

AI FOR ALL: a city designed for the AI-native first generation

Jing-Zhang AI Innovation Belt · One Belt, Three Cores, One Origin

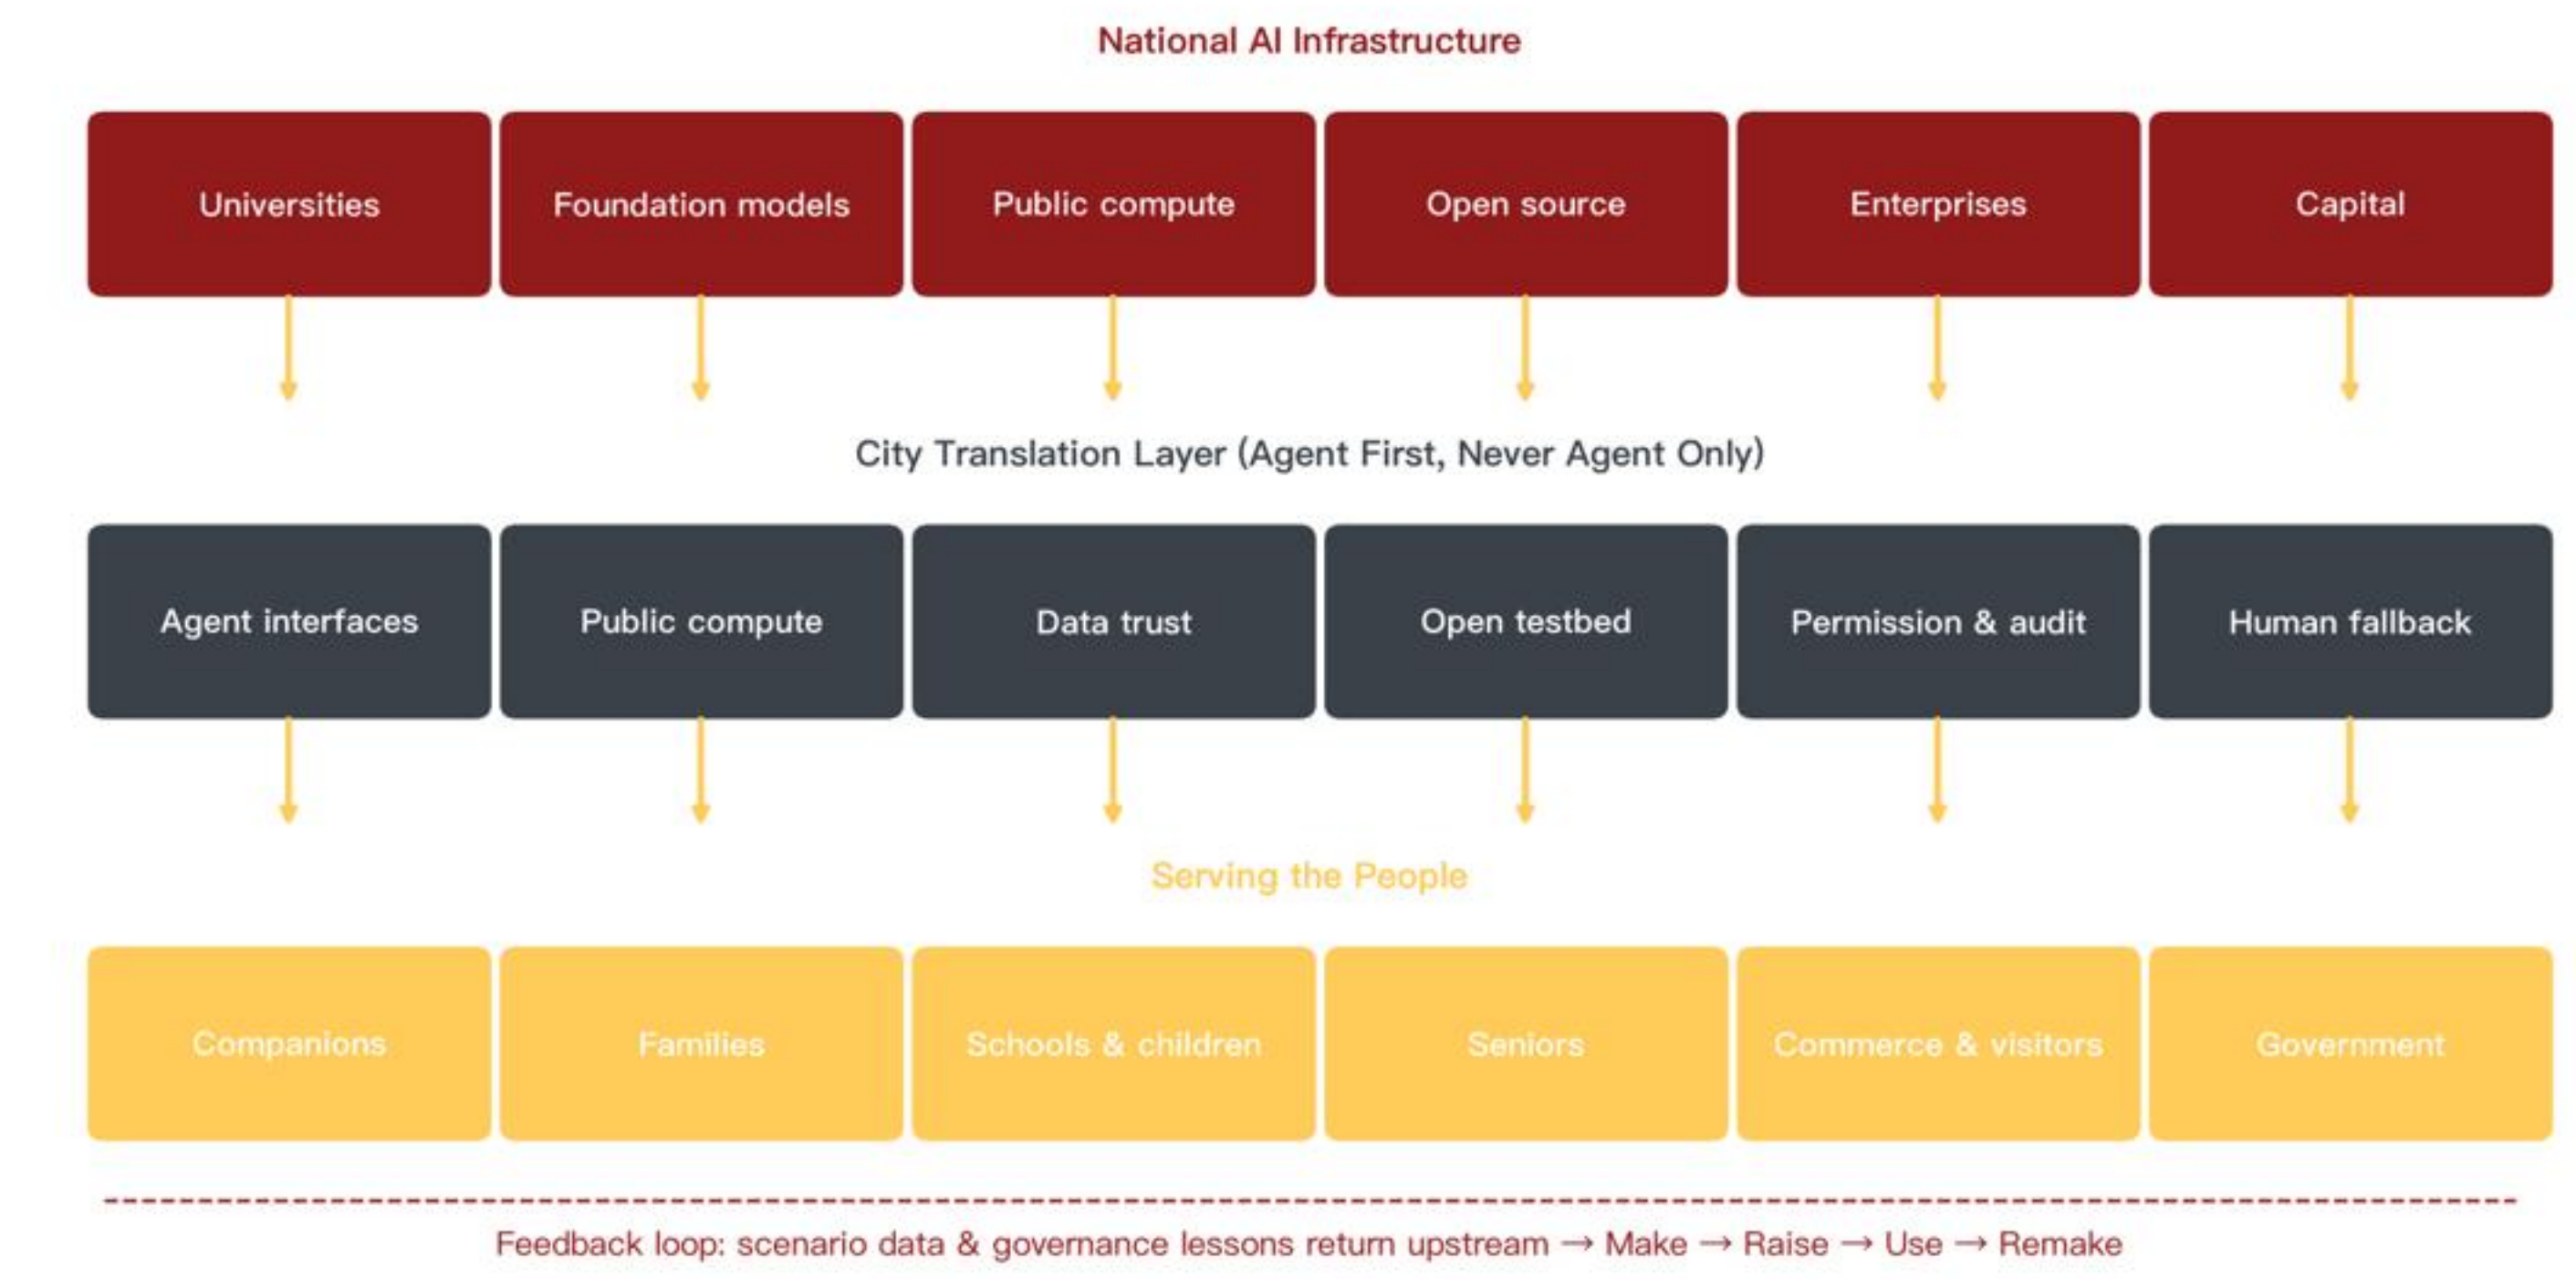

Rénzì Rail · Technology bows to the people

1 · Contextual site overview

Jing-Zhang AI Innovation Belt · Contextual Site Overview
Provisional design diagram · English labels only · public context + proposal geometry

