

JING-ZHANG FOR LIFE

A century of Jing-Zhang, a city for every life.

AI-GENERATED CONCEPT IMAGE · NOT A SITE PHOTO · NOT AN OFFICIAL PLAN OR APPROVAL · PROVISIONAL BOUNDARY

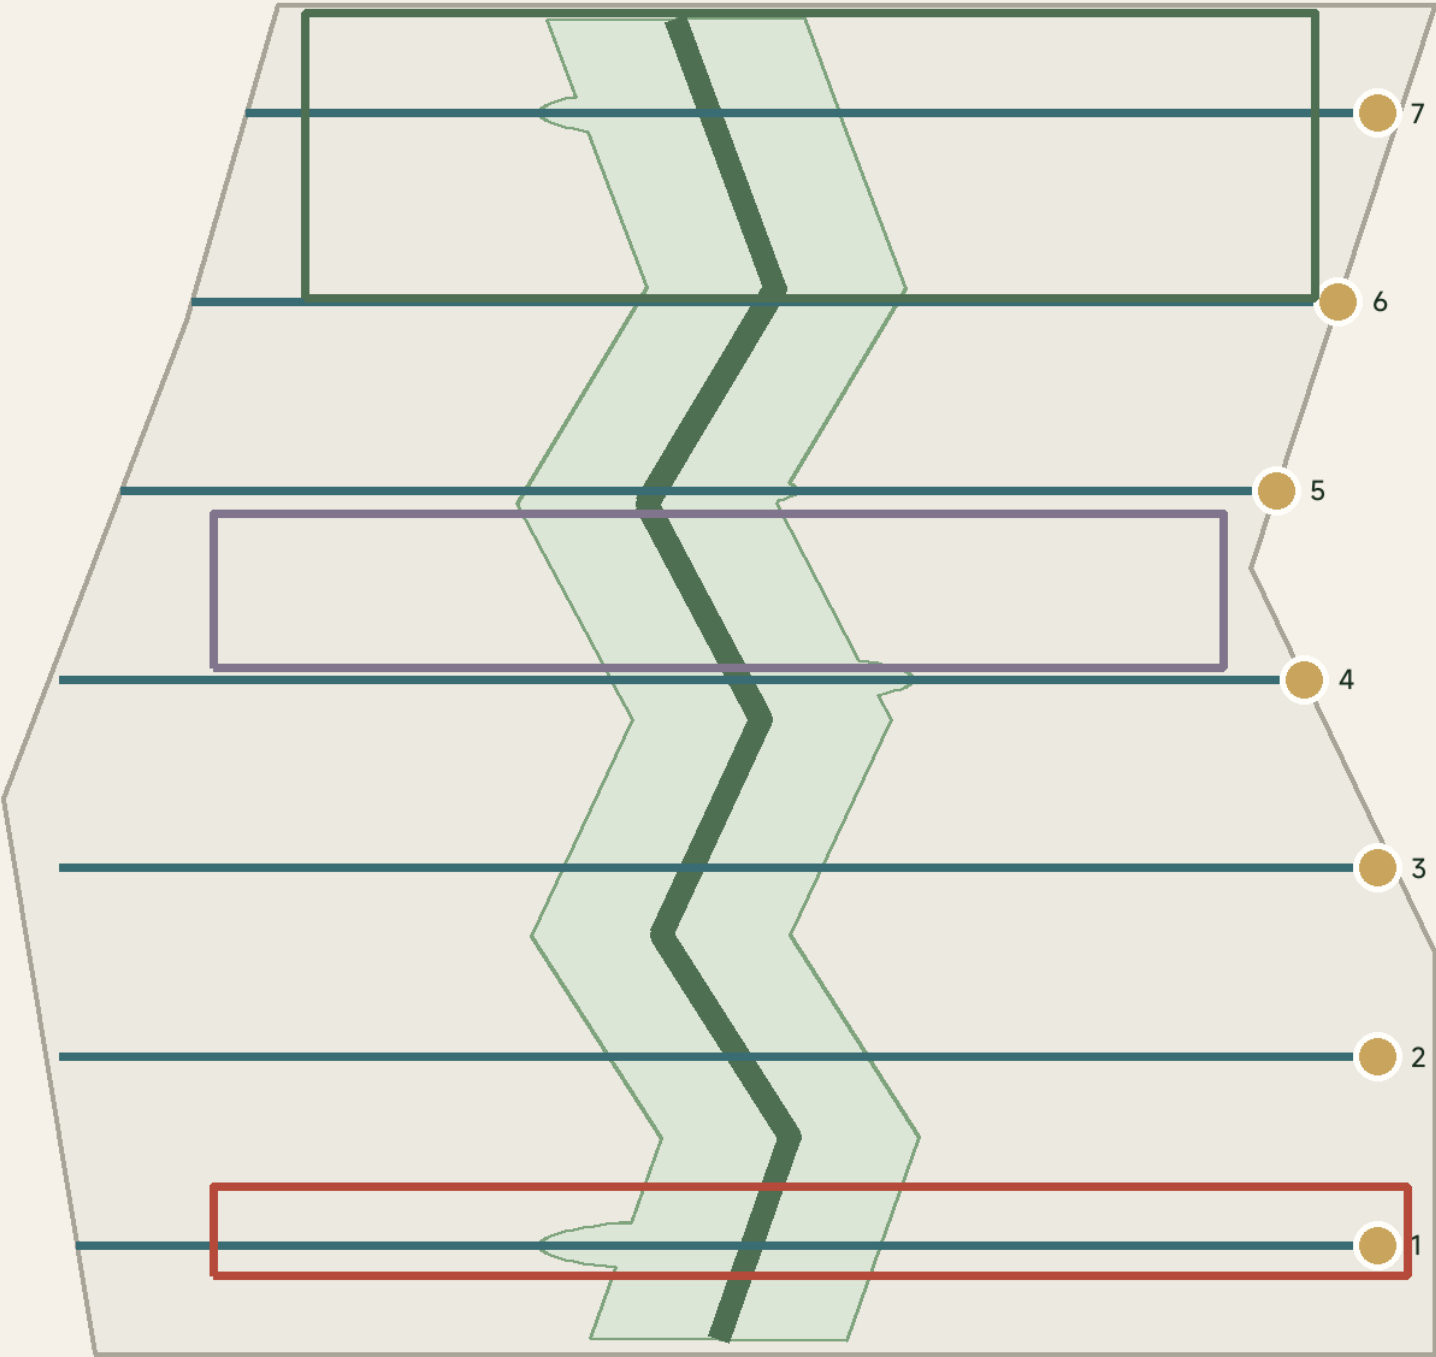

Overall structure

JING-ZHANG FOR LIFE / FIG.01

One-Seven-Three · Taskbook Response Map

Three positionings, five functions and three areas/two wings share one complete-life spatial system.

