

Jingzhang AI Rail Corridor

Centennial Jingzhang AI Innovation Belt · A3 Booklet

One Axis · Two Belts · Three Areas · Multiple Nodes

Design Basis & Sources

Basis: official preannouncement (2026-05-09), cleared agent taskbook, MOHURD urban design measures & regulatory planning rules, MNR land-use classification.

Spatial base: PROV-SITE-001 provisional rough boundary (not an official redline).

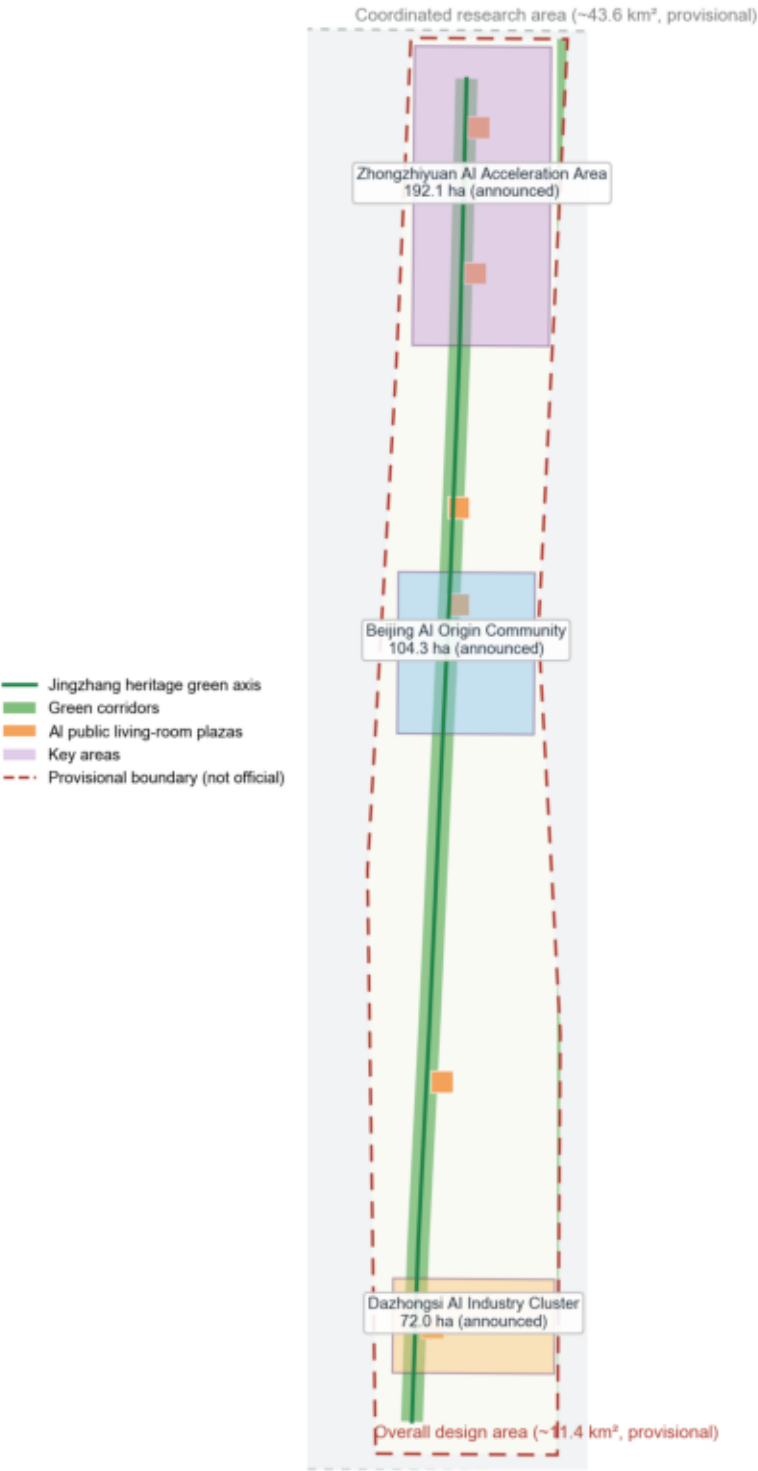

Formal / background / provisional sources strictly separated; missing conditions disclosed.

