

JING-ZHANG FOR PEOPLE

City for people. AI for use.

Centennial Jing-Zhang AI Innovation Belt Open Call for Urban Design

A people-first concept proposal that turns the historic railway into a shared public-life spine and makes AI useful, optional and accountable.

OVERALL DESIGN AREA

One public-life spine, multiple east-west stitches

- Walking, universal access, cycling and transit shape the corridor.
- Mixed functions serve innovation, daily life, care and climate resilience.

ONE SPINE, CROSS-LINKS, THREE AREAS, SIX GATEWAYS

Functional mix, capacity scenarios and public space jointly control growth

OVERALL FUNCTION AND CONCEPT LAND-USE OVERLAY

Provisional geometry - conceptual suggestion - not statutory

CAP CAPACITY ZONES

Heritage and waterfront 18–30m; ordinary renewal blocks 24–45m; rail gateways 45–80m. Intensify only where capacity is sufficient.

MIX FUNCTION FLOOR

40/20/20/10/10 is the starting mix for released renewal floor area; living, civic and shared capacity cannot be displaced.

CTRL SEVEN STEP-DOWNS

Overload in mobility, utilities, services, climate, heritage or housing returns the renewal unit to a lower scenario.

Conceptual design evidence using the current provisional work base. It is not a statutory control, approved project or government commitment.

PROJECTS, POLICY AND PHASING

Sixteen concept packages with stage gates

- Near term: public space and open testing.
- Mid term: renewal units and services.
- Long term: regional coordination and operation.

SIXTEEN PROJECTS AND AN AUDITABLE AI GOVERNANCE CHAIN

Place, phase, owner, threshold and exit conditions make implementation testable

16 projects are derived from one spatial proposal and located as JZ-01—16

PHASE 1

Baseline · repair · connection trials

Start with reversible, low-cost actions with measurable public benefit

PHASE 2

Priority works · services · rolling review

Gate: funding, property coordination and long-term operator confirmed

PHASE 3

Network growth · major works · operation

Gate: statutory, ownership, engineering and funding conditions met

PROJECT REGISTER · SPINE—KEY AREAS—GOVERNANCE

01 Heritage spine	02 Cross-links
03 Six rail gateways	04 Blue-green network
05 Daily services	06 Qinghe reach
07 Shared validation	08 Fifth-ring entry
09 AI Origin walking	10 Public learning
11 Talent living	12 Four quadrants
13 Active ground floor	14 Civic green service
15 Three civic nodes	16 Bounded AI tests

EIGHT GATES BEFORE AI ENTERS PUBLIC SPACE

01 Public need	02 AI necessity	03 Data minimum	04 Place consent
05 Human review	06 Refusal	07 Stop + fallback	08 Open audit

SIX THRESHOLDS TRIGGER SPATIAL OR OPERATIONAL CHANGE

Detour >1.3	Any access break
800m trip >15min	Open frontage <50%
Blue-green path cut	Human route unavailable

Conceptual design evidence using the current provisional work base. It is not a statutory control, approved project or government commitment.

DETAILED DESIGN OF KEY AREAS

Zhongzhiyuan · AI Origin · Dazhongsi

- Garden-based full-stack innovation.
- Campus-city conversion and public learning.
- Four-quadrant hub and AI life services.

THREE KEY AREAS, THREE INNOVATION PROCESSES

Plans, functional ratios, implementation nodes and public scenes shown together

01 ZHONGZHIYUAN · JZ-06—08

50/15/20/5/10

Qinghe public-innovation reach + shared technical service

02 AI ORIGIN · JZ-09—11

35/25/20/15/5

Two-station link + heritage learning + talent living

03 DAZHONGSI · JZ-12—14

35/20/30/10/5

Four-quadrant access + station living room + active ground floors

Conceptual design evidence using the current provisional work base. It is not a statutory control, approved project or government commitment.

AI ECOSYSTEM, PERSONAS AND SCENARIOS

Eight user groups · ten daily cards · three industry tests

- Every scenario declares data minimum, human review, refusal and stopping conditions.
- Public space is not a passive laboratory.

THREE KEY AREAS, THREE INNOVATION PROCESSES

Plans, functional ratios, implementation nodes and public scenes shown together

01 ZHONGZHIYUAN · JZ-06—08

50/15/20/5/10

Qinghe public-innovation reach + shared technical service

02 AI ORIGIN · JZ-09—11

35/25/20/15/5

Two-station link + heritage learning + talent living

03 DAZHONGSI · JZ-12—14

35/20/30/10/5

Four-quadrant access + station living room + active ground floors

Conceptual design evidence using the current provisional work base. It is not a statutory control, approved project or government commitment.

METRICS AND COMPLIANCE

Reproducible concept values, explicit limits

- 17 announcement tasks plus six agent tasks are covered.
- Fifteen design-depth items connect text, drawings, geometry, metrics and review.

SIXTEEN PROJECTS AND AN AUDITABLE AI GOVERNANCE CHAIN

Place, phase, owner, threshold and exit conditions make implementation testable

Conceptual design evidence using the current provisional work base. It is not a statutory control, approved project or government commitment.