PROVISIONAL / NOT OFFICIAL

Three positionings

- Centennial Jing-Zhang Cultural Belt
- Urban AI Life Experience · AI Convergent Innovation

Five functions

- Full-stack autonomy · World-class ecosystem
- AI+ scenarios · Vibrant city · Governance discourse

Three areas + two wings

- AI Origin · Zhongzhiyuan · Dazhongsi
- Zhongguancun wing: IP/capital/talent/services
- Xiaoyuehe wing: experience/testing/exit

Original brand + regional interfaces

- Twin tracks, seven nodes, three landmarks, open gap
- Beiwei/Future/Huairou/ETDA/Jing-Jin-Ji · conceptual

Source: submitted GeoJSON and metrics.json; recalculated in EPSG:4548. Concept diagram, not statutory or engineering evidence.

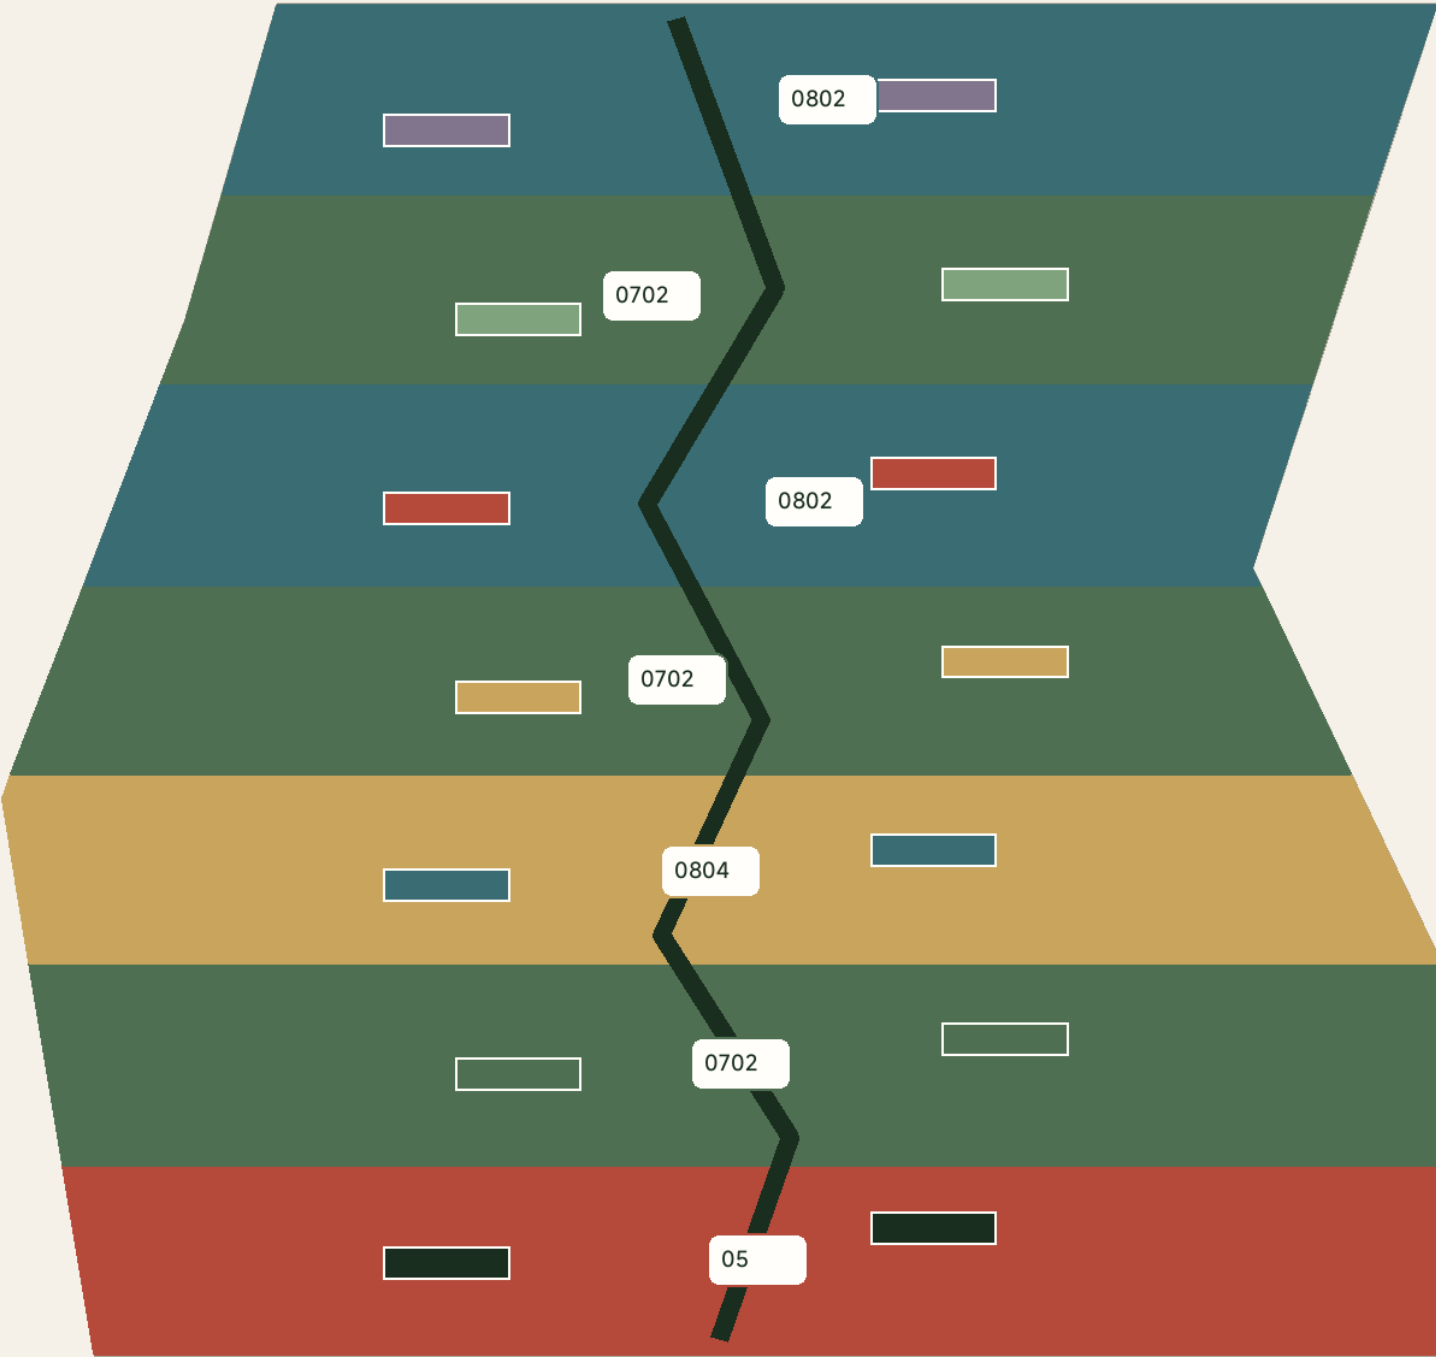

Seven life supports

JING-ZHANG FOR LIFE / FIG.02

Seven Life Supports and Concept Land-Use Structure

Seven complete zones express functional priority; fourteen service carriers show capacity, not existing buildings or statutory zoning.

PROVISIONAL / NOT OFFICIAL

Four concept functional zones

- 05 Civic content + gateway · 171.7 ha
- 0702 Housing + life support · 492.4 ha
- 0802 Open R&D + validation · 302.5 ha
- 0804 Education + health + care · 174.6 ha

Seven supports cross every zone

- Housing · Learning · Work · Care
- Health · Recreation · Culture
- 14 concept carriers are capacity samples only

Boundaries and prerequisites

- Every zone carries all seven minimum supports
- Building polygons are neither survey nor proposed scale
- Statutory zoning, intensity, height and redlines stay unknown
- Recalculate all after official data arrives

Source: submitted GeoJSON and metrics.json; recalculated in EPSG:4548. Concept diagram, not statutory or engineering evidence.

