

GROUND TRUTH + PUBLIC PROTOCOL

One corridor, three proving grounds, six auditable steps

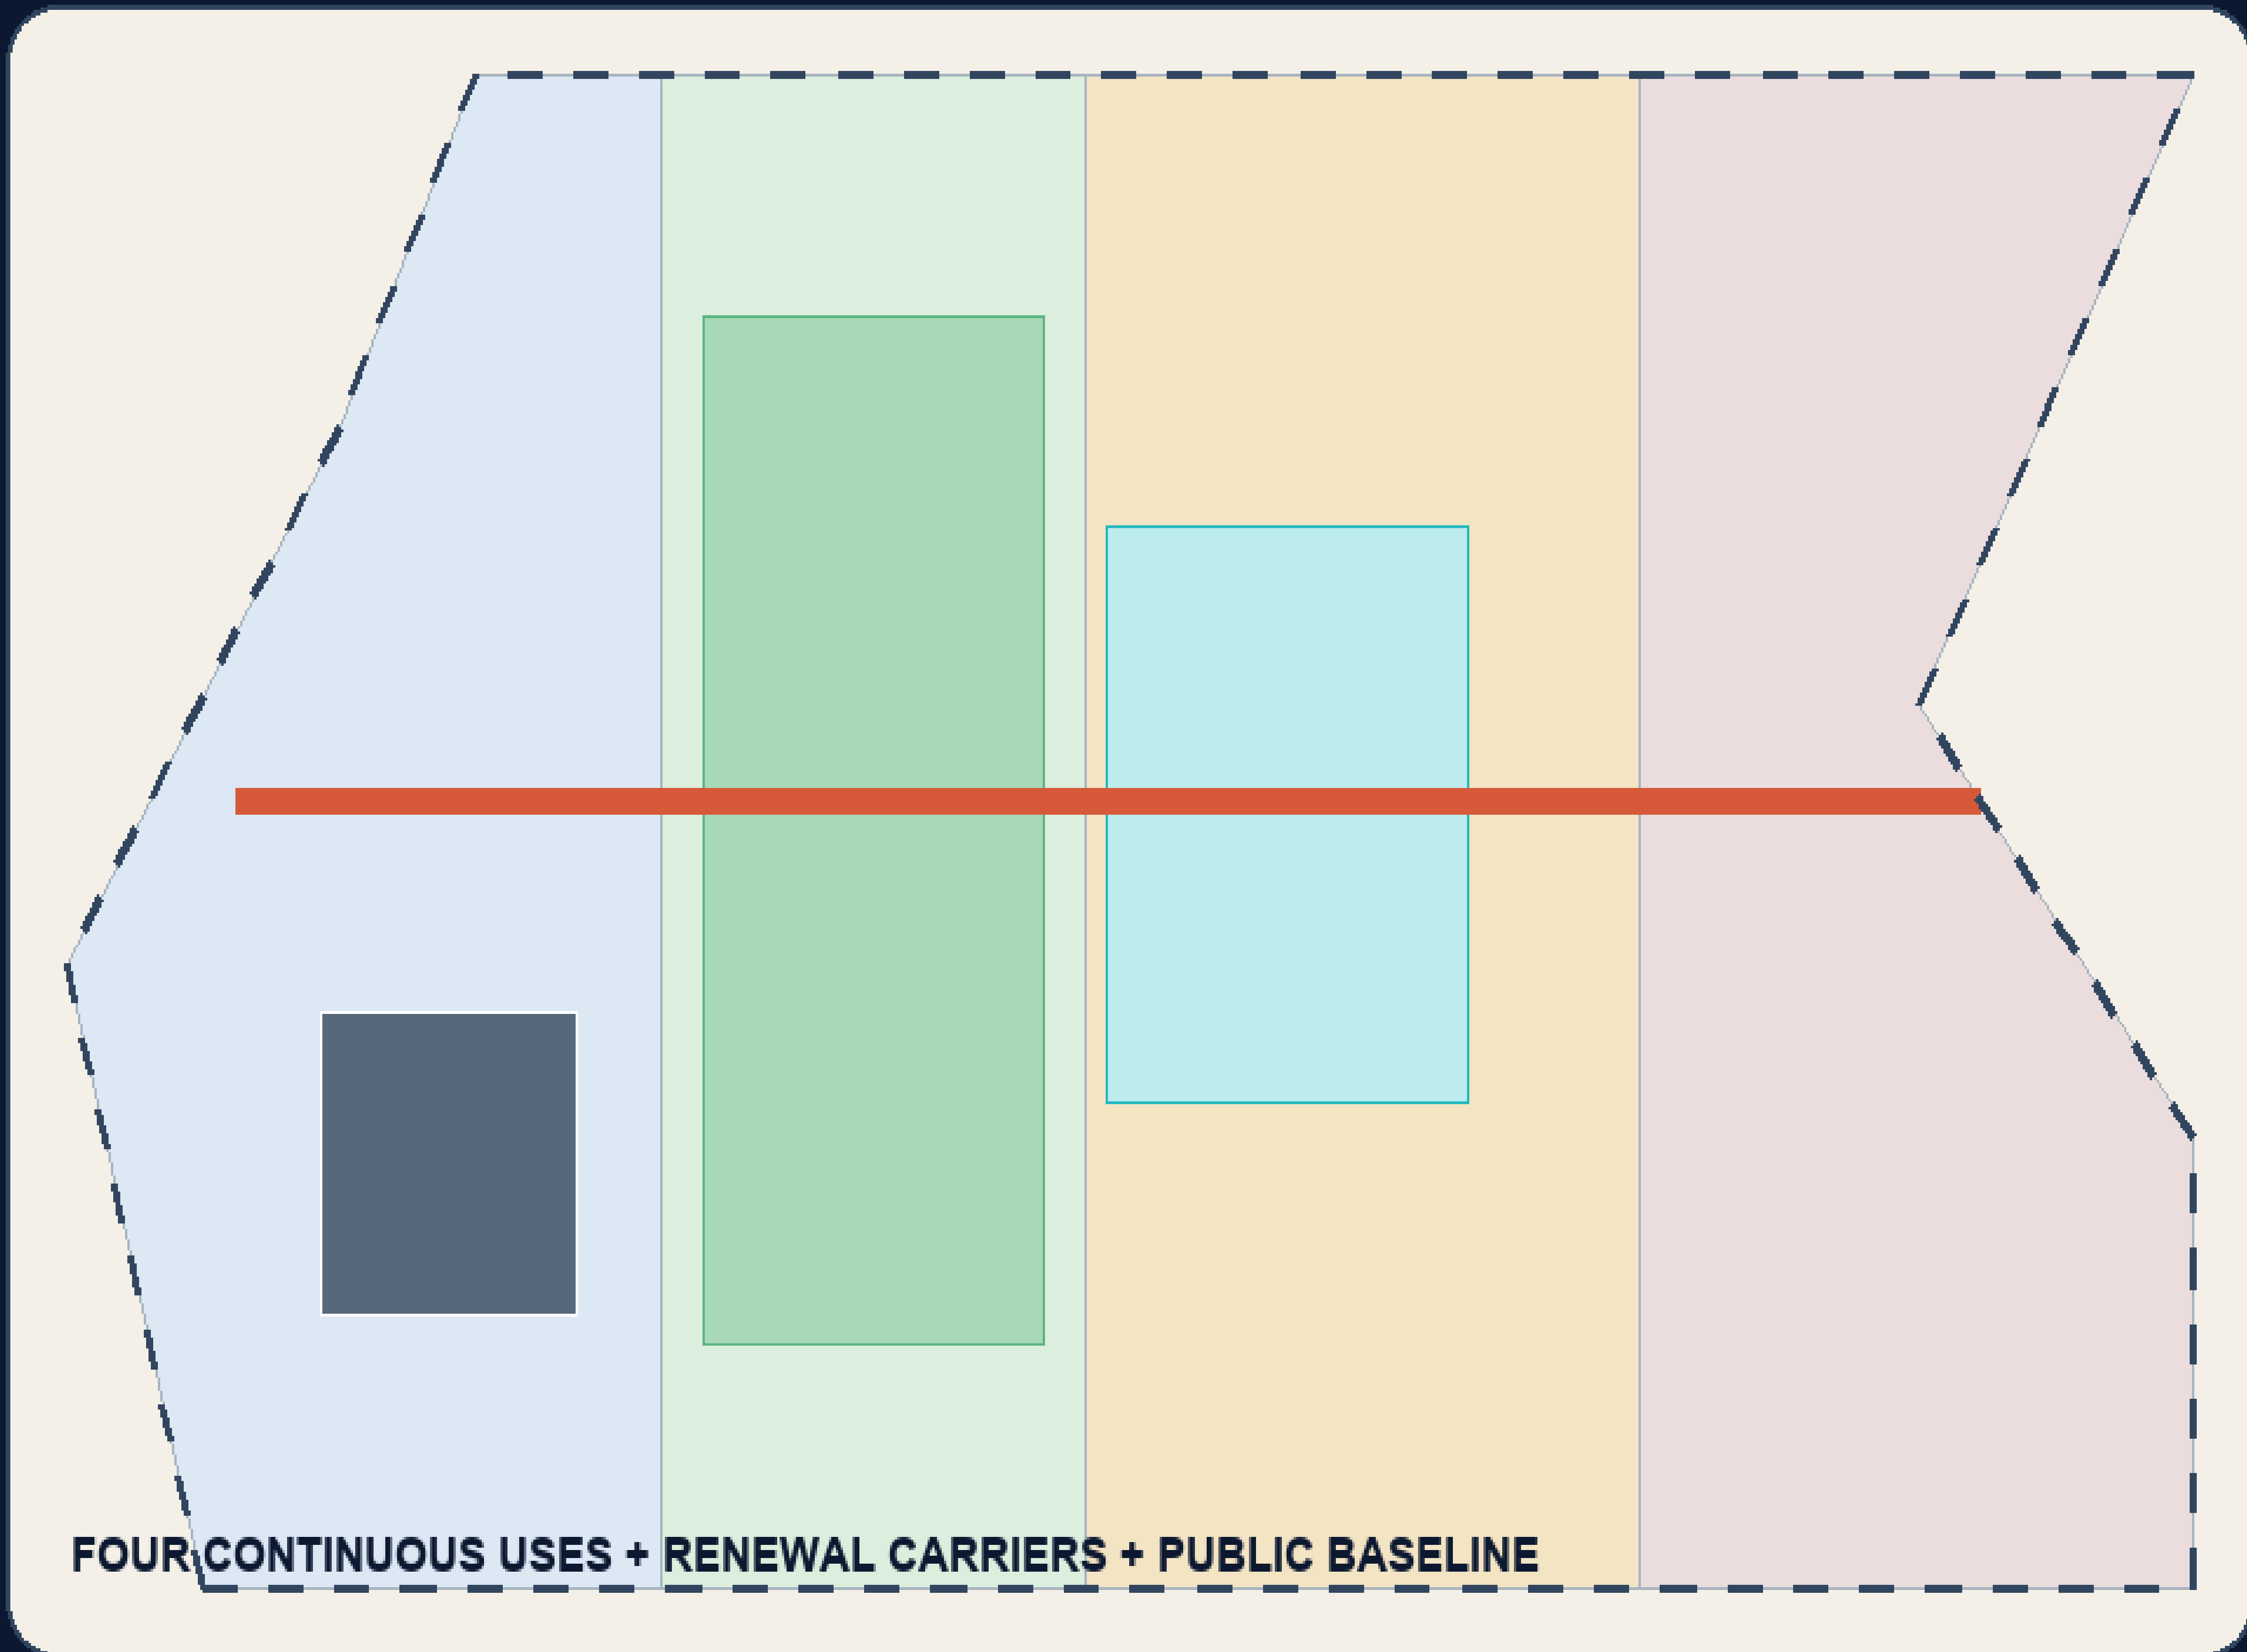

SIX-STEP PUBLIC TASK CONTRACT

- 01 **SENSE**
observe
- 02 **ASK**
frame
- 03 **PLAN**
authorize
- 04 **ACT**
pilot
- 05 **VERIFY**
public check
- 06 **LEARN**
archive/exit

