

Jing-Zhang Compute Belt

Centennial Jing-Zhang AI Innovation Belt - Open Call Formal Package (v1.4, provisional-boundary concept)

Core metrics

Note: all geometry is provisional-rough - not official redline/regulatory/approval basis; regulatory metrics are unknown pending official conditions. Sources: Haidian 2025 Statistical Bulletin, OpenStreetMap (ODbL), task book.

Metric	Value
Site area (provisional recompute)	1,141.28 ha
Green ratio (concept)	9.3%
Public-space ratio (concept)	1.1%
Building footprint (concept)	1.099M m ²
Road network (OSM + greenway)	83 km
Cards / tests / personas / landmarks	10 / 3 / 5 / 3

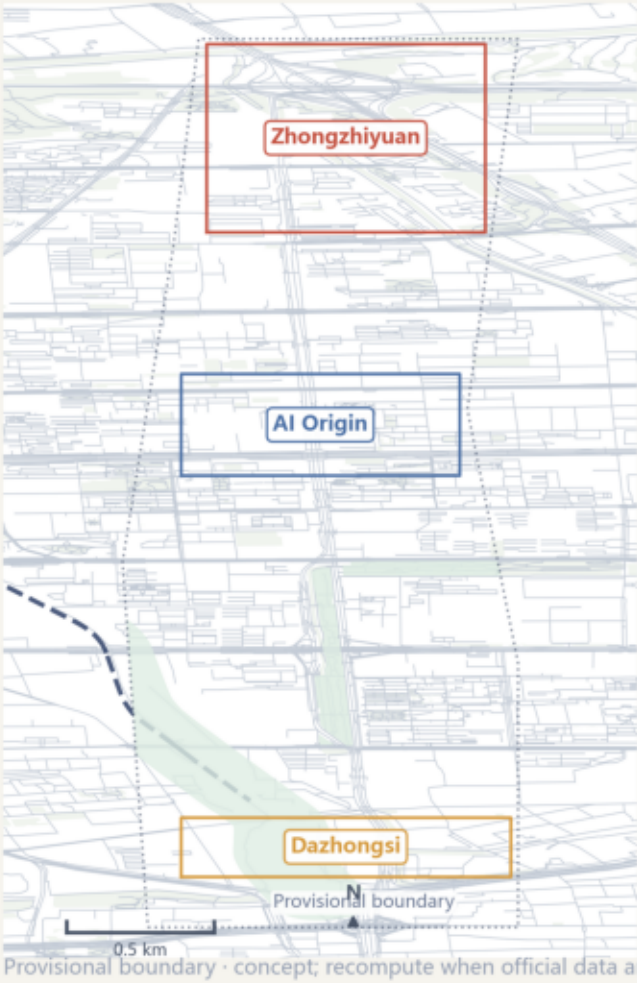

Jing-Zhang Compute Belt

Centennial Jing-Zhang AI Innovation Belt - Open Call Formal Package (v1.4, provisional-boundary concept)

Jing-Zhang Compute Belt: Three Key Areas

Positioning + space + scenarios

Location

Zhongzhiyuan Open-source pole

Positioning + space + scenarios

S1 Model evaluation
S2 Robot delivery ring
S3 Shuttle demo (N)
Baseline: 6 mo (eval) / 3 mo (ring)

AI Origin Community Service pole

Positioning + space + scenarios

S4 Health nav.
S6 Elderly companion
S7 Civic counter
Honor wall & Gallery
Baseline: 6 mo, monthly report

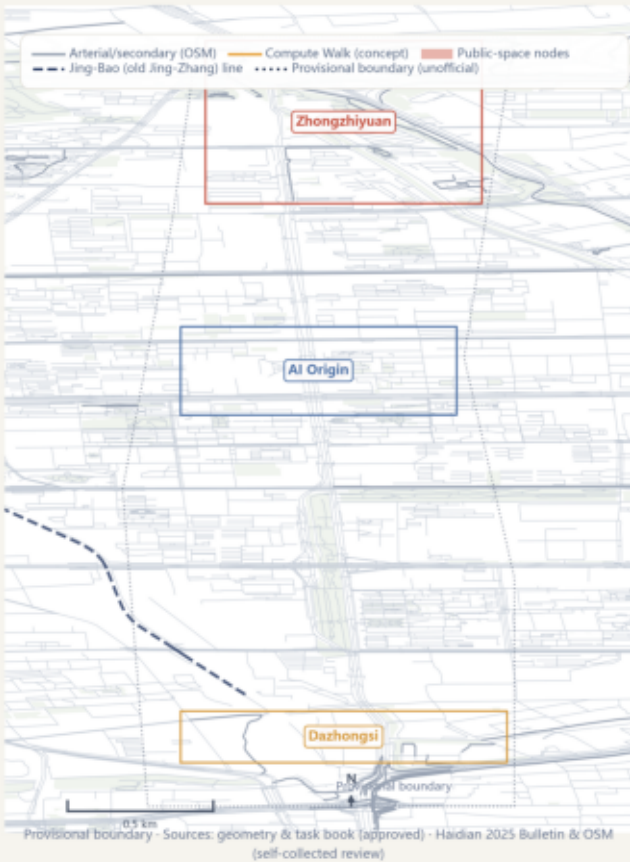

Dazhongsi Operation pole

Positioning + space + scenarios

S10 Open Day
S3 Shuttle demo (S)
Open-market plaza
Audit: semi-annual + annual review

Compute Belt: Mobility and Blue-Green Space

Existing roads as base; concept greenway and public space as design layer

Note: all geometry is provisional-rough - not official redline/regulatory/approval basis; regulatory metrics are unknown pending official conditions. Sources: Haidian 2025 Statistical Bulletin, OpenStreetMap (ODbL), task book.