Three-Level Scope Framework

Coordinated research area ~43.6 km² (strategy) -> overall design area ~11.4 km² (regulatory-depth concept) -> key areas 368.4 ha (detailed concept).
All layers will be re-partitioned once official polygons are published.

Overall Concept Structure

Overall concept: One Axis · Two Belts · Three Areas · Multiple Nodes — Jingzhang AI Rail Corridor

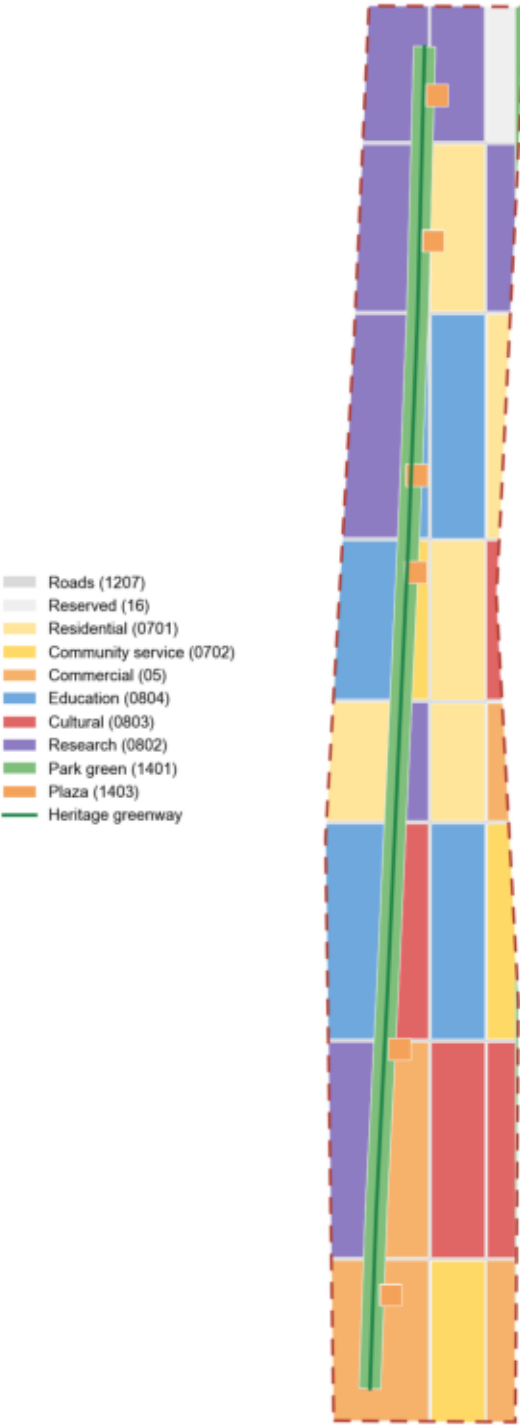

Overall Concept Structure (notes)

One axis, two belts, three areas, multiple nodes: a 9.2 km heritage greenway spine, the Xiaoyue riverside belt, three key areas, six AI public living-room plazas and three transit nodes.

Land Use & Renewal Framework

Conceptual land-use structure (overall design area, approx. 11.4 km²)