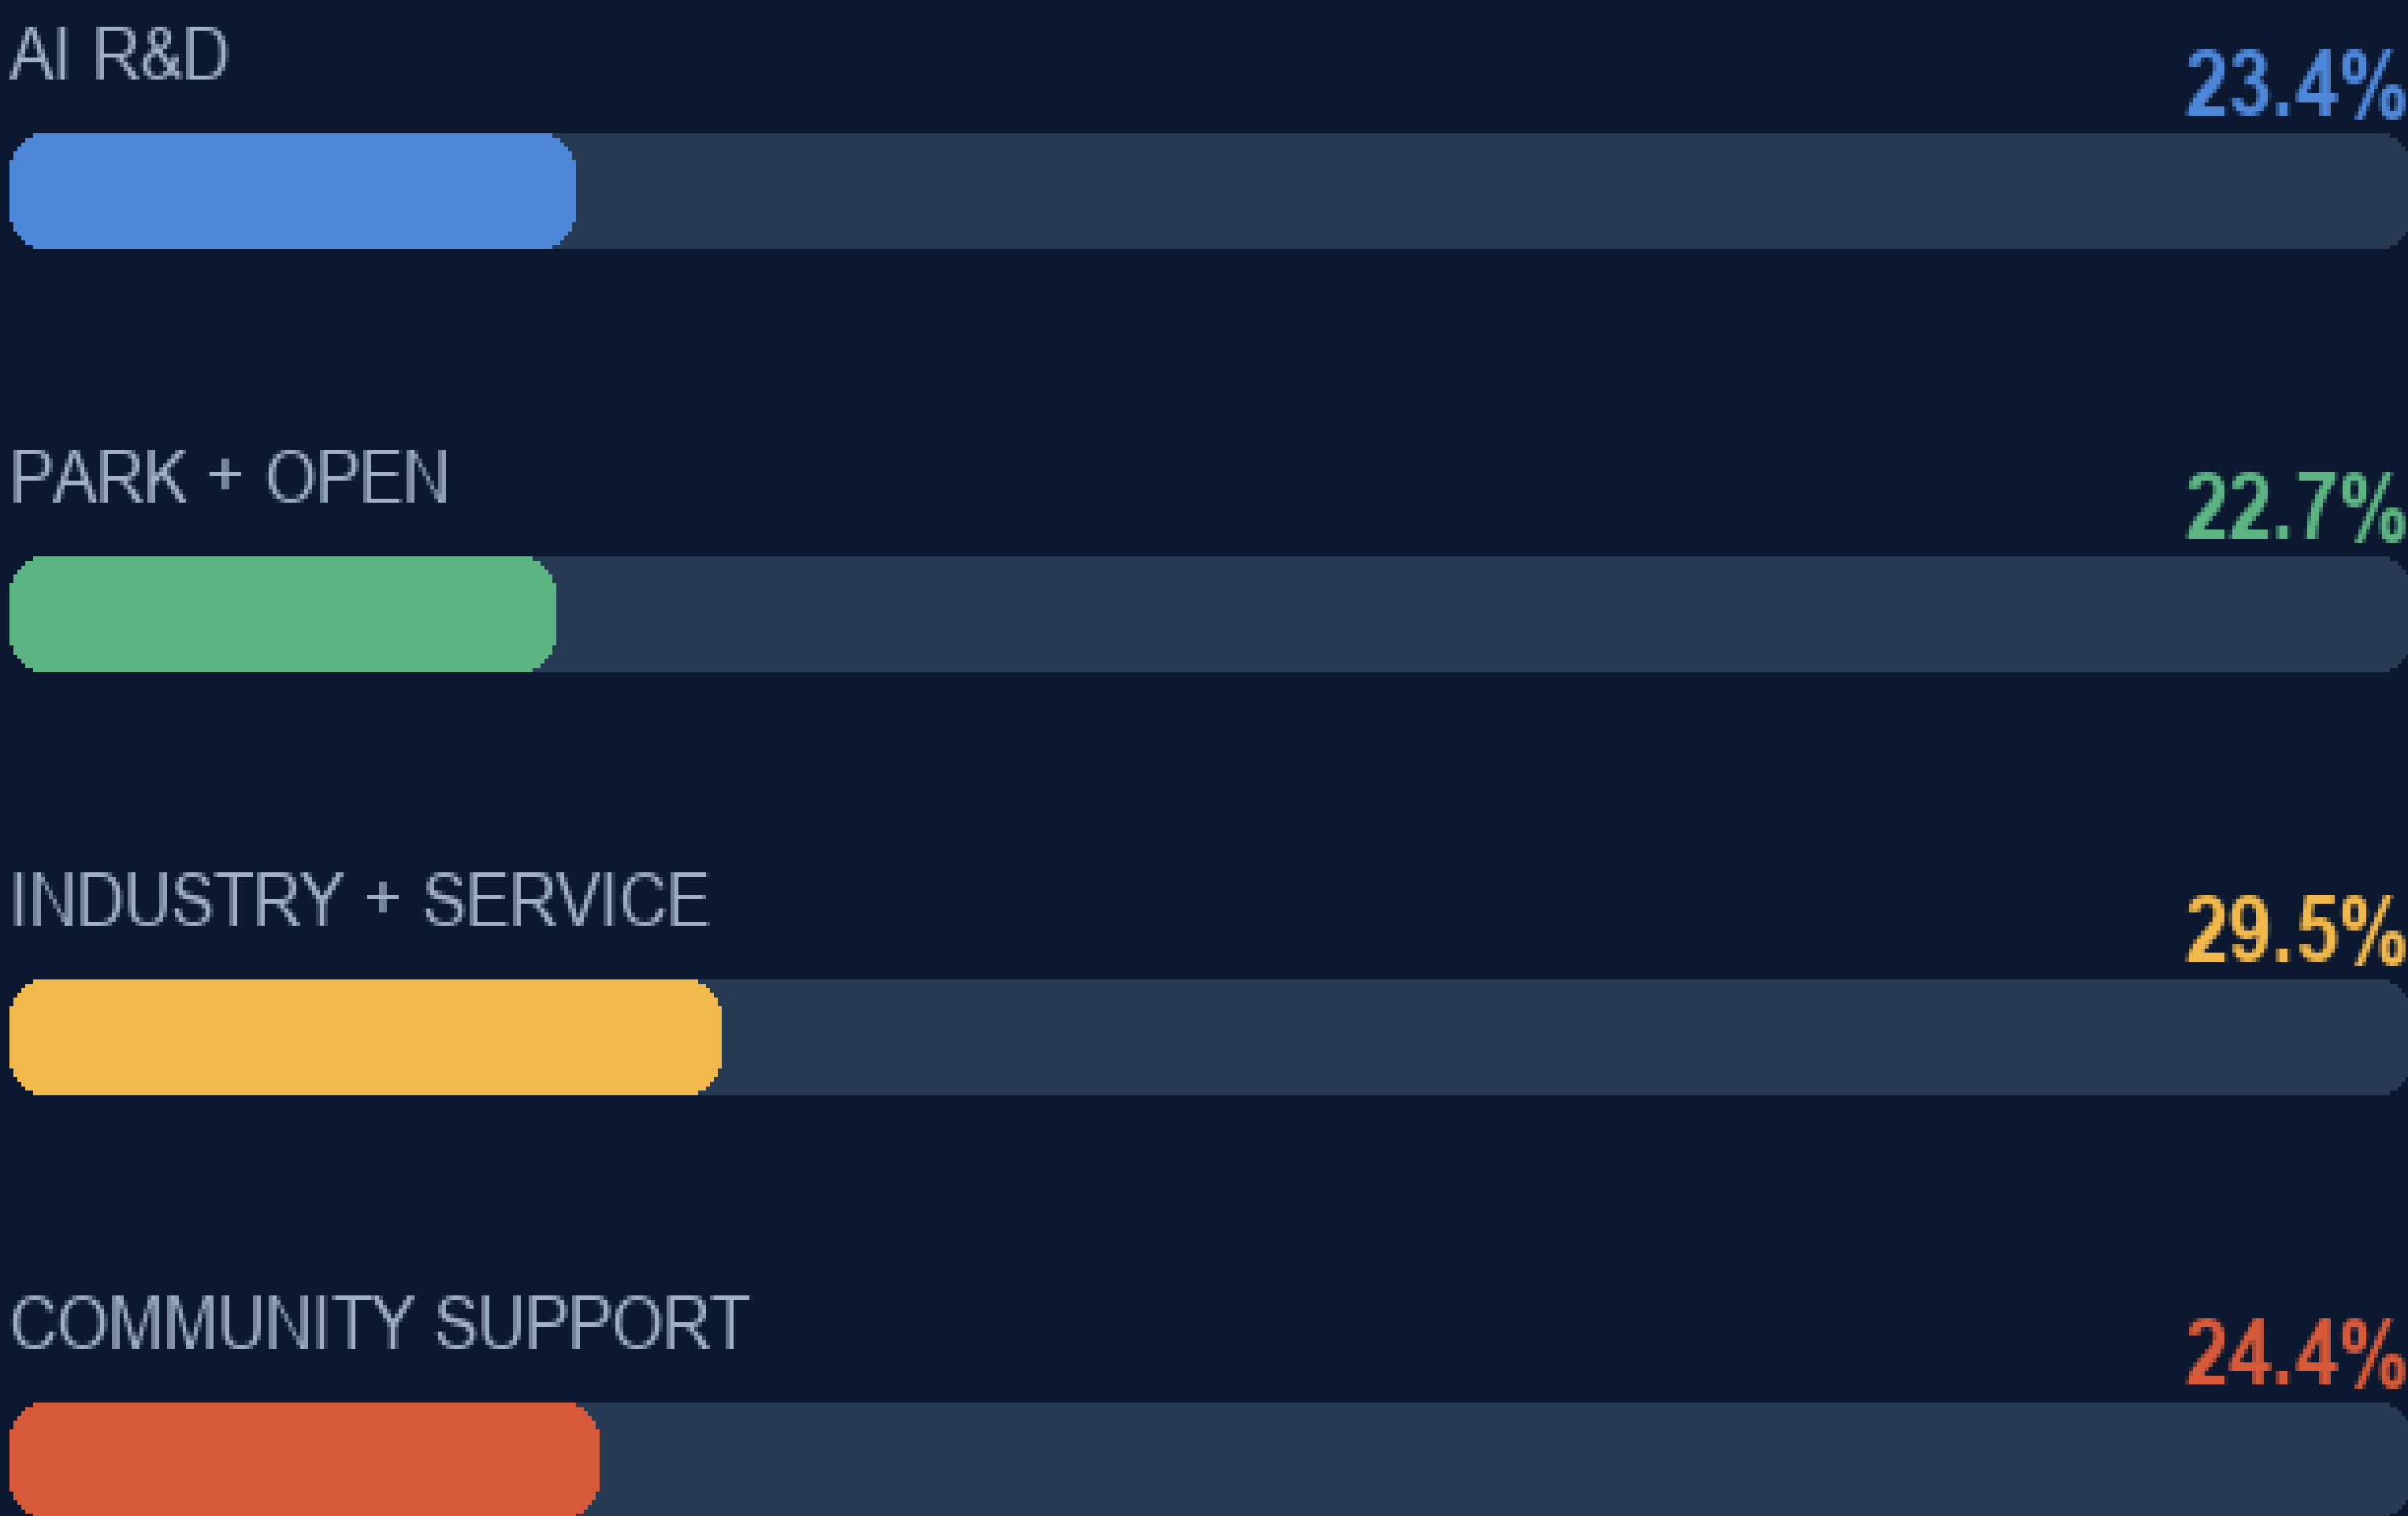

STOP IF
no ordinary route · no named owner · no appeal · no exit

LAND IS THE PLATFORM FOR PUBLIC CAPABILITY

Land use, ground-floor interfaces, existing buildings and reversible modules support the ordinary mainline; AI trials remain removable sidings

SPATIAL SHARES / SUBMITTED LAYERS

ORDINARY MAINLINE

WALK + ACCESS

SHADE + REST

PAPER + STAFF

SAFETY + CARE

AI TEST SIDING

3M MOCK-UP → TIMED → STOPPABLE → REMOVABLE

FAILURE RETURNS TO ORDINARY SERVICE

THREE SITES, THREE DIFFERENT TESTS

Real orientation, a 3 m mock-up, measurable acceptance, named handover

Zhongzhiyuan

Can it be trusted?

- Garden calibration loop
- 3 m accessible mock-up
- weather + drainage + privacy
- **stop: bypass or takeover fails**

Orientation only · provisional site polygon

Beijing AI Origin

Can it be explained?

- Civic works platform
- paper + human + digital desk
- noise + accessibility + rights
- **stop: owner or appeal absent**

Orientation only · provisional site polygon

Dazhongsi

Can it enter daily life?

