

THE CITY MOVES ONLY WHEN FIVE LOCKS ALIGN

Three real anchors become three independent interlocking yards

T1 / TSINGHUA YUAN

Parallel Heritage Platform

116.331760, 39.991510

24×12 m | clear 2.4 m

ordinary line always open

T2 / LINE 15 ARRIVAL

Braided Knowledge Crossing

116.339530, 40.000673

30×15 m | clear 2.2 m

ordinary line always open

T3 / DAZHONGSI

One-Queue Transfer Fan

116.345139, 39.966612

32×18 m | clear 2.4 m

ordinary line always open

FIVE PHYSICAL-PUBLIC LOCKS

L1

Public baseline

LOCKED

L2

Named human

LOCKED

L3

Rights and scope

LOCKED

L4

Legible evidence

LOCKED

L5

Recovery ready

LOCKED

FOUR ROOTS ENTER; ONLY ONE PASSES THE HARD GATES

Selection is traceable; a proxy score never replaces design review

R4 / CIVIC INTERLOCKING YARDS

Only root with continuous ordinary service, visible human responsibility, reversible AI area and $\leq 25\%$ flow-conflict proxy.

THREE SITES, THREE BUILDABLE RELATIONSHIPS

Same five locks; different plan topology, dimensions and public task

T1 / Parallel Heritage Platform

prototype 24×12 m

clear width	2.4 m
turning circle	Ø 1.5 m
agent bays	2 × 3×3 m
summer shade proxy	67%
winter unshadowed	81%

design proxy, field verification at G0

T2 / Braided Knowledge Crossing

prototype 30×15 m

clear width	2.2 m
turning circle	Ø 1.5 m
agent bays	2 × 3×4.5 m
summer shade proxy	73%
winter unshadowed	78%

design proxy, field verification at G0

T3 / One-Queue Transfer Fan

prototype 32×18 m

clear width	2.4 m
turning circle	Ø 1.5 m
agent bays	2 × 3×6 m
summer shade proxy	70%
winter unshadowed	75%

design proxy, field verification at G0

THE ORDINARY LINE STAYS GREEN

Accessibility geometry, shade proxy and human takeover are evaluated before AI release

INTERLOCKED RELEASE SEQUENCE

NO RELEASE If any lock is absent, AI remains invisible and the same task continues through H.

FORTY-EIGHT TRIALS; FAILURE IS A DESIGNED OUTPUT

Twelve city scenarios × four fixtures create hash-addressed route cards

48

trials

12

release shadow

Synthetic fixtures test the design contract; they are not field outcomes or safety certification.

FIRST 100 DAYS + RACI

Start with evidence and a 3 m mock-up, not permanent construction

WORK PACKAGE	Planning	Site operator	University	Community	Safety / rights	OUTPUT
Boundary + ownership	A	R	C	I	C	evidence lock
Ordinary route	A	R	C	C	C	continuous path
AI service contract	A	C	R	C	C	service card
Accessibility test	C	R	C	A	R	failure receipt
Data + appeal	A	R	C	C	R	rights ledger
Annual takeover drill	C	A	C	R	R	renew / exit vote

A accountable · R responsible · C consulted · I informed

SEVEN RIGHTS ARE THE ACCEPTANCE TEST

If one right is absent, the pilot cannot pass G2

	Families	Mobility-impaired	Students & faculty	Developers	Maintainers	Visitors
No-device access	PASS	PASS	PASS	PASS	PASS	PASS
Anonymous question	PASS	PASS	PASS	PASS	PASS	PASS
Data withdrawal	PASS	PASS	PASS	PASS	PASS	PASS
Human review	PASS	PASS	PASS	PASS	PASS	PASS
Status notice	PASS	PASS	PASS	PASS	PASS	PASS
Appeal	PASS	PASS	PASS	PASS	PASS	PASS
Accessible baseline	PASS	PASS	PASS	PASS	PASS	PASS

G2 RELEASE RULE ordinary route + named human owner + appeal + accessible recovery + dated exit

3 M INFORMATION PLATFORM MOCK-UP

A reversible section for shade, access, human takeover and public evidence

THREE INDUSTRY TEST CONTRACTS

Health, education and commerce share one public release protocol

HEALTH

- 1 QUESTION
- 2 LIMIT
- 3 PROTOTYPE
- 4 HUMAN
- 5 PUBLIC CHECK
- 6 EXIT

HARD TESTS

- triage explanation
- minimal data
- clinician takeover
- misdirection drill

EDUCATION

- 1 QUESTION
- 2 LIMIT
- 3 PROTOTYPE
- 4 HUMAN
- 5 PUBLIC CHECK
- 6 EXIT

HARD TESTS

- teacher-defined task
- minor protection
- teacher takeover
- bias drill

COMMERCE

- 1 QUESTION
- 2 LIMIT
- 3 PROTOTYPE
- 4 HUMAN
- 5 PUBLIC CHECK
- 6 EXIT

HARD TESTS

- recommendation basis
- no dark pattern
- human complaint
- withdrawal drill
