

EVOLUTIONARY CITY

Jingzhang Test City: Let Life Test the Plan

Centennial Jingzhang AI Innovation Belt / S03 Chengfu - Wudaokou - Old Tsinghuayuan Station

VARIATION / TESTING / SELECTION / RETENTION / ADAPTATION / NEXT GENERATION

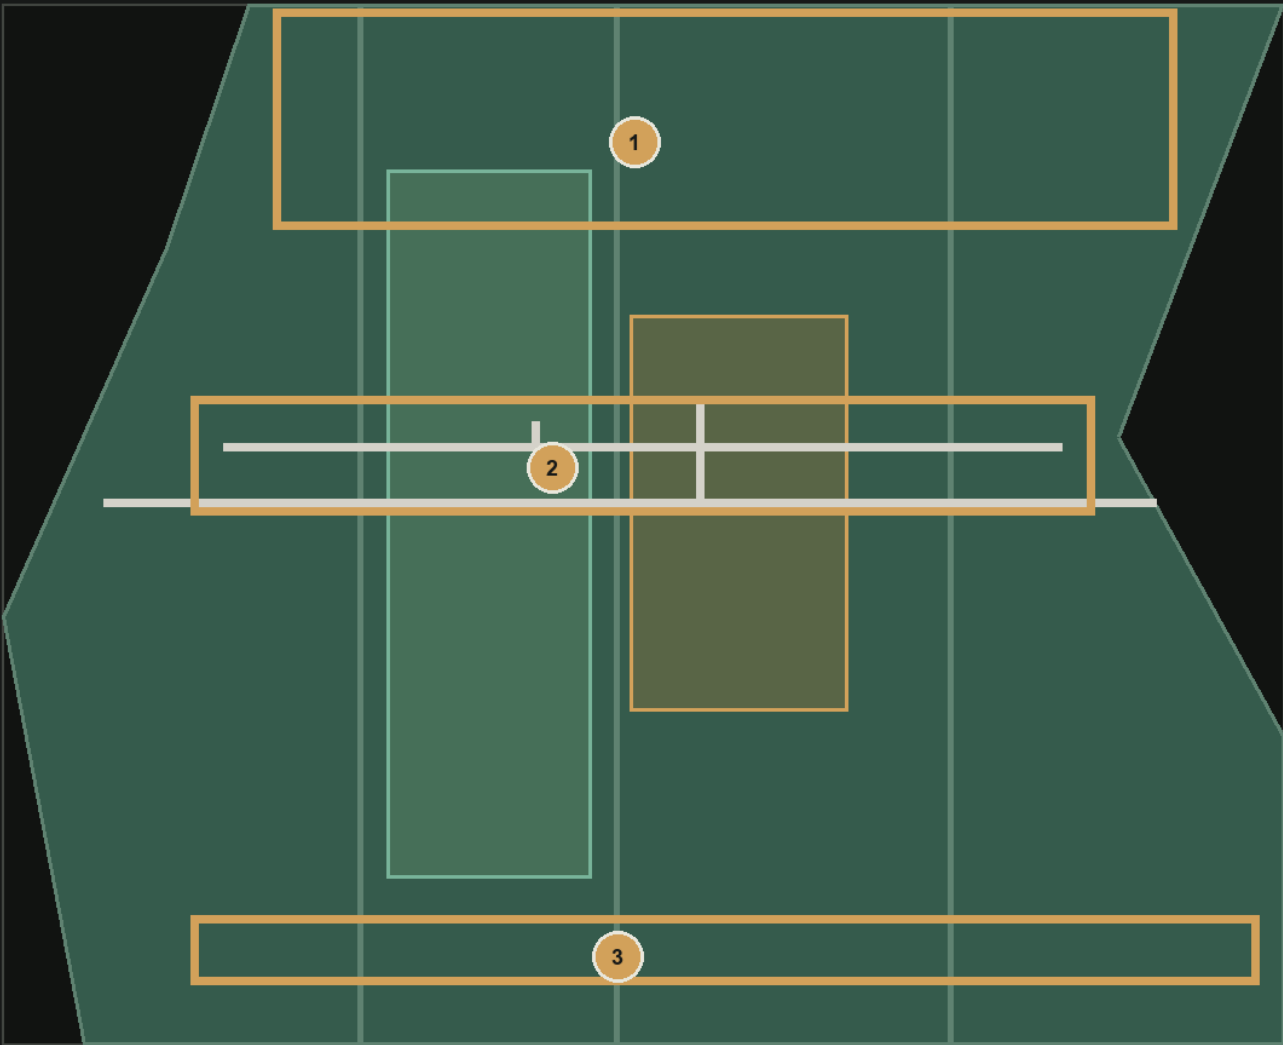

EVIDENCE + THREE SCOPES

URBAN GENOME OBSERVATORY / EVOLUTIONARY CITY

FIGURE 01 / S03

Site Overview: Three Scopes and the Jingzhang Evolutionary Spine

From a 43.6 km² research area to an 11.4 km² design area, 368.4 ha of key areas and one complete S03 urban species.

DESIGN INTENT / NOT AN EXISTING PHOTOGRAPH

Image generation communicates material, light and public-space character only

coordinated research	43.6 km²	overall design	11.4 km²
three key areas	368.4 ha	complete evolution specimen	S03