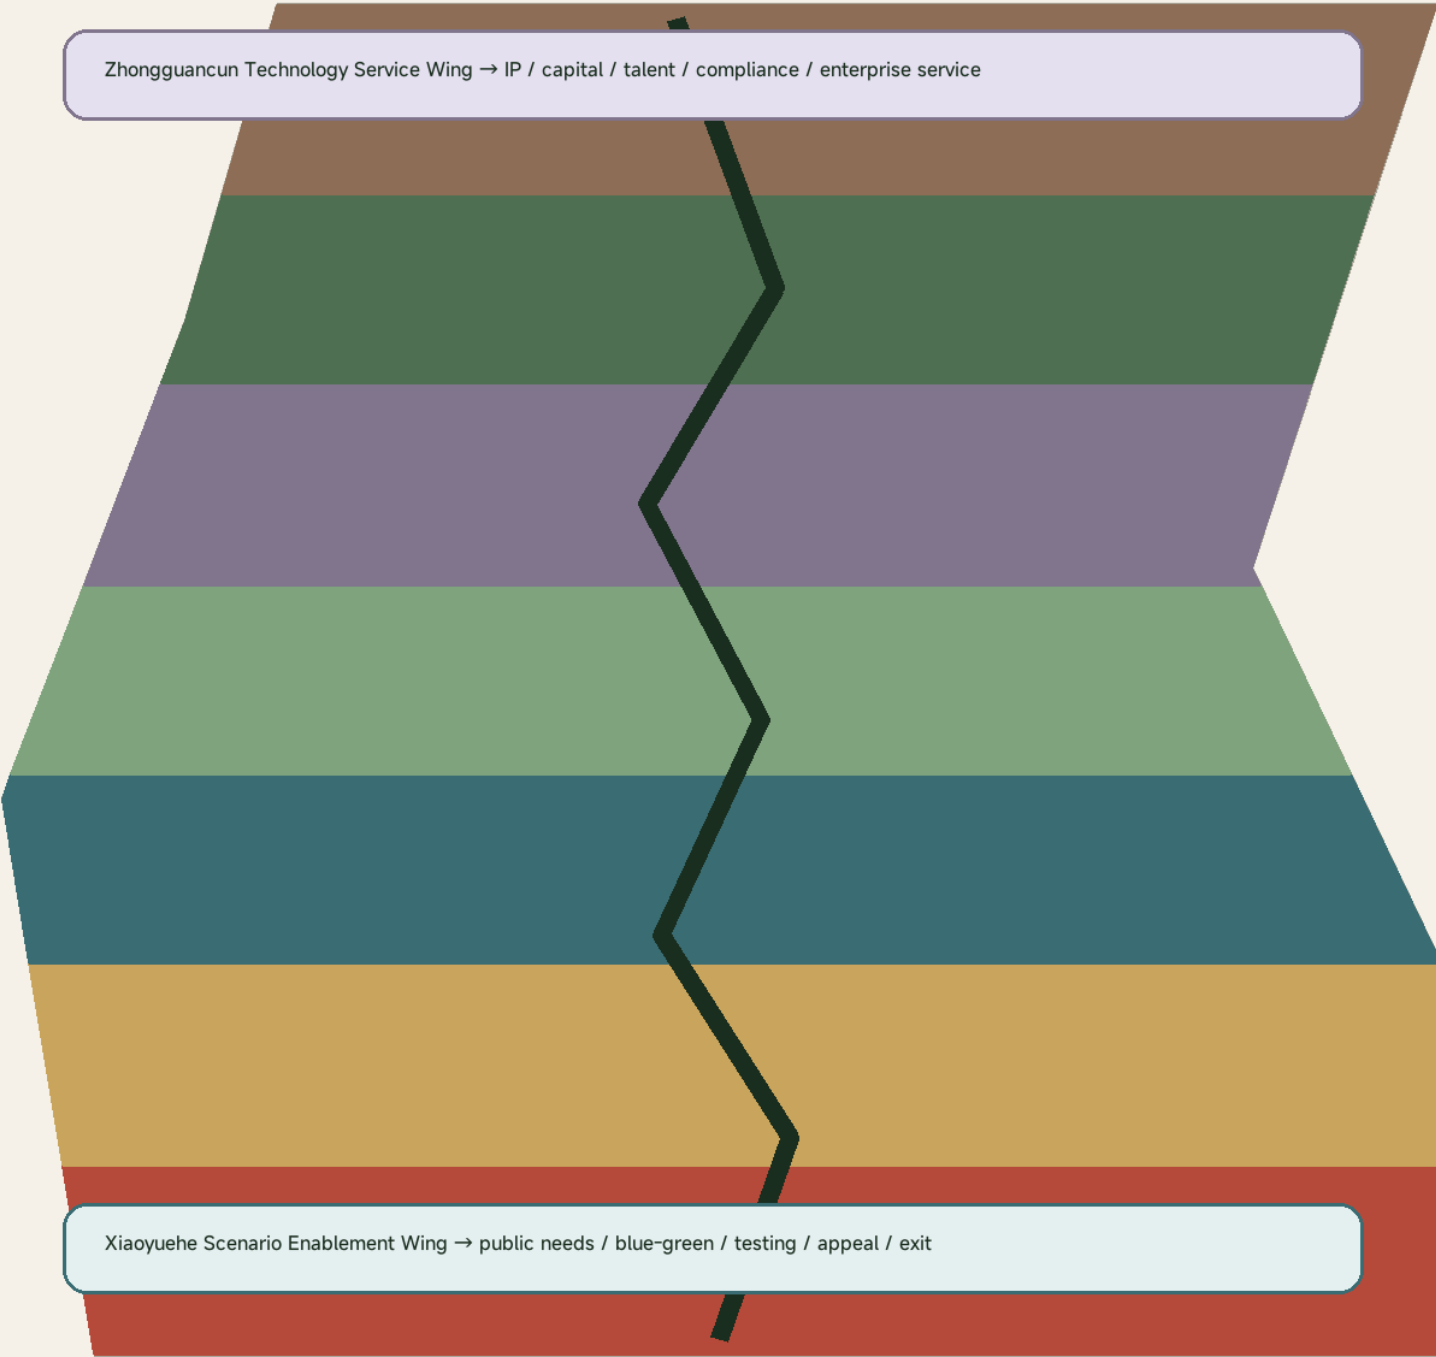

Full-stack AI and two-wing transmission

JING-ZHANG FOR LIFE / FIG.02A

Full-Stack AI Ecosystem and Two-Wing Transmission

Technology passes public-rights, bounded-validation and ten-year operating gates before entering the city.

PROVISIONAL / NOT OFFICIAL

- 01 Land + reversible space
- 02 Compute + edge
- 03 Data + public rights
- 04 Funds + patient capital
- 05 Talent + complete life
- 06 R&D + open briefs
- 07 Bounded validation + stop
- 08 Enterprise services
- 09 Public adoption + review

Source: ai_ecosystem_and_conversion.json and taskbook crosswalk; concept mechanism, not a confirmed industrial or partnership arrangement.