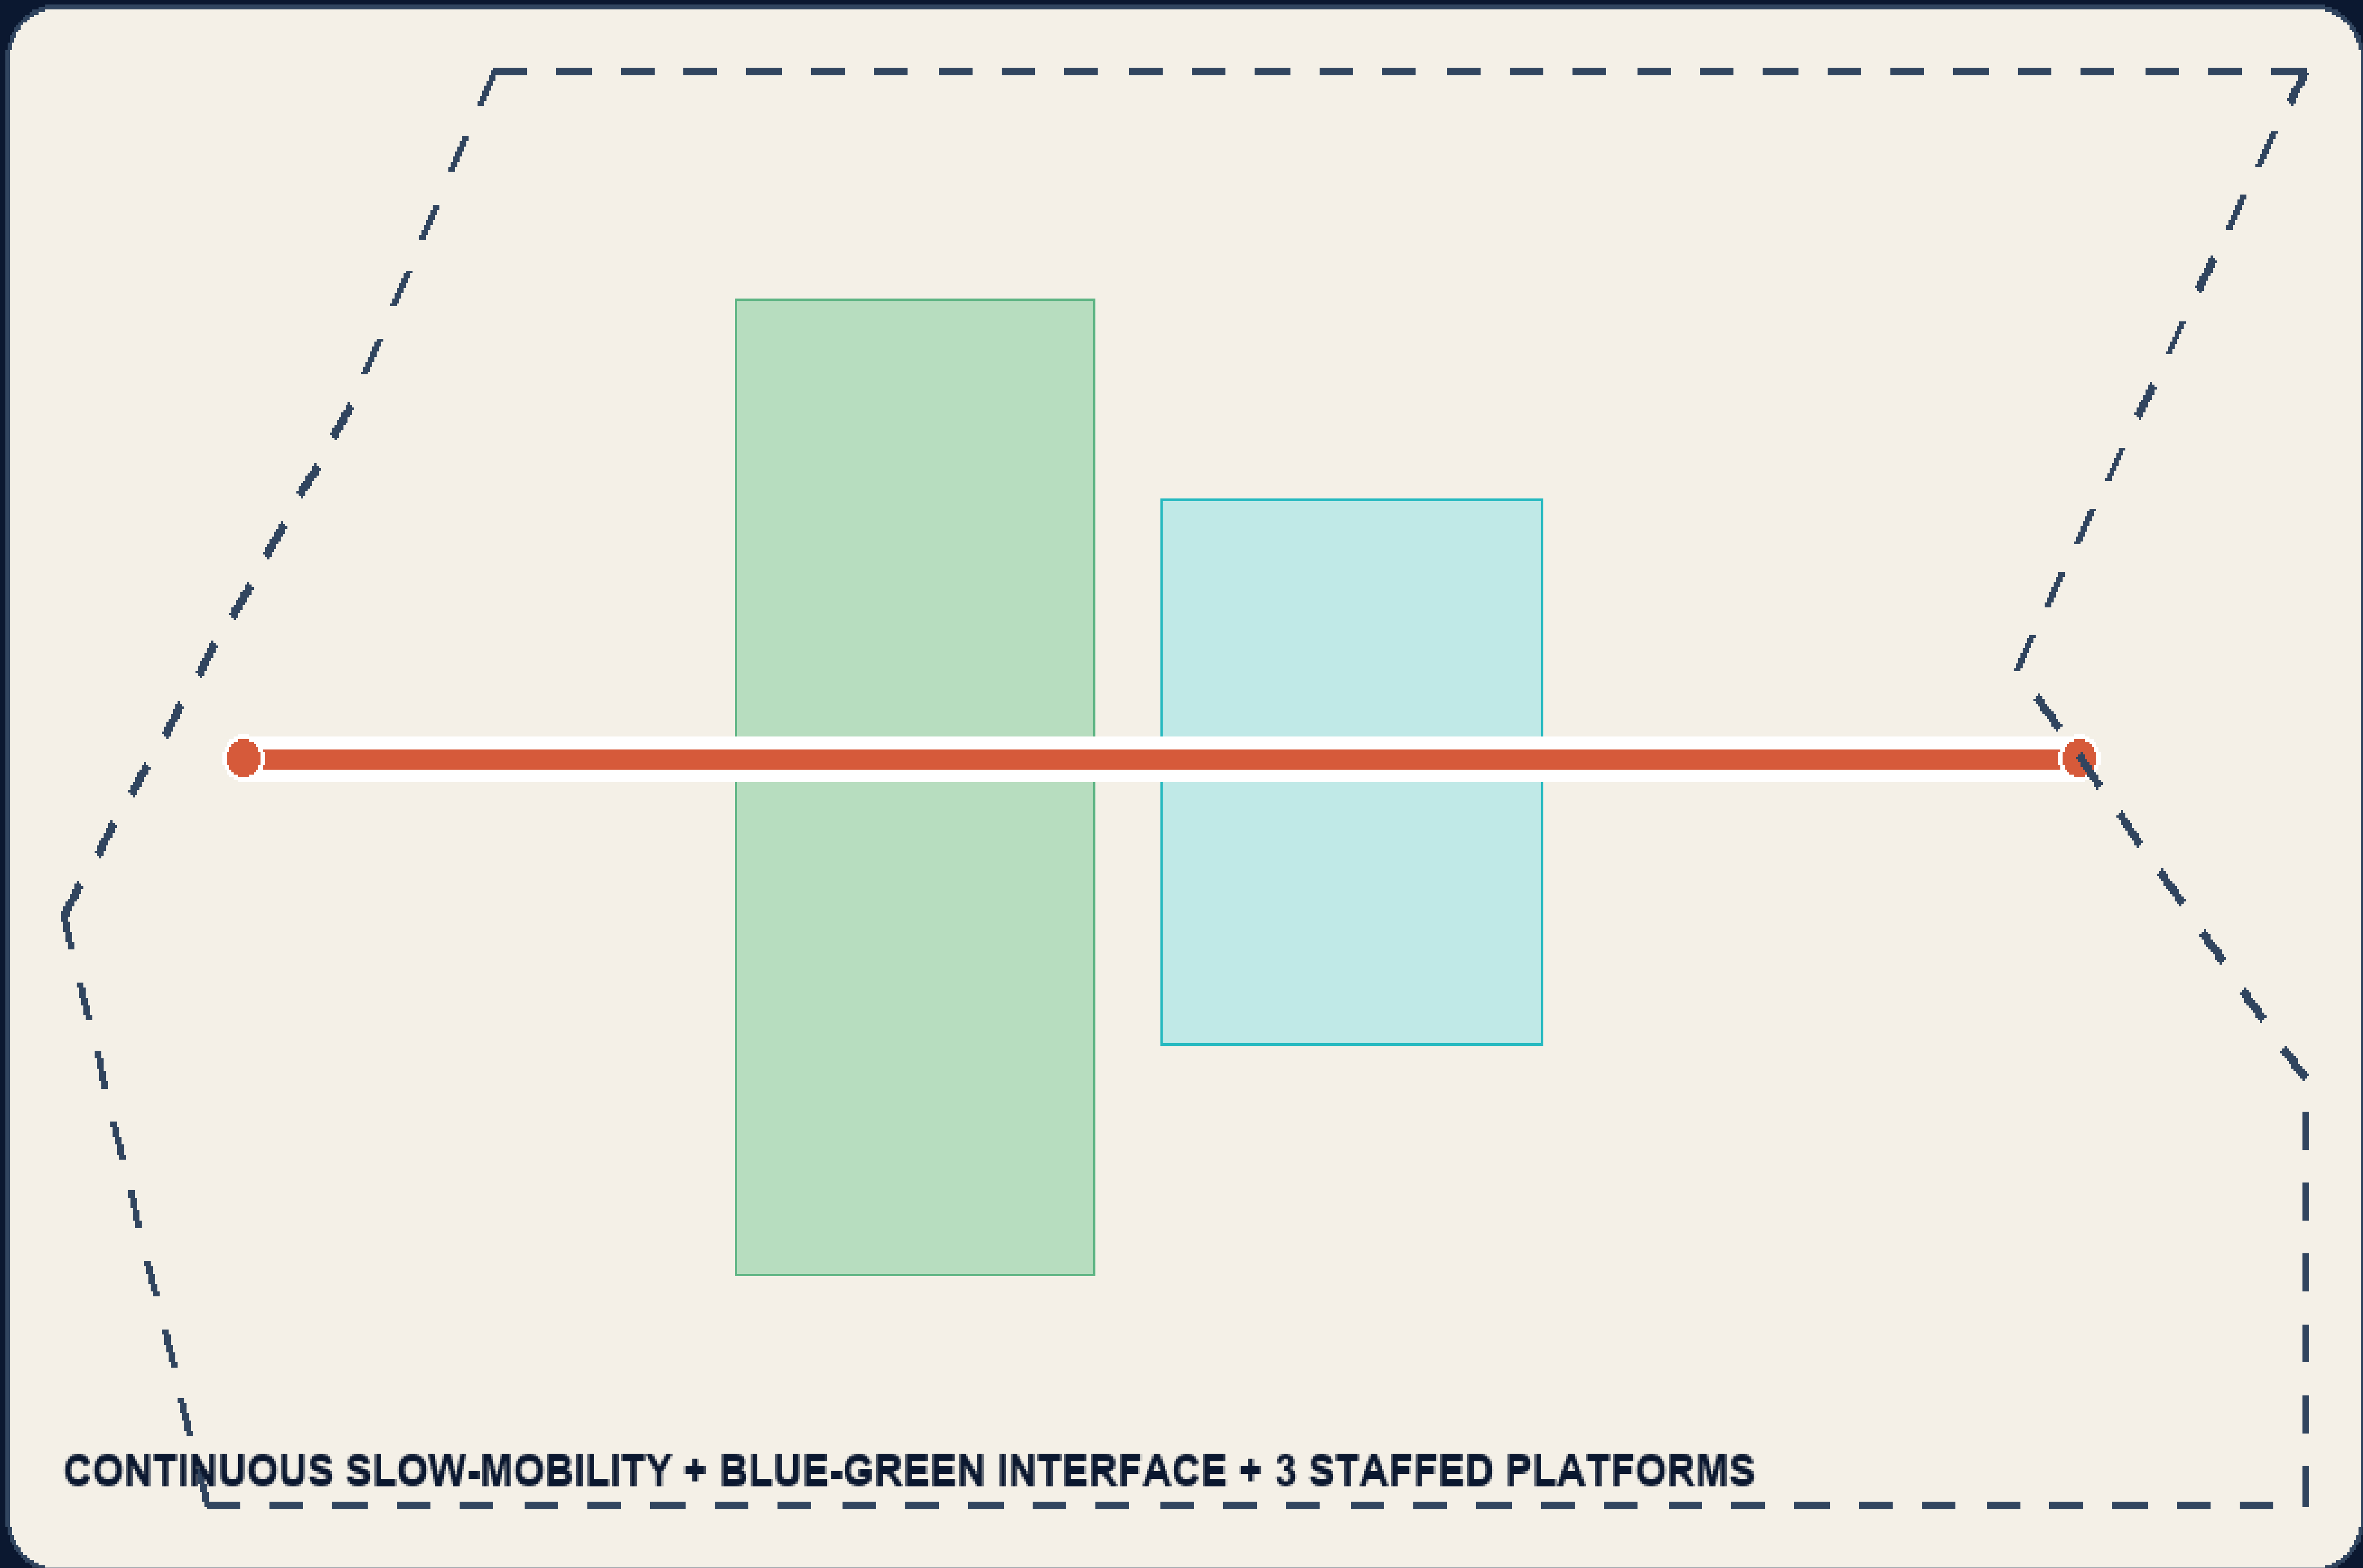

- Echo exchange station
- service fallback + memory wall
- crowd + fire + rain + complaint
- **stop: recovery drill fails**

Orientation only · provisional site polygon

THE ORDINARY ROUTE NEVER STOPS

Walking, accessibility, blue-green space and staffed service form a 90-minute baseline; AI assists only at bounded nodes

FOUR OPERATING STATES

- 01** / **ORDINARY**
Walk, access, static wayfinding, staffed help