Provisional boundary has no statutory effect

Conceptual data / provisional geometry / not a statutory redline

OPEN CITY AI SUBMISSION / LOCAL REVIEW

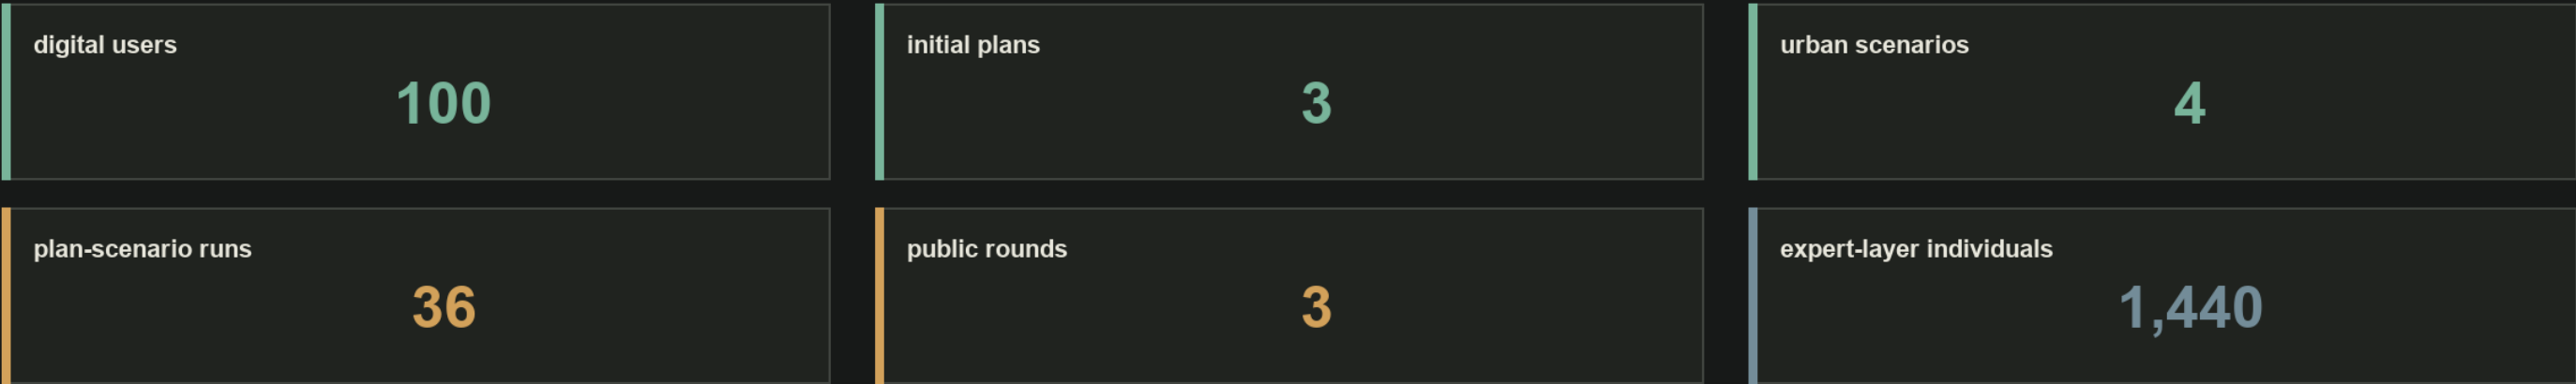

100 DIGITAL USERS

URBAN GENOME OBSERVATORY / EVOLUTIONARY CITY

FIGURE 05 / S03

100 Digital Users: Parallel Evidence, No Single Fitness

Routes derive from the real public network. Crowding, gates, slope and feedback remain proxies or unknown when evidence is missing.

VERIFIED supports direct claim	BACKGROUND relational reference	PROVISIONAL reversible tests only	UNKNOWN remain null with impact
--	---	---	---

Conceptual data / provisional geometry / not a statutory redline

OPEN CITY AI SUBMISSION / LOCAL REVIEW

A / B / C PARENT PLANS

URBAN GENOME OBSERVATORY / EVOLUTIONARY CITY

FIGURE 02 / S03

Three Parents: One Real City, Three Spatial Attempts

A Direct Links, B Public Life and C Time Sharing run on the same real S03 base. They are first-round parents, not final plans.