2 · Three growth stations

3 · Accountable AI governance

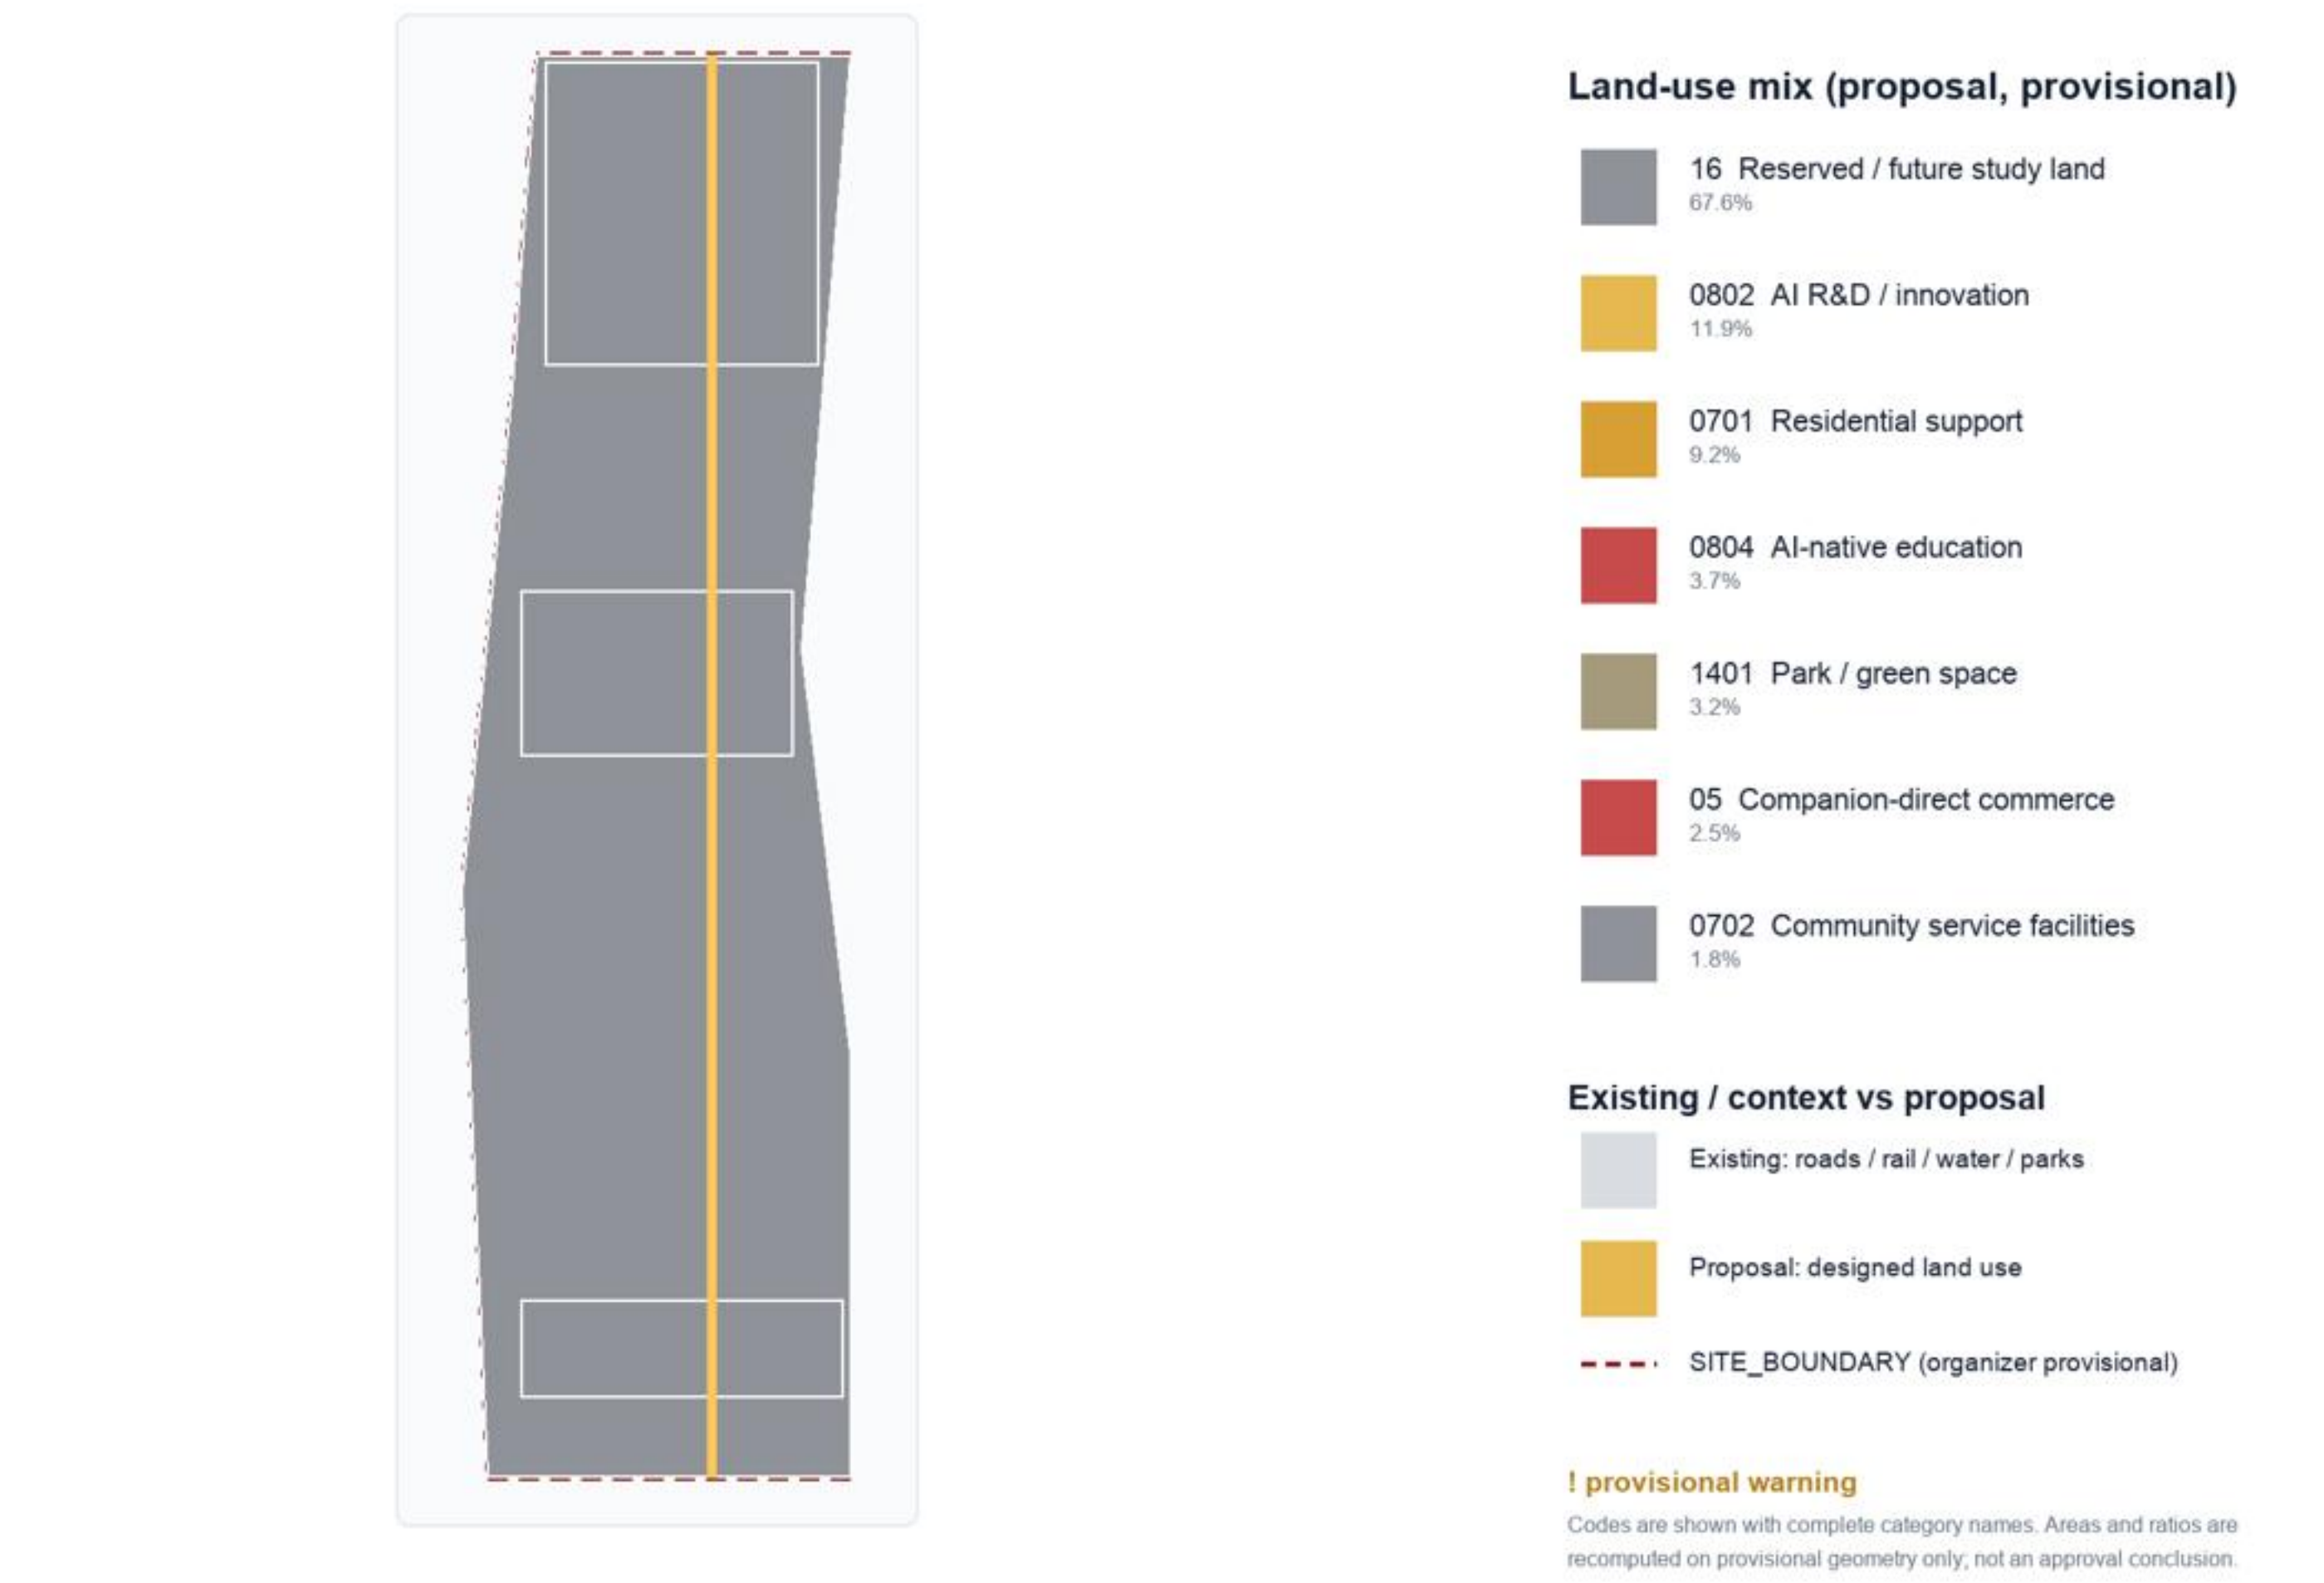

Spatial structure

One heritage-park spine links three growth stations: Zhongzhiyuan (AI kindergarten to lab), AI Origin Community (AI growing-up community) and Dazhongsi (AI living market).