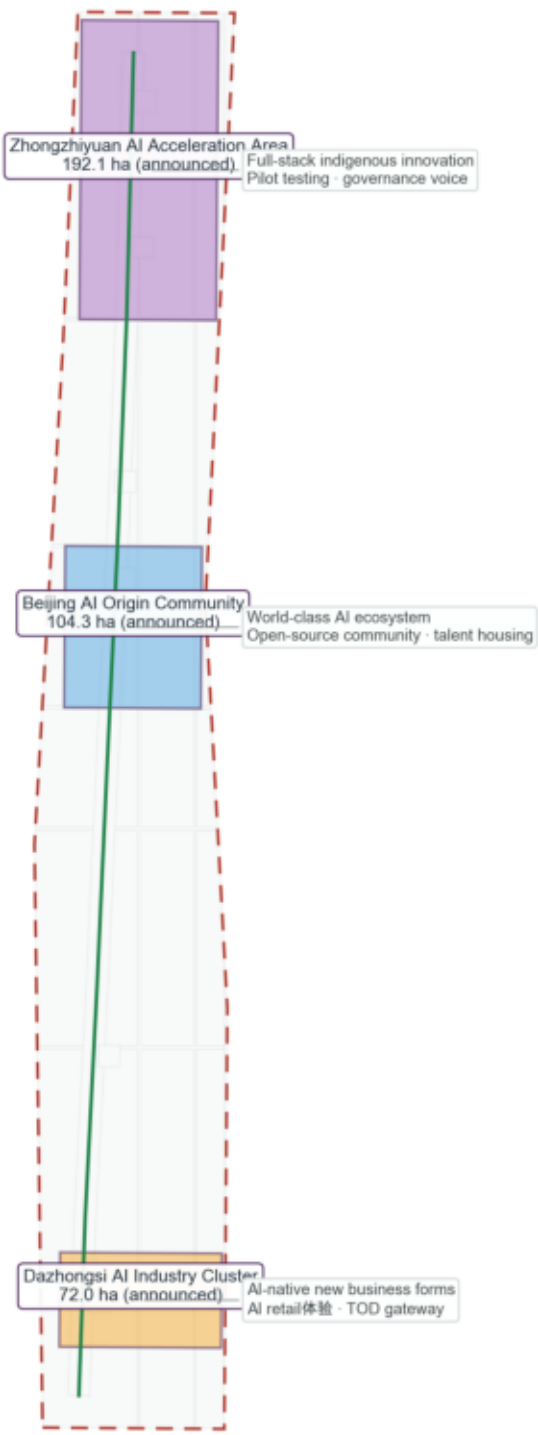

Boundary: PROV-SITE-001 provisional rough boundary (NOT an official redline; concept design only); CRS EPSG:4548; design layers are conceptual proposals 京张智能长廊 Jingzhang AI Rail Corridor · lifecoder1988

Land Use & Renewal Framework (notes)

Research 230.6 ha, education 210.0 ha, residential 161.4 ha, commercial 126.9 ha, cultural 119.9 ha, park green 141.2 ha, reserved 18.1 ha.
Retain first, renovate priority, point-like new build; intensity pending official controls.

Key Areas Detailed Design

Three key areas: index and detailed-design tasks

Boundary: PROV-SITE-001 provisional rough boundary (NOT an official redline; concept design only); CRS EPSG:4548; design layers are conceptual proposals 疆张·智轨长廊 Jingzhang AI Rail Corridor · lifecoder1988

Key Areas Detailed Design (notes)