Conceptual data / provisional geometry / not a statutory redline

OPEN CITY AI SUBMISSION / LOCAL REVIEW

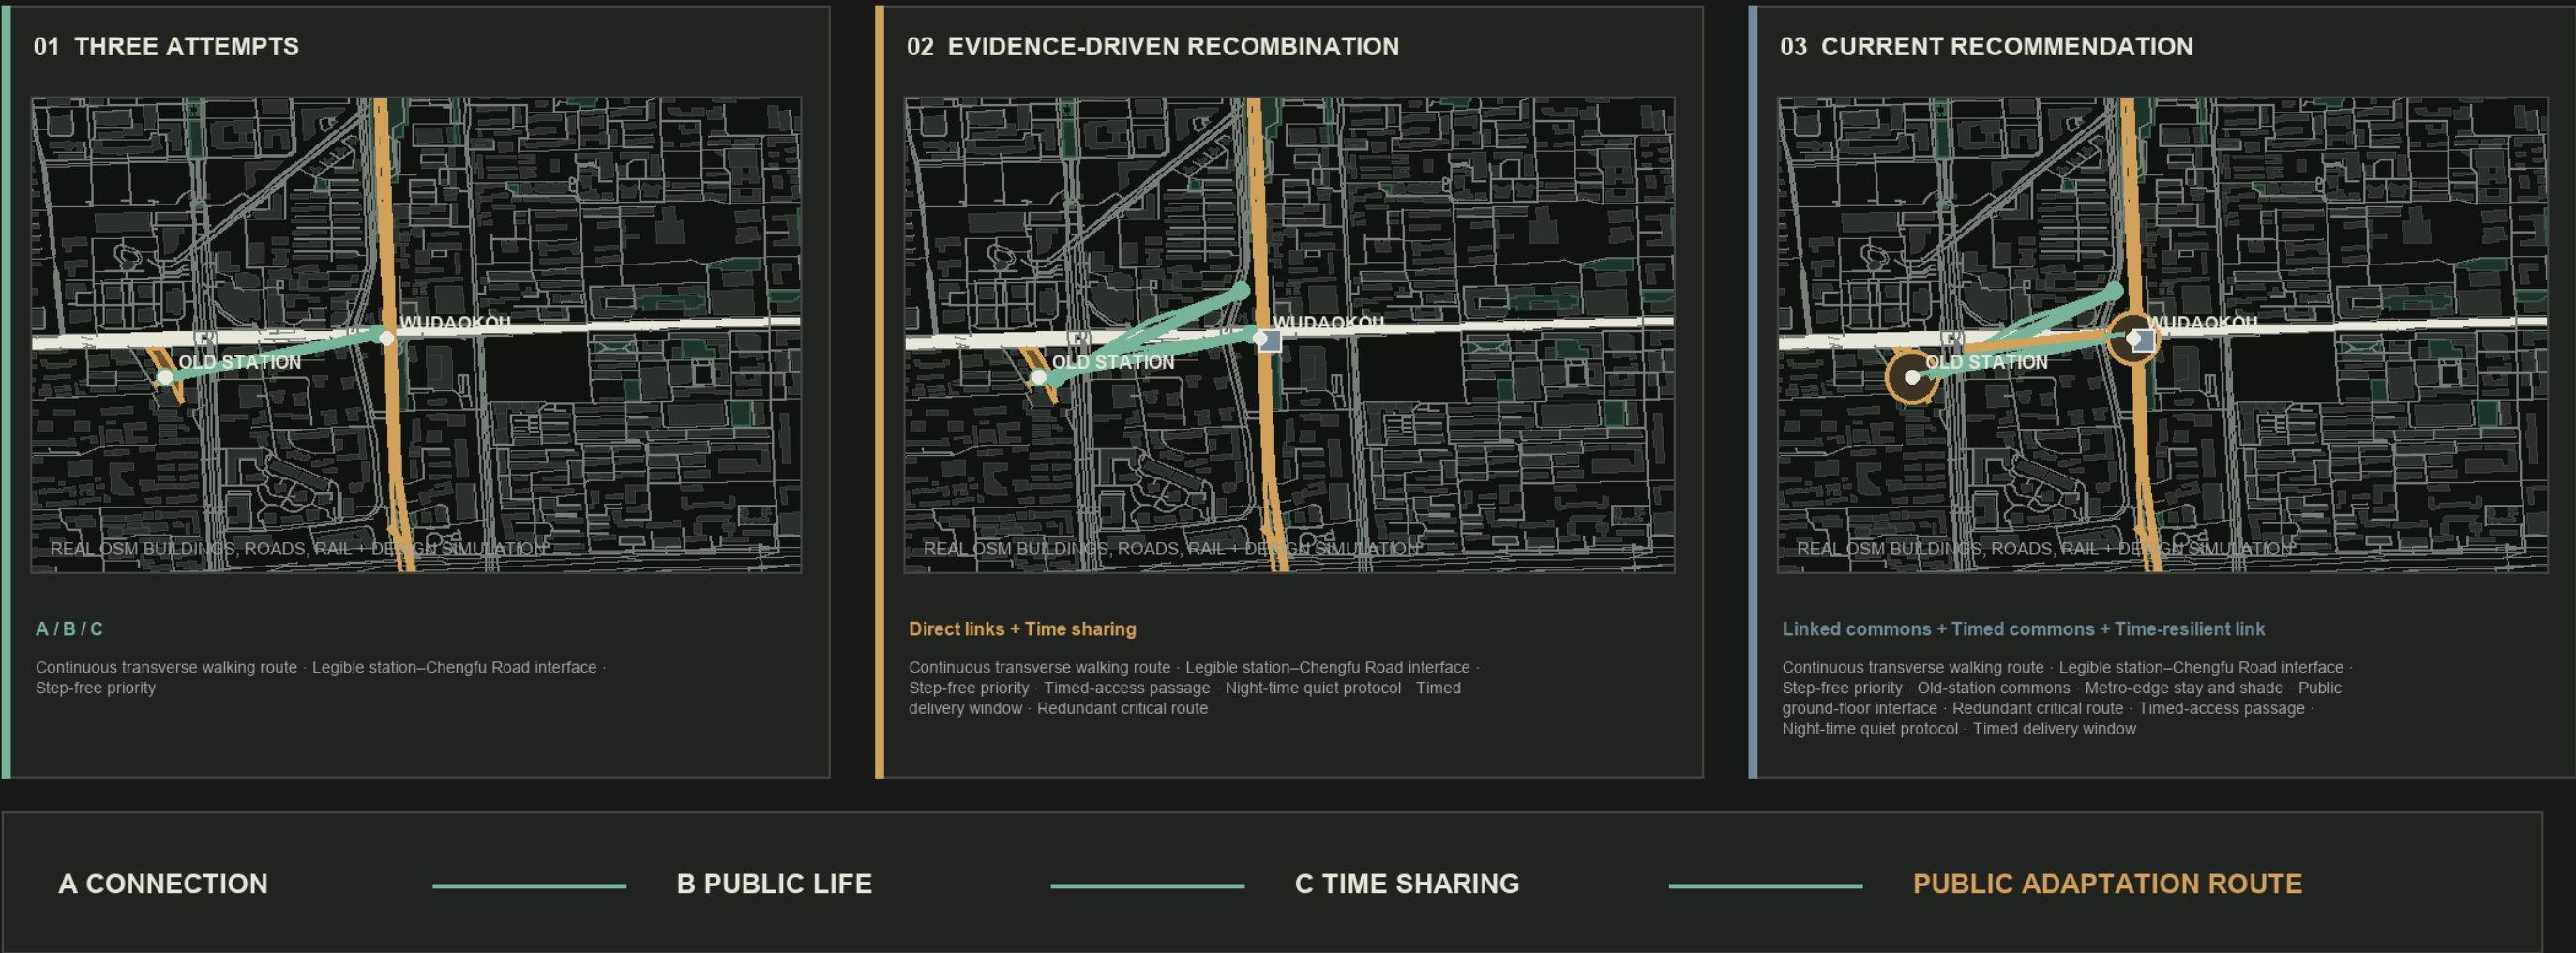

THREE PUBLIC ROUNDS

URBAN GENOME OBSERVATORY / EVOLUTIONARY CITY

FIGURE 03 / S03

Three Urban Rounds: Expose, Recombine, Recommend

One hundred digital users test every plan across four scenarios. Spatial strategies exit; people never do.

MOBILITY + BLUE-GREEN

URBAN GENOME OBSERVATORY / EVOLUTIONARY CITY

FIGURE 04 / S03

R3 Public Adaptation Route: One Plan, Three Nodes, One Relational Section

The real S03 base carries six spatial objects. Gates, redlines, slopes and exact widths remain unknown rather than becoming false precision.

01 Old-station commons

heritage_visibility / dwell / quiet_after_20
unknown: verified_entrance / fire_access

02 Wudaokou adaptive interface

transfer / shade / timed_curb
unknown: station_clearance / kerb_geometry

03 Chengfu ground-floor interface

