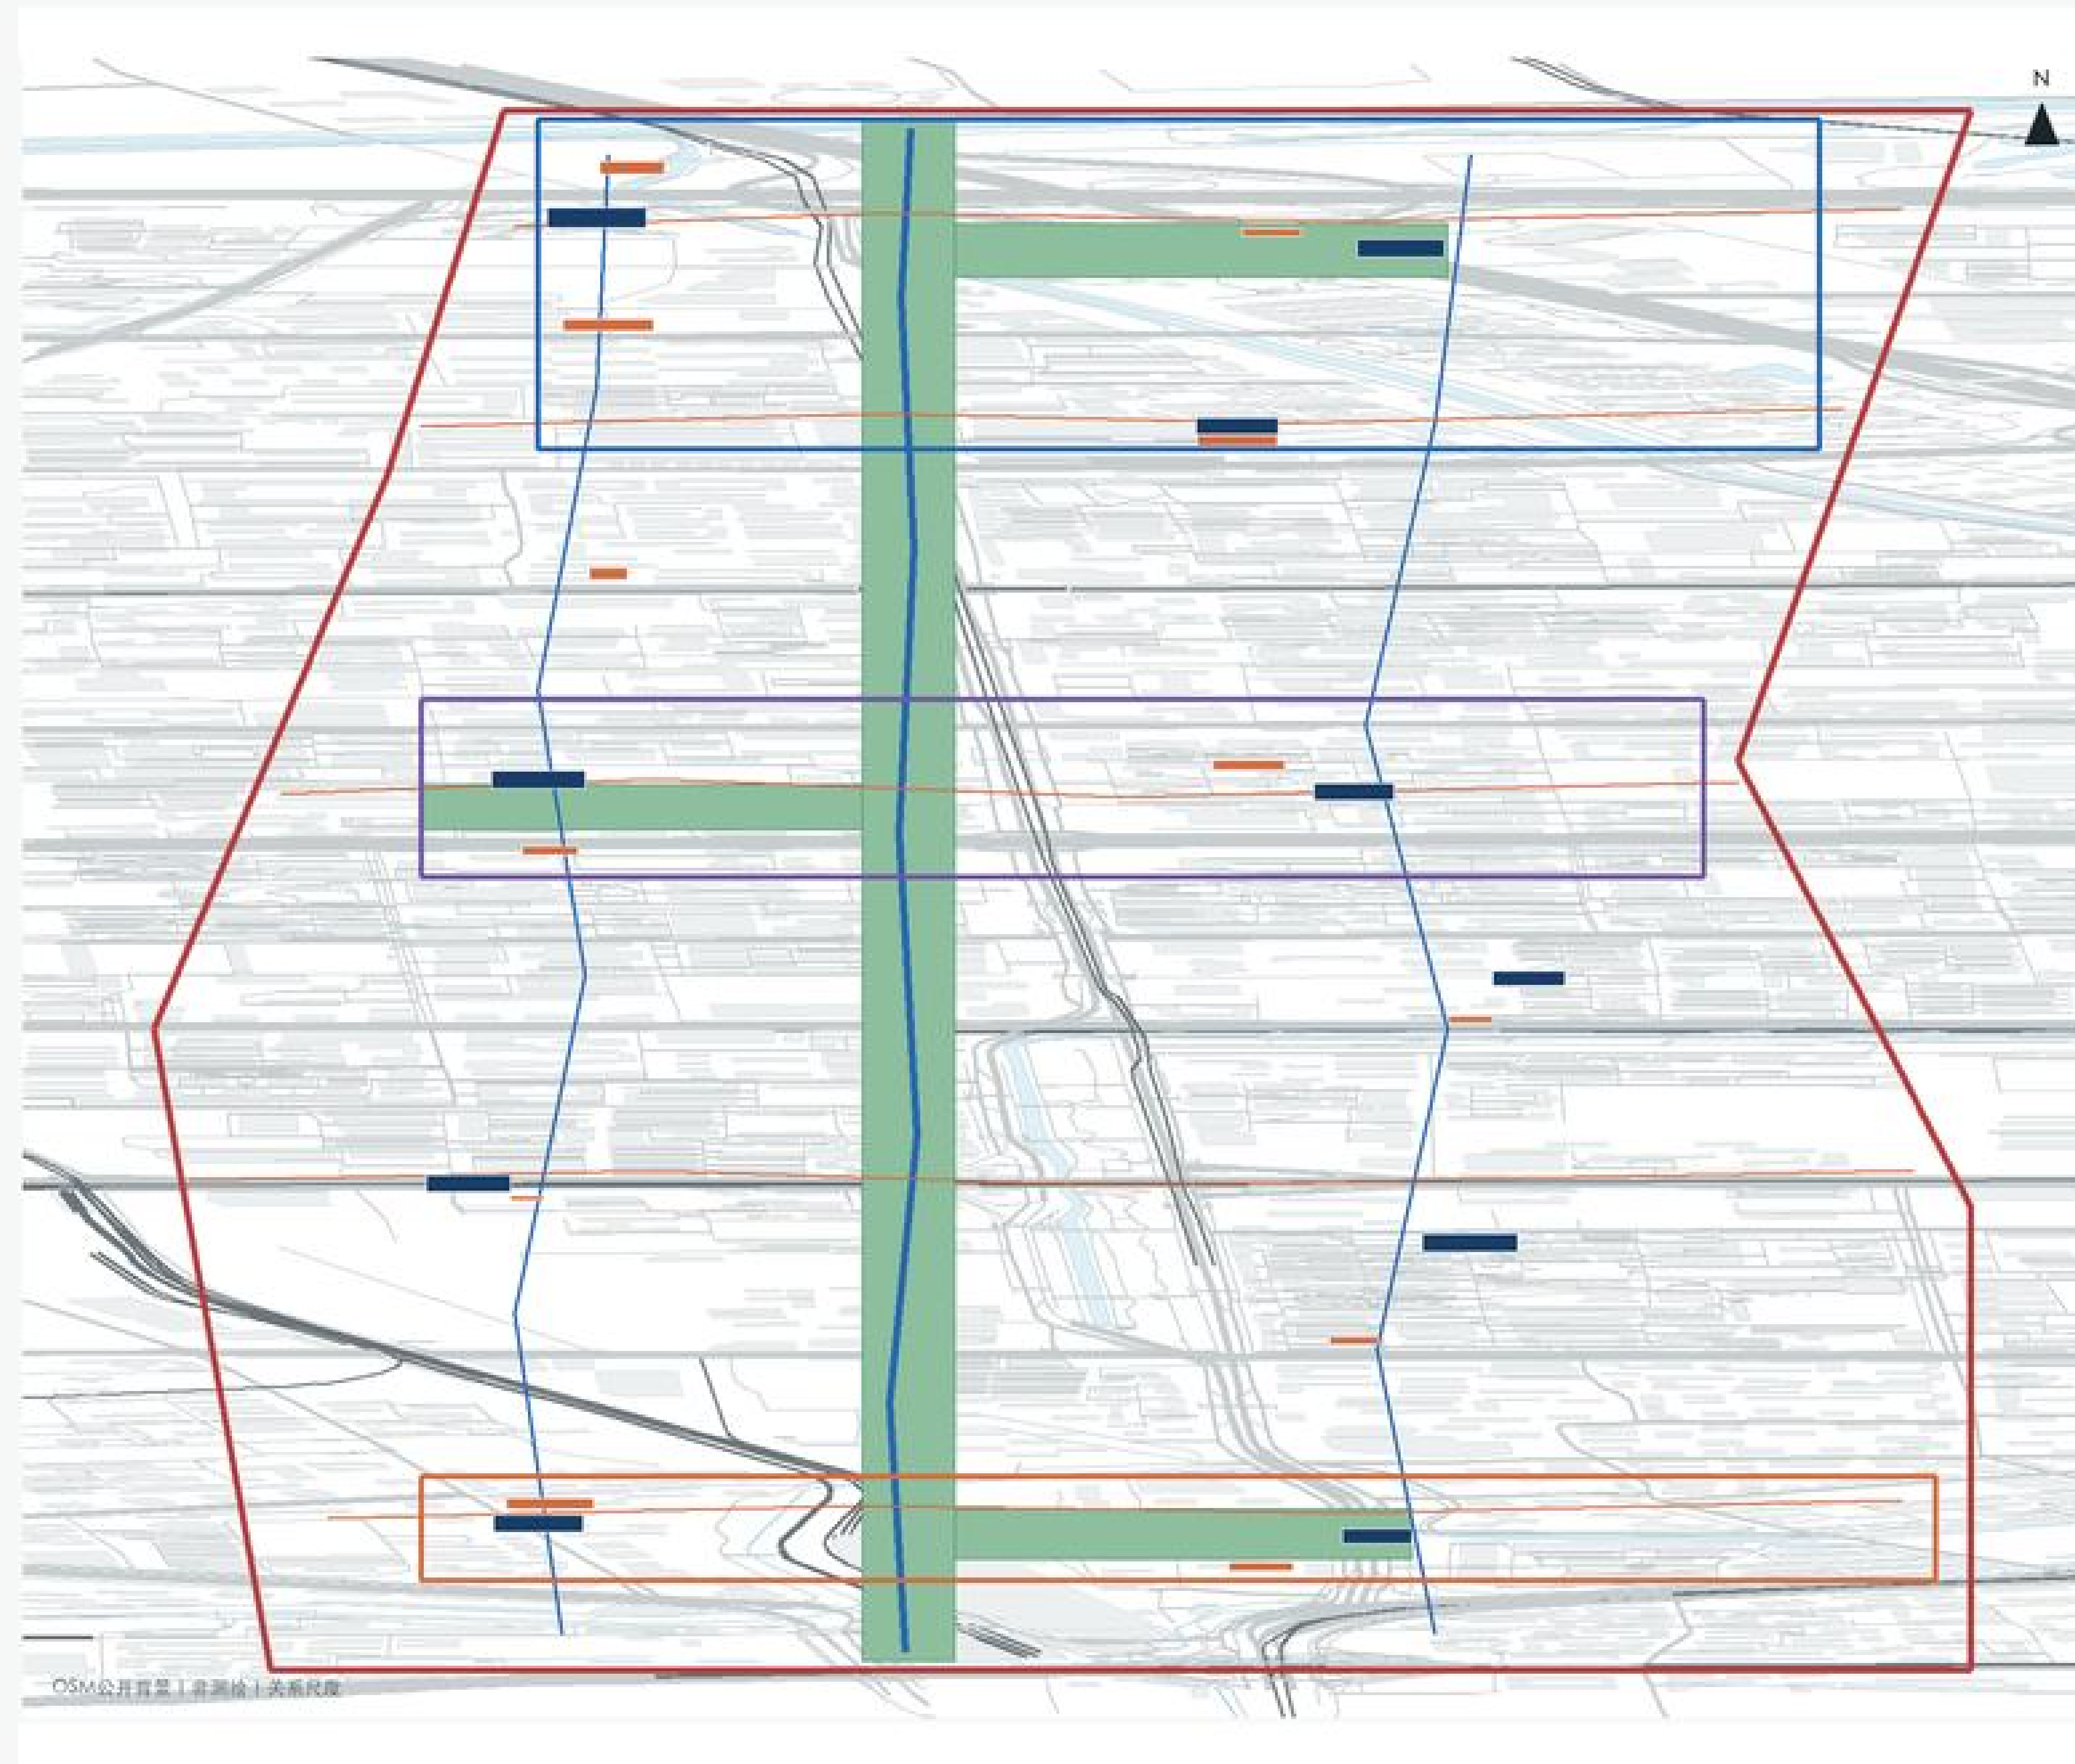

Aligned layers compare missing evidence, conceptual roles and negotiated operating time.

MOBILITY • BLUE-GREEN • UTILITIES • GROUND FLOOR

05 / SYSTEMS + SECTIONS

NEGOTIATE MOBILITY, BLUE-GREEN, UTILITIES AND GROUND FLOOR TOGETHER

Candidate links register questions; sections expose sequence, conflict and professional handoff.