Provisional geometry · conceptual placement · recompute after official polygons

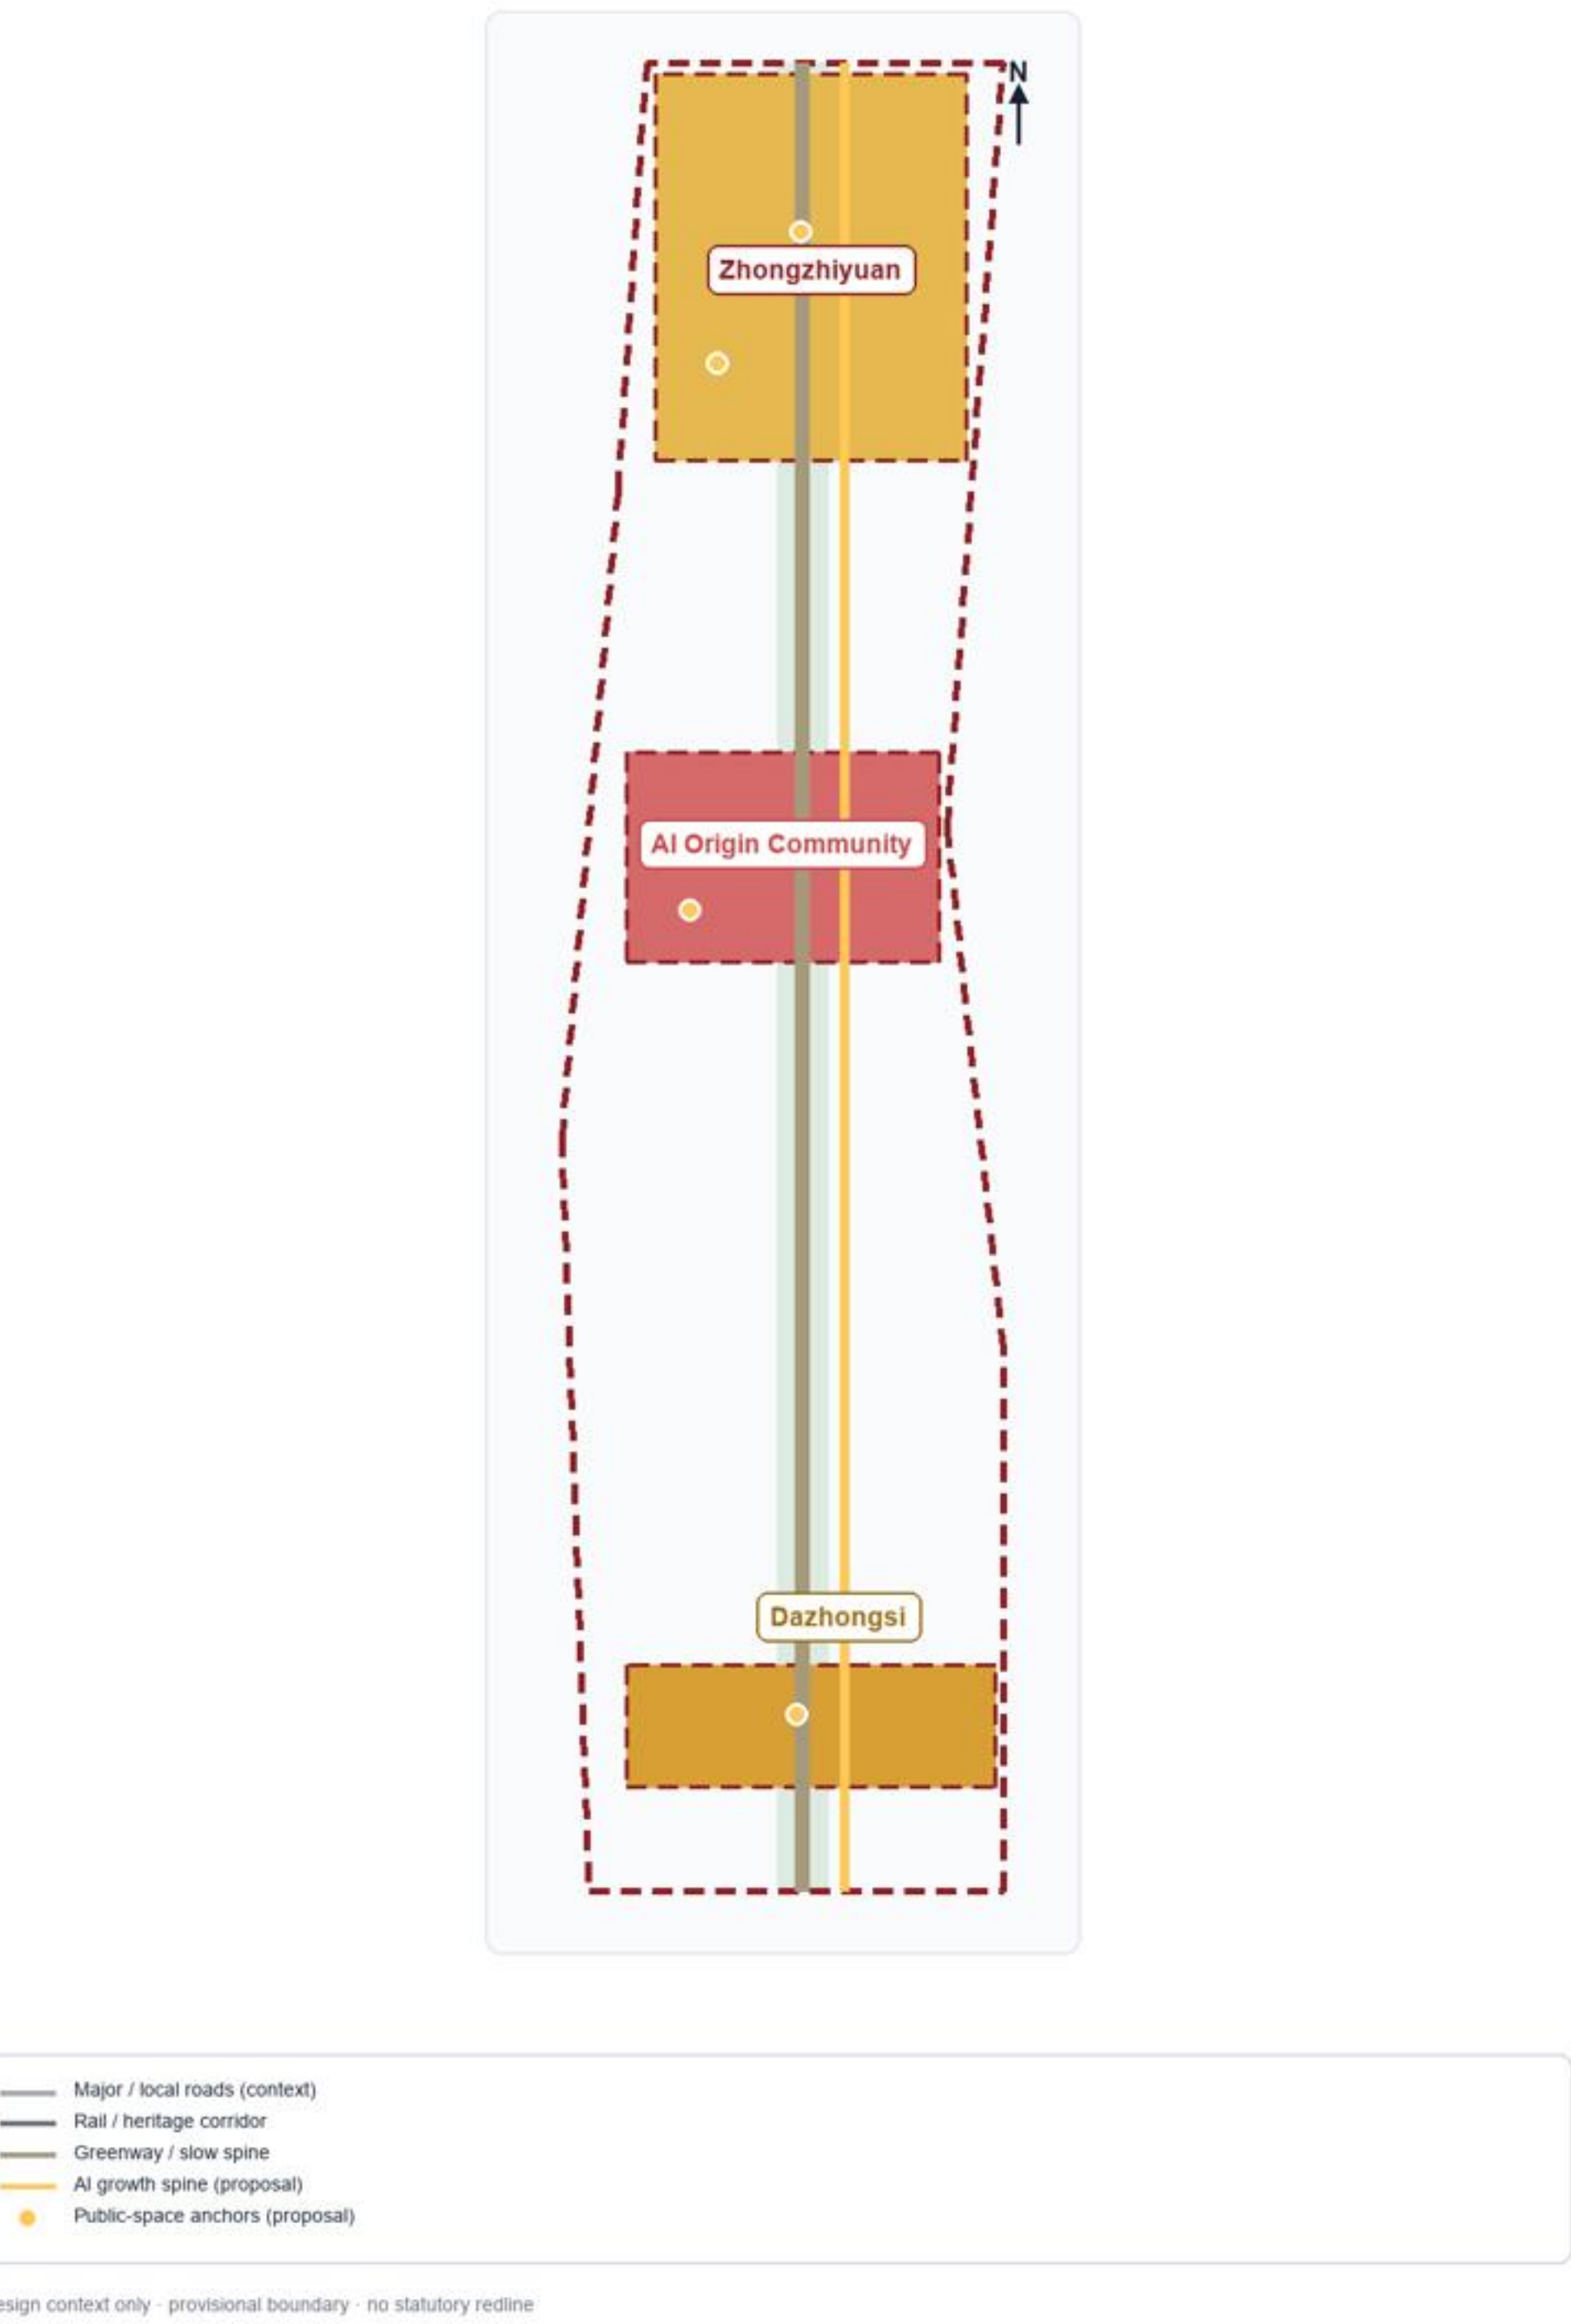

4 · Land use, mobility and implementation

Land-use Structure & Growth Spine (conceptual · provisional)