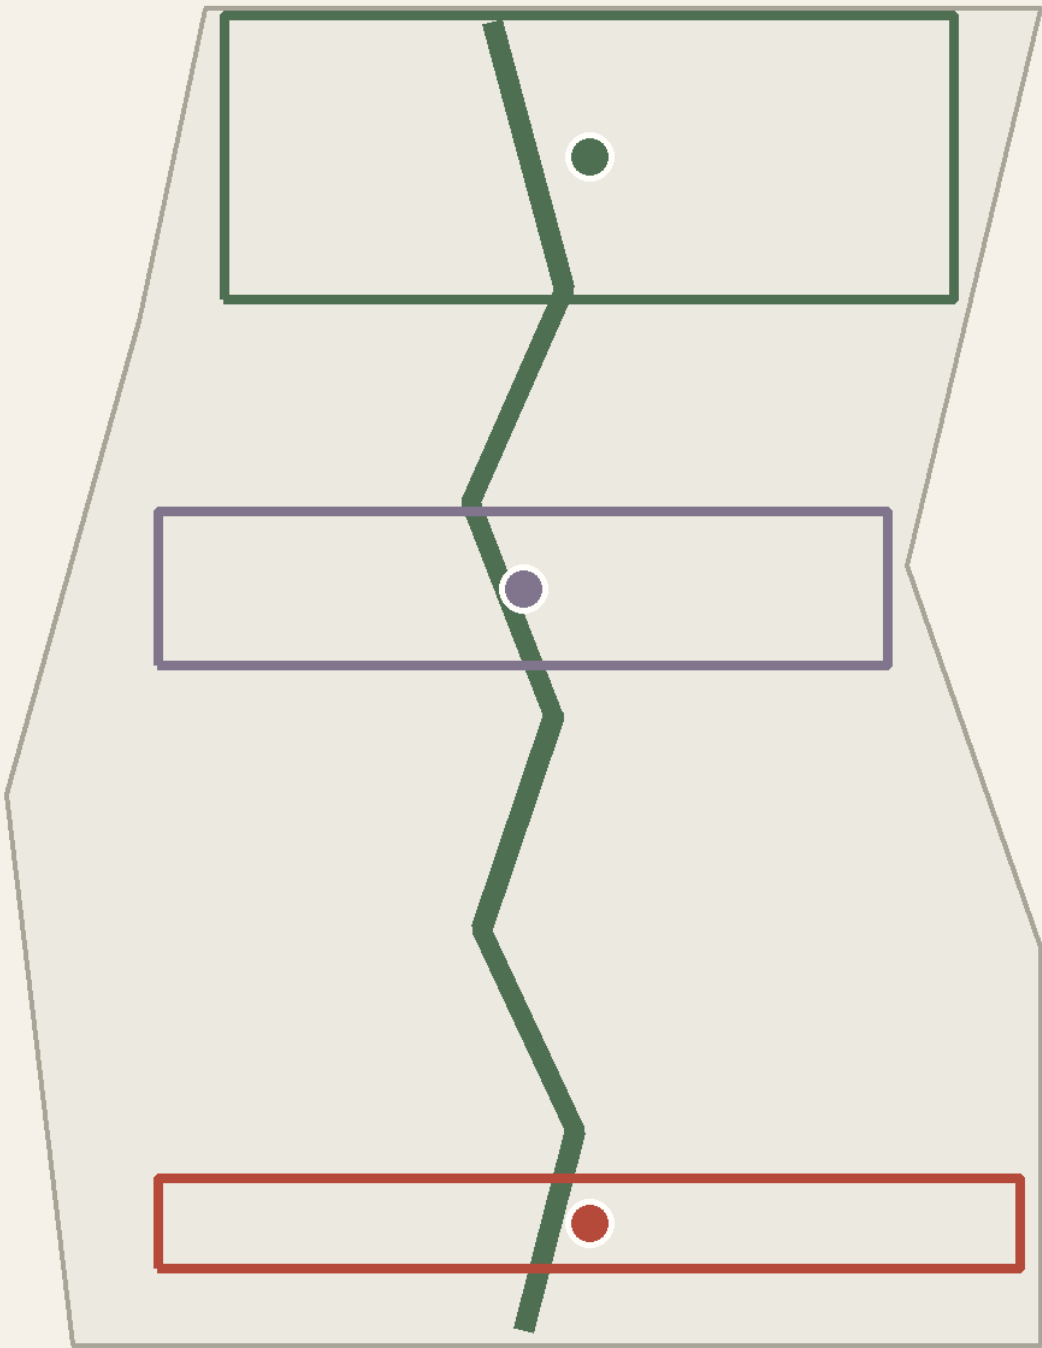

Three key areas

JING-ZHANG FOR LIFE / FIG.03

Three Key Areas: Different Capabilities, One Public Value

Leading firms provide capability; the public city defines value. Each landmark requires institution, architecture and recurring event.

PROVISIONAL / NOT OFFICIAL

Zhongzhiyuan Public Validation Yard

- Actors: campus + safety/ethics + public oversight
- Funds: operations/testing/research · 10y safety audit
- Open briefs/model cards/failure archive · quarterly
- Stop: no owner/budget/shutdown means no opening

AI Origin Intergenerational Commons

- Actors: integrated services + specialist care + residents
- Funds: service/operations/philanthropic · year 3/5/10
- Seven supports · monthly transition week
- Stop: exclusion/displacement or irreplaceable care risk

Dazhongsi Civilization Content Forum

- Actors: public culture + independent content + maintenance
- Funds: culture/operations/compliant sponsor · independence
- Multilingual studio/honor ring · annual season
- Stop: unclear rights or commercial narrative control

Gate: no operator and no ten-year operating budget, no project.

Source: submitted GeoJSON and metrics.json; recalculated in EPSG:4548. Concept diagram, not statutory or engineering evidence.