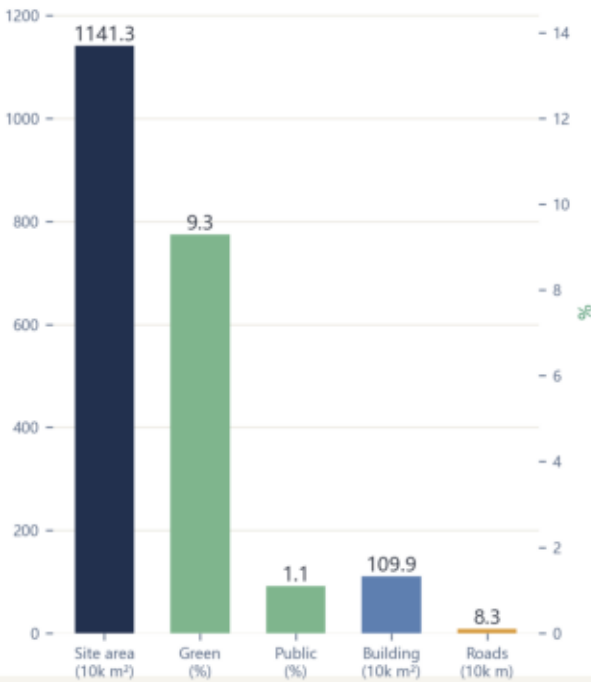

Jing-Zhang Compute Belt

Centennial Jing-Zhang AI Innovation Belt - Open Call Formal Package (v1.4, provisional-boundary concept)

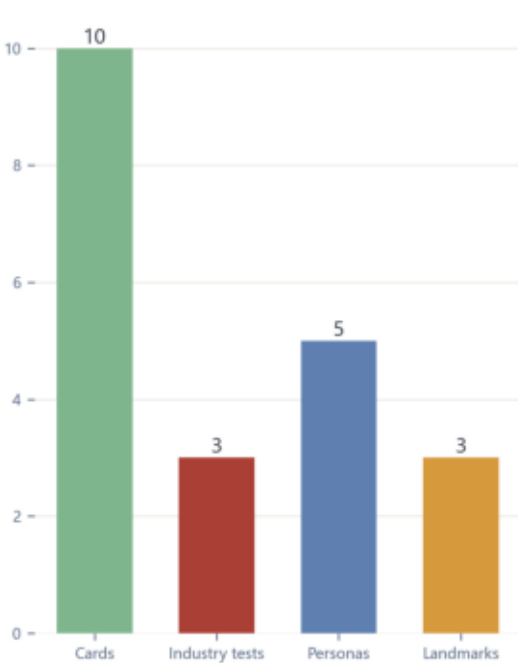

Compute Belt: Core Metrics and Evidence Chain

Geometry-recomputed EPSG:4548 (provisional) · Task commitments · Economic derivations

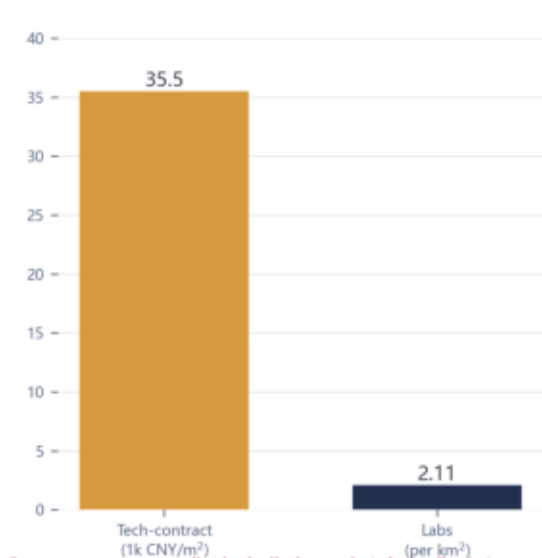

Geometry-recomputed (EPSG:4548, provisional)

Task commitments (agent.1-6)

Economic derivations (district bulletin, low conf.)

Caveat: numerator = district bulletin totals (whole district), denominator = provisional concept area - geographies NOT aligned. Low confidence, background only - NOT for site comparison or investment use

Sources: geometry & task book (approved) · Haidian 2025 Bulletin & OSM (self-collected review) | Regulatory metrics (FAR/height/density/setback) unknown pending official conditions; all metrics in metrics.json

Note: all geometry is provisional-rough - not official redline/regulatory/approval basis; regulatory metrics are unknown pending official conditions. Sources: Haidian 2025 Statistical Bulletin, OpenStreetMap (ODbL), task book.

Jing-Zhang Compute Belt

Centennial Jing-Zhang AI Innovation Belt - Open Call Formal Package (v1.4, provisional-boundary concept)

Key-Area Local Prototypes: Section and Node Concepts

Conceptual illustration - layer logic demo (not a construction drawing)

Zhongzhiyuan - Verification duty hall

Controlled evaluation layer

Test ring, benches, data boundary

Public evaluation plaza interface

Open to public during open hours

Observation deck, human review

Duty evaluator + escalation contact

AI Origin Community - Service pole

Digital service interface

Guide screens, no-login entry

Human counter interface

Low counter + paper/phone/human paths

Social-worker duty, transfer

Human takeover and complaint closure

Dazhongsi - Operation pole

Open-market plaza

Year-round, Open Day home ground

Terraces and accessible ramp

Continuous accessible circulation

Egress and standby route

Event safety and contingency

Conceptual prototypes: three section/node logics; dimensions and facilities follow planning/control and special studies - not a construction drawing.