conditional_opening / offline_service / delivery_window
unknown: ownership / door_positions

TYPICAL TRANSVERSE / RELATIONAL SECTION

North ground-floor interface MEDIUM unknown: verified_road_redline / sidewalk_width / cycle_width / ground_floor_setback / gate_position	Continuous walking and step-free edge FAST	Chengfu Road movement SLOW	Cycling, stay and shade FAST	Jingzhang heritage-park portal SLOW

TASKBOOK MATRIX

POSITIONING—FUNCTION—AREA—EVOLUTION

CENTENNIAL CULTURE	AI governance discourse	public knowledge from history and audit
METROPOLITAN AI LIFE	scenario empowerment	test daily-life service genes
METROPOLITAN AI LIFE	vibrant AI city	test reversible urban operations
AI INTEGRATED INNOVATION	full-stack autonomy	connect research to validation
AI INTEGRATED INNOVATION	world-class ecosystem	connect research, service and life

Three areas provide testing niches; two wings provide service and scenario support. This is not statutory zoning.

GLOBAL CASES

SIX GLOBAL CASES: MECHANISM, CONDITION, NON-TRANSFER

Kendall Square Walkable research, innovation, housing, active ground floors and public space NOT COPIED: density, company list or zoning	one-north Research, startups, education, living and prototype testing across multiple precincts NOT COPIED: estate powers, company counts or investment
22@ Barcelona Industrial renewal coordinates innovation, public space, housing, transport and culture NOT COPIED: land regime or building controls	Maria 01 Heritage reuse with an explicit operator and long-term startup-community services NOT COPIED: closed campus or tenancy selection
STATION F Transport heritage combines startup programs, mentoring, events and living support NOT COPIED: megacampus, investment or company programs	MaRS An operator links ventures, public partners, adoption and social impact NOT COPIED: finance, employment or performance figures