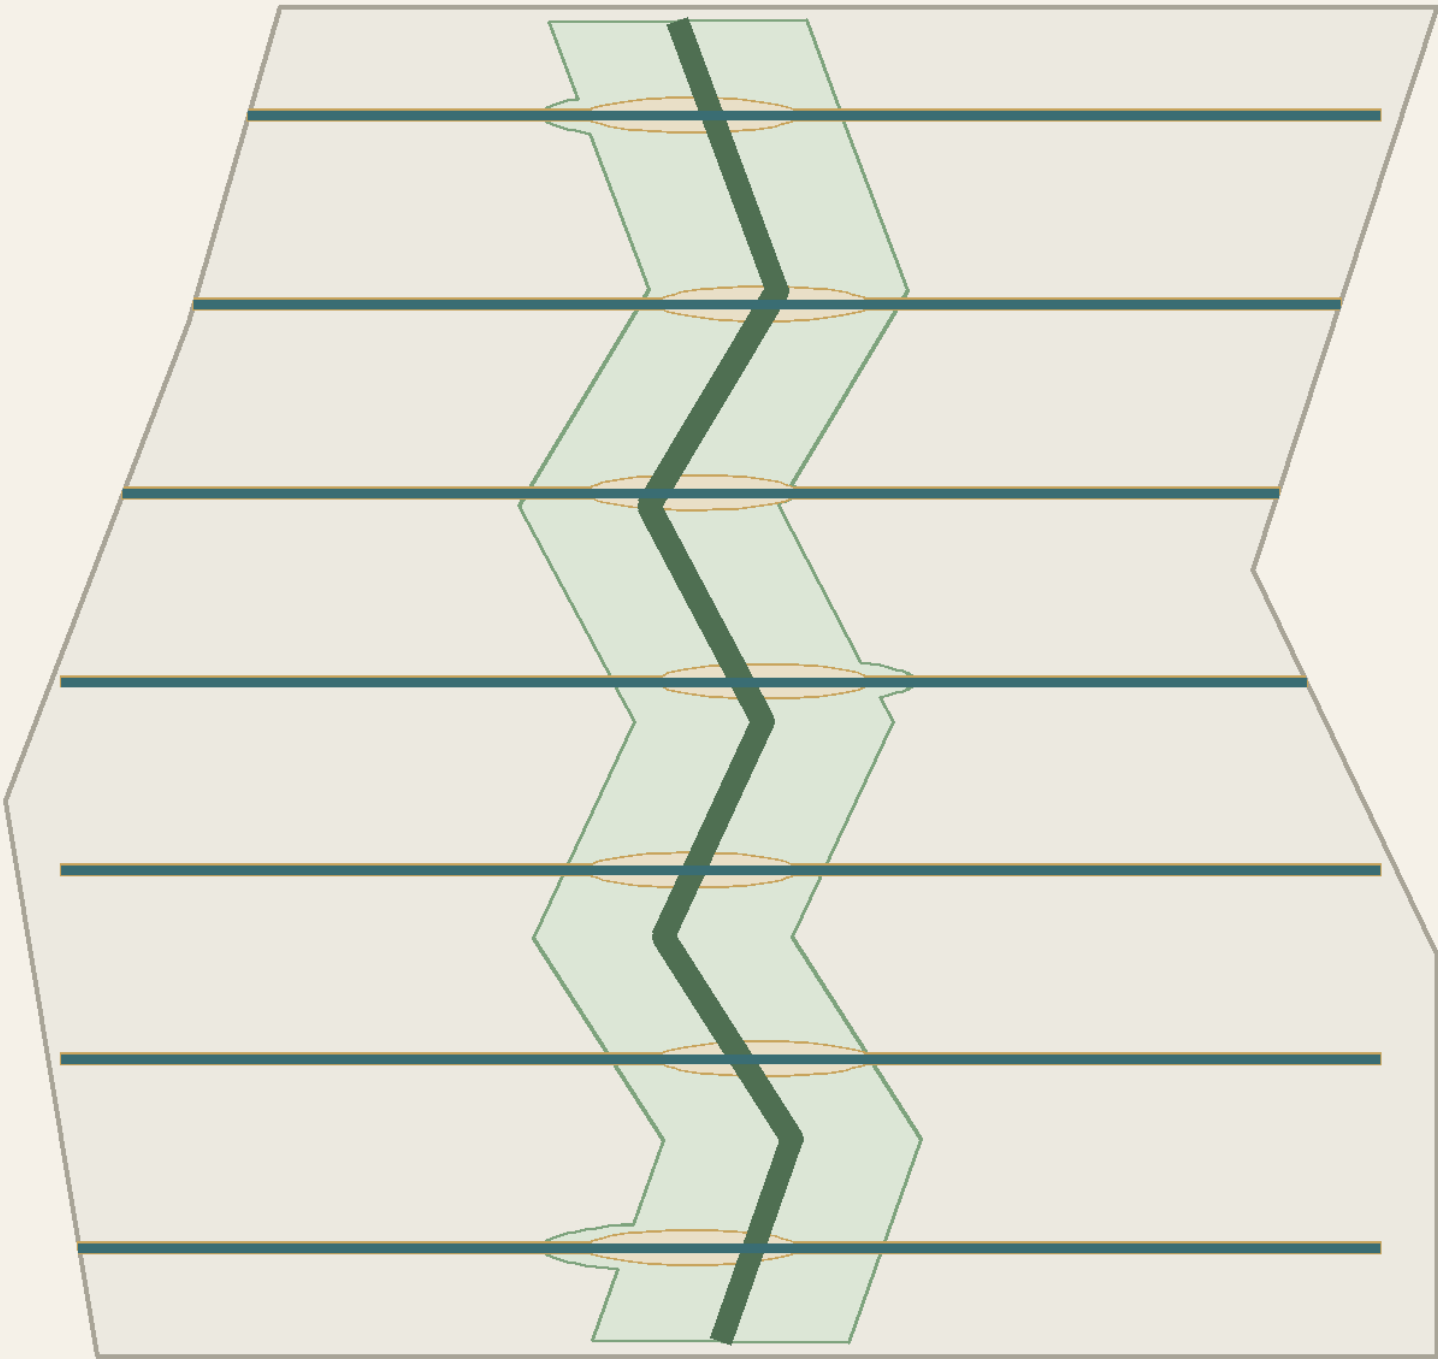

Mobility and ecological infrastructure

JING-ZHANG FOR LIFE / FIG.04

Ecology Is Infrastructure; Independent Access at 8 and 80

Connect before development; nature before cars and parking; continuous walking before spectacle mobility.

PROVISIONAL / NOT OFFICIAL

Xiaoyuehe wing + 8/80 test

- Public needs enter blue-green space and bounded tests
- Continuous/accessible/legible/rest/help · score after audit

Six public-space components

- 8/80 rest island · offline desk · all-weather walk
- Test boundary · oral-history repair wall · transition post

Four signage levels + honor ring

- L1 corridor / L2 circle / L3 service / L4 AI rights
- Evidence, not sponsorship; attribution is withdrawable

Equivalent without AI

- Paper/phone/staff · equal bilingual prominence · no QR-only

Source: submitted GeoJSON and metrics.json; recalculated in EPSG:4548. Concept diagram, not statutory or engineering evidence.

Metrics, outcomes and red lines

JING-ZHANG FOR LIFE / FIG.05

From Reproducible Evidence to Lived Outcomes

PROVISIONAL / NOT OFFICIAL

A machine PASS is neither excellence nor approval; success is whether people can complete a life here.

Eight common audit fields for all fourteen scenarios

Minimum data	Risk tier	Retention/deletion	Human review
Offline equivalent	Appeal SLA	Emergency stop	Full exit

Chinese/English proposal, HTML, A3/A0 and six figure pairs audit names, claims, values, sources, warnings and position; self-audit is not independent review.

Source: registered metrics plus taskbook, implementation, brand and regional structured design data; each card labels its evidence role.