- 02** / **PILOT**
Timed, staffed, low-speed, minimum data
- 03** / **TAKEOVER**
Human priority; pause state visible
- 04** / **EXIT**
Shut down, remove, restore ordinary service

3.0m
WALK CLEAR

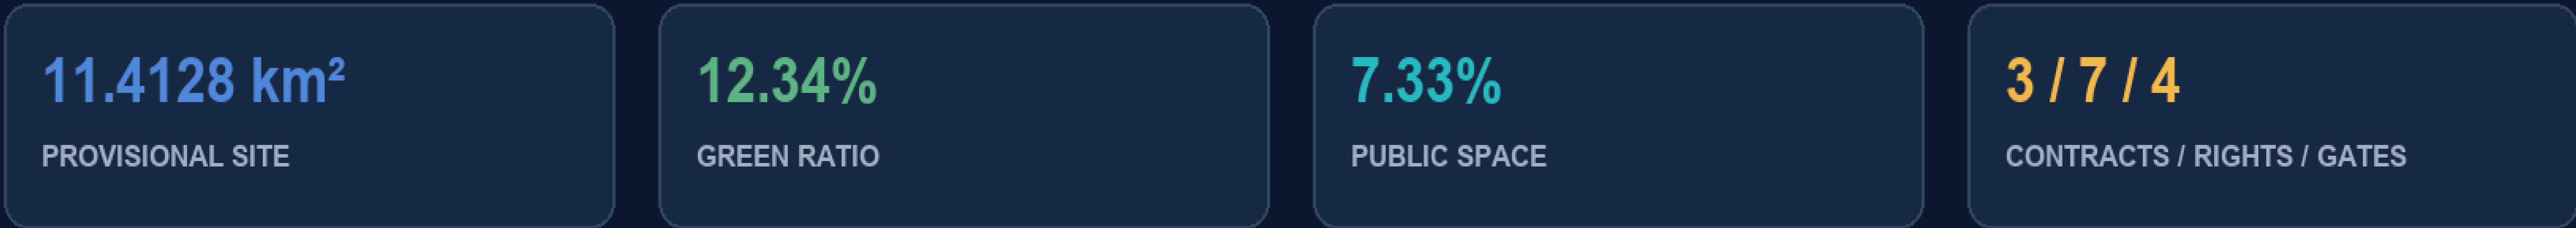

1.8m
ACCESS PASS

0 DATA
NO-COLLECT BYPASS

< 5 min
TAKEOVER TARGET

FROM CLAIM TO EXIT: ONE AUDITABLE HANDOVER

Metrics prove spatial consistency; contracts assign work; rights enable refusal; gates define when to stop