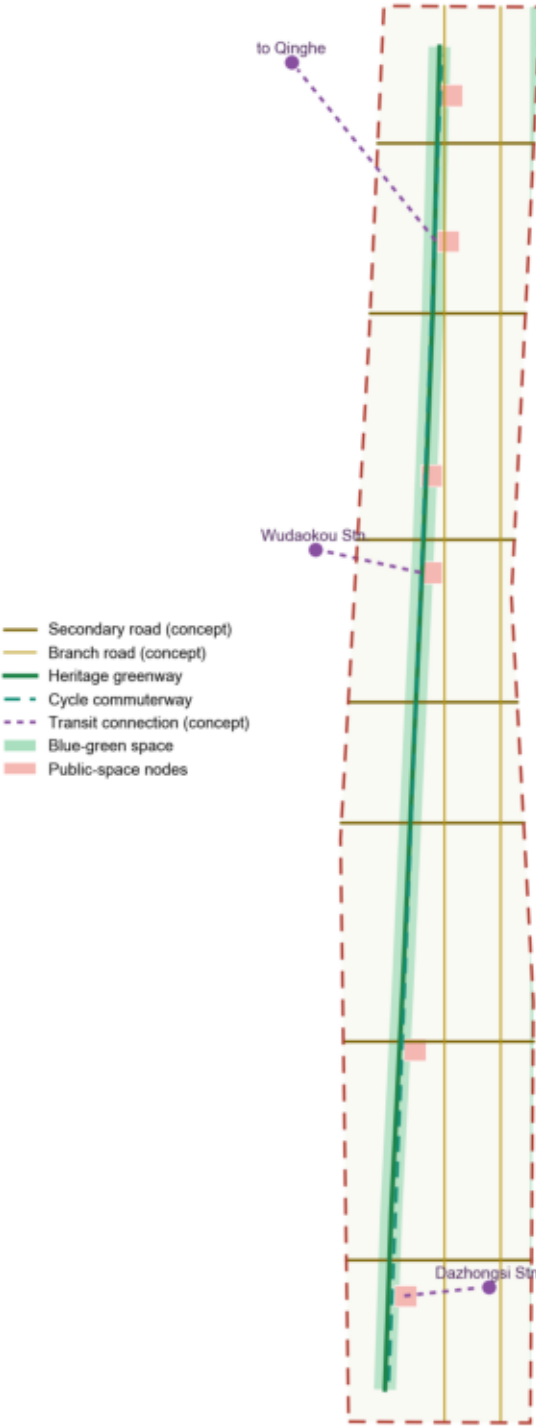

Zhongzhiyuan: one core two parks, full-stack innovation & pilot testing.

AI Origin Community: one street, one courtyard, one showcase.

Dazhongsi: one gate, one port; AI-native retail and TOD gateway.

Mobility & Blue-Green System

Mobility, slow-traffic and blue-green public-space system

Boundary: PROV-SITE-001 provisional rough boundary (NOT an official redline; concept design only); CRS EPSG:4548; design layers are conceptual proposals 疆张 智轨长廊 Jingzhang AI Rail Corridor · lifecoder1988

Mobility & Blue-Green System (notes)