A complete life and its transitions

Seven stages

01

- Childhood, youth, study, family, midlife transition, active aging, advanced care and end of life

CONCEPT MECHANISM · PENDING PROFESSIONAL/PUBLIC/OPERATOR REVIEW

Seven transitions

02

- School entry, graduation, family change, childbirth and care, job loss and reskilling, retirement, disability and end-of-life support

CONCEPT MECHANISM · PENDING PROFESSIONAL/PUBLIC/OPERATOR REVIEW

Public AI rights and fourteen scenarios

Six rights

01

- Know, explanation, choice, offline path, human takeover, correction and exit

CONCEPT MECHANISM · PENDING PROFESSIONAL/PUBLIC/OPERATOR REVIEW

Three validations

02

- Edge models, rehabilitation devices and accessible routes, bounded by place, time, operator and shutdown

CONCEPT MECHANISM · PENDING PROFESSIONAL/PUBLIC/OPERATOR REVIEW

Implementation, governance and the ten-year gate

Order

01

- Life before landmarks; connection before development; validation before scaling

CONCEPT MECHANISM · PENDING PROFESSIONAL/PUBLIC/OPERATOR REVIEW

Governance

02

- Residents define value, professionals protect safety, enterprises provide capability, government guarantees the floor

CONCEPT MECHANISM · PENDING PROFESSIONAL/PUBLIC/OPERATOR REVIEW

Gate

03

- No operator and no ten-year operating budget, no project

CONCEPT MECHANISM · PENDING PROFESSIONAL/PUBLIC/OPERATOR REVIEW

Taskbook response and regional collaboration

Three positionings, five functions, three areas and two wings

01

- Culture, urban AI life experience and AI convergent innovation share one complete-life system
- AI Origin, Zhongzhiyuan and Dazhongsi + Zhongguancun and Xiaoyuehe wings