SCENARIOS / PERSONAS / TESTS

TEN SCENARIOS, FIVE PERSONAS, THREE INDUSTRY TESTS

SC01 Walking-break diagnosis station—Chengfu—old station exit on emergency or accessible-path conflict	SC02 Reversible public-space prototype station edge and old-station forecourt adjust after failure or rights conflict	SC03 University-enterprise translation room conditional Origin ground floor dormant if ground floor is unavailable	SC04 Open-source release and model evaluation Zhongzhiyuan and Origin Community exit on unlawful data provenance	SC05 Urban-problem workshop three key-area interfaces never present individual input as consensus
SC06 Railway time guide old station—park—transport nodes remove unclear facts or rights	SC07 Talent daily-service navigation stations, communities and service ground floors exit if an app becomes the only channel	SC08 Accessibility and offline service entire public route exit on blockage without an alternative	SC09 Evening quiet and activity review old station and residential edge shorten or exit after repeated conflict	SC10 Evidence and maintenance audit route facilities and public space freeze after evidence drift or maintenance failure

PERSONAS: researcher / developer / startup / household / resident + older user

INDUSTRY TESTS: research sharing / hybrid service / right-of-way conflict

LANDMARKS / COMPONENTS / SIGNAGE

LANDMARKS, HONOR SYSTEM, COMPONENTS AND WAYFINDING

LM01 Old station — autonomous engineering origin verified railway history and human curation	LM02 Wudaokou — layered transport generations no inference of unpublished underground works	LM03 Origin Community — open AI collaboration no algorithmic ranking of people, communities or firms
removable wayfinding remove and restore original paving	modular shade and seating remove or adjust seasonally	cycle-parking module relocate or exit after right-of-way conflict
offline service and readable information update or remove while keeping human service	ground-floor interface marker dormant when access rights lapse	evolution-lineage plaque correct or replace after human review

Honor displays verify contributions, problem-solving and repair; people, communities and firms are never ranked.

IMPLEMENTATION GATES

REAL-WORLD GATES: RESPONSIBILITY, THRESHOLDS AND ROLLBACK

R1 · 0–6 MONTHS	R2 · 6–18 MONTHS	R3 · AFTER 18–36 MONTHS
RESPONSIBLE: lawful pilot lead / planning, heritage, rail, road, fire and access professionals / community liaison and maintainer	RESPONSIBLE: lawful governance body / professionals / operator and maintainer / representative real users and public deliberation	RESPONSIBLE: statutory process / specialist review / public-resource decision / public participation
ENTRY: permissions and every prerequisite passed; no unknown supports an irreversible move	ENTRY: R1 has no hard-constraint incident and evidence explains every retention, adjustment and exit	ENTRY: only after statutory, professional, public and resource decisions separately succeed
ADJUST: same access or maintenance failure in two weekly audits, or fault unresolved for 24 hours	ADJUST: same complaint three times in 30 days, opening unavailable over 2%, or maintenance fails twice	ADJUST: —
EXIT: any legal, heritage, safety, emergency, accessibility or public-rights breach	EXIT: public value worsens, bias cannot be corrected, operator leaves or any hard constraint fails	EXIT: stay dormant if any approval, rights, funding or maintenance condition is absent

SOURCES / RISKS / METRICS

SOURCE TIMELINE, FONT LICENCE AND NON-NEGOTIABLE BOUNDARIES

2026-08-20 Frozen OSM snapshot and official-source access

2026-08-23 Offline story and 90-second film generated

2026-08-26 Review repair, taskbook index and offline CJK subset rebuilt

Noto Sans SC 400/700 glyph subsets are embedded offline under SIL OFL 1.1; no runtime font request is made.

- Provisional geometry is not a statutory redline
- Digital users are not public opinion
- Climate, tenure, fire, entrances and flows stay unknown
- People, communities and firms are never eliminated
- Permanent construction requires statutory and professional process