REPLAYABLE EVIDENCE CHAIN

SEVEN PUBLIC RIGHTS = SEVEN SPATIAL RULES

- 1

No-device participation

Staffed, paper or no-device equivalent
- 2

Anonymous proposal

Staffed, paper or no-device equivalent
- 3

Data exit

Staffed, paper or no-device equivalent
- 4

Human review

Staffed, paper or no-device equivalent
- 5

Task-status information

Staffed, paper or no-device equivalent
- 6

Result appeal

Staffed, paper or no-device equivalent
- 7

Accessibility and minimum-open standard

Staffed, paper or no-device equivalent

FOUR REVERSIBLE GATES

- G0

DATA LOCK

Survey, ownership, utilities, heritage and data audit
- G1

3M MOCK-UP

Power-off, light, sound, access and human fallback
- G2

NODE PILOT

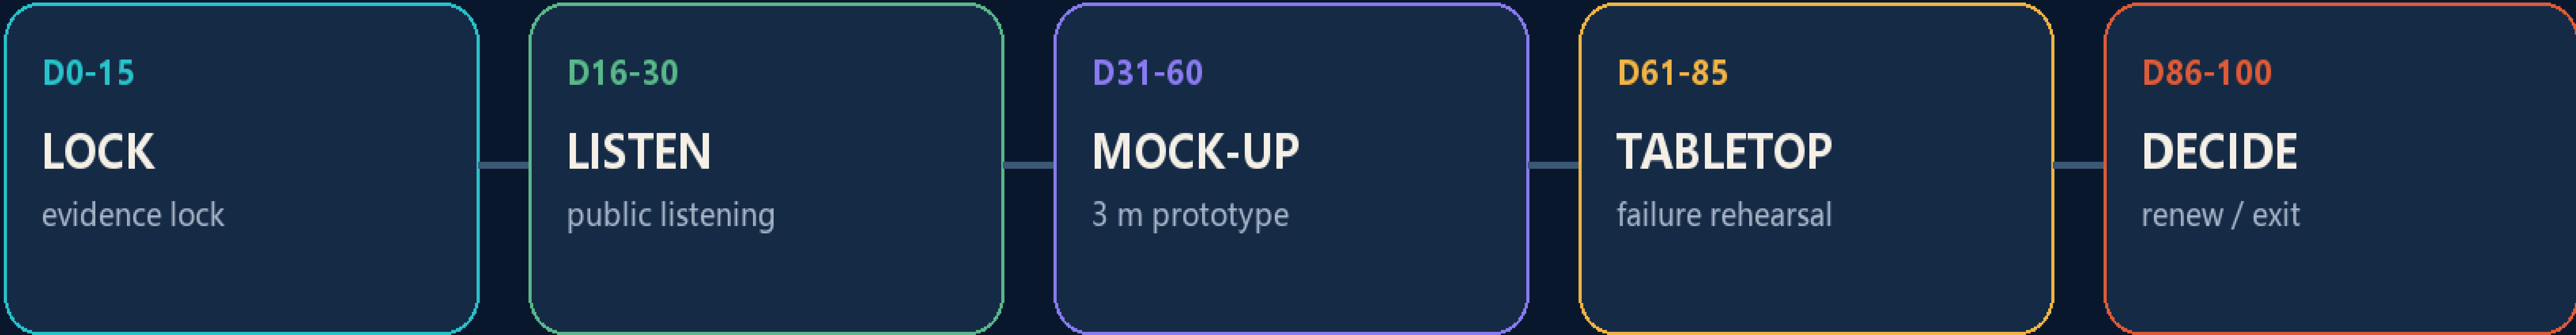

Publish work orders; missing condition triggers rollback
- G3

RENEW OR EXIT

Public value, safety and maintenance decide continuation
- STOP → HUMAN TAKEOVER → ORDINARY SERVICE

FIRST 100 DAYS + RACI

Start with evidence and a 3 m mock-up, not permanent construction

WORK PACKAGE	Planning	Site operator	University	Community	Safety / rights	OUTPUT
Boundary + ownership	A	R	C	I	C	evidence lock
Ordinary route	A	R	C	C	C	continuous path
AI service contract	A	C	R	C	C	service card
Accessibility test	C	R	C	A	R	failure receipt
Data + appeal	A	R	C	C	R	rights ledger
Annual takeover drill	C	A	C	R	R	renew / exit vote