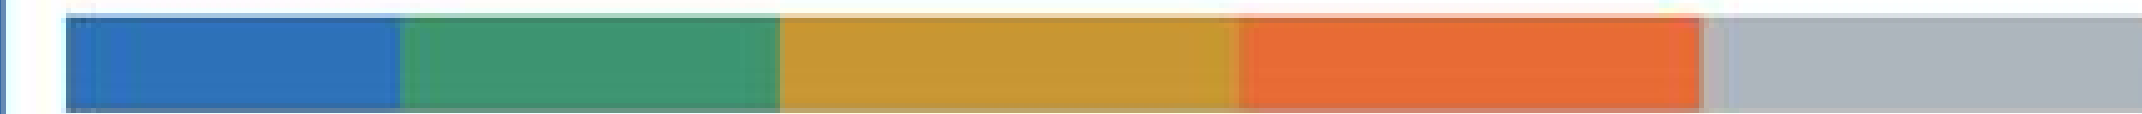

OSM 公开数据 | 来源 | 关系 | 尺度

COMMON TIME JING-ZHANG / V8.0

T1 QINGHE—VERIFY

river | maintenance | public | separation | controlled
Verify flood, ecology, Fifth Ring and maintenance.

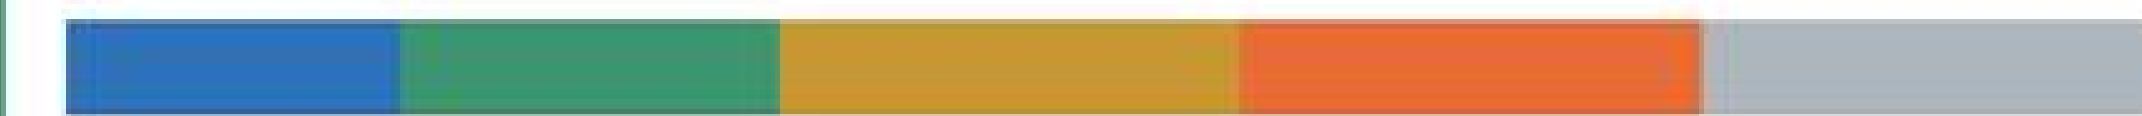

T2 CAMPUS—LEARN

campus | edge | learning | community
Verify heritage, access, roads, fire and IP.

T3 HERITAGE—COMMUNITY

memory | slow mobility | shared ground floor | daily life
Verify identity, noise, light, loading and access.

T4 STATION—CIVIC ROOM

station | cycle | wait | trial | quiet
Verify passengers, evacuation, kerb, utilities and takeover.

CONCEPT PROPOSAL • NOT AN APPROVED PLAN • PROVISIONAL RELATIONSHIPS • PROFESSIONAL VERIFICATION REQUIRED

Four sections expose conflict, professional inputs and human takeover.

VERIFY · LEARN · LIVE

04 / THREE KEY AREAS

THREE KEY AREAS: REAL CONTEXT, RELATIONAL PLAN, REALISTIC CONCEPT

Each row separates what is real, what is proposed and what still requires verification.

VERIFY

ZHONGZHIYUAN | PROVE THE ENGINEERING

REAL PHOTO | LICENSED

RELATIONAL PLAN | PROVISIONAL

AI CONCEPT | NOT EXISTING

LEARN

BEIJING AI ORIGIN | BRING KNOWLEDGE TO THE CITY

REAL PHOTO | LICENSED

RELATIONAL PLAN | PROVISIONAL

AI CONCEPT | NOT EXISTING

LIVE

DAZHONGSI | SHARE URBAN TIME

REAL PHOTO | LICENSED

RELATIONAL PLAN | PROVISIONAL

AI CONCEPT | NOT EXISTING

COMMON TIME JING-ZHANG / V8.0

CONCEPT PROPOSAL · NOT AN APPROVED PLAN · PROVISIONAL RELATIONSHIPS · PROFESSIONAL VERIFICATION REQUIRED

Real photography, relational plans and AI concept images remain explicitly separated.

TEN PROJECTS · NINE GATES

06 / DELIVERY + METRICS

SPACE, RESPONSIBILITY, FUNDING, OUTCOME AND EXIT PASS TOGETHER

Ten project contracts and nine gates; counts do not substitute for outcomes and unknowns stay visible.