CONCEPT MECHANISM · PENDING PROFESSIONAL/PUBLIC/OPERATOR REVIEW

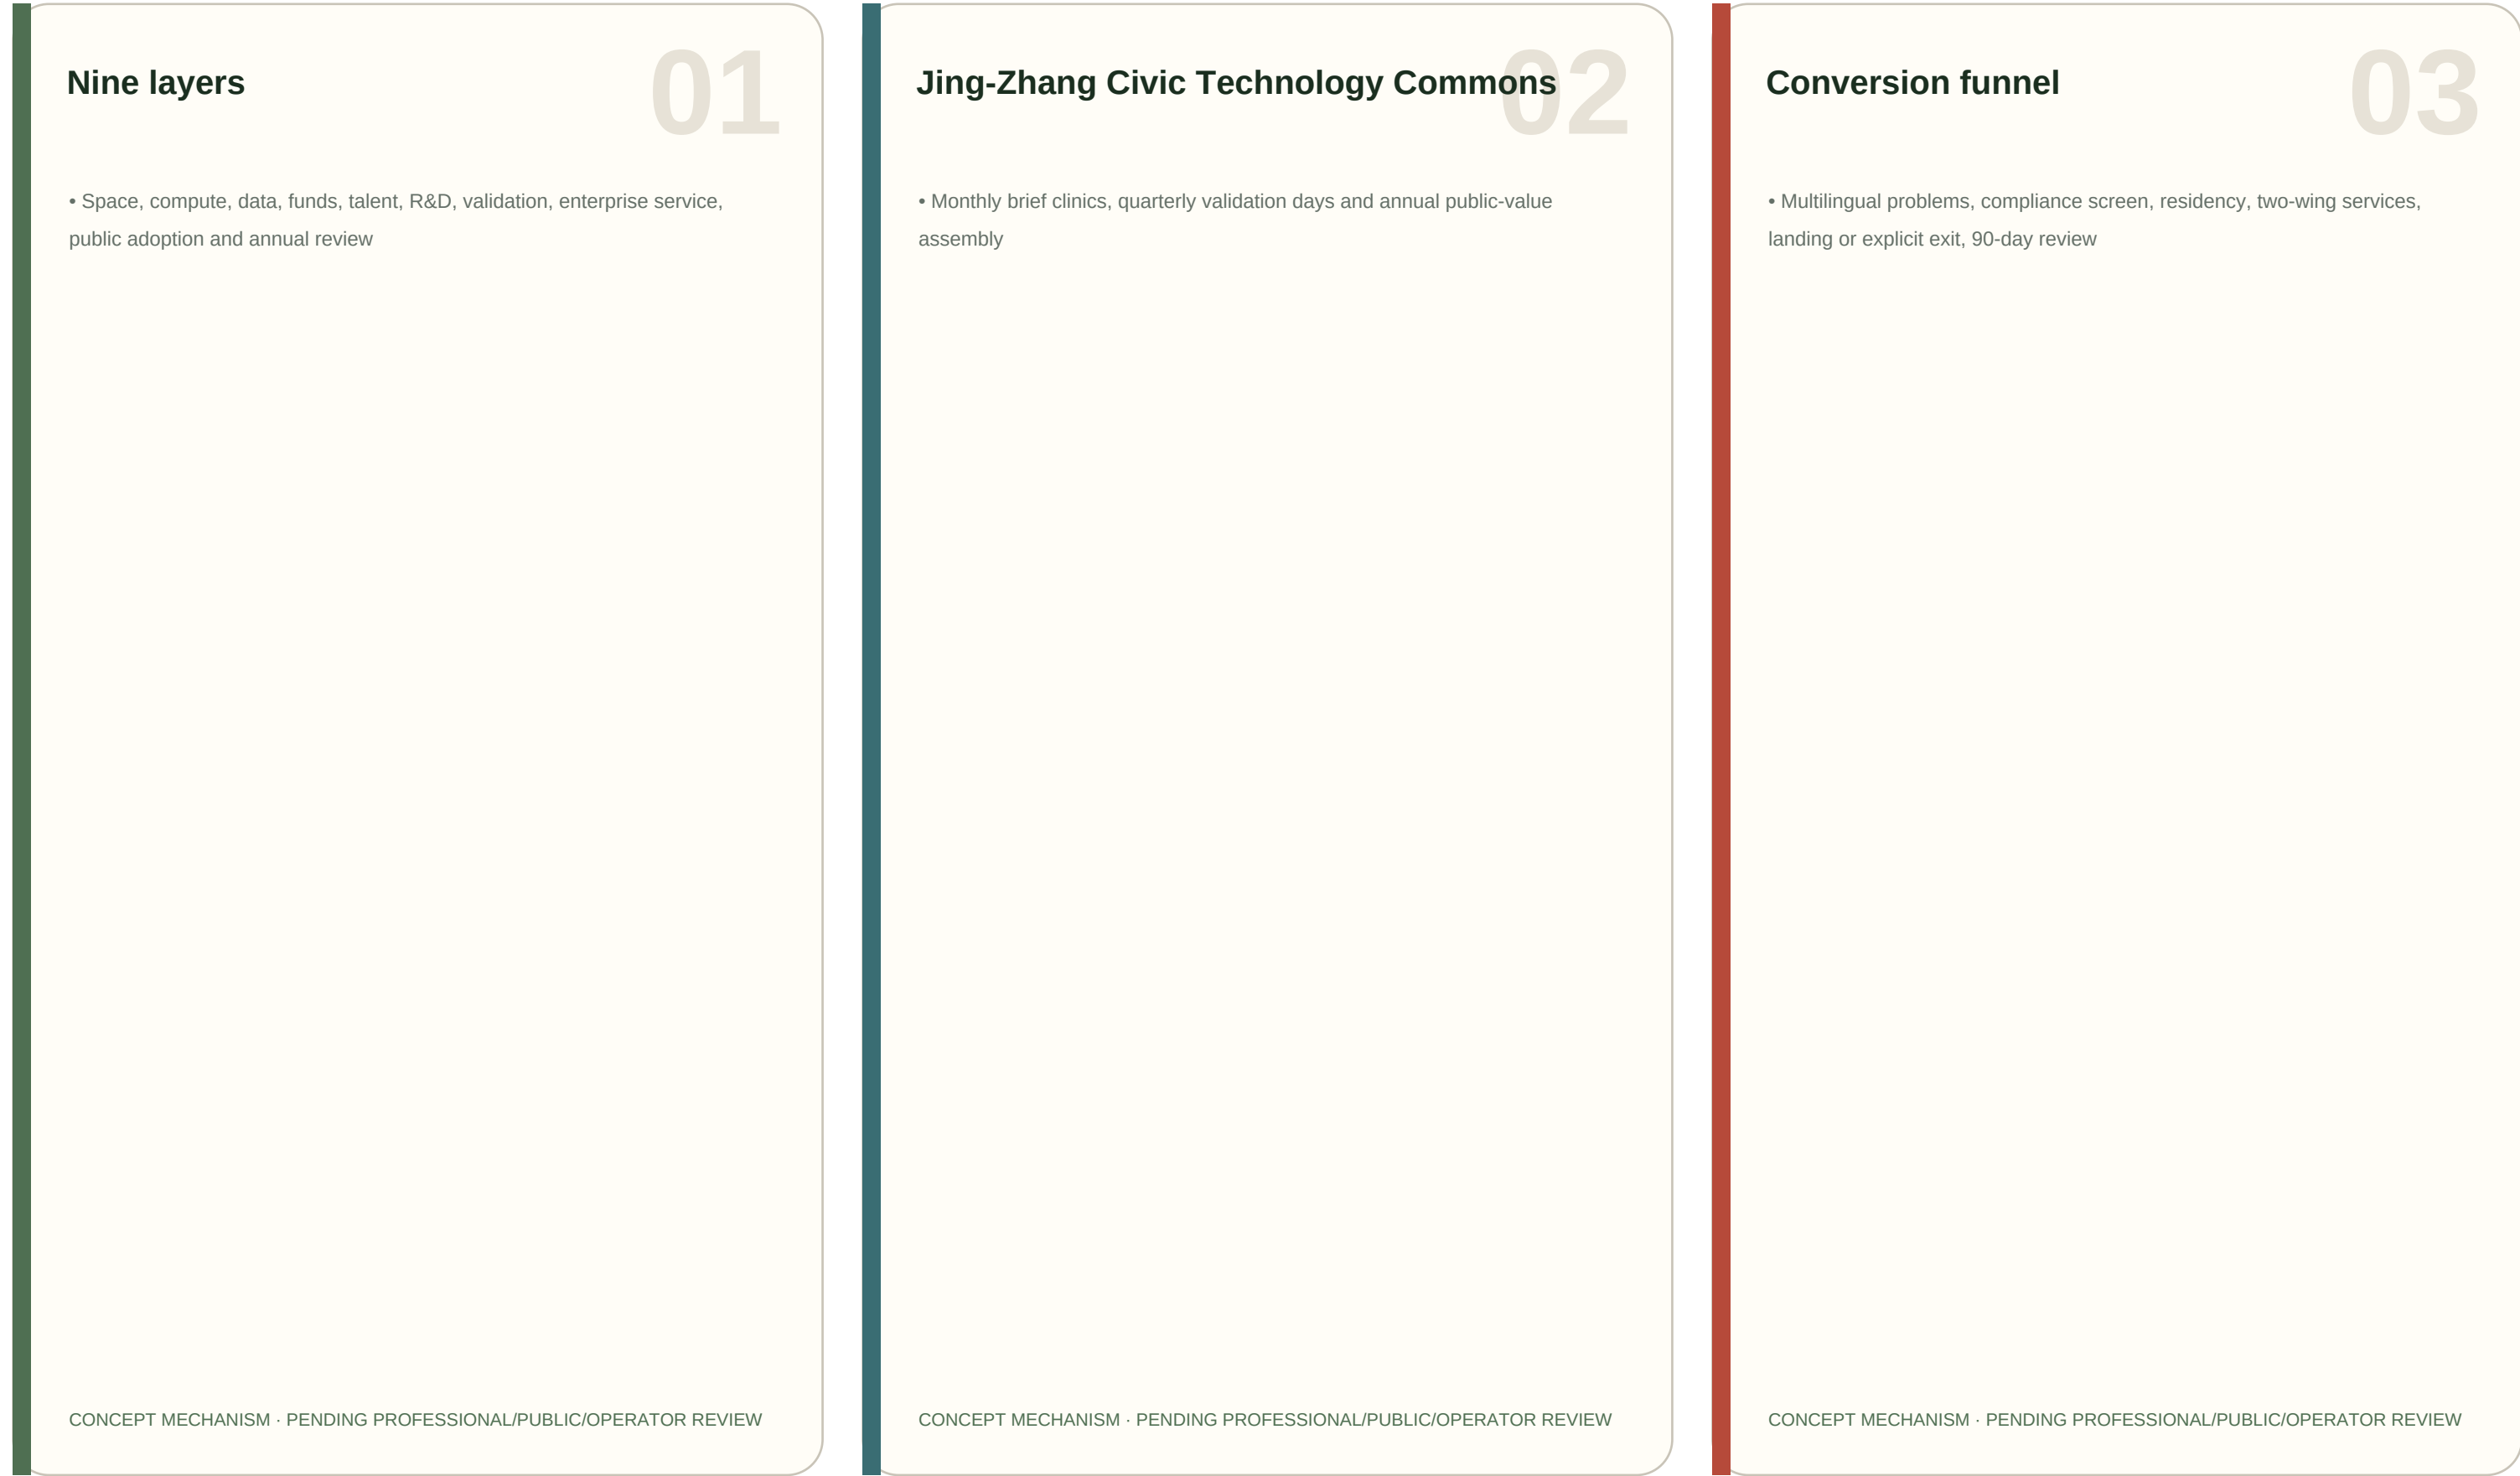

Five conceptual regional interfaces

02

- Beiwei, Future Science City, Huairou Science City, Beijing ETDA and Jing-Jin-Ji; no confirmed partnership claimed

CONCEPT MECHANISM · PENDING PROFESSIONAL/PUBLIC/OPERATOR REVIEW

Full-stack AI, developer community and international conversion

Public-space components, signage and contribution ring

Six components

01

- 8/80 rest island, offline desk, resilient walk, validation boundary, oral-history repair wall, transition post

CONCEPT MECHANISM · PENDING PROFESSIONAL/PUBLIC/OPERATOR REVIEW

Four signage levels

02

- Corridor, circle, service and AI purpose/data/human/appeal/stop; never QR-only

CONCEPT MECHANISM · PENDING PROFESSIONAL/PUBLIC/OPERATOR REVIEW

Contribution ring

03

- Open briefs, community contributions, repairs and failures displayed by evidence; attribution can be withdrawn

CONCEPT MECHANISM · PENDING PROFESSIONAL/PUBLIC/OPERATOR REVIEW

Bilingual, data and exit audit

Eight fields for fourteen scenarios

01

- Minimum data, risk tier, retention/deletion, human review, offline equivalent, appeal SLA, stop and full exit

CONCEPT MECHANISM · PENDING PROFESSIONAL/PUBLIC/OPERATOR REVIEW

Substantive bilingual equivalence

02

- Pairwise audit of names, claims, values, sources, warnings and positions across proposal, HTML, A3/A0 and figures

CONCEPT MECHANISM · PENDING PROFESSIONAL/PUBLIC/OPERATOR REVIEW

Review boundary

03

- Participant self-check does not replace independent human and professional review

CONCEPT MECHANISM · PENDING PROFESSIONAL/PUBLIC/OPERATOR REVIEW