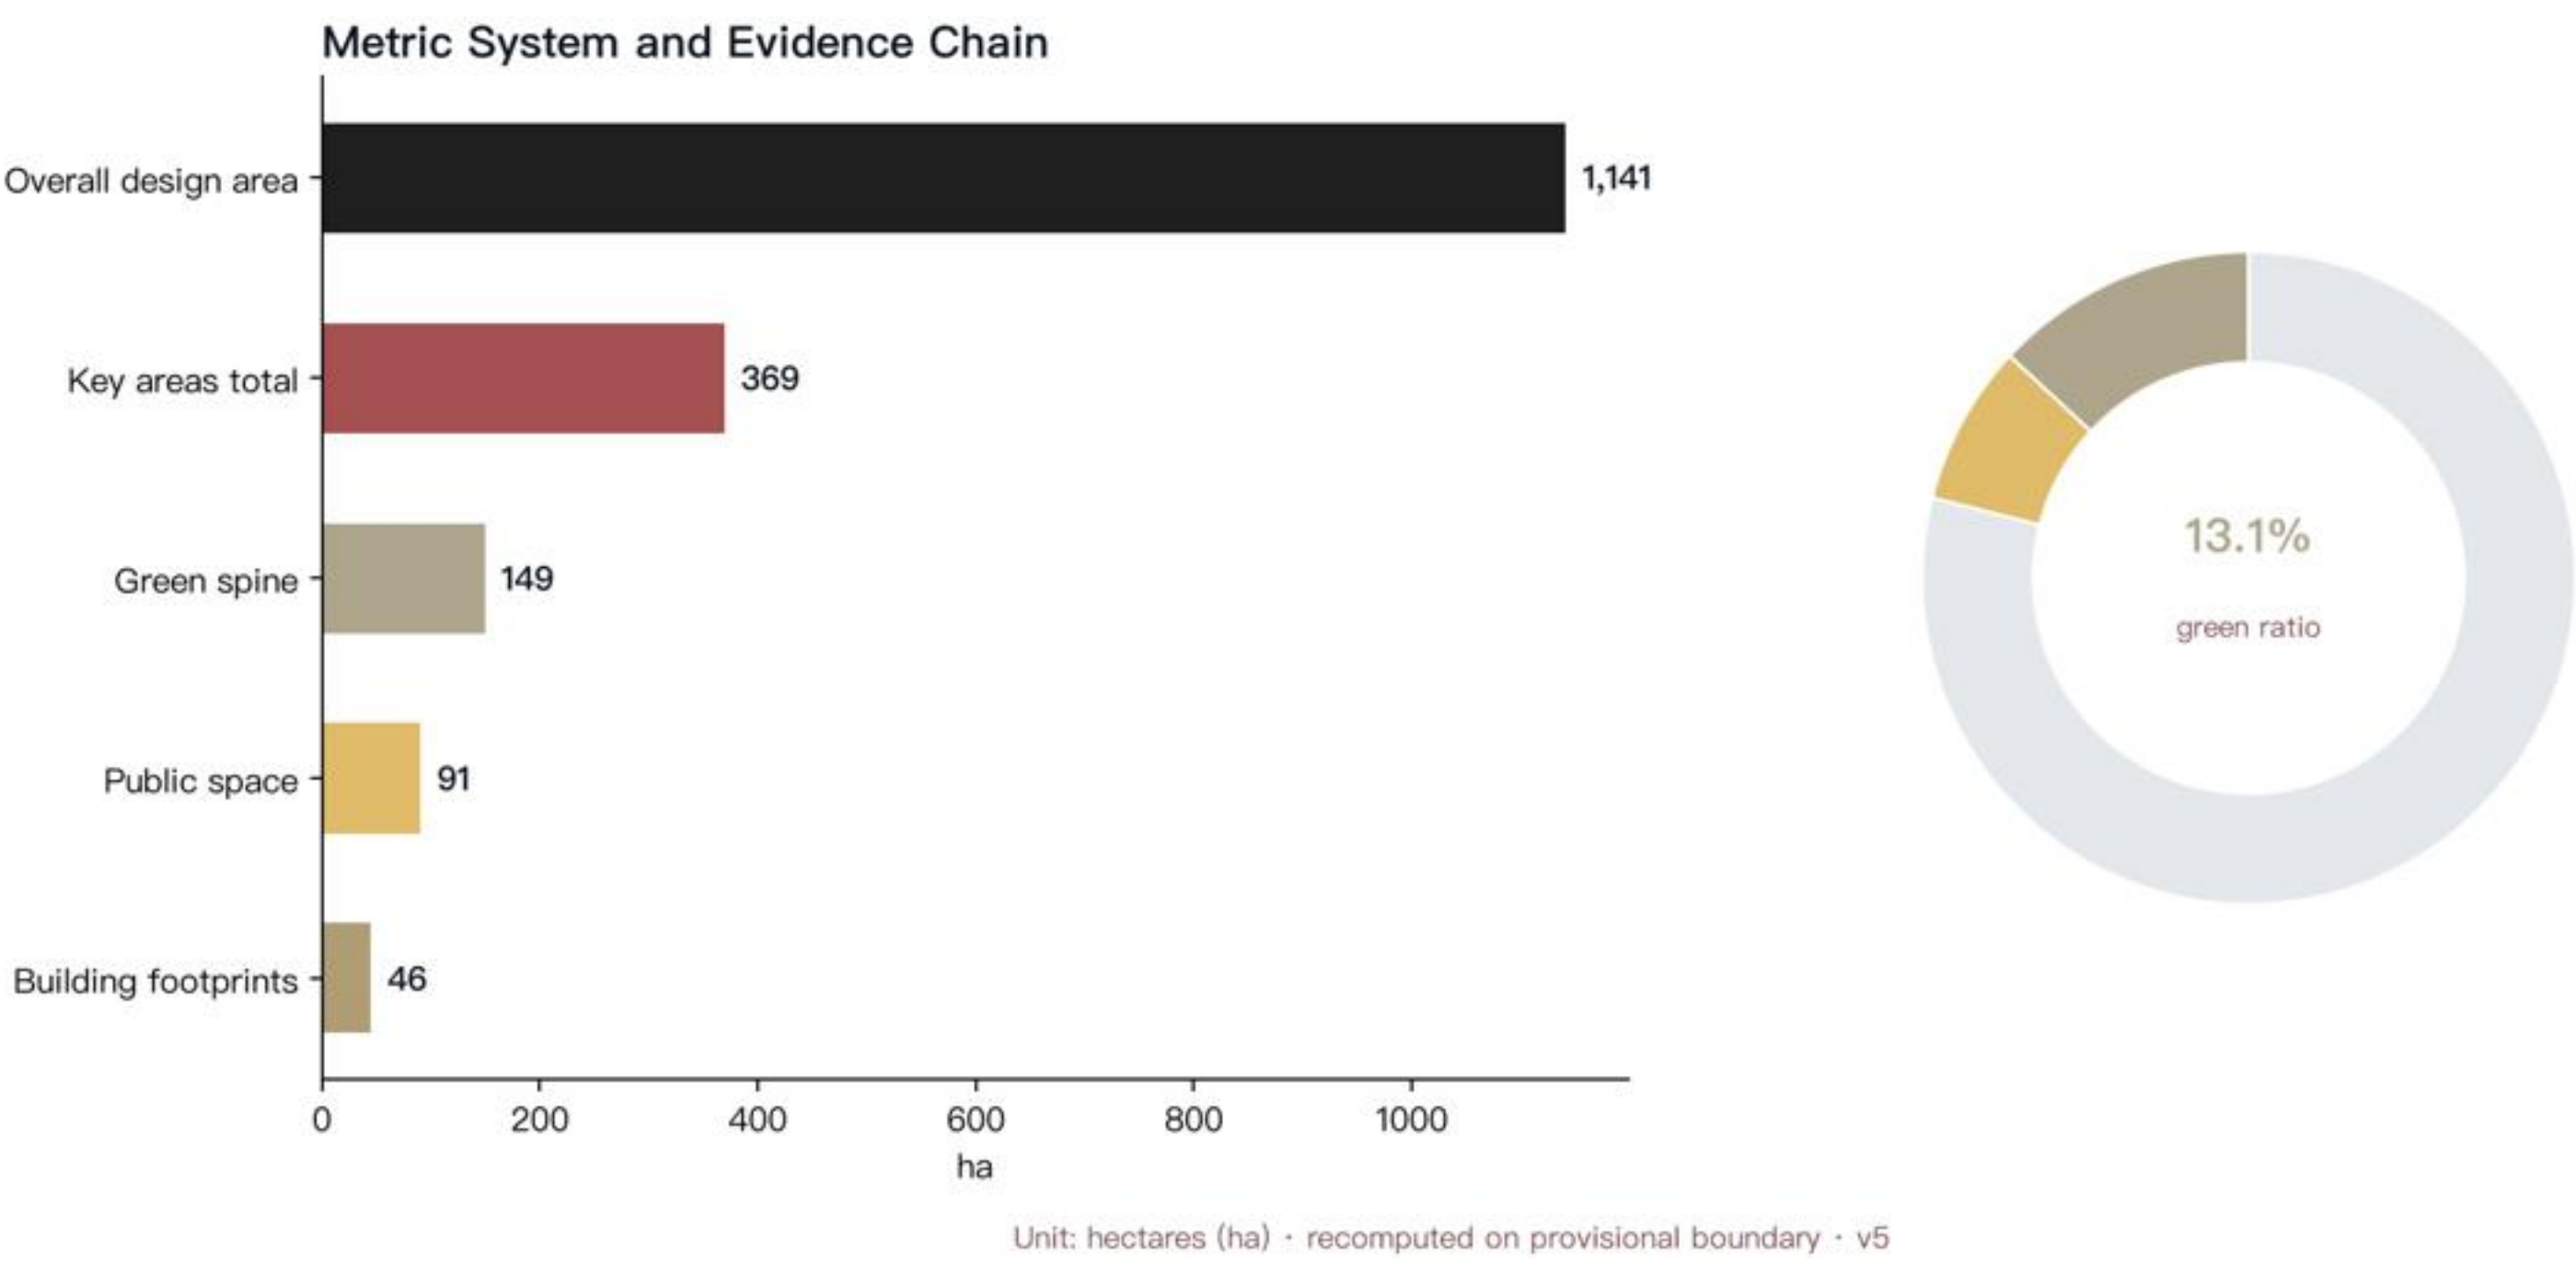

Mobility, Blue–Green & Public Space

Design context : **greenway / slow spine / public anchors**

5 · Metric and evidence system

6 · 12 AI+ scenario cards

S1 school · S2 open-source testbed · S3 creation workshop · S4 first-companion ceremony · S5 after-school care · S6 city guide · S7 eldercare · S8 health pre-check · S9 companion station · S10 companion-direct consumption · S11 government handling · S12 Human-Agent Commons

7 · Phasing and safeguards

Evidence boundary

Official SITE_BOUNDARY and KEY_AREA polygons are not yet released. All areas, ratios and diagrams are provisional and must be recomputed after official geometry arrives. Publicly reported park references are background context only; they do not certify an official redline, approval, signed cooperation or current implementation readiness.

Governance rule

Agent First, Never Agent Only. Minors, health, elderly care, government handling and property decisions keep human final judgement, appeal and stop paths.