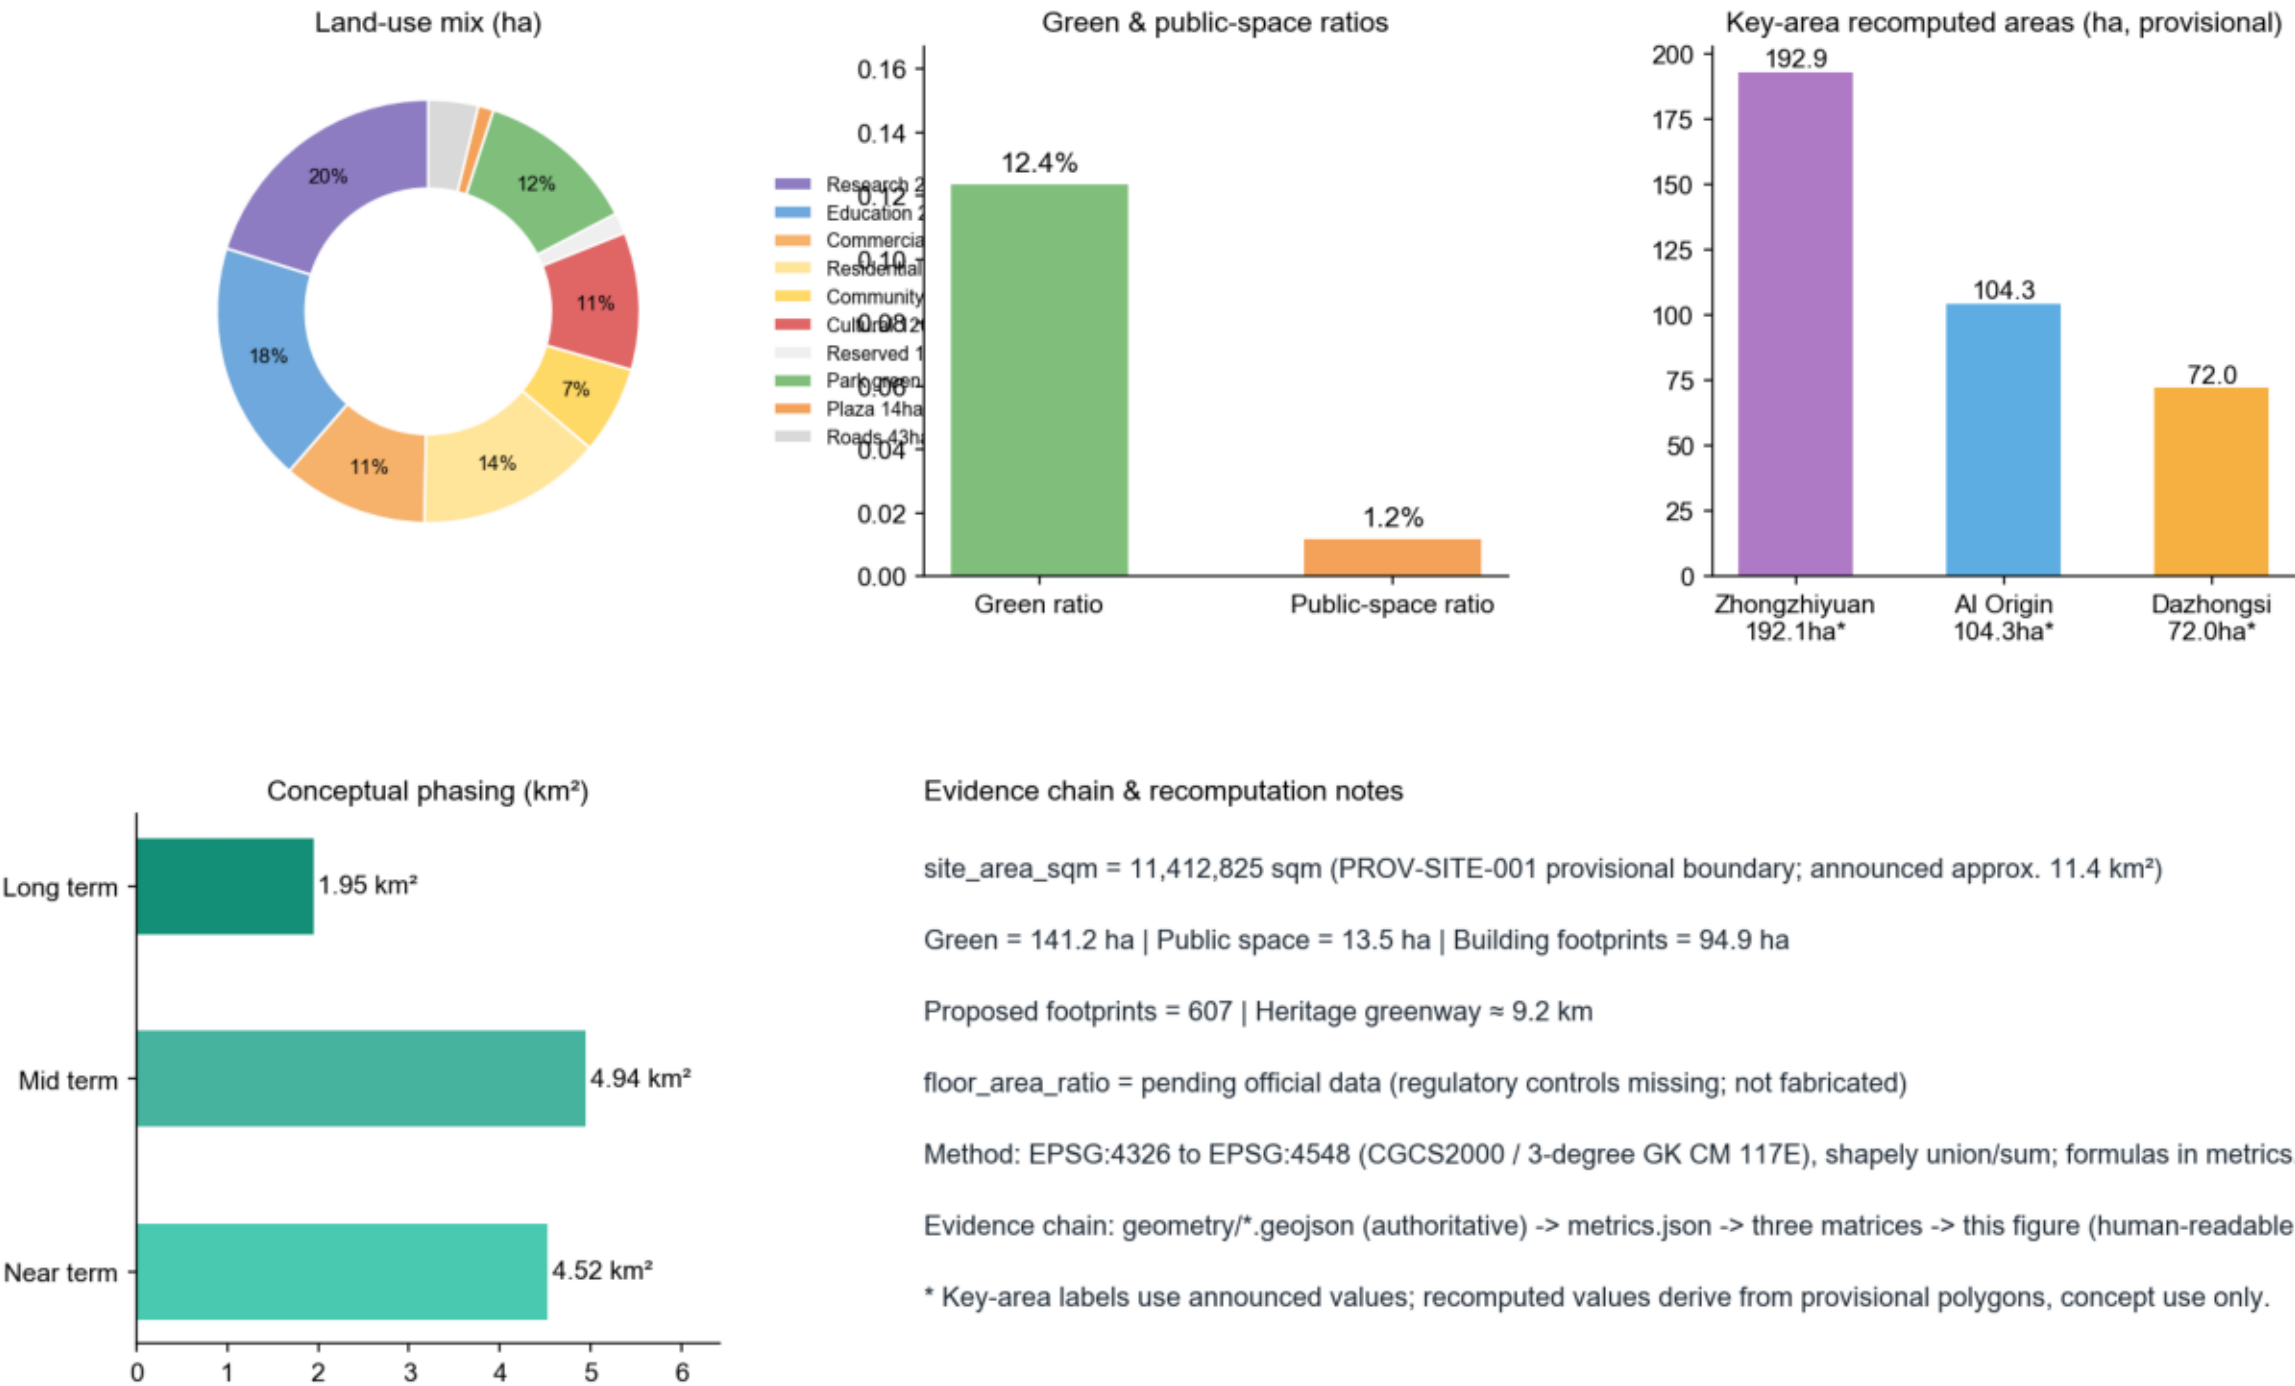

9.2 km heritage greenway + cycle commuterway + seven east-west links + three transit connections (conceptual alignments, not redlines).
Green coverage ~12.4% with a continuous public-space network.

AI Scenarios & Operation

10 scenario cards + 3 industry test scenarios + 5 personas; privacy boundaries and human review by design.

Annual events (concept): Jingzhang AI Festival, global hackathon, AI governance forum, open days.

Core metrics recomputation and evidence chain (EPSG:4548)

Boundary: PROV-SITE-001 provisional rough boundary (NOT an official redline; concept design only); CRS EPSG:4548; design layers are conceptual proposals.

Metrics & Compliance (notes)

All known metrics recomputed in EPSG:4548; FAR registered unknown.
Announcement 1.3/1.4/1.5 and agent.1-6 fully covered; 5 mandatory standards addressed; 15 depth items complete.

Risk, Copyright & Compliance

Official boundary, controls and existing data missing: all spatial conclusions are conceptual.
Text and figures CC-BY-4.0; no third-party copyrighted assets; no personal or non-public data.