A accountable · R responsible · C consulted · I informed

SEVEN RIGHTS ARE THE ACCEPTANCE TEST

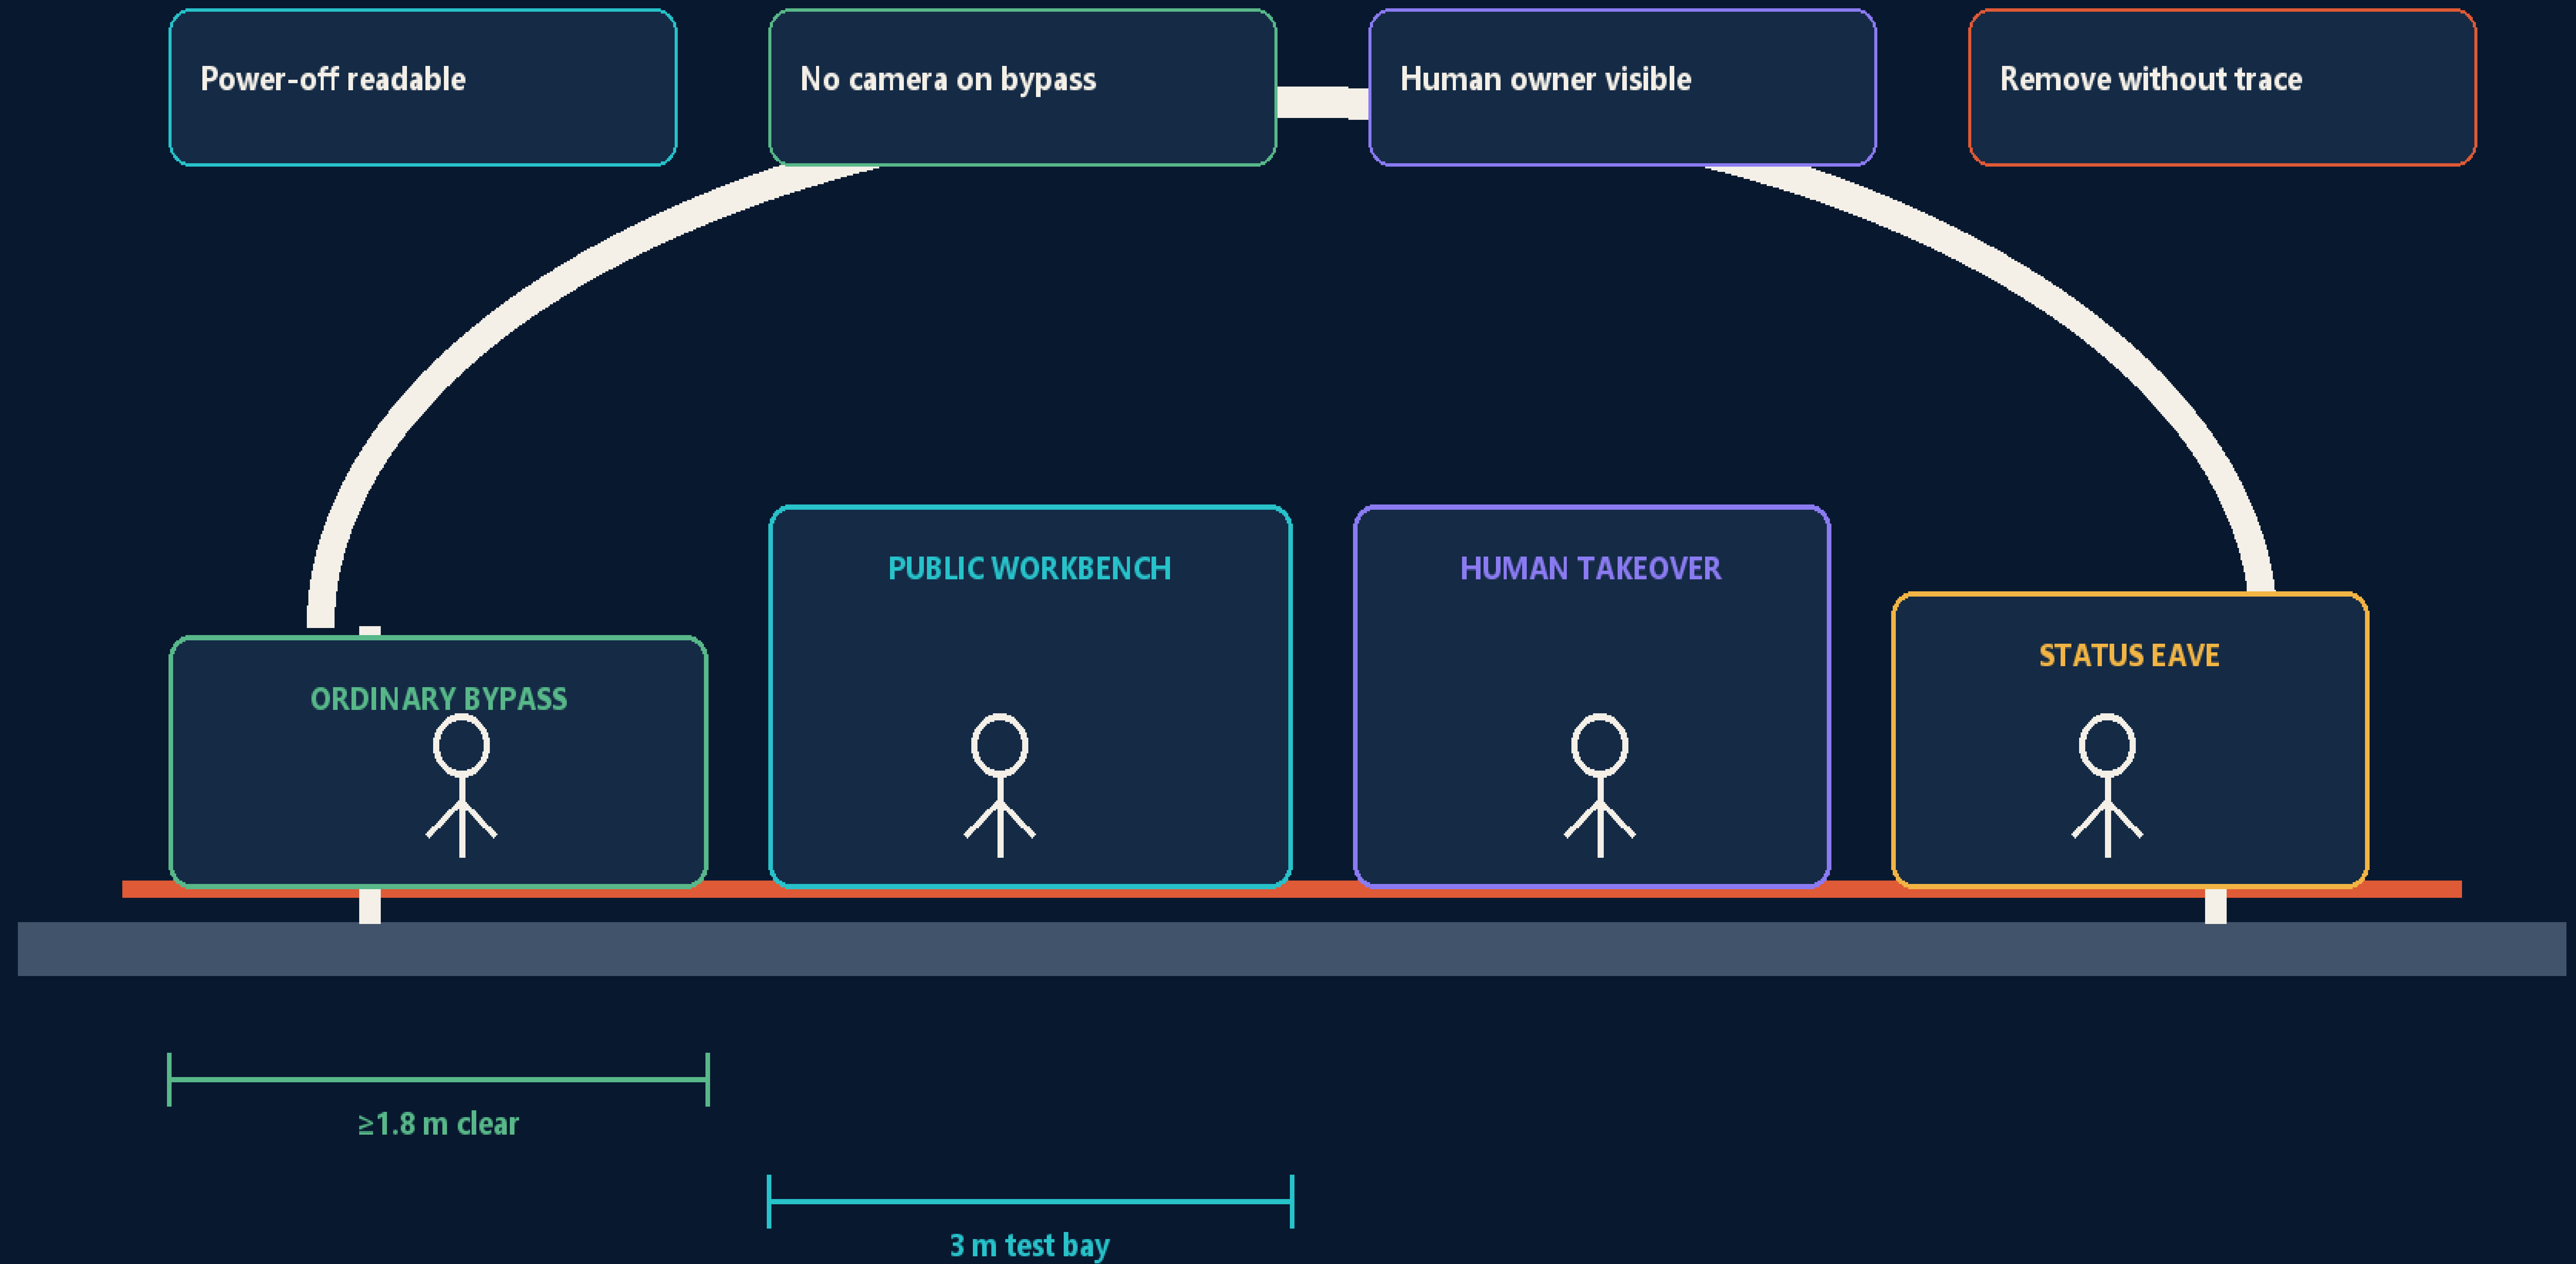

If one right is absent, the pilot cannot pass G2

	Families	Mobility-impaired	Students & faculty	Developers	Maintainers	Visitors
No-device access	PASS	PASS	PASS	PASS	PASS	PASS
Anonymous question	PASS	PASS	PASS	PASS	PASS	PASS
Data withdrawal	PASS	PASS	PASS	PASS	PASS	PASS
Human review	PASS	PASS	PASS	PASS	PASS	PASS
Status notice	PASS	PASS	PASS	PASS	PASS	PASS
Appeal	PASS	PASS	PASS	PASS	PASS	PASS
Accessible baseline	PASS	PASS	PASS	PASS	PASS	PASS

G2 RELEASE RULE ordinary route + named human owner + appeal + accessible recovery + dated exit

3 M INFORMATION PLATFORM MOCK-UP

A reversible section for shade, access, human takeover and public evidence

THREE INDUSTRY TEST CONTRACTS

Health, education and commerce share one public release protocol

HEALTH

- 1 QUESTION
- 2 LIMIT
- 3 PROTOTYPE
- 4 HUMAN
- 5 PUBLIC CHECK
- 6 EXIT

HARD TESTS

- triage explanation
- minimal data
- clinician takeover
- misdirection drill

EDUCATION

- 1 QUESTION
- 2 LIMIT
- 3 PROTOTYPE
- 4 HUMAN
- 5 PUBLIC CHECK
- 6 EXIT

HARD TESTS

- teacher-defined task
- minor protection
- teacher takeover
- bias drill

COMMERCE

- 1 QUESTION
- 2 LIMIT
- 3 PROTOTYPE
- 4 HUMAN
- 5 PUBLIC CHECK
- 6 EXIT

HARD TESTS

- recommendation basis
- no dark pattern
- human complaint
- withdrawal drill
